Quarter Sessions Court.

Judges Sterrett and Brown sitting.

FRIDAY, June 29.—The following business was transacted:

ILLEGAL LIQUOR SELLING.

Anton Weler, tavern-keeper in the Fourth ward, Allegheny, pleaded guilty to selling liquor without license, and was required to pay a fine of fifty dollars and costs.

Maria Brner, of the Third ward, city, pleaded guilty to an indictment charging a similar offense. Sentence deferred.

TRIED FOR PERJURY.

Wilson Ray, was indicted for wilful and corrupt perjury, on the information of George Crosbie. The parties reside in Sharpsburg. Defendant was a witness in an action for trespass before Alderman Nicholson, in which Matthew Coward was plaintiff and George, Josiah and Daniel Crubbs and George Freeze defendants. The cause of the action was the cutting down of a fence on the premises of Coward, for the purpose of opening an alley sixteen feet wide in the borough of Sharpsburg, in pursuance of an ordinance of the Town Council. On the hearing of the case, Ray testified that the breach in the fence extended a distance of twenty-three feet, this statement, he said, being based upon actual measurement, whereas the fact was but thirteen feet of the fence had been cut away. The point was alleged to be a material one in the issue, and hence the prosecution. For the defense Maj. Brown said the material question was, not as to the extent of the breach in the fence, but as to whether there had been any breach, the plaintiff denying that the alley which it was proposed to open had ever been laid out. Further, it did not appear from all the evidence that the defendant, although he might have been mistaken, had wilfully and corruptly sworn falsely, which the jury must believe before they could convict. For the prosecution Col. Duff argued that it had been proven defendant swore absolutely and deliberately that the breach was twenty-three feet long, and that it had been shown to be only thirteen feet. The fact was a material one, as it operated on the question of damages in the case before the Alderman. Verdict, guilty, prosecutor and defendant each to pay one-half the costs.

FIVE WIVES SEDUCTION CASE.

John Neid, sixteen years of age on the 24th of February last, was placed upon trial on an indictment for seducing Maggie Lukes, under marriage. Maggie Lukes. The parties in this case are cousins. The defendant resided with his grandfather, Eli Neid, in Lawrence county, township, and the prosecutrix in the Eighth ward, living on two or three occasions with her uncle, Mr. Leidy, defendant's step-father. Miss Luker deposed in her information before the magistrate, Alderman Nicholson, that in lower St. Clair township, on or about the first of June, 1865, she being aged between sixteen and seventeen years, defendant had improper connection with her, under promise of marriage, the result of which was a bastard child. Testimony on the defendant's side, she said the connexion took place about the middle of June, but was not sufficiently explicit (as complained) as to the promise of marriage. For the defense, Mr. Leidy—uncle or prosecutrix's step-father of defendant—testified to the association of Miss Luker with others than defendant, and that in a conversation with her, about the latter end of last November, in reference to a time when she was in a condition to become a mother, she called a to defendant not one to save a young man named John Snyder had ever been criminally intimate with her. Miss Lukers testified to having called to this matter, being asked if she had so said to her uncle, and said the remark she made was that she had never "kept company" with any one but John Snyder. The case was submitted by counsel without argument, the prosecution claiming conviction only on the last count (the third) of the indictment, charging defendant with seduction under promise of marriage. The Court briefly charged the jury, and returned a verdict of guilty on the third count. The defendant was required to pay the costs of prosecution, thirty dollars to the prosecutrix for "lying in" expenses, thirty dollars for the use of the poor, ten dollars per week for five years for the maintenance of the child, to enter into bonds in the sum of $600 for the fulfilment of this sentence, and to appear at the end of five years to await the further order of the Court.

FALSE PRETENSE CASE.

