TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to study as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

BENEVOLENT MOVEMENTS.

Considerable space has been given to the action of the late Catholic Plenary Council, and also to other denominations, and as the month of November is one of great interest in Methodist circles, relative to the annual results of its leading benevolent operations, such as the Missionary, and Church Extention, we present some interesting facts in regard to this body in a condensed form.

The General Missionary Committee of the M. E. Church has just closed its annual sittings, covering a period of five days in New York. This body is composed of the Bishops and a large board of ministeria. and lay members. From the Treasurer's report the total receipts for the year amount to $702,812 25, being an increase over the preceding year of $66,446 47. After careful consideration the appropriations made for the year now ensuing amount to a million and thirty-one thousand dollars, almost exactly agreeing with the number of Church membership. The appropriation is distributed as follows: Foreign Missions over three hundred thousand dollars; foreign population in this country, nearly sixty five thousand; Indian Missions, four thousand six hundred; Domestic Missions almost four hundred and fifty thousand; building churches in the South seventy thousand seven hundred. The remainder is variously distributed. The foreign missions are to be reinforced. It will be remembered the appropriation of one million of dollars for the Missionary operations of this Church is for the coming year. It is fully expected that the Church will respond to the call promptly.

The first anniversary of the Church Extension Society of the M. E. Church took place some days since, in Philadelphia. General GEARY, Governor elect. of our Commonwealth, presided. On taking the chair he made an impromptu address. Though his early religious impressions had been received in connection with the Presbyterian Church, yet he felt himself drawn by some irresistible power toward the Methodist Church. He spoke of the four years disastrous war, and of the sacrifices made by at least one hundred thousand members of the M. E. Church. Brief addresses were made by three of the Bishops and by other distinguished ministers.

Bishop CLARK, who has done valuable service in reorganizing the M. E. Church in Tennessee and other Southern States, made a speech of great power. In the course of his address he spoke of the meeting of the Tennessee Conference at Murfreesboro in the early part of the fall. During its session a group of secessionists were overheard speaking of the Conference. "Those persons are bound to succeed. They talk as though they meant work. And there is that centenary fund!" No wonder as the Conference in Tennessee commenced with 6,000 members and fifty ministers, and in one year it numbered ninety ministers and 18,200 members. The Bishop said they intended to stay in Tennessee, and would not be driven out. Then turning directly to General GEARY, the Bishop said: "I had some fears at one time, I confess, about the result. But those fears have gone. Sir, that magnificent ground swell of political action, which moved through this nation so grandly, and which lifted you, sir, to the prominent position of Governor of the old Keystone State, has changed the whole aspect of affairs. It has carried strength with it to the loyal South. And it has spoken in language which cannot be misunderstood either at the centre or southern rim of the great circle whose circumference encloses all this glorious land of ours!" The audience grew perfectly uproarious at the Bishop's allusion to Governor GEARY, who rose and bowed a double acknowledgment to the people first, and then to the Bishop. He closed by stating that a Southern church had been purchased by the Church Extension Society, located three doors from President JOHNSON's home. So that when he returns to the starting point he will reach shortly after swinging round the entire circle he will find a Methodist preacher handy to explain to him truly the life of Moses and remind him how Pharoah and his hosts were drowned in the Red Sea.

The fiscal operations of the first year place it at the head of all the Church Extension Societies in the land. Receipts nearly sixty thousand dollars, and disbursements a shade over fifty thousand, in one hundred and ten different localities, extending through West Virginia, East Kentucky, Missouri, Arkansas, Kansas, North Carolina, Tennessee, Michigan, Wisconsin and Illinois.

