COMMERCIAL RECORD.

PITTSBURGH MARKETS.

[Reported Expressly for the Pittsburgh Gazette.]

Corn, also, is in demand, and the advance noted in our last, is fully maintained; we note sale of Ear at $1.30, 1.35 for Shelled. There is nothing doing in Rye Wheat or Barley.

PROVISIONS—Bacon is firm with a continued good jobbing demand, and prices fully sustained. We continue to quote at 12½@13 for Shoulders; 13¼@14 for Ribbed Sides and 14@15 for Clear do; 11@12½ for Plain Hams; 18¼@19 for Plain Sugar Cured and 20½@21½ for Canvassed do. Lard is steady with sales of country at 13½ and city at 14½.

GROCERIES—The demand for grocories continues light, and the market is quiet and dull, though prices are nominally unchanged. Sugar is steady with small sales at 17@18 for Cuba, and 19@21 for fair, to strictly prime New Orleans. Molasses may be quoted at $1.10@1.12 in cypress and $1.20 in oak packages. Coffee is firm with sales to a fair extent at 46 to 48, for common to prime Rio. Rice is held firmly, at 12@12½.

BUTTER AND LARD—The demand for Butter is very light, and with an accumulating stock, prices continue to decline. Few prime Roll, 25c is a fair quotation, although some small lots of very choice brought 28. Eggs steady with regular sales at 16@17 per dozen.

POTATOES—The receipts during the past few days have been unexpectedly large, and the market, in consequence, is a shade easier. Prices, however, have undergone no material change, as yet, though the tendency is downward—$1.20 to $1.25 ⅌ bush, and $3.75@4 ⅌ bbl.

FLOUR—There is no demand scarcely for this article, aside from local trade, and the market is quiet and dull, though unchanged. We note small sales at $7 for Extra, and $7.7583 for Extra Family.

BEANS—Sales of common at $1.50 per bush, and prime White at $2.75.

Lake Superior Iron.

The following from the *Marquette Journal* of April 16th, gives some details of value. The large product of the mines in 1862 and 1863 is a specially noticeable feature. The high price at which pig iron rated in 1863—$46 per ton—was doubtless the cause of this extraordinary development; and it is reasonable to anticipate that, with a continuance of IT prices ruling, under the extraordinary demand, and a tariff almost prohibitory of foreign iron, the yield of the present year will exceed even that of 1863.

Less than nine years ago the first shipment of iron ore from Lake Superior to the lower lake ports was made; the entire shipments for that year (1855) amounting to 1,447 tons. The business has since been steadily increasing, with wonderful rapidity and without interruption—except during the first year of the rebellion—until in 1863, the shipments reached 163,627 tons.

The following table shows the amount of annual shipments of ore from each working mine for the year 1855, to and including the past year:

	SHIPMENTS OF IRON ORE			
	Jackson Iron Co.	Cleveland Iron Co.	Lake Sup'r. Iron Co.	Total. Tons
Year.				
1855	1,447	.....	.....	1,447
1856	4,497	7,100	.....	11,597
1857	13,912	12,272	.....	26,184
1858	11,104	19,931	.....	31,035
1859	10,662	20,344	24,068	55,079
1860	41,287	42,926	33,016	116,228
1861	19,919	7,311	18,325	45,430
1862	42,157	55,244	27,710	125,121
1863	43,068	47,612	74,667	165,257
Total				609,848

These amounts, especially those for the last two years, fail far below the demand, the difficulty having been in procuring transportation for the ore, and men to mine it. The quantity actually spoken for to supply the various furnaces using this ore, before the opening of navigation in 1863, was over 140,000 tons, while in 1863, 250,000 tons would not have supplied the demand.

The following tab's shows the products of the several furnaces since the inauguration of the business, in 1853:

	PRODUCTS OF PIG IRON.				
	Pioneer Furn. Tons.	Collins Furnace Tons.	Northern Iron Co. Tons.	Value Yearly Iron Co. Tons.	Iron Co. per ton.
1853	1,337	.....	.....	.....	$25.00
1854	4,583	2,575	.....	.....	25.00
1855	2,500	1,050	.....	150	25.00
1856	6,500	3,000	2,420	900	24.00
1857	11,438	8,277	2,892	2,242	23.00
1858	8,217	9,241	2,026	1,901	45.00
1859	10,662	20,344	24,068		

Morgan Iron Company, 605 tons.

Estimated, except for 1863.

The running time of the several furnaces was as follows: Collins, 5½ months; Pioneer, 10 months (though for a part of this time it was working slowly for want of sufficient fuel); Northern Iron Company, 9 months; and Morgan, from the time of starting to the close of the year. The running time of the Pioneer we have not learned, but we think it has not exceeded five or six months.

The average value at Marquette of the ore shipped during the past year was $5 per ton, and that of pig iron produced $45 per ton, giving the aggregate value of the iron product of the country for 1863, $1,237,245.

