CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE.)

Stagnant Ponds in Allegheny.

MESSRS. EDITORS:—Through the medium of your paper, I wish to call the attention of the citizens of Allegheny, to the fact, that the lower portion of that city lying along the line of Rebecca street is, to a considerable extent, covered by ponds of stagnant water. Near the Gas Works there is one large pond, the surface of which is completely covered with a green scum; the miasma arising therefrom must be exceedingly hurtful to the health of the people in that vicinity. Cases of fever and ague have occurred lately, and I am informed that an eminent physician of Pittsburgh refused some time since to attend a family living near these ponds, who had typhoid fever, assigning as a reason that no medicine which he might give could counteract the effect of the poison daily taken into the system from this source.

The citizens who live near these ponds, are, many of them, persons of means and influence, yet they seem completely indifferent to the fact that the atmosphere which they and their families breathe, is tainted to a most alarming degree. So far as I can ascertain not one of them has ever entered a complaint to the proper authorities, with regard to these ponds, or taken any steps towards their removal. Just now, people are alarmed at the threatened attack of cholera; but in my opinion a visitation of that scourge which would carry off a few of our wealthy but ignorant citizens, would prove a public blessing, by rousing the remainder to a sense of what is a constant source of disease.

Intelligent physicians are very well aware that the ravages made by cholera at any one time, are inferior to the aggregate number of deaths which from year to year occur from a constantly poisoned atmosphere. Providence mercifully sends the cholera at intervals, which by carrying off a number of victims at once, impresses us with the necessity of having better sanitary arrangements, though the necessity really exists all the time, and if we were not criminally ignorant and careless, we should be native to the fact that most diseases which inflict us, are either owing or aggravated by want of attention to these matters in our homes and surroundings.

I do hope, Messrs. Editors, that whether the cholera visits us or not, that the intelligent and humane portion of the citizens of Allegheny will take this matter in hand, and allow no man to keep—as a citizen of the First Ward is doing—a pond of stagnant water on his property, endangering the health of the whole surrounding community. Let the matter be attended to without delay.

HUMANITY.

Consumption.

There is no disease known to man that claims every year more victims than the one named above, and there is likewise no disease the treatment for which has undergone so many changes. The ab-lorement of old theories and treatment, almost necessarily leads one to the belief that there is no cure, for it and when we speak of consumption as already existing, in a full developed state, with the lungs partly or wholly destroyed, that truth is obvious in almost any one having any knowledge of their structure and use. But when the disease is in its incipiency, before the lesion of structure has taken place, then it is a disease as curable as any other in the catalogue of human ills. When it is remembered that consumption is a disease that consumes the lungs, or whatever organ may be affected, we do not wonder that a consumed lung cannot be reproduced any more than can a leg or an arm that has been shot off by a cannon ball, or cut off by a knife. The ravages of the disease may be stayed; has been stayed often, with one lung destroyed, but the destroyed part has never been known to be reproduced. There is no medical compound in nature's most hidden resources that is able to restore a lost limb or a lung half eaten away. The treatment should be, to save what is left. Stop the disease in its inclipiency. If that is neglected, stop it half way in its ravages. No bounds, no tasty nor bitters is able to do this; it must be palliative, healing nutritient and tonic in its properties. The first approach of a cough must be attended to; that once checked, the disease goes no farther—damp feet, unnutritious diet, sparse clothing, all contribute to bring on the disease and hasten its progress—these must be avoided, and consumption will rarely take hold of the system. The best remedy yet discovered, for the cure of the incipiency of the disease is Dr. Keyser's Pectoral Syrup. It has annually cured thousands of coughs and colds; one or two doses of it have been known to cure the most violent symptoms, which, if neglected, would have led to consumption and an untimely grave. The certificates of its efficacy are numerous, and of such character as to establish its merits beyond all controversy. This medicine has now been compounds for over twenty years, and has gradually gained in public confidence until its usefulness is no longer a matter of dispute. Hundreds of persons who have slight, and what they deem trifling coughs, could be cured within a few doses of this medicine, which, if neglected, would probably lead to some incurable disease of the lungs.

Ask for Dr. Keyser's Pectoral Syrup, at 140 Wood street. Consulting office, 130 Penn street.

Watch Presentation.

Thos. J. May, Esq., having, on account of ill health, resigned his position as Freight Agent of the Cleveland and Pittsburgh Railroad Company, was, on Thursday evening last, made the recipient of a splendid gold watch and chain, presented to him by the employees of the company, as a testimonial of the high and well merited esteem they hold for him as a gentleman and as a valuable and respected officer of the corporation. The meeting, which was held at the office of the Company, on Penn street, was called to order by Mr. Henry Wickham, after which Wm. Stewart, Esq., General Freight Agent, proceeded with the presentation speech, which was very appropriate, expressing the deepest sympathies and regrets of his many friends that the afflicting hand of Providence had necessitated his resignation, and extending the best wishes of all for his future health and prosperity. Mr. May responded in a few feeling remarks, offering to the donors his thanks, and expressing his grateful feelings. The watch, which bears the donors inscription neatly engraved, is one of the Beasley manufacture, perfect in every respect. After the presentation ceremonies had ended, the occasion was celebrated by an oyster supper, after which the company dispersed.

