Pittsburgh Gazette.

TUESDAY MORNING.....OCT. 6, 1863.

LOCAL INTELLIGENCE.

From Yesterday's Evening Edition.

Serious Accident.

On Sunday evening, about eight o'clock, Mr. George G. Harings, a resident of Fayette county, fell into the excavation at the Northwest corner of the new market house, in Allegheny, and was very seriously injured. Mr. Herings is a carpenter, and had been working about the house lately. Not being aware of the excavation in the sidewalk, and there being no barricade to warn him of his danger, he fell headlong into it by a distance of eight or ten feet. The left side of the face was terribly lacerated, and the eye badly injured. The right wrist was dislocated, and he sustained an injury to the back, which gives considerable trouble. He was able to walk about to-day, but will not be fit for work for some time. The contractor should be held to account for his negligence in not putting up a proper barricade. The man intends to bring a suit for damages against the city.

Sick Soldiers at Home.

Several hundred soldiers, from the hospitals in the East, have arrived in this city during the past few days, and will, if in their proper residences, be entitled to vote at the ensuing election. We learn that all the soldiers in the Washington hospitals, who were fit for active service, have lately been sent to their regiments, while those unable to perform military service have been granted furloughs. This is but a simple act of justice, as the men who fight for their country are certainly entitled to have a voice in the election of their rulers, although thousands of them now in the field have been deprived of this privilege by Judges Woodward and Lowrie. We hope that every soldier not fit to fight, will be sent home to vote.

The Circuit Court.

The October term of the Criminal Court commenced this morning, but no business of importance was transacted. A few trifling cases of surety of the peace were disposed of, in addition to receiving the regular returns of the district constables under the liquor law. The term will be quite lengthy, as the criminal calendar is fuller than usual. There are three cases of homicide awaiting trial—those of Stapleton, Lauth and Golden. These, if tried, will consume considerable time. The number of parties in jail for larceny, and other offenses, is quite large.

ACCIDENTS.—On Friday night, Mr. A Fryer of the firm of Fryer & Beattie, steamboat joiners, while working about some machinery in their planing mill, had his left hand severed through the palm, by coming in contact with a circular saw. The hand was subsequently amputated at the wrist, by Dr. Dilworth.....On Saturday evening, Mr. Wm. Ritchie, of Sewickleyville, fell into the cellar way at Henderson's drug store, Liberty street, and was very severely, but not dangerously injured. He had been in conversation with some friends at the drug store, and was about to leave when the accident happened.

FRANK LESLIE'S TEN CENT MONTHLY.—The November number of this new monthly, (which is its fourth issue), presents the same features we noticed in its predecessors. With abundant resources for illustrations, stories, etc., a cheap monthly, "devoted to light and entertaining literature," in the hands of Frank Leslie, cannot fail to become popular.

MEANOR'S HOUSE AT AUCTION.—The attention of those wishing to purchase valuable city property is directed to the auction advertisement of Davis & McIlwaine, who will sell at their second floor sales room, 54 Fifth street, Tuesday evening, at 7½ o'clock, that desirable stand on Fourth street, between Ferry and Market, known as Meanor's Hotel.

THE IRON FOUNDERY and machinery in Duquesne borough, lately used by Kloman & Brother, will be sold on Tuesday evening, at 7½ o'clock, by Davis & McIlwaine, in their second floor sales room, No. 54 Fifth street. At the same time a list of valuable stocks will also be sold.

JO DAVIDS' CLIENT; OR COURTING IN KENTUCKY.—This new story is by Mrs. M. V. Victor, author of "The Gold Hunters," etc., and appears in that popular series, *Beadle's Dime Novels*. It is for sale by J. W. Pittock, opposite the Post-office.

IMPORTANT NOTICE.—The Deputy Marshals who made the Military Enrollment for Allegheny county, in 1863, will receive their compensation by calling at the office of the United States Marshal.

DOLLAR MONTHLY.—The November number of this exceedingly cheap monthly is now out, and may be had at Pittock's, opposite the Post-office. Price, 10 cents.

CARPETS—OIL CLOTHS.

BARGAINS IN CARPETS.

JUST OPENED, AT

M'Callum's,

87 FOURTH STREET,

A large assortment, which will be sold at a very great reduction from late prices.