Wm. T. Thompson was placed on trial for obtaining money under false pretences from Washington Snyder, of Penn township. Mr. Snyder was in the possession of a tract of land under a lease from the defendant. The land was sold by Thompson to John Hughes, and as an inducement to cancel the lease, which had three years to run from the 1st of April last, Snyder was offered a certain sum, provided the purchaser, Hughes, would agree to give it over and move the amount of purchase money originally agreed upon. The lease was cancelled, but it appeared that Snyder did not receive the amount he expected or that he contended was promised him, and hence the suit. The evidence, however, did not sustain the charge in the indictment, it appearing that if there was any false pretence it was in obtaining the cancellation of the lease, and not in obtaining money, and the jury accordingly found a verdict of not guilty, requiring the costs to be divided equally between the prosecutor and defendant.

SUPERVISORS INDICTED FOR NUISANCE.

George Irdion and George Whitmore, Supervisors of Shaler township, were placed upon trial on an indictment for nuisance, found on complaint of J. C. Comstock, Esq., of Sharpsburg. The charge was that the defendants have refused and neglected, and still refuse and neglect to repair a public road leading from the Butler turnpike at a point near the property of Charles Spang, thence through the village of Etna and across Pine Creek to the Sharpsburg and Lawrenceville bridge, and to build a bridge over Pine Creek, a part of the road, and that a part of the road, for the length of one hundred feet, and breadth of forty feet, including part of the bridge over Creek, is rendered impassable for the public, by reason of the neglect of the supervisors. On trial at adjournment

The Railroad Case Decided.

The case of the city of Baltimore vs. the Southern Pennsylvania Railroad, tried in the United States Court at Williamsport, Hon Wilson McCandless presiding, was brought to a close on Thursday, the jury rendering a verdict that the Connellsville Railroad Company had not misused or abused its charter.

Judge McCandless, in his charge to the jury, said it was an issue out of chancery, to inform the conscience of the chancellor as to a question of fact, and in making his decree the chancellor might disregard the verdict altogether, whatever it might be. An act of the Legislature, passed April 26th, 1853, repealing the charter of the Connellsville railroad company, was declared by the United States Court, at this city, to be unconstitutional, being a law impairing the obligation of a contract with the State, made with a corporation, and which was in violation of the Constitution of the United States. As there was a writ of *ne exeat* at the instance of the Attorney General of the State, pending in the supreme court, it was deemed proper that an opportunity should be afforded to the law officer of the commonwealth to inquire in that tribunal whether the Pennsylvania and Connellsville Railroad company had misused or abused its corporate franchises. Ample time was allowed for that purpose and the judicial proceedings having been taken by the Attorney General, Judge McCandless, in May last, directed an issue to try the question of fact, and set the case down for trial at Williamsport. The testimony as to acts of omission and commission was limited to a time subsequent to the date of the concluding act of the State of Pennsylvania, of the 11th of April, 1856, upon the faith of which the city of Baltimore loaned her credit and paid one million dollars. Any defense against the sovreignty of the State of Pennsylvania she pardoned by the act of her Legislature of that date

The jury were therefore to ascertain from the evidence whether the Pittsburgh and Connellsville Railroad Company had, since the year 1856, misused or abused the franchise granted to it by the state of Pennsylvania. Sixteen points were submitted by the counsel for the respondents which the court declined to answer, except as to the sixteenth, and two points submitted by complainants, holding that under the act of April 16th, 1853, the Pittsburgh and Connellsville Railroad Company have the right to make their road to the Maryland line, and to connect with any road authorized by the state of Maryland."

The New Coins.

In pursuance of two several acts of Congress the Treasury Department has discontinued the issue of paper currency of the denomination of five and three cents.

All orders for currency below the denomination of ten cents should, therefore, be addressed to the Director of the Mint at Philadelphia, accompanied by a remittance for the amount in the manner indicated in the following regulations for the distribution of the cents, and the new nickel three and five cent pieces of the United States.

The bronze one and two, and the nickel three and five cent coins can now be had at the Mint in exchange for the gold and silver coins of the legal tender nature of the United States.