A Woman Terribly Burned by the Explosion of a Lamp.

A distressing accident occurred in the village of East Liberty, Collins township, yesterday which will probably result in the death of an old lady, a Mrs. Kelly. She had been sewing by the light of a kerosene oil lamp, which, after a time, began to flicker and threatened to extinguish itself. Mrs. Kelly took the lamp to the store to ascertain what was the cause, when it exploded, the contents flowing over her clothing and instantly igniting them. Her screams for aid attracted the attention of the neighbors, who came to her assistance and after some difficulty the flames, which at one time almost enveloped her person, were extinguished. On removing the remnants of her clothing it was discovered that her right side and arm was one great charred mass. She was taken to the Mercy Hospital, during this day, where Dr. E. Donelly dressed her injuries. Her recovery is considered almost hopeless. This is doubtless another victim added to the long category of those who have sacrificed their lives through their own carelessness in handling kerosene lamps without due caution.

A War of the Sexes.

Lizzie Richards and Noah Smith belong to that peculiar race whose great progenitor is said to have been the patriarchal Ham. Yesterday the good feeling which had existed between them for years was ruptured by something Noah said about the fair Lizzie, relative to her character for peace and good behavior and she accordingly perpetrated on the manly form of her traducer an aggravated assault and battery, for doing which she was arraigned before Alderman Butler, and, after a hearing, committed to the seclusion of the county jail to await trial. No subsequent appearance before Alderman Lynch and instituted legal proceedings against Noah for surety of the peace. The scamp declared he had never said "aught to mar the peace" of Lizzie, and begged piteously to be discharged. The female argued the law points of her own case with a vigor that bore with it a conviction that was irresistible, and Noah was therefore forced to furnish bail in the sum of $200 to answer the charge at court.

$60 Weed Sewing Machine.—Adopted for every description of family sewing and tailoring.

LOCK STITCH—The best in use—stitches alike on both sides the cheapest machine by twenty per cent. in use, and will sew faster, and it gives satisfaction in all cases. Plain finish up to mahogany finish with pearl, silver plated and rosewood.

Also the Finkle & Lyon.

(2) Shaw & Clark's Sewing Machines, warranted five years. H. H. Long, Agent, No. 42 Grant street, opposite the Cathedral. See advertisement in another column.

Death of M. F. Stewart, Esq.—We regret to announce this morning the death of Matthew I. Stewart, Esq., which occurred in Philadelphia on Wednesday evening. Mr. Stewart was a resident of Allegheny City, and has been a member of the bar of this city for many years past. He was well known in this community, and highly esteemed by all with whom he was acquainted, for his uniform affability and kindness of heart. His numerous friends will hear of his demise with sincere sorrow.

For Europe.—Our highly esteemed and philanthropic fellow citizen, Maj. Wm. Frew, and family, together with a couple of Pittsburgh ladies, left on Wednesday on an extended tour of pleasure throughout Europe. The excursionists will be absent about one year, and through the *Gazette* our readers will be furnished with their notes by the wayside. We wish them, one and all, a safe and pleasant journey through foreign lands.

In Switzerland.—Our esteemed friends Robert Arthurs, Esq., lady and children, are now rusticating at Vevay, in Switzerland. They will remain there for several months, and then will spend about four through the more important countries of Europe. They are all much delighted with Switzerland and its beautiful scenaries.

Hot for Paris.—A number of gentlemen of this city are forming an excursion party to visit Paris in April next, in order to be in attendance at the French Universal Exposition.

Attention is called to the change of time of the Allegheny Valley Railroad, in to-days paper.

Special Notice.—St. Anthony's Soothing Syrup has become so popular that various parties have run out articles calling them Mrs. Winslow's Soothing Syrup, to deceive the public. Mrs. Winslow's Soothing Syrup is not sold in any other way than with the fac-simile of her signature on the outside wrapper. Sold by all druggists.

EARLY TELEGRAMS.

From Mexico—Maximilian's New Ministry.

NEW YORK, October 12.—The *Herald's* City of Mexico correspondence, dated September 28th, says: Maximilian's new ministry was very active and industrious, but had done nothing to restore public confidence.

The compact between the Emperor and the Church party is virtually to turn over the power into their hands, on the receipt of twenty-five million dollars, Maximilian to be merely an Executive.

An order was issued on the 22th inst. to send 2,000 troops to move towards Durango and San Luis Potosi in order to repossess the northern departments.

The Church party have commenced operations by declaring that the abuses of the press should be suppressed.

Maximilian remarked in conversation that the losses received by President Johnson on his tour might be considered as good news for the Empire.

Mr. Otterburg, the United States Consul, had left for New York on a leave of absence. A banquet was given him by the Americans in the city, at which the Confederate cities made speeches expressing their strong love for the Union.