W. D. & H. M'CALLUM.

CARPETS!

REDDUCED PRICES!

By exclusively cash purchases, made during the recent decline in the Eastern Markets, we are enabled to offer the finest assortment of goods ever brought to the city, consisting of

VELVETS, BRUSSELS, IMPERIAL 3 PLY, INGRAINS, HEMP AND RAG

CARPETS!

FLOOR AND TABLE

OIL CLOTHS!

Window Shades,

Piano and Table Covers.

AT UNUSUALLY LOW RATES.

Also, a well selected stock of MATTINGS, purchased for the Spring trade, which we will dispose of at greatly reduced prices, to make room for other goods.

Persons would do well to call and examine our stock, as we are confident we can offer greater inducements than any other house in the city.

OLIVER M'CLINTOCK & CO.,

No. 52 FIFTH STREET.

NEW FALL STOCK JUST OPENED AT THE

NEW CARPET STORE OF

McFarland, Collins & Co.,

71 AND 73 FIFTH ST.,

Below the Post Office and Dispatch Building.

AT PRICES OF A YEAR AGO.

By our reduction in prices we have almost closed out our former purchases, and now offer to buyers at wholesale and retail

AN ENTIRELY NEW AND FRESH STOCK,

Unsurpassed by any one offered in this city.

BASE.—10 dozen Twilled Hose for sale by GEORGE H. GILLIGAN.

LATE TELEGRAPHIC NEWS.

EXPEDITION OF THE 15th PENNSYLVANIA CAVALRY.

Secretary Chase's Views of the Price of Gold.

IMPORTANT FROM ST. DOMINGO.

A Fortification Near Mobile Taken.

CONDITION OF AFFAIRS IN MISSISSIPPI.

&c., &c., &c.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, Oct. 6, 1863.

An expedition under the command of Capt. Kerr, of the Fifth Pennsylvania cavalry, has just returned from a scout on the Atlantic coast, as far as the State line of North Carolina. In June last the rams works were demolished by Major Murray, of the 168th New York, but since that time they have been rebuilt and in full operation. No guerrillas were seen, but it was ascertained that six small boats filled with them crossed Currituck Sound on Monday last.

A prominent financier states that Secretary Chase has expressed a wish that gold should remain at forty to fifty per cent. premium, to prevent large importations of foreign goods and consequent exportation of gold to pay for them. This rate of premium on gold would have a tendency to encourage the exportation of our products and manufactures, because of the difference of exchange between Europe and this country.

We have important news from Saint Domingo. The Dominican authorities at the city of Saint Jago have notified President Geffrard, at Port Au Prince, that the Dominicans have driven the Spaniards from their outposts, and that a garrison of the city at Saint Domingo capitulated and left for Havana or St. Jago de Cuba, and that the present Government propose to annex themselves to Geffrard's government. In the event of a refusal the Dominicans will apply to the United States Government for assistance.

A late brilliant reconnoissance near Mobile deprives that port of one of its fortifications. No other definite result, except valuable information.

A ruined planter, from Mississippi, arrived here this morning; he says the rebel authorities, not content with having stripped the planters of Mississippi of almost their entire wealth, now make them victims of land pirates and robbers, whose only aim seems to be to destroy everything of value in a region where they have been defeated in honorable warfare.

Large quantities of cotton are arriving at New Orleans from Natchez and the Lower Mississippi in considerable quantities, when compared with that destroyed by Col. Logan's guerrillas on the Eastern side, and General Green's forces on the Western side of the river.

A plot of the rebel government has been fully discovered to destroy all the steamers on the Mississippi. Incendiaries have been employed by the authorities at Richmond to fire every steamer navigating the Lower Mississippi and Ohio rivers. Gen. Logan's cavalry cannot be driven from Mississippi with the means at our command.

There is nothing from Charleston, but indefinite rumors from the Potomac.

W. J. J.

Important from Europe.

NEW YORK, Oct. 5.—The steamship City of London, from Liverpool on the 23d ult., and Queenstown on the 24th, has arrived.

The withdrawal of Mason is confirmed.