The new three cent pieces are put up in bags of $30, and the five cent pieces in sums of $50 each, and either of these sums, or any larger amount of which fifty or thirty is the multiple, will be sent in the order of the entry of application.

The reasonable expenses of the transportation of the cent and three cent pieces in sums of $30, and the five cent coin in sums of $50 or upwards, to any point accessible by railroad or steamboat, will be paid by the Mint.

The Adams' Express Company will receive sums for parties ordering cents, &c., to which money or drafts on national banks, payable to their order, may be sent; the Treasurer's certificates of deposit in national banks, payable to the order of the Director or the Treasurer of the Mint, may be sent, and the coins ordered will be forwarded when the money is received or the drafts collected.

Arrested for Shop-Lifting.—A German woman named Mary Hoffman was detected in the act of concealing a pair of women's bamboral shoes under her shawl yesterday, in Wm. Borland's shoe store, on Market street. She was arrested and brought to the Mayor's office, where another charge of shoplifting was preferred against her by Messrs. Bates & Bell, dry-goods merchants, on Fifth street, from whom it is alleged she stole a piece of light dress-goods. She was locked up for a hearing.

TELEGRAMS.

FROM WASHINGTON.

Swamp Lands for Michigan and Iowa—The Senate and Appointments—River and Harbor Appropriations—Claims Postponed—New York Naval Officer—Customs Receipts—Cabinet Changes Rumors—Abuses of the Franking Privilege—The Tax Law Amendment—Bills Approved by the President—Awards for Booth's capture.

NEW YORK, June 29.—The morning papers contain the following specials from Washington: The General Land Office has just transmitted to the Governor of the state of Michigan, approved list No. 96, vesting title in the State for seven thousand and seventy-one acres of swamp lands, inuring under the provisions of the Congressional grant, by act of 28th September, 1850, and to the Governor of Iowa, an approved list of swamp and unexplored land covering six thousand one hundred and sixty-eight acres, vesting title in the state under the state Government.

It is said that the Senate in Executive session has resolved to confirm the appointments that lack the indorsement of the Senator of the State whence the appointee hails. If this really is the case the President will be seriously embarrassed in making appointments.

The appropriations of the River and Harbor Bill, approved on the 23d instant, amounts to $4,968,987 91. The following are among the items: For surveys of the Atlantic coast, $40,000; the Pacific coast, $25,000; the Northwestern Lakes, $100,000; the West and Northwestern rivers, $100,000; for improvement of the Mississippi, Missouri, Arkansas and Ohio rivers, $500,000.

The discussion on the Niagara Ship Canal bill has proved that measure to have more friends than it was previously supposed to have. It will pass. The Committee's amendment making the consent of the State of New York necessary, will probably be stricken out.

An effort is being made to get to Committee on Claims to reconsider the vote by which they postponed until next December the consideration of the senate bill for the benefit of certain iron-clad contractors who lost large amounts of money in building iron-clads.

Some prominent New Yorkers are here to look after the appointment of Naval officer at New York city. General Sickles is being pressed for the position. Colonel Hillyer's chances for the place are considered exceedingly slim.

The following is a statement of the receipts for customs at the four principal ports of the United States from the 16th to the 23d of June: New York, $2,106,787; Boston, $281,581; Philadelphia, $131,819; Baltimore, $69,847. Total, $2,591,034.

A recent report to the Secretary of the Navy from Commander Thomas Patterson, commanding the United States steamer Miscoutche, states that the commander has received report that freedmen had been taken to Cuba and sold, as the Cubans refuse to purchase them, or in any way to have anything to do with them.

Rumors of a Cabinet changes are again revived. This time the places of only Harlan and Speed are to be made vacant.

Lieutenant Pearson has accepted the position of Second Vice President of the Washington National Monument Society which was, until his recent death, filled by Lieutenant General Scott.

On Monday, evening next the House Committee on Foreign Affairs will bring forward their reports on the Mexican question and the Fenian affair in regard to the latter they will report adversely to the proposed repeal of the neutrality laws, and so far as known, they are also opposed to any indorsement of the Mexican loan.

