ALL THE VIRTUES OF
ELECTRICITY AND WATER COMBINED.

DR. W. W. KARSHNER'S ELECTRIC BATHS
PATENTED JAN 25 1859
Fig. 2 Fig. 3

THIS above cut is a representation of DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, for which he has obtained letters patent from the Patent Office of the United States. These Baths have been in successful operation for the last two years, in many of our principal towns and cities, during which time hundreds of patients have tested their astonishing powers with signal success. Dr. K. challenges the entire medical world to produce any one system or combined jet of apparatus, that will cure as many diseases, and in so short a time, as his Electric Baths alone, when rightly administered. The scientific minds of all professions are cordially invited to call, examine and test for themselves.
The duration of each Bath, the temperature of the water, and the strength of the electric current, are varied according to the disease, the condition of the patient at the time, and the effects desired. The water is about blood heat, and the electricity so graduated as to produce nothing but pleasurable sensations.
There is no class of Disease, either Acute or Chronic, to which they are not adapted—which do not yield at once to their all pervading and health-restoring influences. The aged and decrepid have been led, voluntarily, to testify that they felt many years younger, and slept better than they had done for years. Others have been cured of painful diseases in a few Baths.
Nor do their healthful effects seem to be confined solely to the physical man; they have so equally happy influence upon the mental faculties, making them a most efficient means in the treatment of Insanity and all abnormal mental conditions.
Among the diseases successfully treated by Dr. K.'s Baths are: Incipient Consumption, Scrofula, Paralysis, Epilepsy, (Fits,) Insanity, Delirium Tremens, St. Vitus' Dance, Curvature of the Spine, Rheumatism, Mercurial Diseases, Weakness in the Back and Joints, Nervousness, Sexual Diseases, Aches, Asthma, Bronchitis, Catarrh, Weak Eyes, Partial Deafness, Dyspepsia, Gravel and other Urinary and Genital Diseases, Falling of the Womb, Leucorrhea, and other Female Derangements, Fever, Fever and Ague, etc. etc.
These Baths are in successful operation at
No. 21 Fifth Street, Pittsburgh, Pa., relieving many of the afflicted daily. Call and get a pamphlet.
CONSULTATIONS FREE.

Quack Nostrums.

THE NEW YORK DAY BOOK says: "The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see parraded in show windows cards, and newspaper headings, as hair preparations, are all humbugs of the first water; their real merit, when they possess any, is, that they do no harm. ROWS LARD, WHALE OIL, LARD OIL, SWEET OIL, scented and colored, make up, when in beautiful wrappers and white flint glass bottles, the costliest character of tonics; and when they comfy, are baptized with some Arabian term, and compelled by ignorant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any "high falutin" Xylophilorium, or any other astounding and startling catchpenny terms to simply advertise a *Hair Restorative*—what it expresses precisely—and as a Restorative it sells. But Professor Wood's Hair Restorative, and as you valde your scalp, use, your very brains, apply nothing else, for it may be that you will get some worse substance than perfumed lard oil on your premises. Remember, Wood's Restorative for the Hair is the best article extant."
It Will, by Nature's own Process,
Restore Gray Hair to the Original Color,
Will make Hair Grow on Bald Heads.
Will restore the Natural Secretions.
Will remove at once all Itching.
Will remove all Dandruff.
Will cure all eruptions—even Scald Head.
Will make the Hair Soft and Glossy.
Will make the old appear young again.
Will preserve the Color of Hair to old age.
Will always Fasten it and stop its Falling.
And is one of the best Toilet Articles for the Hair now in use.
Manufactured by O. J. WOOD & CO., and sold Wholesale and Retail, at 644 Broadway, New York, and 114 Market st., St. Louis, Mo.
Sold in Pittsburgh by Dr. GEO. H. KEYSER, B. L. FAHNESTOCK & CO., and all Druggists. [ap30:1y]

ELECTROPATHY.

PROFESSOR A. S. GREGORY and J. F. GOUCHER, M. D., have associated themselves together in the practice of their profession, thus uniting Electropathy and Hydropathy with a
MEDICAL DEPARTMENT.
They have their establishment supplied with a new set of ELECTORIC BATHS, which are superior to any now in use. The water used is of such a temperature, and the electric currents are so regulated, that the patients, in receiving the benefits of these remedies, experience no unpleasant sensation. This system of treatment is among the safest, most effectual and least objectionable; it equalizes the circulation, soothes nervous irritation, and restores a healthy balance to disordered functions. The medicine prescribed will be compounded and put up at their office, under the immediate care of Dr. GOUCHER, who has had twenty years experience in treating disease.
The following are some of the diseases that yield to their treatment:
Palsy or Paralysis, Incipient Consumption, Rheumatism, both Acute and Chronic, Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Stinging in the Ears, Amaurosis, Cataracts, Weak Eyes, Erysipelas, Spasmodic Retention of the Urine, St. Vitus' Dance, Cholic, Salt Rheum, Prolapsus Ani or Piles, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, all Diseases of the Bowels, Fever and Ague, and Fistula, invariably Cured without the knife.
In addition to their office business, they purpose attending to a GENERAL PRACTICE. All calls in the city and vicinity receive prompt attention. Letters containing stamp for postage will be attended to immediately, and if treatment is required, FIVE DOLLARS must be enclosed, for which they will send medicine to any part of the United States.