We note in this connection the fact that at this period of the year, the statistical returns of the M. E. Church for the past year are collected, from which we gather some facts of general interest. Conferences number sixty-four, an increase of four over the previous year. The total ministerial force, traveling and local, is 16,178, being a net increase of 610. The aggregate membership reported is 1,032,184, an increase during the year of 102,925, equal to over eleven per cent. Church edifices and parsonages, valued at $34,014,962. Benevolent collections omitting all receipts from legacies, for the various societies, $926,221 84. Sunday school department as follows: Schools, 14,045; officers and teachers, 162,191; scholars, 980,622, an increase of nearly fifty thousand; volumes in library, 2,644,291. Circulation of *Sunday School Advocate*, three hundred thousand copies.

Comparing the progress of this Church by decades, from 1766 to 1866, the following result is attained: In 1766 there was 34 ministers and 4,921 members; 1786 ministers 117, members 20,089; 1796, ministers 293, members 36,004; 1806, ministers 452, members 130,570; 1816, ministers 695, members 214,235; 1826, ministers 1,406, members 360,800; 1836, ministers 2,928, members 650,103; 1846, ministers 3,384, members 644,329; 1856, ministers 5,877, members 800,327; 1866, ministers 7,570, members 1,032,184. By the withdrawal of the Southern Conferences in 1844, organizing the M. E. Church, South, the M. E. Church lost 1,345 traveling ministers, and 495,288 members, and yet such was the rapid gains two years afterwards, that it only lacked 5,874 members to make up the number lost.

The societies of the evangelical party of the Protestant Episcopal Church of the United States held their anniversaries recently in New York. The seventh anniversary of the "American Church Missionary Society," developed a steady increase in receipts and interest. During the year just closed thirty-eight missionaries were employed, an increase of twelve. The receipts were $56,412.98. It was resolved with a view to facilitate the education of candidates for the ministry to organize a General Educational Society. JAY COOKE, Esq., the great financier, was elected President.

The nineteenth anniversary of the "Evangelical Knowledge Society," was presided over by Bishop LEE, of Delaware. The annual report set forth that the new works published by the society amounted to 2,417 pages. Receipts for the year, $40,098.32. Bishop M'ILVAINE was elected President for the ensuing year. Bishops JOHNS, of Virginia; EASTBURN, of Massachusetts; LEE, of Delaware; VAIL, of Kansas, and PAYNE, of Africa, participated at these occasions.

"IT is almost impossible to understand some men, and Mr. Theodore Tilton is one of them. When the Constitutional Amendment was pending, and the contest between the President and Congress over it was fiercest, Mr. Tilton fairly shrieked in favor of standing by Congress. "Stand by Congress," was a cry everywhere, and nobly was it responded to. The Amendment passed, and Mr. Tilton, in his paper, joyously cried out "Laus Del." The President appealed to the people, and the cry was "stand by the Amendment—sustain Congress." And the people, after a fierce struggle, did stand by the Amendment, and by an overwhelming majority in the popular vote, and by the election of new Congressmen, did sustain Congress. But scarcely had the notes of triumph died away, when Mr. Tilton suddenly perceived that the Amendment was worthy only of denunciation, and that something else should have been adopted by Congress, and he took the trouble to come all the way from New York to the Banner County of the Union to tell us how great a mistake we had committed, with our unequaled majority, in standing by Congress. Surely there are men hard to understand—in fact, it is extremely doubtful whether they understand themselves—and Mr. Tilton is a conspicuous member in their ranks.—*Commercial.*