Marshal Bazaine had issued orders deferring the departure of the French troops for the present, and Maximilian was impressed with the idea that another revolution was imminent in the United States, which would secure him upon his throne.

The date from Fern are to September 2d. By a recent law, foreigners in Fern are required to pay sixteen dollars poll tax.

Unitarian Convention.

NEW YORK, October 12—*The Tribune's* Syracuse special of last evening says: The Unitarians to-day considered and adopted propositions for a more perfect organization of their society. In the afternoon the question of how to procure a great supply of ministers was taken up and discussed, and during the proceedings the sum of thirty thousand dollars was pledged for the use of the Meadville Theological school. There were voices of respect for the Cambridge Theological school and its professors, recommending to the churches to raise for denominational purposes, annually, the sum of one hundred thousand dollars; appraising and promising cooperation in the temperance movement, and extending fraternity to the Universalists. The meeting to-day was very lively, and enthusiastic. The Conference adjourned till 1868.

Cholera Report—Order Countermanded.

NEW YORK, Oct. 12.—Two cases of cholera were reported yesterday in the city. Two new cases were admitted to the hospital ship Falcon from the steamship Helvetia, and six deaths occurred.

The Board of Health was in session yesterday, and decided that as the cholera had disappeared no more daily bulletins will be issued.

There is no cholera on Governor's Island nor on Bedloe's Island.

The officers of the army who were to start for the Pacific coast and the frontier yesterday, had their orders countermanded, and it is not known now when they will start.

Gonzales and Pelitier Hung—Full Confession.

NEW YORK, October 12.—Gonzales and Pelitier were executed shortly after ten o'clock to-day in Richmond street jail, Brooklyn, within a few blocks of the house of the murdered Senor Orero. They made a full confession of their participation in the crime, and charged Vigo with being the planner and chief actor. Neither of them manifested any particular emotion, Gonzales seemed to be somewhat frightened, but Pelitier was calm and composed. The fall was not broken by the fall, but death was very quick. There was no struggle on Gonzale's part, but Pelitier's contortions were terrible for some minutes.

From Canada—Apprehensions of a Raid Dispelled.

NEW YORK, October 12.—A *Herald* Toronto dispatch says: All apprehensions of Fenian raids has been dispelled in the minds of the Canadians, and the Canadian government has been notified that no more troops are needed. The Toronto and administration state that the English Government intends assisting the suppression of the Fenian organization by the application of the neutral laws, if they thought to aid the Copperheads in dividing the Union with a few Armstrong guns.

The Flood not yet Subsided—$300,000 Worth of Property Destroyed.

NEW YORK, October 12.—Neither the flood nor the rain have yet subsided in these parts. At this writing at least half a million of dollars worth of property has been swept away by the overflow of the Canal and river at Lockport, Niagara, Rochester, and all the cellars are flooded, and two new sewers, costing an aggregate of fifty thousand dollars, have broken way, rendering whole blocks of the streets they traverse impassable.

Revolt Among Chinese Coolies.

NEW YORK, October 12.—The *Herald's* Havana correspondent says there were a few cases of cholera on board the ship, but that the small-pox had re-appeared. Chinese coolies were revolting among the Chinese Coolies were very frequent, and on the 29 it was reported a factory was killed by the workmen.

Quarantine regulations remain unchanged.

Removal of Arms.

NEW YORK, October 12.—The *Tribune's* special says by request of the County Court of Calloway county, the state government of Missouri has removed a large amount of arms from Fulton to Jefferson city, for safe keeping. It is reported that an armed organization is forming to rescue them into Calloway.

Richest Gold Mine in the World.

NEW YORK, October 12.—The *Herald's* correspondent in Franklin county, North Carolina, says the gold mine at Portis is the richest surface mine in the world. A wealthy company is investing $500,000 in the enterprise of working it.

Body of a Murdered Man Found.

NEW YORK, Oct. 12.—The body of a murdered man was found in the woods near Newton, L. I., yesterday, his head having been crushed in with a stone. His person were marked "James Maher."

DISSOLUTION OF PARTNERSHIP.

THE FIRM OF JOSHUA RHODES & CO. is this day dissolved by mutual consent. Either of the partners will sign the name of the late firm in settling up the old business at the office of the Pittsburgh Brewery.

JOSHUA RHODES,
JOHN H. LATSHAW,
JACOB A. DELLER.

Having disposed of our entire Brewery, Malting and Hop Business to Messrs. JOHN H. LATSHAW & CO., we would respectfully solicit a continuance of the patronage so liberally bestowed upon the firm of JOSHUA RHODES & CO., and we feel assured that they will in future, as we have heretofore, merit the confidence of our friends.

JOSHUA RHODES & CO.

Referring to the above, we would inform the public that we will keep nothing about our premises but the best quality of Malt and Hops, the product of the firm of JOSHUA RHODES & CO., and from our long experience in the business, we feel satisfied that we will be enabled to give entire satisfaction to those who may favor us with their orders.