The blast furnace will be made to turn out iron during the coming season nearer to its full capacity than ever before, while new ones will we doubt not, be added to the number. Large investments have been made in timbered land, along the line of the Marquette and Ontonagon and Peninsula railroad, as well as on Big Bay de Noquet, with a view to erect blast furnaces for the manufacture of charcoal pig iron. From the character of the parties interested and from the prospective value of pig iron, we cannot think the investments will be suffered to lie idle long, when they can be speedily made to pay so handsome a return as may be realized in this business.

Pittsburgh Petroleum Market.

MAY 7.—The market for Crude is less active, but holders are firm, and, as yet, there have been no sales at a decline. The stock is light, and with limited receipts and a fair demand, both for shipment and home use, the market may be termed steady at 24@24½ in bulk and 24½@25 in bbls. We note a sale of 1600 bbls, in bulk, at 24½, measured in boat, and 350 bbls—bbls to be returned—at same figures. Refined, also, is quiet but firm with no disposition on the part of sellers to force sales. Bonded may be fair y quoted at 51@52, on the point of shipment, for mid and delivery. Free oil is selling in small lots principally to the western trade, at 62 to 65, according to quality and quality. Naptha is nominally unchanged. Redistillate meets with a ready sale at 54.50 per bbl, and there is very little in the market.

The stock of Petroleum in New York on the 1st inst as reported by the Shipping List, is as follows:

	May 1.	April 1.	March 1.	Feb. 1.	Jan. 1
Crude	19,920	31,065	57,022	42,829	14,512
Refined	43,233	42,190	42,034	50,105	61,449
Naptha	2,956	4,250	6,185	4,444	6,073
Residuum	503	224	340	616	676
Total	70,679	77,800	101,257	97,994	82,708

Of the stock on hand 1st inst as given above there were included 1,000 bbls Crude, and 2228 Refined, on shipboard.

Review of the New York Grocery Market.

(From the Shipping List, May 7th.)

Coffee—The market is almost at a stand, the political events of the day, in connection with the increasing stock and the decline in Gold and Exchange, tending to diminish the demand and render quotations rather nominal. In the meantime, however, it should be remarked that the stock is in few hands, and held with much tenacity for extreme valuations—hence the variance between buyer and seller, and the dullness of the market. The transactions include 2150 bags Rio, ex Palme, at Baltimore, to New York parties, at 45 cents, cash; and 2250 do Laguayra, at Philadelphia, half the cargo per White Wing, 44; 1085 Rio, bags, 45¾@46; 100 mats Java, in Boston, 52 therefor; and 100 bags and mats, here, 50, 4 mos.

Sugar—The market has been slack since our last, and, with only a moderate business, prices have fallen off one-quarter of a cent ⅌ lb, closing unsettled and dull. RIVER INTELLIGENCE.

ARRIVALS.

Kenton, St. Louis. | Lawrence, Louisville.
Nannie Byers, Louisville. | Orion, Louisville.
Minerva, Wheeling. | Advance, Oil City.

DEPARTURES.

Nevada, St. Louis. | Leonidas, Louisville.
Julia, Zanesville.

The river is still receding slowly at this point, with seven feet six inches in the channel by the marks last evening. The weather was excessively hot in the sun yesterday; it clouded up somewhat towards evening hope er, and strong hopes were entertained of rain.

The arrivals include the Minerva from Wheeling, Ohio Valley, Nannie Byers, and Lawrence from Louisville; Advance from Oil City, and Kenton from St Louis. The Emma Graham from Zanesville, and the Ida, S. Gilmore, from Nashville, are both due and will doubtless arrive to-day.

The Nevada for St. Louis and the Leonidas for Louisville, cleared on Sunday with excellent trips. The Julia left for Zanesville on Saturday evening with a fair trip including a goodly number of passengers.

The new steamer Cherokee, Capt. W. B. Brave's new steamer, came up to the wharf on Saturday and will commence loading for St. Louis to-day. The Cherokee, is a staunch looking craft, well built, well furnished, a very pretty cabin, and, better than all, will carry a good load on a low stage of water.

The Prima Donna, Capt. Scott, did not get off for Cincinnatian Saturday, but will leave to-day without fail.

We notice among those drafted at Cincinnati, the name of the following well known river men: David Gibson, W. W. Kenton, and J. Byrnes.

The new Elizabeth packet, Bayard, to be commanded by Capt. Perkins, is almost completed and will be ready to commence making daily trips in a day or two. It is thought she will be a "runner," as she has plenty of power and is of easy draught.

The neat and light draught steamer, Arcola, in command of Capt. A G McCullum, jr, is announced for Cincinnati and Louisville, leaving to-morrow evening. She will be followed by the Ohio Valley, Capt W P Johnston, which boat will leave on Wednesday evening.

The Nannie Byers, Capt Byers, as will be seen by card, is announced to leave for St Louis on Tuesday evening. This fine steamer has excellent accommodations for passengers, and plenty of room for freight.

The Minerva, Capt. Gordon, is the regular packet for Wheeling, leaving at 12 o'clock. Messrs Johnston and Bunton are the clerks.
