THE IRISH REVIVAL.—The correspondent of the N. Y. Observer writes:—Dr. Denham told the Scottish Free Church Commission, that there have been more sinners converted to God in six weeks, than in twenty years before. And this takes place, mainly, at the indefinitely multiplied prayer meetings, to which the people are allured up by the more multitudinous and public display.

In Dublin, there is a crowded meeting for united prayers every Monday evening in the Music Hall; and in all the Protestant places of worship, the subject of a revival as the work of the Holy Spirit indispensable, in order to the display of practical Christianity in its loveliness and glory, is the principal topic of pulpit ministration. Ministers see the fruits of the Gospel, "preached with the Holy Ghost sent down from heaven," in the conversion of sinners, and the life and zeal of believers, and are rejoicing and encouraged in their work,—many without having time,—many without inclination,—to make public what God is doing in their sphere.

A letter from Coventry tells me that there is such an awakening, and such a revival all over that remote region, that it is like a new world—religion appears in such loveliness and power.

A FEW GIRL ESCAPES FROM SLAVERY.—The Toronto *Globe* gives an account of the perils of Sarah Jane Giddings, alias Young, who about a month since, while at Niagara Falls, concluded to leave her mistress' service, and fled across the river to Canada. Her master, not disposed to part with his property (a likely and fine looking mulatto woman, twenty-two years of age) in this manner, followed Sarah Jane to the Clifton House, where she had obtained employment, and attempted to induce her to return with him, but she fled to Toronto. Her case is a very peculiar one. She was born of a free woman in New York city, but when only twelve years of age was taken to Texas, where she was made a slave in the family of Mr. Giddings, with whom, we believe, she has since lived. She longed for freedom, she says, and it has been arranged that she should at length gain the boon.

RYE AND EAR
DISPENSARY.
Office 95 Main St., (2d floor, up stairs,) Buffalo, N. Y.
ESTABLISHED BY THE CELEBRATED DR. JOHNSON, late of London, England.
A great discovery in the science of medicine, being a certain and speedy cure for restoring the sight and removing all diseases peculiar to the eye. This is universally acknowledged the only safe and sure remedy now known. It has been used with great success by the most skillful physicians in Europe and America.
Patients in any part of the country can treat themselves successfully at a moderate expense, thereby avoiding the danger and expense of falling into the hands of unskillful physicians. This medicine (sufficient to cure,) will be sent by mail or Express, with all necessary directions on receipt of Ten Dollars.
Dr. Johnson's Certain and Infallible Cure for Deafness and Singing Noises in the Ears, Nervous Head and Mind Complaints,
Affording instant relief to sufferers who have been troubled with deafness for many years. After using this remedy a few days the patient is suddenly and almost miraculously enabled to hear ordinary toned conversation; in the course of a few weeks the most obstinate case of deafness is effectually cured.
Patients too numerous to mention have been restored to perfect hearing and forever rescued from the snares of the numerous dangerous unqualified pretenders of the present day. Hospital and private testimonials and certificates from the most eminent physicians and surgeons in England, in whose presence deaf persons have been cured, and many hundreds of private patients cured can be seen or referred to. A case of this medicine (enough to effect a cure,) will be forwarded to any part of the country for Ten Dollars. Address DR. JOHNSON, Drawer 604,
Office 95 Main St., Buffalo, N. Y.