Well; when the contest was pending our contemporary "fairly shrieked" against the Republican majority in Congress; against prominent members of that majority, as STEVENS, SUMNER, WADE, and WILLIAMS; and against all conditions to be imposed on the revolted States, or disabilities to be laid on the leaders of the rebellion. It magnified President JOHNSON as the sublimation of fidelity and patriotism, and his Policy as affording the true solution for all our national troubles. It zealously undertook the defence of the apostate COWAN; proclaimed that he was not only a gentleman of stainless personal honor, but a statesman of rare capacity and trustworthiness. After awhile it perceived "the notes of triumph" would not be sounded on that side, and it veered square about. It exalted the authority and purity of Congress immeasurably; pitched into the President and his Policy with a roughness and virulence which a decent self-respect restrained us from emulating; and vituperated COWAN worse than it previously did STEVENS. With what self-importance the *Commercial* talks about "our unequalled majority, in standing by Congress!" Does it suspect the people are fools, or have lost their memories? Everybody knows that if the *Commercial* could have had its way there would have been no majority here for Congress, but a round one for the President. Even if Mr. TILTON was as inconsistent as is alleged, he ought to be exempted from assault or even taunt from that quarter. But he exhibited no such inconsistency as is charged upon him. He asserted the exclusive authority of Congress in the premises, endorsed each particular section of the Constitutional Amendment as good, but insisted that Congress, enlightened and strengthened by the elections, ought to go farther, and deal out equal and exact justice to the blacks. Mr. TILTON may be "hard to understand," but the *Commercial* is not. Its tergiversations have disgusted and repelled every thoughtful and upright man among its readers.

AT THE RECENT ELECTIONS the people of the loyal States re-affirmed the exclusive authority of Congress as the law-making power of the government, and signally rebuked the President for his contumacious interference with the legitimate functions of the two Houses. This was the primary matter decided by the ballot-boxes. Beyond this it may be reasonably asserted that the people decided in favor of the Constitutional Amendment, and particularly of the section disqualifying the rebel leaders from holding office. This was clearly a rejection of the proposition for Universal Amnesty, whether as a measure standing by itself, or associated with Impartial Suffrage or what not. But, it does not follow that Congress was instructed by the elections to insist on no other terms than those embodied in the Constitutional Amendment, or was admonished to take no measures looking to the elevation of the black population. The sentiment of the loyal people manifestly is that the Republic shall be protected against its enemies, and all loyalists delivered from the domination of all rebels.

THE FRESH insurrectionary movements in Ireland have aroused the indignation of the British public to white heat. The leaders of opinion, instead of enjoining on their government the moderation and amenity they urged our government to exhibit in its treatment of the Southern rebels, breathe threatenings and slaughter The strongest measures of repression have been adopted, and will be vigorously pursued. The condemned Fenians in Canada will experience the full rigor of the new bitterness. This is the last exemplification of how much easier it is to preach than to practice.

In view of the rejection of the Constitutional Amendment by the seceding States, the New York *Herald* accepts the radical doctrine that three-fourths of all the loyal States are sufficient to a valid ratification of it. We believe that position to be sound; but, will the Supreme Court so hold? An Amendment ratified by less than three quarters of all the States would doubtless be contested, and a majority of the Judges might take the other view of the case. Whatever shall be done, had best be done so as to defy all contingencies of this sort.

THE Norfolk *Old Dominion* has given the northern democracy its blessing, in this fashion:

"We tell our people that our friends at the North are nothing more nor less than a big political humbug. Their trade has been that of falsehood, miserable pretenses, a sophistry based upon selfish purposes, destitute of every principle of honor, truth, or justice. Why trust them longer?

"The democracy of the North, (our very ideal friends) and deceit, political treachery, falsehood, with all its weakness, are synonyms."

GOV. GEARY will be inaugurated on the 15th of January next. On the same day a United States Senator will be chosen to succeed Cowan.

ANTHRACITE COAL in New York, last November, sold for $10.75 per full ton. This November it sells for $5.

LAST WEEK there were seventy-four deaths in St. Louis.

The Kittanning *Free Press*, of the 26th ult., says:

"If it should be determined by the Republican majority in the Legislature to elect a Senator from Eastern Pennsylvania the prevailing sentiment, in this county, is, so far as we are advised, in favor, of Gov. Curtin. If, however, the claims of Western Pennsylvania should predominate, we think that a large majority of the loyal people of this county would prefer the election of Hon. Thomas Williams to that of any other man. He is one of the ablest and most sagacious statesmen in the country; he has proved to be a faithful Representative of the District; on all the great questions, which the loyal people of our own State and other States desire to be rightly and safely adjusted, he is reliable; the people know and can trust him; his increased majority at the last election indicates his increasing popularity; his extensive and varied knowledge of our national affairs, his unfaltering devotion to the Right, his masterly powers in debate, and his clear, strong, grasping intellect and sterling integrity would be highly beneficial to, and would not fail to shed luster upon, our State."