The Senate is having quite a spicy time in executive session on the question of ratifying several Indian treaties which were made last fall. The opponents of their ratification claim that they are improperly made, and will prove sacrifices.

The Postmaster General sends a communication to Congress calling attention to the abuses of the franking privilege in the use of the franks of members by claim agents, patent agents, &c. The Postmaster general says the practice has become so serious evil, lessening considerably the postal revenues and hampering the operations of the department. The Postmaster General is powerless to arrest this evil, while members of Congress permit their packets or other persons to write their names upon envelopes, and seem to permit the use of no *semi-franks*, neither of which has the sanction of law. Members are rather slow to a senator intrusts all his franking to a messenger, where patent agents and others obtain the use frank of a member of congress, and a case where a clerk in one of the Departments franked out the frank of three members of congress. Outside of this report, we learn of an instance where it is charged that a number of Congressmen sent a bill to frank. The report was referred to the House Committee on Post Offices and Post Roads.

The House having shown unmistakable signs of a determination to oppose amendment to the law of 1864, granting land and railroad companies to indemnify their revenue tax upon consumers of gas and kerosene upon railroads, the representatives of these companies are busily at work to get the Senate to recede from its position, and insist on her original amendment, consent of the House. There is reason to believe, however, that the Senate will not recede, and that the companies will have to pay the tax, or the corporations will utterly vanish. In behalf of the measure in the House it was urged to the honorable Speaker of the House, by one of the second District of Ohio.

The House Committee on Commerce have concluded the investigation of the charges of the capture of Beach, and will report an appropriate resolution.

The President has approved the bills to provide for the revision and consolidation of the statutes of the United States, making further provisions for the establishment of an arsenal and arsenal of construction, depot and cavalry station at Nashville, Tennessee, and relating to a Land Office in the Territory of Idaho.

FROM SOUTH AMERICA.

Details of the Battle of Estoya—Another Severe Battle Anticipated.

NEW YORK, June 2.—The *Herald's* Rio Janeiro correspondent gives the details of the battle of Estoya (Estillo, better) on the 12th of May, as first announced. It appears that the Paraguayans outnumbered fighting each from Humaita, as the allies confidently expected, awaited the approach of the latter, and by a sudden and secret movement close to the enemy's reinforcements arriving, the Brazilians finally succeeded the day, and however, without the complete victory, the capture of the Paraguayans early in the fight. The fight was a very severe one. More than a thousand wounded allies had arrived at Corrientes, from the field.

The Paraguayan strong position, absolutely held their fort and seven other, was anticipated. All their war vessels had been converted into floating batteries, with the exception of five, which are kept for transport and tender purposes.

The Brazilian fleet had left the Paraana and taken up its position above Three Bacas, in the Paraguay river. Some of the new iron-clads report the water in the latter river falling.

Financial matters in Brazil were improving.

The New York steamer Brooklyn was coaling at Buenos Ayres, for St. Helena, with the Admiral on board. The Juniata was ordered from Montevideo to relieve the Brooklyn, and the Shamut to relieve the Shamokin. The Kansas was at Montevideo.

From the Cape of Good Hope

NEW YORK, June 29.—Advices from the Cape of Good Hope, dated May 16th, state that the weather continued remarkably fine and a quiet reaction towards the return of better times progressed. Farming operations were being carried on favorably in every direction, but many losses still occurred in dissolute directions from diseases among cattle and sheep. The settlement of a treaty of peace between the Basutos and the Free State was progressing satisfactorily. The gold discoveries in Transvaal were confined to certain expeditions and left Natal on their way to the diggings.

Fire in Cincinnati.

CINCINNATI, June 29.—The building on the Northeast corner of Fourth and Main streets, occupied by Chas. Owen, jeweler, R. G. Barnes, tailor, and L. Mendelstand, book-binder, was partially consumed by fire last evening. It is supposed to be the work of an incendiary. Loss from $15,000 to $20,000, mostly covered by insurance.

