THAT MONSTER PETRIFIED TREE.—A Scotchman is reported to have said: "Well, if I said the horse was sixteen feet high, I'll stick to it." Captain J. E. Stevens, who told the story about a tree 700 or 800 feet high, in California, which had turned to stone, thus reaffirms the narrative:

"Our party, of thirty-five men encamped at the lower end of what we termed the Little Canon, about three miles from which we found this famous petrification, and which is truly a great curiosity, and a wonder of the age sufficient to repay the fatigue of those who passed through the 'Hog-Back Canon in 1849.' At a short distance from this monster of a former age, it seemed to us to be a well defined line of drift wood deposited along the line of high water mark of some ancient river, whose bed is now an elevated mountain ridge; but on closer inspection we unanimously pronounced it one tree, as we found it distinctly marked from the upturned roots to its forks, and its two well defined forks to what was, when standing, an altitude of 666 feet, of 222 such steps as a Western frontier man takes when stepping off his distance to shoot at a target, or any man would take in pacing off a turnip patch.

At about 400 feet from the roots the tree is divided into two parts, or forks, about equal in size, and at 520 feet from the root I took off a specimen from one of these forks having on its surface at the time the outer and inner bark of the tree, and which specimen is now in the office of Dr. Thompson, on D street, between Third and Fourth. From the curves of the lines of growth we estimated the diameter of the branch from which it was taken to be from eight to twelve feet, and this, bear in mind, at a distance of 520 feet from the root of the tree, and only one-half the tree at that. This estimate may be too high or it may be too low but is the height of the tree we cannot be far mistaken in saying that it measured when standing, some 700 or 800 feet in height."

Captain Stevens adds that J. B. Dorr, lumber dealer, Captain McKenzie, formerly of the steamer Petaluma, and several other gentlemen of undoubted integrity, who resides at San Francisco, will not only confirm the truth of the existence of the petrified tree, but show specimens thereof.

PROGRESS IN RUSSIA.—Accounts from Russia state that the imperial manifesto in regard to the emancipation of the serfs of that empire will be issued before the close of the present year. A letter from St. Petersburg says:

Since the great problem of the emancipation of the serfs has been definitely resolved upon, the noble cause of national civilization, so intimately connected with emancipation and its indispensable complement, has been making notable progress day by day. Our papers are filled with news, which comes to them from all parts of the country, of the establishment of free schools and of Sunday schools. Every day sees new schools opened of a character to attract and to educate the lower classes of the population. They are already very numerous and scattered over the whole extent of the country; not to speak of the two capitals, where they are no longer a new thing, we see them starting up in remote hamlets and villages under the patronage of the landholders or of some other public spirited persons. We need not say that these free schools, established in the interest of the people, and multiplied on the eve of their emancipation, are called to exercise an influence on the future of the working classes, which must be most salutary. By correcting the deeply rooted prejudices and by dispelling the ignorance of the Russian people, these schools will render them worthy of the independence which is soon to be conferred upon them, in giving them those ideas of responsibility and of labor, which are the first and the essential conditions of liberty.

THE SOUND OF GROWING CORN.—Did you ever hear corn grow? You have probably heard the remark, "our corn grows so fast that you can hear it." That is supposed, by people who don't know, to be a figure of speech only, but the remark out here is a literal fact. Go into one of these "bottom" corn fields forty or fifty rods on a warm July day, or August night, when a bright moon is up (for vegetation grows faster in moonlight than in darkness), and a few hours after a heavy shower that has fairly wet the earth, and waked up the drowsy corn to its influences, and as the main stalk stretches and swells in its new strength up through the contracted lips of the upper blades, they crack and burst around you like the stifled reports of ten thousand rifles! That cornfield will be some inches higher at sunrise the next morning than at the last sundown.—There is no mistake about it. We have heard corn grow many a time, and so every farmer along in the valley will tell you.—[The World.

M'CORMICK'S REAPER AND MOWER.

20,000 Sold in the Last Five Years!

Being at Larger Number than is Manufactured by any other single Establishment in the World.

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both as a Reaper and as a Mower—so modified in its construction, as now to be

THE ONLY COMPLETE MACHINE

For both purposes. While cutting a swath several inches wider than the Two Horse Machine, of past seasons it is as a whole, narrower, lighter and stronger, and will double in the market, owing to no material side draught. We present, therefore, for the coming season, a machine one foot wider than those of most makers, with a light draught for two horses in Reaping or Mowing—LIGHTER THAN IS REQUIRED BY MUCH NARROWER MACHINES. By the perfection of balancing of the machine, in connection with a patented seat (jointed tongue, (with the wheel frames,) the cutting apparatus, when mowing, is now easily thrown over obstructions while in motion, simply by the weight of the driver in his plain, easy seat. Simplicity with all levers and complicated arrangements to effect the same object.