The Times says: "If the Confederates are offended with England for trying to keep in the right, it is sorry for it, but the loss is chiefly, while the relief to the British Government will be great, and the nation will have nothing to repent."

A crowded meeting at Leeds, adopted resolutions rejoicing that the war was shaping itself into one for the destruction of slavery, denouncing the building of war ships for the Confederates, and applauding the government for detaining those built.

The Times' city article warns the Government against going too far in stopping ship building for the Confederate while munitions of war are being freely supplied. It says the course bears too much resemblance to the views of Federal politicians.

The La France says the Federal corvette Kearsage, at Brest, will receive precisely the same treatment accorded to the Florida. Each vessel will enjoy the same rights and advantages.

The Europe, of Frankfort, asserts that the Archduke Maximilian finally accepted the Mexican crown, with all risks and perils even overturning his rights and prerogatives under the Austrian throne.

The Paris correspondent of the *Morning Post* asserts that the Washington Government assisted Juarez with arms and ammunition.

The Paris *Moniteur* publishes an address, dated August 15th, by the Polish National Government to Prince Czartoriesky. It has already appeared in the English journals. The event created a sensation. It caused a fall on the Bourse. Many journals regard it as a virtual recognition of the Poles as belligerents.

Russia continues warlike preparations.

LIVERPOOL, Sept. 23, P. M.—Cotton sales of three days, including to-day, (Wednesday,) were 45,000 bales. Prices further advanced about 1\|16@1/8 all round since Europa sailed. Breadstuffs.—Richardson & Spence, Wakefield, Nash and others report flour dull and again rather lower. Wheat quiet and prices irregular; mixed Western, 7s@8s 3d; White, 9s@9s. 3d.—per Central. Corn quiet and tending downward; mixed, 26s 3d. Provisions.—Beef and Pork unchanged; Bacon quiet and unsettled; Lard very quiet, at late rates; Tallow firmer and partially 6d@1s dearer. Produce quiet but steady. Sugar quiet, unchanged. Coffee firmer at extreme prices.

London Markets.—Breadstuffs declined lower for both wheat and flour. Sugar in better demand at a material improvement.

London Money Market.—English funds on the 22d declined ¼@⅜d. Consols continued weak, but steady at 93¾@93⅞ for money. American securities.—Illinois Central, 16 discount; Erie, 72¾.

Breadstuffs Quotations to the 24th.—The Great Western is forthwarding from American trips for the present.

The American ships Harpers and Anna F. Schmidt was foothowed by the pirate Alabama off Rio Janeiro. No date is given.

The political news to-day is unimportant.

Latest Commercial.—*Liverpool, Sept. 24.*—The cotton market is easier, with but little inquiry, and prices weak. Breadstuffs are dull but steady. Provisions quiet and steady.

London, Sept. 24.—Consols closed at 93¾@93⅞ for money.

Gen. Wheeler Badly Beaten.

LOUISVILLE, Oct. 5.—*Headquarters 1st Division Cavalry, near Danley, Oct. 3d.*—Col. Edward M. McCook, with the 1st Wisconsin and 24 Indiana Cavalry, attacked Wheeler's force, four thousand strong, at Anderson's Cross Roads, yesterday, and whipped them badly, killing and wounding one hundred and twenty, taking eighty-seven prisoners, recapturing all the Government property, including eight hundred and nine mules, and the prisoners taken from our train. Among the prisoners is a major on Wheeler's staff, commander of his escort; a major on General Martin's staff, Col. Russell, commanding a brigade, and nine other officers. The enemy was completely routed and driven ten miles.

Rebellion in St. Domingo.—Price Captured.

NEW YORK, Oct. 6.—The steamer Roanoke, from Havana the 30th ult., has arrived here. The rebellion in St. Domingo is increasing. The gunboat Kearsarge, which arrived at Havana on the 27th ult., reports that the Tioga took into Key West, the 22d, the brig steamer Herald, captured on board 1,200 bales of cotton. Agents for a new blockade-running company, with a capital of $3,000,000, were aboard. The Herald was the first vessel of the new line.

Great European War Predicted.

ROSECRANS HEAVILY REINFORCED

The Russian Vessels in our Ports.

