Gladding's Hay Elevator.

THE above engraving is intended to represent a HAY ELEVATOR, or Horse Power Pitchfork, patented last season by C. E. GLADDING, of Troy, Pa. This Elevator possesses many important advantages over all other forks, among which are the following:—The tines being allowed to drop to discharge its load, the tilting of the handle as in other power forks, is avoided; hence, hay can be unloaded with the utmost facility and ease into shed windows or beneath purlin beams, and many places where other Horse Forks cannot be used. The Elevator can in all cases be managed with greater ease than any other Horse Fork. It is also well adapted to stacking. With this Fork a ton of hay can be unloaded in from five to seven minutes. This Elevator received the first premium after thorough trial and competition, at the last New York and Pennsylvania State Fairs.

TESTIMONIALS.

HORNBY, N. Y., Aug. 31, 1858.
I hereby certify that I have witnessed the operation of C. E. Gladding's Patent Horse Pitchfork, an I am free to say that I esteem it a great acquisition to the Agricultural department. Its simplicity, durability, perfect operation, and comparatively trifling expense, recommends it to the farmers of our country. A. B. DICKINSON.

NORTHUMBERLAND, Pa., Oct. 1, 1858.
Having been acquainted with Horse Power Pitchforks for several years, and having witnessed the operation of Mr. Gladding's Patent Improvement of the same, I cheerfully recommend it to the farming community as decidedly the best I am acquainted with. A. E. KAPP.
February 13, 1859.

I hereby testify that I have for some years been using the common Horse Power Pitchfork, and have seen C. E. Gladding's Patent Improvement, and do most cheerfully recommend it in every respect—a decided improvement.
SAMUEL LEVERICH,
E. S. CARPENTER.

☞ The above testimonials are selected from many others, the signers being generally known as distinguished agriculturists. All who have seen it operate agree in the above opinions of its merits.