The machine of 1860 will be found superior as a MOWER, presenting some peculiar features not attainable by other machines. The Two Horse Machine, through cutting about five and one half feet wide, is of light and easy draught, so as giving a greater amount of work with a less expenditure of power than any machine made.

A warrantee is given to every purchaser, and in addition, the following offer is made: Any farmer, who may doubt if it is at liberty to work this machine through the harvest with any other, and PAY for the one PURCHASED, can

For further particulars, as also for patent claims under which this machine is built, we refer to our annual pamphlet, which will be furnished on application to us, at Chicago, or either of our many agents.

Sample machines can be seen at all prominent points.

Price of machines delivered in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Baltimore—charges following from these points:

For Four Horse, complete $155
For Two Horse, complete 140
For terms, see pamphlets and bills.

Quack Nostrums.

THE NEW YORK DAY BOOK says: "The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see paraded in the shape of handbills, and printed headings, as hair preparations, are all humbugs of the first water, their real merit, when and if any exists, is that they do no harm. HOG'S LARD, WILLOW OIL, LARD OIL, SWEET OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the manifest character of tonics; and when the vanity, so easily imposed with some triplicate term, and caught at by vacant young and old of both sexes. Such as Professor Wood's Hair Restorative, Professor Jones' Hair Tonic, Professor Kingsbury's, or any other astounding and startling pathogenic terms, be simply advertised a Hair Restorative—what it expresses yourself—and as a Restorative it acts. Buy Professor Wood's Hair Restorative, and as you value your scalp, eye, your very brains, supply nothing else; for it may be that you will get some worse substance than perfumed lard oil on your cranium. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will make Hair Grow on Bald Heads,
Will restore Its Natural Secretions,
Will remove at once all Itching,
Will remove all Dandruff,
Will cure all eruptions—even Scald Head,
Will make the Hair Soft and Glossy,
Will make the old appear young again,
Will preserve the Color of Hair to old age,
Will always Fasten it self upon its Fellow,
And is one of the best Toilet Articles for the Hair now in use.

PAPER MILL FOR SALE.—The undersigned will dispose of his PAPER MILL situated in Stratton, Ohio, on the Pittsburgh, Fort Wayne & Chicago Railroad, one hundred miles from Pittsburgh. This mill has been in operation about four years. The machinery is of the very best kind, built by J. L. Severns & Co., Boston, and in perfect order. The machine cylinder is 42 inches in size.

The building is of brick, one hundred feet long, thirty-two wide, and two stories high, the lower story being twelve feet and the upper four feet.

Stock is plenty and easily obtained.

The mill is in constant operation, and any one wishing to purchase can witness it running for themselves. It will be sold at a bargain. For particulars, inquire at the mill, in Stratton, or of myself, in Manchester.

OHIO LAND FOR SALE.

THE subscriber offers for sale section ten, township 12, range 10, Stark county, Ohio, commonly known as Perry's Section, containing 640 acres. It is situated three miles west of Hamilton, on the State Road leading to Wooster, and within about two miles of Dalton, Wayne and Chicago Railroad. The south, east and north-east quarters are partly cleared and improved. The whole is covered with superior timber—and the whole well watered by springs and running streams. The section is considered the finest body of land in the county. It will be sold undivided or in quarters to suit purchasers. To those who desire to invest in real estate a better opportunity is rarely offered.

J. B. GWEITZER,

JAMES LEMON.
JOHN DELLOW. JAMES LEMON.

Undertaking in all its Branches.

LEMON & DELLOW, No. 118, Fourth st., are prepared to do Undertaking in all its branches, in the best manner, at prices to suit the times. We call special attention to Park new style patent Metallic Burial Cases, for the sale of which we are sole agents in this city, and of which we have constantly on hand a large assortment. As regards beauty of shape and finish, they are unsurpassed by any other Cases. Funerals will be supplied with Hearses, Horses and Carriages promptly, at lower rates than any other establishment in the city. Guaranteeing to render satisfaction, they solicit a continuance of the patronage heretofore so liberally extended to the old firm. selydly

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS & IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by Sublimation in Hydrogen. Approved by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every constitution. Innumerable are all maladies in which it has been tried, it has been absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tubercules, Salt Rheum, Rheumatism, Chlorosis, Leucorrhœa, Liver Complaints, Chronic Headache, Remittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no pilloge nor written attestation could render credible—Invalids so long bed-ridden as to have become forgotten in busy world as if just return from years protracted travel in a distant land. Some very signal instances of this kind are attended of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical change, and and arcyrias for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation from most necessarily be salutary, for, unlike the old oxides, it is vigorous yet tonic, without being exciting and overbearing; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is in this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often suffered for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confined, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and confirmed hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and instructive instances.

In Scrofulous Tuberculous, this medicated iron has had a fair trial, more than the good effect of the most cautiously balanced preparations of Iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it most decisively be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high encouraged usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and early restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes, containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to