NEW YORK, Oct. 5.—The *Tribune's* special dispatches state that gentlemen who are accustomed to watch the current of European politics, and are in receipt of private correspondence from well informed sources abroad, predict a great and general war, growing out of the Polish question, that will convulse Europe, by next Spring. It is believed at St. Petersburg that Russia will then have 1,000,000 men under arms, and will be prepared for any emergency.

It is conjectured here that the true explanation of the appearance of Russian vessels of war in our waters is to secure them from being blockaded in home ports, as was the case during the Crimean war.

All quiet along the lines is the report from the front. Soldiers have been both gladdened and plundered by the arrival of a long train of cars loaded with sutlers' goods.

It can do no harm now to say that arrangements for obtaining troops from Washington for the Department of the Cumberland have been brought to such perfection that soldiers who left here on Friday week, were on last Tuesday in such position as to render effective assistance to Gen. Rosecrans, who has by this time received heavy reinforcements.

General Blunt's Situation—Missouri Refugees at Leavenworth—Convention of Editors.

ST. LOUIS, Oct. 5.—The *Democrat's* Leavenworth special says: Gen. Blunt has left Fort Scott for Fort Smith. The guerrillas are cutting off his trains and the enemy around Fort Smith are in a menacing attitude.

The Mayor of Parkville and one hundred other citizens of Platte county, Missouri, made a statement to the effect that there are now in Leavenworth over one hundred Union men and families who have fled from Platte county, for fear of violence from the Moss militia man, and if a change in the condition of affairs is not soon made, the lives and property of the Union men of Platte county will be at the mercy of men whose loyalty has always been at best doubtful.

So many destitute refugees arrived at Leavenworth from Missouri, that the Mayor has been compelled to issue a proclamation to provide means to relieve their necessities.

A convention of all the editors of Kansas, will be held at Leavenworth on Wednesday, to arrange for concert of action on the military journals of the Department of Missouri.

Digest of Foreign News.

NEW YORK, Oct. 5.—The following is a digest of the news received by the steamer Sedon, which left Liverpool on the 23d, and Queenstown on the 24d. She has not yet arrived:

St. Helena advices of August 6th, state that the Alabama boarded a vessel off Cape Goodhope. It is reported that she has fitted out a barque as a privateer, and also that the Georgia was with her.

Pro-Southern English journals begin to see signs of a collapse in the South.

The Times, editorially, assumes that Maximilian will ascend the Mexican throne, and that the British Government will acknowledge the reorganization.

The Paris *Patrie* urges that the reply to Russia be a recognition of the Poles as belligerents.

Arrival of Sick Soldiers—Burning of the Robt. Campbell.

CAIRO, Oct. 4.—The hospital boat, B. C. Wood, from Vicksburg on the 28th, has arrived, she brought up four hundred and eighteen sick and convalescent soldiers. She left them at Memphis and took on board three hundred and eighty-seven others there, which she takes to St. Louis.

Part of the crew of the Robt. Campbell arrived, who represent a greater loss of life by the burning of that steamer at Island 40.

COMMERCIAL RECORD.

FINANCE AND TRADE.

MONDAY, Oct 5.—There is no new feature in domestic money matters worthy of special notice. Gold continues to advance steadily, our New York advices of to-day quoting at 144—an advance of nearly two per cent. since Saturday. The advance there will produce a corresponding result here, but there is so little coin offering, and the rates are so very irregular, that it is impossible to quote correctly.

It is stated that Secretary Chase has expressed a wish that Gold should remain at forty to fifty per cent premium, to prevent large importations of foreign goods, and consequent exportation of gold to pay for them. The rate of premium on gold would have a tendency to encourage the exportation of our products and manufactures, because of the difference of exchange between Europe and this country.

The following interesting article on our "New Financial System," is from the last number of the New York *Independent*:

The plan suggested by Secretary Chase, and adopted by Congress, to give the country a uniform currency, is as well matured as we need not wish it to be until tried. Already numerous banks, under this law, are being organized in every direction, and very soon, we shall begin to appreciate their benefits. We have seen drawings and proof-sheets of the new currency, and are happy to say that, as specimens of artistic skill and beauty, we never have seen them surpassed, if equaled.