Found Guilty of Murder.

CLEVELAND, O., June 29.—M. C. Connell, the murderer of Mrs. Colvin, in Huntsburg, Ohio, last spring, has been found guilty of murder in the first degree.

NOTICES.

NOTICE

To the Tax Payers of the City of Pittsburgh.

THE CITY TREASURER is now prepared to receive Taxes payable at his office. Those who desire to avoid the rush of the last days can pay their Taxes at any time during the month of JUNE, and receive a receipt for the same, which will be received in payment of the FIRST Day of JULY NEXT without the penalty of 5 per cent. added to the Tax. WM. KIRKHAM, Treasurer.

NOTICE.

NOTICE IS HEREBY GIVEN that the copartnership heretofore existing between HENRY HARTMASTER and HENRY MARTIN, in the business of Boiler Makers, at the Foundry of HARTMASTER & MARTIN, was dissolved on the 20th day of June, 1866, by mutual consent.

HENRY HARTMASTER,
HENRY MARTIN.

NOTICE.

HOLDERS OF SIXTH WARD BOUNTY LOAN BONDS are hereby notified that the Loan Commissioners will be open at the Mill Run Schoolhouse, on the 4th day of July, 1866, from 1 to 5 o'clock P. M., for the purpose of funding the Bounty Loan of the SIXTH WARD.

SIXTH WARD SCHOOL BOARD.

NOTICE.

THE REMAINING PART of the property for sale and sold by Boyd & Adams, will be sold on the 1st of July, by Boyd & Adams, for dividing purposes of the city to be sold at Boyd & Adams' office, corner of Diamond and Market streets, or to RICHARD ALLEN, Esq., on Lot No. 1, Fourth Street.

SEWING MACHINES.

WHEELER & WILSON'S

IMPROVED

FAMILY SEWING MACHINES.

FOR

CORDING.

They are admirable.

FOR

QUILTING.

They are unequalled.

FOR

HEMMING.

They are unapproachable.

FOR

FELLING.

They are unsurpassed.

FOR

STITCHING.

They are faultless.

An examination will convince that they are the best Machines in the world.

Salesroom, 27 Fifth Street.

WM. SUMNER & CO.

THE

BARTLETT

SEWING MACHINE,

Pronounced by all who have seen it the simple, at machine now before the public.

It is as effective and durable as it is simple, and as practical as it is durable. It has but to be seen to be admired, and used to be appreciated. It combines the elements of a

PERFECT PRACTICAL MACHINE

And is afforded at a price within the range of nearly every family in the land.

The only one now offered Machine in the United States that can be sold, as the Unknown rule is purchase them, or in any way to have anything to do with them.

Rumors of a cabinet changes are again revived. This time the places of only Harlan and Speed are to be made vacant.

Lieutenant Pearson has accepted the position of Second Vice President of the Washington National Monument Society which was, until his recent death, filled by Lieutenant General Scott.

On Monday, evening next the House Committee on Foreign Affairs will bring forward their reports on the Mexican question and the Fenian affair in regard to the latter they will report adversely to the proposed repeal of the neutrality laws, and so far as known, they are also opposed to any indorsement of the Mexican loan.

The Senate is having quite a spicy time in executive session on the question of ratifying several Indian treaties which were made last fall. The opponents of their ratification claim that they are improperly made, and will prove sacrifices.

The Postmaster General sends a communication to Congress calling attention to the abuses of the franking privilege in the use of the franks of members by claim agents, patent agents, &c. The Postmaster general says the practice has become so serious evil, lessening considerably the postal revenues and hampering the operations of the department. The Postmaster General is powerless to arrest this evil, while members of Congress permit their packets or other persons to write their names upon envelopes, and seem to permit the use of no *semi-franks*, neither of which has the sanction of law. Members are rather slow