THE SEASON OF STORMS.—The blasts of autumn and the chill storms of early winter are apt to make and invade upon the constitutions of the feeble. In old times at the commencement of every season it was the fashion to take a strong cathartic as a safeguard against a change of temperature. It was a worse than senseless practice. The people of our day understand the matter better. Instead of depleting the system they reinforce it. In the method they adopt they exhibit a wise discrimination. Instead of resorting to the vitiated stimulants of commerce, or any of the compounds derived from them, they put their faith in the only absolutely pure, invigorant specially in the market—HOSTETTER'S STOMACH BITTERS. Their fame is well founded. Never has any home medicine been prepared with such scrupulous precision and conscientious care. It is a vegetable compound of which every ingredient is sound, wholesome and beneficial. It is the best tonic. Now we have three prominent national complaints. One-half of the adult population of the United States are suffering more or less, either from diseases of the stomach, derangements of the liver, or constipation of the bowels. In no other climes under Heaven are these maladies so general as in this country, and HOSTETTER'S BITTERS is a specific for them all, unless organic in their origin, and, therefore, beyond cure. And let those who are fortunate enough to be exempt from them at present understand one great fact, viz: that a occasional use of this vitalizing tonic will as certainly keep them free as the sun will prevent the earth from freezing where its genial beams descend.—*Commercial.*

CURE OF CATARRH, ASTHMA, &c.

Mrs. Chessrow, residing at No. 6 Allen street, Boston, Mass., says: I have been troubled for many years with asthma, catarrh, and sore throat. I suffered from constant pain and dizziness in my head, so that for eight years, could not attend to my household duties, and I despaired of ever being cured. Providently by learning of Mrs. M. G. Brown's Metaphysical Discovery, I obtained it. The result, I am glad to tell, cured, and determined to keep a box of it always in my house."

MRS. GEORGE VAUGHN'S CERTIFICATE, OF MALDEN, MASS.

This is to certify that I have suffered for ten years from dyspepsia, catarrh, and a complication of diseases. For the past year I have been a invalid, and could not sleep at night. So exhausted had become, that I was unable to do my household duties. I became so cold, that it seemed impossible to keep warm. For sometime my eyes were very much diseased, and my hearing dull. My self and friends considered me in a consumption. In this state I went to Mrs. M. G. Brown and obtained the Metaphysical Discovery. I have tried it to the letter, faithfully, and no language can tell the benefit received from it. My eyes have become clear and strong. My dyspepsia is entirely gone. I can now sleep, do my own work, and feel like a new being. My friends say I am gaining flesh. I know I am. I consider it my duty to make this known, that others may be benefited. I recommend Mrs. M. G. Brown and her mode of treatment to all who suffer as I have done.

CATARRH CURED.—MR. JEROME A. O'COVNOR, OF OLD CAMBRIDGE, MASS.

This is to certify that I have been troubled with a bad catarrh for the last three years. This winter it became unusually troublesome. I was obliged to cough frequently owing to the mucus, which would have rise at night. I obtained Mrs. M. G. Brown's Metaphysical Discovery some weeks back, used it faithfully, and my catarrh began to give way in hours. I now consider myself a cured young man, being entirely delivered from the terrible disease of catarrh. My sister has also been relieved in her head and eyes from coldness, so much so that the family thought she had died. In the use of the Discovery she has received equal benefit with myself. I certainly recommend the Metaphysical Discovery.

MISS E. LOGAN'S CERTIFICATE.