We will mention a few of the reasons why the people generally will demand the prompt adoption of the system of Secretary Chase, and why every locality of much importance will soon have a "National Bank" 1st. It will give to the people a uniform currency—as it is designed, to furnishing banks, to have the bills of each denomination exactly alike.

2d. The engraving and entire workmanship of the bills will be in the very highest style of art, and consequently the business of counterfeiting will be practically ended.

3d. Every bill issued by every bank—no matter where located—will command the entire confidence of the community from one end of the nation to the other, and pass current at all times without a question.

4th. Each bank will have, as a basis for its circulation and as unquestionable protection to the public, precisely the same security, viz: Government stocks.

5th. The faith of the nation (not of a single State) will be pledged for the redemption of such a circulation, and therefore it should be preferred and sought after in all business circles.

6 th. Such a currency would be used as a medium of exchange from the Atlantic to the Pacific, and would save the country millions of dollars annually, now paid to brokers and shavers.

7th. No jealousy or opposition would or could exist between the banks, in a time of panic, on account of their relative solvency or safety. A small institution in Kansas would hold up its head as high as the proudest corporation in the city of New York.

8th. One of the strongest arguments in favor of the National Banking system is the great strength it will give to the Government, by creating in all quarters, city and country, a demand for United States securities—furnishing a permanent market for at least two or three hundred millions.

9th. All these National Banks, when established, may safely be used as Government depositories under the Internal Revenue law; and also, where there is no Sub-Treasury, for the safe keeping of custom house receipts, postage money, etc.

PITTSBURGH MARKETS.

MONDAY, October 5, 1863.

GRAIN AND FLOUR.—The grain market has been very quiet to-day, owing wholly to the fact that there is none in the market. Wheat is quiet but firm, and Red may be quoted at $1.15 from wagon. Corn is in fair demand at 85c from depot for Shelled, and $1.00 from store. Oats steady, with a good demand; sales at 71@72c by the car load; and 72@80c from store. Prime Barley is coming in very slowly, and sells readily at $1.25 from first hands. Rye firm at 90@95c. Flour steady, with small sales of Extra Family from store at $6.25@6.50 as to quality; sale to the trade of 400 bbls on private terms. Rye flour has advanced to $5.50@5.75 per bbl.

GROCERIES.—The grocery market continues to rule very firm, and prices are gradually advancing. Sugars are firm; and Raw may be quoted at 11@11½c, with small sales of prime Cuba at 11½c. Coffee is strong and higher, prices Rio selling readily at 31c. Molasses still with small sales at 60 to 65c for common to choice New Orleans. Syrups—small sales of well known brands at 75c.

HAY.—Continues quiet and rather dull, though prices are not quotably lower; sales from stalls of 7 loads at $30 to $34 per ton; also small sales of Baled at $28 to $30 per ton, as to quality.

SALT.—firm with an upward tendency; sale at Canal of 50 bbls No 1 Extra at $2.30 per bbl, and 1 car load on track at same figure.

ASHES.—steady but unchanged; sale of 100 casks Pearls at 8c per pound, net cash.

CHEESE.—firm, and receipts limited; sales in lots of 60 bbs W R at 12½c and 25 bxs prime large do at 12½c.

POTATOES.—Prime Mechannocks and Peach Blows are selling from store in the small way at $2@2.00 per bush; sale of 500 bush Common Mechannocks at 70c.

New Jersey Sweet Potatoes may be quoted at $5 per bbl.

APPLES.—There is a slight improvement in the demand, though prices are unchanged, ranging from $2.50 to $3.25 per bbl, for common to prime.

LARD OIL.—sale of 30 bbls No 1 at 80c per gallon.

Pittsburgh Petroleum Market.

OCT. 5.—The market for Crude was rather dull to-day, and prices declined fully one-half cent per gallon; sale of 200 bbls at 26¾c, packages returned, and 100 bbls at same figure. The demand is limited, and confined entirely to the wants of our refiners, as there is no margin whatever for shipment to the eastern markets. Refined, in bond, is very dull, and to effect sales, a material concession would have to be made. There have been no transactions for several days, and as the market is unsettled, we omit quotations. Refined, free, is more active, and, with a fair western demand, prices, as yet, are fully maintained. Sale of 110 bbls "Iron City" to go to Chicago, at 55c and 50 bbls "Petrona," to go to Minnesota, at same figure. Residium is in good request, and we note a sale of 100 bbls, to be delivered within thirty days, at $4.00 per bbl; and we also heard heard of a sale at $4.12½. Benzine is quiet with an occasional small sale of deodorized at 20@21c.

