Orders in the Tailoring line executed in the most fashionable manner, at the shortest notice, and warranted.

☞ The public will please notice one fact, that no one not practically acquainted with the business is capable of judging of the quality and make of a garment; hence the reason why the community have been so much imposed upon by a *certain class* of community who deal in the article, who, if they were not practically and professionally cheats, could of necessity know nothing about the business.—They are certain, if the public would consult their true interest, they would purchase *only of those acquainted with the business.*

TWICE BURNT OUT!

GEORGE H. BUNTING,

Over J. Kingsbery's Store—Entrance next door to Montanyes' Store, up stairs.

GRATEFUL for past favors, announces to his friends and the public in general, that he still keeps on hand a good assortment of READY MADE CLOTHING, which he will sell cheap for CASH. He believes that a 'Nimble sixpence is worth more than a slow shilling.' He also has commenced manufacturing Clothing—selecting the cloths himself in the city, and employs none but the best of workmen in making them up. He would assure his customers that his Clothing is manufactured under his own eye, and in his own shop, and not let out by the job to unexperienced or incompetent workmen. Thus, persons wishing a suit or any portion thereof, can order the same with a perfect certainty of getting a good fit.

He has also on hand a general assortment of gentlemen's **Shirts** and **Collars**, which he will sell cheap for cash.

☞ Custom work promptly done as usual. He invites his friends to call on him at his new quarters, over J. Kingsbery's store, and immediately opposite U. Mercur's Law Office, before buying elsewhere.

Now if you are wanting, you surely can find,
Coats, Pants and Vests just made to your mind,
So nice and so snug they'd suit to a T,
So perfectly fine, there's no room for a flea.

If your linen wants changing and sometimes it will,
You'll find shirts and collars for a very small bill;
Come then one and all, who are out clothes hunting,
And you can be fitted by GEORGE H. BUNTING!

N. B. He is sole Agent for ELIAS HOWE'S Jr.

Patent Sewing Machine,

for the counties of Bradford and Susquehanna. Any person wishing to purchase the right for using the above Machine in said counties, can be accommodated by calling on him, where they can see it operate. It is well demonstrated that this machine is the best patent now in use. Its validity has been established by trial at law in Boston, in July, 1852. This trial *resulted in fully confirming* and establishing the claims of Howe's Original Patent to the exclusive right and use of all needle and shuttle Machines, or their equivalents, and the stitch and seam formed thereby. G. H. B.

The public are cautioned against purchasing spurious Machines, as all Sewing Machines now in use infringe upon this invention, and all parties who have infringed, by using Machines or otherwise, who wish to save legal expenses, may obtain proper license under the original patent by applying as above.

DENTISTRY.

J. M'INTOSH, DENTIST,

HAVING entered into an arrangement by which he can have BLOCK TEETH furnished to order, informs the public that he is prepared to mount suction plates in this new and improved method.

The great superiority of the block style of mounting plates is at once apparant to those who have for any length of time worn artificial teeth. To those who have yet to be initiated, it is only necessary to say, that in the *old method of mounting the plate* with a succession of single teeth, it was no unusual thing for a tooth to drop off; by the new method no such accident can take place, the teeth being all connected by each other. In the second place, the plate with block teeth is always clean and sweet, because there is no chance for deposits of food being made, however small, the upper rim being capped, thus effectually precluding even the saliva from making a *lodgment*, and in the third place, the adaptation of the grinding surface is better fitted for masticatory purposes, the irregularities being made exactly to correspond with those of the teeth of the opposing jaw.

With a properly fitted suction plate, having an air chamber, and mounted with block teeth, a person may crack kickory nuts with impunity.

"And sleep in spite of"—*toothache.*

Medical.

BRYAN'S PULMONIC WAFERS.

THIS extraordinary preparation has been for many years the most certain and speedy remedy for COUGHS, COLDS, ASTHMA, BRONCHITUS, INFLUENZA, AND DISEASES OF THE CHEST AND LUNGS. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief, and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these WAFERS produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and pleasant to the taste, so that any child will readily take them: and they are warranted to give relief in ten minutes after use in all cases.

Price 25 cents per box. For sale by Dr. H. C. PORTER, Towanda, Pa.

FELTON & CO., for doing a general Liquor business, would respectfully ask Hotel keepers and all others in want of anything in their line to give them a call. We have made arrangements by which we can furnish our customers with any quantity of Binghamton BEER fresh from the Brewery. Please give us a call.—
