fellowship JOSHUA KENDALL, A. M., Principal.

BROOKE HALL FEMALE SEMINARY

Media, Delaware County, Penna.

Miss Maria L. Eastman, Principal.

THIS SEMINARY, SITUATED IN THE delightful and beautiful village of Media, thirteen miles from Philadelphia by Railroad, offers to young ladies the most perfect combination of advantages for the attainment of a thorough and accomplished education.

The large and commodious building lately erected, containing all the modern conveniences of baths, gas, &c., is, with its extensive grounds, a model in all that pertains to the health, comfort, refinement and improvement of the pupils. The sleeping rooms are light, well ventilated, and furnished with comfort and elegance, and but two pupils occupy the same apartment. The number of pupils is limited to forty, for whom seven teachers are employed—The most faithful instruction is given in all the branches taught, while moral and religious principles are constantly inculcated by theory and practice.

The course of instruction comprises a period of four years, and a diploma is awarded to all who pass through it satisfactorily.

The Right Rev. A. Potter, D. D., L. L. D., Bishop of Pennsylvania, says: "Miss L. L. Eastman, who proposes to open a Young Ladies' Seminary in Media, Delaware county, Pennsylvania, in September next, has been known to the Diocesan for several years past. He has a very high opinion of her capacity, efficiency and devotedness as an educator. She has had a good deal of experience."

The building which is to be erected, will contain every accommodation for healthfulness and beauty; and the subscriber has confidence that parents who entrust their daughters to Miss Eastman will have no cause to regret it.

The French language is taught by a Parisian lady residing in the family.

The Latin, German, Spanish, and Italian languages, receive due attention.

The Natural Sciences are taught with the aid of a large and expensive apparatus.

The Musical Department is under the charge of a lady eminently qualified for the situation, and all who prefer to be taught on the piano or singing by a gentleman, have a visiting teacher from Philadelphia.

Drawing and Painting are under the direction of a lady accomplished in the arts.

The Fall Term commences September 9th.

Miss Eastman has the liberty to refer to the following gentlemen:

Right Rev. A. Potter, Bishop of Pennsylvania.
Hon. Franklin Pierce, ex-President of U. S.
Hon. S. P. Chase, Governor of Ohio.
C. Ingersoll, Esq., Pottsville, Pa.
George M. Wharton, Esq., Philadelphia.
William Bagaley, Esq., Pittsburgh.
Sylvanus Lothrop, Esq., Allegheny City.

MISS M. L. EASTMAN,
Media, Delaware county, Pa.

Medical.

T. KINGSFORD & SON'S
PURE
Oswego Starch,
[FOR THE LAUNDRY]

HAS established for it a greater celebrity than has ever been obtained by any other Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established.

The production is over Twenty Tons Daily, and the demand has extended throughout the whole United States, and foreign countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect uniformity in the quality throughout the year. *This is the great Desideratum in Starch making, and is realized now for the first time.*

The Proprietors feel that the reputation of their Starch is now established, and it is unnecessary to add, that it is always wanted by consumers, and this will be supplied to order by the grocers, as soon as their customers have learned of which is the best, and ask for it—otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of Starch continuously for the last 27 years and during the whole of the period, the Starch made under his supervision has been, beyond any question, the best in the market. For 12 years he has had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of Oswego Starch.

☞ *Ask for Kingsford's Starch, as the name Oswego has been recently taken by another factory.*

It is sold by all of the best grocers, in nearly every part of the country.

T. KINGSFORD & SONS
OSWEGO CORN STARCH,
[FOR PERSONAL USE.]

Has obtained an equal celebrity with their Starch for the laundry. This article is perfectly pure, and is, in every respect, equal to the best Bermuda Arrow Root, besides having additional qualities which render it invaluable for the sick.

Pulaski Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of Corn Starch.

"From its great delicacy and purity, it is coming also into extensive use as a food for infants and invalids."

The subscriber having been appointed sole Agent for the sale of the above celebrated Laundry and Corn Starch, will supply the trade at Manufacturers rates, with addition of freight.

JOHN E. PERRY,
Agent for Oswego Starch Factory.

Perry Hotel, corner of Hancock st., and Duquesne Way.

R. R. R.

A FALSE THEORY EXPOSED.—THE TRUE SCIENCE REVEALED.