As will be seen by reference to our dispatch the New York market was dull to-day, and Refined closed 2@2 cents per gallon lower.

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, Oct. 5.—Crude is dull but without material change, ranging from 34 to 35c Refined, in bond, is dull, and nominally 2@3c lower; sales at 52½@53c on the spot; 53@55c for October, and 56@60c for November. Free oil may be quoted at 60@63c. Naptha is dull and a shade lower, ruling at 27½@28c for Refined. C.

Weekly Review of the New York Petroleum Market.

[Reported Expressly for the Pittsburgh Gazette]

NEW YORK, Oct. 3, 1863.

The Petroleum market has ruled comparatively steady during the past week, though there has been a strong tendency to a lower range of prices all through, in view of which quotations to-day are somewhat lower than on Saturday last. Crude has met with a fair inquiry, and the sales have been fair, though at a lower range of prices, both for lots on spot and to arrive. The sales for the three days foot up 15,000 bbls, about half for future delivery. Sales on the spot have ranged from 34 to 35¾c. The market to-day has ruled dull at about 34@35 for lots on the spot. Future delivery nominal.

Refined has been rather more active during the week but as rather lower prices. Nearly all the sales on the spot have been at 55@57 cents, but the range is from 55 to 58 cents The sales for the week comprise about 32,000 bbls, about half on the spot at the above range, but closing dull to-day at 55@56c on the spot. Future deliveries are nearly nominal at 56@60c for October and 62@65c for November. Free oil is less active and lower. The transactions for the week have been very light, comprising only about 2,000 bbls, on the spot at 55@56c; 500 gallons in tins at 80c, and 1,500 bbls Residium at $4.75. The market closed dull to-day at 65@67c. Nothing of consequence done to-day.

Naptha has ruled very quiet but firm. The sales are 200 bbls refined at 26½@27c, and 1,000 gallons in tins at 32c, cash. The market closed dull at 28@30c.

The stock of oil on the 1st inst., was 151,000 bbls, of which 105,000 bbls were Refined, including annual quantity of Residium and Naptha.

Philadelphia Petroleum Market

(Cabot & Pemberton's Circular.)

OCT. 3.—The market for Crude Petroleum has been rather dull since our last notice, and we reduce our quotations one cent ⅌ gallon, but Refined in bond, has been more inquired after at the close. There is a large foreign orders here for the arrival at a fraction below present asking rates. Sales of 300 barrels Crude at 35c; 2,000 bbls Refined in bond, for immediate delivery, at 57@58½c, and 500 bbls free at 67@68c cash; 1000 bbls in bond, for October delivery, buyers option, sold at 53@54c, half at each figure. The foreign advices are unfavorable for the article. The barque Native, for Cork and a market, is the only vessel on the berth for a foreign port. A schooner was taken for Boston at 700 ⅌ bbl.

The following are the receipts of Crude and Refined Petroleum at this port during the past week:

Crude, bbls	3,600
Refined, bbls	4,700

Chicago Market.

