FROM KANSAS.—The advices from Kansas say that no election was held at Leavenworth, or at other points in that Territory on the day fixed for the election, the State officers fearing violence from the Missourians.

Letters state that another general invasion was apprehended, and that extensive warlike preparations were going on in Lawrence and Topeka.

No intelligence of the alleged new difficulties in Kansas has been received, and the papers make no mention of any fresh disturbances of moment.

"INDIA: *Or, the Pearl of Pearl River.* By the distinguished American Authoress, Mrs. E. D. E. N. SOUTHWORTH," is a work now in press, and to be published on the 8th inst., by T. B. PETERSON, 102 Chestnut street, Phila. The authoress is one of the most unexceptionable writers of fiction, and has located the scene of her forthcoming work in the South-West.

Issued in one large duodecimo volume, neatly bound in cloth, for $1,25; or in two volumes, paper cover, for $1. Either edition sent by mail to any part of the U. S., post-paid, on receipt of the price.

THE LEGISLATURE.—We have looked through proceedings of the Legislature for the last few days and we do not find anything of local or general importance.

In the Senate, the bill from the House, to repeal the Liquor law was taken up and made the order for Wednesday last. There seems to be a strong opposition to it in that body.

MISS MURRY'S NEW BOOK.—It is stated that the Queen would not see her maid of honor, Miss MURRY, upon her return from the United States, and signified to her that if she published a defence of slavery, she must resign her place. Miss MURRY has done so, and is no longer a member of the royal household.

THE PRESIDENCY.—The Democratic State Convention of Georgia, as well as Alabama, has declared in favor of the re-election of President Pierce.

FAUSTIN I, Emperor of Hayti, has met with a severe repulse in his effort to conquer the Dominicans, who inhabit a portion of that island, his army of eighteen thousand men having been attacked and routed by four hundred of the enemy, who captured his military chest, containing three millions in Haytien notes, and $80,000 in specie—together with the guns, baggage and ammunition of the invaders.

THE ELECTRO CHEMICAL BATH, AND DIRECT & TO-&-FRO ELECTRO MAGNETIC MACHINE.

JAMES HARRIS, ELECTRICIAN, of Towanda, respectfully informs the public that he has lately procured from New York the celebrated Electro-Chemical Bath, which has proven to be one of the most important and wonderful discoveries of the age, from its ability to extract minerals from the human system.

Some eight years ago, a physician of Cincinnati discovered the process of extracting minerals from the body, by galvanism; more recently, M. Verges, of New York, an electro-gilder, having suffered from the introduction of poisonous minerals into his system in the prosecution of his art, conceived the idea of removing them by the same processes, he succeeded in doing so, and quickly recovered.

He then applied the same means to others similarly affected, with like results. His success exceeded his most sanguine expectations, for not only did these Baths remove mineral poisons, but cured many diseases, some of which were the result of minerals, and some were not.

More recent experiments have fully confirmed the singular power of this Bath to draw from the system all minerals that may be lodged therein, to the great detriment of health. Very often persons are afflicted by diseases which are beyond the comprehension of the most skilful physicians, and which are the effect of poisonous minerals accumulating in the system for years, taken in the shape of calomel, lead, &c. &c.

The following are some of the diseases cured by these baths: Rheumatism, Paralysis, Palsy, Painter's Cholic, Chronic Ulcers, Glandular Swellings, Scrofula, Cancer, Neuralia in all its forms, Salt Rheum and Humors of all kinds.

He has also S. B. Smith's newly invented DIRECT AND TO-AND-FRO ELECTRO MAGNETIC MACHINE, which is a great improvement on the Magnetic machines heretofore in use. With the aid of the Bath and Machine, we have at command all the available medical efficiency of Electricity. The medical power of the Machine is very great, in introducing medicines into the system through the pores of the skin—applying it directly to the parts affected, which gives an increase of medicinal power over that of taking it into the stomach, rendering it particularly efficacious in all local diseases.

I am now prepared to apply these Baths, and also the Machines, at my house in the south part of the borough of Towanda, or I will visit patients at a distance, who are unable by reason of disease to come to this place, at moderate prices.

I am also sole agent for Bradford county, for the above Machines. JAMES HARRIS.
