He helps keep trouble from happening

He's the Central Office Maintenance Man

— and a vital part of good telephone service. He keeps the central office equipment in good working order.

The speed and accuracy with which he does his job have a great deal to do with keeping telephone service flowing smoothly — especially these days when the wires are needed for war.

JOIN GULF'S "Anti-Breakdown" Club TODAY...

Here's Gulf's Protective Maintenance Plan...

BEFORE THIS WAR IS OVER, there may be only two kinds of people in America...
1. those who can still get to work in automobiles,
2. those who are forced to walk.

If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job.

1 It protects your car at 39 danger points!

GULF'S Protective Maintenance Plan includes Gulflex Registered Lubrication which reaches up to 39 vital points with six different Gulflex Lubricants that reduce wear, and lengthen your car's life.

2 It helps keep your motor in A-1 shape!

IT'S IMPORTANT to give your car a good motor oil and change regularly. Gulf offers two outstanding oils . . . Gulfpride, "The World's Finest Motor Oil," and Gulflube, an extra-quality oil costing a few cents less.

3 It stretches your gas coupons!

AIR-FILTER and spark-plug cleaning, and radiator flushing help give better gas mileage. A clean air filter makes gas burn more economically; clean plugs increase power; a clean radiator prevents overheating.