OCT. 3.—The New York advices caused a very quiet feeling to rule in the Flour market, and the market was dull and closed with a downward tendency. Holders of choice grades were not pressing sales, but if forced on the mark-t a decline would have to be submitted to. The sales were comparatively light. White Winter Extra selling at $4.75@5.75, as to quality; and Spring Extras at $3.35@3.60. The lower grades are very quiet. Rye Flour sold at $3.25 and is firm. The Wheat market opened in demand, active at a decline of ½@1c per bushel; but after the New York dispatches it closed dull at inside prices. The aggregate sales were fair at $1.09 for No. 1 Red; $1.06@1.07 for No. 2 Red, as to location; $1.05@1.03½ for No. 1 Spring; $1@1.01 for No. 2 Spring; and 93@96 for Rejected Spring—all in store. The Corn market was firmer and prices advanced ¼@1c per bushel, and closed firm. The receipts continue moderate and holds a sure and pressing sales. The demand is checked by the high prices asked, and the sales were comparatively light. The sales were at 74½c for High Mixed and 74@74½c for No. 1 in store; and 74@74½c for No. 2—closing firm. Oats met with a more active demand, and prices advanced 1@1½c per bush, and the market closed firm. There were a good many orders on the market. The sales were liberal at 54½@55c for No. 1 afloat; 52½@53½c for No. 1, and 51½@52c for No. 2 in store. Rye was firmer and better demand, and prices were a little better, with sales No. 1 in store at 83½@85c; and a no. 2 at 80c. Barley was easier, with a good demand for shipping, and a sale were made at $1.00@1.07 for No. 2 in store. With a steady market. Highwines were firm and active, and prices advanced ½@1c, and closed firm at the advance. The sales were at the range of 50@51c.

Cleveland Market.

OCT. 3.—Flour steady and unchanged; sale of 50 bbls choice white at $7 00. Wheat more active, firm and settled; sales on Change 2,000 bu Red afloat at $1 18, and 8 cars do on track at $1 18; this afternoon 1,000 bu Red and 1,000 bu White, both afloat, were sold on private terms. Corn continues firm and steady; sales this morning of 3 cars from store at 85; after Change, 4 cars on track sold at 84c. Oats firm and unchanged; sale 1 car on track at 63c. Cheese—stock light, and market very firm; held at 13@13½c. Highwines advanced 1c; sales 20 bbls at 52c, and holders very firm for to it in detail. Already numerous banks, under this law, are being organized in every direction, and very soon, we shall begin to appreciate their benefits. We have seen drawings and proof-sheets of the new currency, and are happy to say that, as specimens of artistic skill and beauty, we never have seen them surpassed, if equaled.

We will mention a few of the reasons why the people generally will demand the prompt adoption of the system of Secretary Chase, and why every locality of much importance will soon have a "National Bank"—

1st. It will give to the people a uniform currency—as it is designed, to furnishing banks, to have the bills of each denomination exactly alike.

2d. The engraving and entire workmanship of the bills will be in the very highest style of art, and consequently the business of counterfeiting will be practically ended.

3d. Every bill issued by every bank—no matter where located—will command the entire confidence of the community from one end of the nation to the other, and pass current at all times without a question.

4th. Each bank will have, as a basis for its circulation and as unquestionable protection to the public, precisely the same security, viz: Government stocks.

5th. The faith of the nation (not of a single State) will be pledged for the redemption of such a circulation, and therefore it should be preferred and sought after in all business circles.

6 th. Such a currency would be used as a medium of exchange from the Atlantic to the Pacific, and would save the country millions of dollars annually, now paid to brokers and shavers.

7th. No jealousy or opposition would or could exist between the banks, in a time of panic, on account of their relative solvency or safety. A small institution in Kansas would hold up its head as high as the proudest corporation in the city of New York.

8th. One of the strongest arguments in favor of the National Banking system is the great strength it will give to the Government, by creating in all quarters, city and country, a demand for United States securities—furnishing a permanent market for at least two or three hundred millions.

9th. All these National Banks, when established, may safely be used as Government depositories under the Internal Revenue law; and also, where there is no Sub-Treasury, for the safe keeping of custom house receipts, postage money, etc.

SEWING MACHINES.

GET THE BEST.

WHEELER & WILSON'S

SEWING MACHINES.

THE HIGHEST AUTHORITY IN THE LAND.

[*From the Scientific American.*]

"We are having a great many inquiries for Sewing Machines from various parts of the country, and as we cannot conveniently reply to them by mail, we thought it proper to state our opinion in regard to them in this public manner. We find that

WHEELER AND WILSON'S SEWING MACHINE,

and, so far as regard to it, that it is without a rival. No other machine exceeds it in its adaptation to all purposes of domestic use. It is simple, not easily got out of order, and in point of elegance and finish no other machine stands ahead of it. We state this more in regard to the excellent machine upon our own responsibility, and hope thereby to save our readers considerable time and postage in answering letters."

Call at the Agency, No 37 FIFTH STREET, and see them in operation.

Every Machine warranted three years.