Doubtful have our tests been applied to the darkness as regards the mysteries of medicine, and of deriving a truthful solution of its power over disease, and its proper use in the treatment of the sick.

Medicine, as practiced by the regular faculty, is a delusion a bundle of improbabilities and uncertainties. There is nothing in its theories on which the physician can rely as certain or fixed; the results obtained from its prescriptions are doubtful, and its most cases unsatisfactory.

It is a solemn and startling fact, that three-fourths of those who have departed this life" died victims, not to disease, but to the injudicious application of this mistake and uncertain theory, as practiced by the regular faculty.

We have proved the utter fallacy of the regular practice of medicine, and the great undeniable truthfulness of the R. R. R. over and over again; for, in a thousand cases, where the regular physicians have given up their patients as incurable, and had in many cases even set the time to only a few short hours, that their victims had to live, Radway's Ready Relief, Regulators or Resolvent, as the case may have been, has restored those dying patients to new life and health.

In the treatment of the sick by the R. R. R. remedies, there is nothing left to chance or uncertainties, for those remedies are so prepared as to cause fixed and positive curative powers, founded on principles as immutable in their power over diseases, as the laws of gravitation over the earth. It is therefore impossible for these remedies to fail in removing from the human system the difficulty for which they may be given, and of restoring the whole human system to its normal condition of health.

This is readily seen in the miraculous efficacy of RADWAY'S READY RELIEF—for the moment this remedy is applied to the part or part of the body scattered with pain, or crippled with infirmities, all pain and uneasiness ceases, and the crippled, lame and wounded limb becomes invigorated with renewed strength. So also with the Resolvent—the most repulsive Sores, Ulcers, Humors, and the most obstinate of chronic diseases quickly become extinct after a few doses is taken.

In cases of Dyspepsia, Constipation of the Bowels, Derangement of the Liver, Congestions, Palpitation of the Heart, Radway's Regulators, in the form of Pills, can be relied upon as a positive and certain corrector and regulator of these difficulties. In cases of temporary Constipation arising from a disordered state of the stomach or bowels, the Cathartic and Purgative Pills given by the regular faculty, even if they remove the temporary difficulty, do so at the expense of Cramps, Sickness at Stomach, and Weakness, and after the effects of these purgatives are over, the bowels are left costive and the system debilitated. Radway's Regulators will instantly relieve the pain and distress, remove the difficulty and restore a regular action to the liver, stomach, bowels and other organs—they neither irritate, inflame, sicken or weaken the patient, and the evacuations are natural, without overtaxing the system or cramping the bowels.

These remedies are the only ones that have reduced the Hydraulic principle to the field of a mathematical demonstration—invariable in all cases, and proceeding on a settled routine. They, and they alone, have imparted to this long-sought experience and misplaced practice of the so called "regular faculty," the precision and invariability which are essential to the requirements of a science. Taking the human body as the problem; and health as its normal condition, they proceed by fixed rules to eliminate all extraneous and deleterious particles, and then restore the patient to its integrity, by the expulsion of those local or organic irregularities which violate the soundness of the whole.

DANGEROUS DISEASES.

In Cholera, Yellow Fever, Ship Fever, Dysentery, Diarrhœa, Typhus and Typhoid Fevers, and all malignant and malignantly-type, Radway's Ready Relief and Regulators are not only positive curatives, but certain preventives.

Not only in the milder latitudes of this North have these remedies cured the patients of these terrible maladies, but under the burning zones of Africa, Hindostan, Persia, in the West Indies, and in every quarter of the globe, wherever the disease of the most virulent degree, they scourged the people as a pestilence. With these remedies you need not fear exposure to any contagious disease or infectious malady.

CONSTITUTIONAL DISEASES.

All diseases that have become established in the system, called chronic or constitutional, Radway's Resolvent, aided by Pills and Regulators, will remove. Scrofula, Bronchitis, Ulcers, Tumor, Cancer, Humors, Humors, Rheum, and all skin diseases will quickly yield to this all powerful remedy.

The use of the Resolvent will, in a few weeks, entirely change the whole condition of the body, we care not from how many generations you have derived your title to the diseases established in your bodies, Radway's Resolvent will remove it, and give to the system a perfect uniformity in the blood and Kingson, were in attendance on her—but all of no avail—*the doctors had given her up to die. She even consented to sell a lot of her bedclothes to secure a coffin and burial.* Her husband, a well known merchant,