PUBLISHED DAILY AND WEEKLY BY
R. ERRETT & CO.,

PITTSBURGH:
TUESDAY MORNING, OCT. 30.

Now Sleeps the Crimson Petal,
BY ALFRED TENNYSON.

Now sleeps the crimson petal, now the white;
Now waves the cypress in the palace walk;
Now winks the goldfin in the porphyry font;
The fire-fly wakes; wake thou with me.

Now drops the milk white peacock like a ghost,
And like a ghost she glimmers onto me.
Now lies the earth all Dacian to the stars,
And all thy heart lies open unto me.

Now slides the silent meteor on, and leaves
A shining furrow, as thy thoughts in me.
Now folds the lily all her sweetness up,
And slips into the bosom of the lake;
So fold thyself, my dearest, thou, and slip
Into my bosom and be lost in me

A GOOD ILLUSTRATION.—Mr. Corwin, in his speech at the Wigwam on Thursday evening, revived an illustration originally used by Mr. Lincoln in a speech at Leavenworth, Kansas, in 1859, to show the baseless claim of the Douglas men that slaves, under the Constitution of the United States, are property in the same sense that horses, cattle and ships are property. Said he, "Suppose a vessel breaks from her moorings in Detroit River, and floats over to the Canada shore; or that a horse swims the stream and regales himself in a Canadian pasture, and the Canadians should in these and all other cases refuse to give up the articles or property which had gone astray—how long would our amicable relations with the Canadian government be maintained in the face of such disrespect for the rights of common law property—such want of international comity? Yet slaves—'property' according to the definition of the South—are every day escaping into Her Majesty's dominions, but who ever heard that they were claimed as merchandise—chattels personal? What would be the answer to a demand for them in that character? Who ever proposed to go to war with Great Britain or to make reprisals on her subjects, because the Fugitive Slave Law is not executed in her Canadian provinces?" The illustration, plain as it is, reveals the outlandish character of the Democratic claim, and the deceit which the orators and editors of that party practice when they pretend to find in the common law or in the Federal Constitution a warrant for absolute, unqualified property in man? We commend this part of Gov. Corwin's speech to the *Times and Herald*! It annihilated Gov. Seward by calling him a Pecksniffian hypocrite; now let it exercise its vocabulary on bough old Tom

THE MAMMOTH CAVE OUTDONE.—A Southern paper has the following, which may, possibly, be a canard instead of a description of a cave:
"A cave has been discovered in Alachua county, Florida, which is described as larger than the Mammoth Cave of Kentucky, and as having an ancient Latin inscription on the walls, which is translated that a party of Dutse had visited this cave in the year 1050, and that the priest who accompanied them had left this memorial of their visit. The name of the priest was Marcus Polens. It also stated that these bold navigators had embarked on a voyage of exploration, and had been driven far south; also that they had visited many large islands, and finally had landed in a thickly populated country, where the people had received them kindly, thinking them superior beings; that several of their number, together with some Greek artisans and two priests, had been left there as a colony. In this a relic of the party that the Mexicans say visited them four hundred years before Cortez landed and taught them the arts of civilized life, or is it a humbug?"

RACING IN SAN FRANCISCO.—The following from the Alta Californian would seem to indicate that San Francisco is not improving very rapidly in morality: The Roman chariot race over the Pioneer Course was a surlous attraction, and drew crowds. The drivers were blisses Hortense Stevenson and Annette Baker, who drove three heats around the course at full gallop. They were dressed in Roman tunics, with not a superfluity of drapery, while the trappings of the horses (double teams) were in the antique palatial style. The first heat was made in 2 minutes 10 seconds; the second in 2 minutes 25 seconds; the third in 2 minutes 34 seconds—the two competitors coming in very nearly side by side, but Miss Stevenson taking the prize, which was a diamond cross from Tucker's jewelry store. The crowd cheered tremendously, bets ran high, and there was an exciting time generally. The driving was remarkable for its daring and rapidity.

"TICKET, SIR!"—A good story is related of a conductor on a railroad, who was a strict church-going man, and was always found promptly in his church on the Sabbath. One Saturday evening his train was in very late, and he did not take his customary amount of sleep, which, however did not prevent his attending divine service as usual. During the sermon he unwittingly fell into a troubled sleep, soothed by the monotonous voice of the clergyman. All at once he sprang from his seat, thrust his hat under his arm, and giving his neighbor in front a push, shouted, "Ticket, sir!" The startled neighbor also sprang to his feet, which thoroughly aroused the conductor, who looking wildly around, and seeing all eyes turned toward him, instantly comprehended his position, and "held," amid a suppressed titter from the whole congregation.