I, Emma Logan, do hereby testify that I have had a severe cough for six years; would cough and raise for three hours at a time; often I could not lie down at night; going up stairs, any work would exhaust me. I have been taking medicine and doctoring all the time, but was actually getting worse. Providentially a friend presented Mrs. M. G. Brown's Metaphysical Discovery. I have used it one week, and my cough is nearly gone. I have got rid of the tightness in my breast, and can now take a long breath, which I could not do before. I can go up and down stairs without coughing any hard. It purifies the blood, and invigorates my system. No. 34 Hanover street, Boston, Mass.

A REMARKABLE CURE.

A case of the worst type of Chronic Sore Eyes of Twenty-five years standing cured by my Metaphysical Discovery.

I, Elias B. Jeffries, do certify that I have been suffering for twenty-five years with diseased eyes, taken from measles when a child. I cannot describe the nature of all my sufferings, but will state that my eyes ran continuously water all the time, my cheeks also broke out down to my chin, and the matter from both eyes and face kept constantly dropping on my dress. All the doctors I applied to failed to render me relief, and I despaired of finding it until learning of the wonderful cures made by Mrs. M. G. Brown, who then undertook my treatment. I went to see her, and brought home with me the Metaphysical Discovery. I used it according to directions, and now most solemnly and thankfully declare, that through the blessing of God and the use of Mrs. M. G. Brown's medicines I am a cured woman. ELIZA B. JEFFRIES. FIVE NEW CASES OF DEAFNESS IN AND AROUND PHILADELPHIA.

Noises in the Head, Hearing of the Ears, Stiff Neck and Sore Throat cured by Mrs. M. G. Brown, 10 Arch street. Metaphysical Physician, Professor on the Eye, Ear, Throat and Scalp.

The following persons have been cured of the above all cases, through the use of my Metaphysical Discovery:

Mrs. Rebecca Watson, St. Paul street, Frankford, cured of deafness and noises in the head can now hear the chickens called by their names in the next house.

William Einwechter, 1319 North Front street, a lad of about 15 years, was very deaf; can now hear the notes distinctly on the piano. Could not hear a sound before. His whole system is benefited, as he was an invalid.

Peter Kelly, 1027 South Second street, was quite deaf in one ear, and partially so in the other; has regained the hearing of both well.

Daniel Humphreys, of Darby township, had a swelled and stiff neck for eight years, could not turn his head without turning round his whole body; had also a large lump, size of a ball, and hard, under his chin, for one year. Both have disappeared through the use of my Metaphysical Discovery.

A son of Captain David Ware, in Wilmington, Delaware, has been cured of deafness and running of the ears, of 18 years standing; paid large sums of money on different occasions, could find no benefit; procured my Metaphysical Discovery, which immediately cured him.

CERTIFICATE FROM THE REV. P. S. HENSON, PASTOR OF THE BROAD STREET BAPTIST CHURCH, PHILADELPHIA.

From injuries received in my right eye when a boy, a chronic inflammation has been produced, in consequence of which I suffered martyrdom, every moment of my waking life was embittered, and I was frequently unable to sleep at night. A variety of remedies was tried—resorted to without success, and I entertained the purpose, as a last resort, of having the ball taken out of the socket, in the hope of thus finding relief. In the meantime, most providentially, I noticed one day in a shop window a bottle of Dr. Richards' EYE WATER. I had never heard of it before, and I determined to try it, and did, with the most delightful results. In a few days the painful irritation was removed. I could bear the strongest light, and went forth as it were to the enjoyment of a new life. I now keep a bottle of it always in the house, and if my vocation at all disposed to annoy me, I give it a dose, and there is an end to it. I would not be without it for any amount of money. I have occasion to say further, that my wife used it after severe at times from protracted pain in and over her eyes, and she has found Poor Richard's Eye Water a sovereign specific in the case, giving her almost instant relief.

Grateful to God for the benefit I have personally received, I cannot but commend the preparation most cordially to those who have suffered like myself. P. S. HENSON.