NEW AGRICULTURAL SETTLEMENT.
TO ALL WANTING FARMS.
A Rare opportunity in a delightful and healthy climate, twenty-five miles south-east of Philadelphia, on the Camden and Atlantic R. R., New Jersey.
An old estate consisting of several thousands of acres of *productive soil* has been divided into farms of various sizes to suit the purchaser. A population of some *Fifteen Hundred*, from various parts of the middle States and New England have settled there the past year, improved the place, and *raised excellent crops*. The price of the land is at the low sum of from $15 to $25 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer—Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement*. The result has been, that within the past year, *some three hundred houses* have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.
THE MARKET,
as the reader may perceive from its location, is the
BEST IN THE UNION.
Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.
In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near the old friends and associations, he is in a *settled country where every improvement of comfort and civilization is at hand*. He can buy *every* article he wants at the cheapest price, and sell his produce for the highest. (In the West this is reversed.) he has *schools for his children, churches, and society*, and enjoys a new and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north has generally been to restore them to an excellent state of health.
In the way of building and improving, lumber can be obtained at the rate of $10 to $16 per thousand.—Bricks from the brick yard opened in the place. Every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.
The reader will no doubt be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market, and unless these statements were corrected no one would be invited to examine the land before purchasing.—Toleall are expected to do. They will see land under cultivation, such is the extent of the advertisement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as delays cannot be held on refusal.
There are two daily trains to Philadelphia, and to all settlers who improve, *the Railroad Company gives a Free Pass for one year and half price tickets for the year.*
THE TOWN OF HAMMONTON
in connection with the agricultural settlement, a new and thriving town has naturally arisen, which *presents inducements for any kind of business, particularly stores and manufacturers. The business* could be carried on in the place and market to good advantage, also cotton business, Machine Manufactories of Agricultural Implements or Foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Terms to suit a good site, (we do not sell small ones, as it would effect the improvement of the place,) commencing at from $100 and upwards.
The *Farm Journal Farmer*, a monthly literary and agricultural sheet, containing full information of Hammonton can be obtained at 25 cents per annum.
Title indisputable—warranty deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7½ a. m., or 3½ p. m. Fare 90 cents. When there, inquire for Mr. BYRNES. Boarding convenience on hand. Parties had better come with Mr. Byrnes, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications may be addressed to LABDIS & BYRNES, Hammonton P. O., Atlantic county, New Jersey, or S. B. GODFRIN, 202 Arch street, Philadelphia. Maps and information cheerfully furnished.
THE HAMMONTON FARMER—A newspaper devoted to Literature and Agriculture, also setting forth full accounts of the new settlement of Hammonton, in New Jersey, can be subscribed for at only 25 cents per annum.
Inclose postage stamps for the amount. Address to Editor of the Farmer, Hammonton P. O., Atlantic Co., New Jersey. Those wishing cheap land, of the best quality, in one of the healthiest and most delightful climates in the Union, and where crops are never cut down by frosts, the terrible scourge of the north, see advertisement of Hammonton Lands.
jul0dtf JULIUS ROSS.

FARM LANDS FOR SALE 22 MILES from Philadelphia by Railroad, in the State of New Jersey. Sell among the best for Agricultural purposes being a good loam soil, with a clay bottom. The land is in large tract, divided into small farms, and hundreds from all parts of the country are now settling and building. The whole property will be open for sale on the 1st of April next. The climate is delightful, and secure from frosts. Terms from $10 to $20 per acre, payable within four years by instalments. Steam Marble Works.

MARBLE MANTELS, made by machinery, always on hand. No good house should be without Marble Mantels; they are always neat, and add more to the beauty of a house than any other article that can be bought with the same money. Besides this a house with Marble Mantels will command a choice of tenants and rent or sell for more money; they can also be insured for less, as the marble cannot endanger the safety of houses and family by taking fire, as wood mantels often do.
Marble Tops for Wash Stands, Furniture, &c. Marble and Stone Hearths, Monuments, Tablets and Grave Stones, Curbing and Cemetery work of all kinds made to order. Our stock is the largest in the west, consists of the finest marble, and being manufactured by machinery is got up in fine style and will be sold at the lowest prices.

DR. McRAE,
Having experimented with medicine in the treatment of diseases for years, laying aside all prejudices, has examined in the meantime all the various systems and schools of medicine and have selected such remedies as I can demonstrate to be safe and efficient rejecting all mineral poisons. To remove acute disease is comparatively an easy task; it is the curing of chronic diseases that requires knowledge combined with patience and perseverance tempered with kindness. It is in the latter class of disease where physicians mostly make their failures. Having given this class of diseases my special attention, I profess to be prepared to treat all chronic diseases with positive success. I mean all that are curable cases unless it be conditionally, so that patients may depend upon my declaration. I profess to treat successfully all chronic diseases of the Lungs, Liver Bronchitis Neuralgia, Paralysis, Rheumatism, and all derangements of the nervous system. Fistula and Piles successfully treated in from thirty to sixty days without the use of the knife; or much additional pain. I profess to treat with unparalleled success the disease known by the name of Cancer in all its stages, without the use of the knife or any harsh treatment. If Patients will strictly obey my instructions, I will guarantee satisfaction in all cases where no disorganization of the vital organ has taken place. The best of references can be given from citizens of St. Louis, where I have devoted my practice for the last three years. I have now in my office Cancer Tumors weighing from ½ to 2 pounds that I have removed with success, without the use of the knife. For further particulars physicians and others are invited to call and examine for themselves
DR. McRAE, OCCULIST AND AURIST,
Gives special attention to diseases of the Eye and Ear. In this climate where the Eye is subject to so many diseases, which are fatal to the delicate structure, all persons afflicted should attend to the earliest symptoms, avoiding much suffering and probable blindness.
Letters from a distance, containing one stamp, will receive prompt attention. Address Box 1292,