IMBECILES.—One child in one thousand is an imbecile. There are 20,000 in the United States. They are so by ill-made marriages, by drunkenness of parents, by neglect and ill-treatment, and sometimes by medicine. Very little has ever been done for them or thought possible. But it is true that almost all such children can be brought up so as to gain sufficient mental strength to take care of themselves, and be measurably intelligent and happy. The schools for imbeciles in Paris have shown this. The little spark of mind they have must be watched and fanned, and blown by degrees into a flame. It may be done in a large majority of cases. Schools have recently been established in Massachusetts, Pennsylvania and New York.

READY TO STAND BY THEIR CANDIDATE.—The following spirited and timely hint appears in the Montgomery *Confederacy*, in answer to the interrogatory specified below:
The editor of the Mail, in his characteristic recklessness, has wished to know, if Judge Douglas would have the audacity to speak in Montgomery. We can only tell our contemporary that Judge Douglas is an American freeman and has fought more battles for the South than any man in the Union, and that he will not only have the audacity to speak, but *his friends will have the boldness to chastise any crazy fanatic that would even dare interrupt him.*
We are inclined to think that after that "The Little Giant" will have a respectful hearing in the capital of Alabama.—*Savannah Rep.*

An advantage resulting from the establishment of a "Rogues' Gallery of Pictures" was shown a few days ago in New York. A Mrs. Haight was robbed of $200 worth of clothing and jewelry, but happening to catch a glimpse of the thief's countenance as he was leaving the house, she ran immediately to the police station, scanned the likenesses of the distinguished individuals who have been photographed for that establishment, and at once detected a resemblance. The particular photograph was pointed out, and found to be that of one Dasbe, alias Henderson, who was shortly afterwards arrested.

THE PATRIMONY OF ST. PETER.—Of the provinces which remain to the Pope, Rome and Camarco have 326,504 inhabitants; Civita Vecchia, 20,701; Velletria, 62,013; and Frosinone, 163,569; a total of 550,867 inhabitants. The Piedmontese have deprived him of the Marches, Umbria, and the province of Viterbo. The population of the Marches is 924,055, of Umbria 472,639; and of Viterbo 129,372 inhabitants. Thus, 1,256,019 inhabitants have been withdrawn from the temporal sway of the Pope.

A NARROW ESCAPE FROM DROWNING.—A letter from Colonel Preston, United States Minister to Spain, gives an account of the narrow escape of himself and family from drowning in the vessel on which they had embarked at Marseilles *en route* to Madrid. Col. Preston was saved by the desperate exertions of the Mallese and Catalian boatmen.

A CHILD in Cape Town, having some time since injured its spine, a photograph was taken of the deformity, and sent to a friend in London, to have an instrument made that would remedy the complaint. This instrument arrived by mail, and fix the child to a nicety; and will, as in a former case, prevent the child from being a cripple for life.

THE sort of a man that Col. E. D. Baker, the new Oregon United States Senator is, is shown from the fact, that he took out to California, when he first went thither, several hundred poor men, who worked four months on the Panama Railroad, under his direction.

Scurrilous Treatment of Mr. Everett.

The real animus of the Breckinridge faction towards the so-called Union party is beautifully shown in an editorial article in the Washington Constitution of Wednesday. Its heading, "Negro Equality—Mr. Everett Sanctions it," explains the whole story. After pouring out a volume of scurrility upon Mr. Lincoln and the Republicans, the Constitution proceeds to say:
It may not be Mr. Everett's lot to receive as many negro votes as will be thrown for Mr. Lincoln; but that the Bell candidate for the vice presidency sanctions the general ideas summed up in the phrase, "negro equality," has never been denied. How could he do otherwise, seeing that he has put upon record his sympathy with the general scope of an abolition harangue delivered by Sumner? Some of the Bell-Everett party in the South, however, have been unwilling to recognize the fact.
Mr. B. B. McCraw, Bell elector in Alabama, was of this number; but, not satisfied with hearsay evidence, he addressed Mr. Everett direct, seeking an answer to the allegation that he had "practically endorsed" negro equality by sending his children to school with negroes. Mr. Everett did not reply, but his Boston chairman did in his behalf; and the reply amounted to an acknowledgment and a defence of the circumstance involved. Thereupon Mr. McCraw repudiated further alliance with the Bell party, withdrew his name from the ticket, and announced his adhesion to the cause of Breckinridge and Lane.
The alarming "equality" principle was recognized, it seems, by Mr. Everett permitting one of his sons to attend an endowed school at Cambridge, at which there was a colored boy!
