Pittsburgh Petroleum Market.

MAY 25—We have to record a continued excited and active market, both for Crude and Refined, on the spot, as well as for future delivery. As compared with our last report, there is no quotable variation in values, but there is no denying that the tendency is upward. The reported sales of Crude comprise 2,200 bbls, as follows: 900 bbls, in bulk, at 21½; 1,000 do at 22; 200 bbls—bbls included—at 22, and 150 do at 22½. Quotations may be fairly given at 22, in bulk, and 24 in bbls, and the market closed firm at those figures. There is no abatement in the demand for Refined, both bond and free, and the market is firm and buoyant, and prices are well sustained. We note sales in bond of 500 and 1,000 bbls, on the spot, at 53, 500, for June delivery, seller option, at 62½; 175 bbls, free, at 62; 250 do at 62; and 2000 gallons of "Lucence," in tin cases, at 80. The asking rates for bonded are, 53, on the spot, 54 for June, and 60 for July. Free Oil is a dyl, too nonetitled to quote correctly. Naphta is dull, and the nominal quote is one at 35a37. Residuum is quiet and unchanged.

The receipts by the Allegheny river during the forty-eight hours ending this evening, arrive as follows:

Weekly Review of the New York Petroleum Market.

[Reported Expressly for Pittsburgh Gazette.]

NEW YORK, May 21, 1864.

The week opened upon a very dull market for both Crude and Refined Petroleum—but prices were about the same as on Saturday of last week—contained in my last letter. The receipt of favorable advices from Europe on Tuesday, and also a good many orders for Refined oil exerted a favorable influence, and the market subsequently became more buoyant and firmer under an active export demand, and prices have advanced fully half a gallon for Crude, 3c for Refined, in bond, and 5a6c for free—at which the sales have been considerable—especially in Refined in bond. There have also been considerable sales in Philadelphia, at prices about equivalent to those current here—chiefly for export—consisting in lots on the spot and to arrive. The market has been devoid of excitement, but, as always is the case with a rising market, there has been a good deal of gambling going on—"calls" to a large extent have been done—some of them extending as far as September, but July and August have been the favorite months. Du ing the current month, it is believed, calls to the extent of 100,000 bbls have been put on. This species of gambling is a great injury to the regular trade, yet some of the most respectable dealers deal in them. In fact the limitation of the possible loss restrains them within manageable limits, and gives desirable investment. Some two or three of the shrewdest of the dealers recently invested about $20,000 and have since sold out and doubled their money.

The sales of Crude during the week comprise about 10,000 bbls at 20¾ to 28½c, on the spot and 20¾ to 28a40 for June and July.

The market at the close was quiet, with only small sales at 26½c on the spot. A sale was made of 500 bbls for July at 41c.

In bonded the sales have been about 25,000 bbls at from 60¾c to 70½c for prime light straw to white, and 59 to 61 for prime white—of which about 8,000 bbls for all May, June and July, at 58½ to 62½ buyers option—and about 8,000 bbls in Philadelphia at 60¾ to 63½a70c on the spot and 60a60½ for June, buyers option. The market closed firm at 60a60½c on the spot.

In free the sales have been light—about 10,000 bbls at 65 to 66 for prime light straw to white, on the spot, and 65a68 for all May and June—closing buoyant and firm at 66c on the spot and 68a70 for all May.

We note sales of some 200 bbls Residuum at $7,25 for wooden and $7,50 for iron hoops.

Naptha has been dull and prices are nominal; about 400 bbls have sold at 32a32 for high gravities and 37 for, 60a63 gravity.

New York Flour and Grain Market.

(From the Post of Tuesday.)

Flour, &c—The market for western and state flour is firmer—fully 5 to 10c per bbl better, owing to advanced exchange and light receipts. Chicago Market—Mail Report.

MAY 21—The wheat market opened 1c higher than at the close yesterday, and under favorable advices from New York a further advance of ¾c per bush was established—closing steady at $1,24a1,24½ for No 2 and at $1,25¾a1,26 for No 1 Spring. The demand was active but chiefly speculative.

Flour was rather more active, and holders manifest a more firmness, but there was no material change in the market.

Corn opened dull and depressed with sales at $1,00 at 1,00¼ for No 1, and $1,01a1,01¼ for No 2, but under a brisk demand by speculators, prices ran up to $1,06 at 1,07, and $1,05a1,05½. At the close the ruling prices were $1,06 for No 1 and $1,04 for No 2 in store.

The demand for oats was limited, and the market ruled dull and easier with light sales 65a65½c for No 1, and at 64a65½c for No 2.

There was nothing done in rye and the market was nominally unchanged. Barley was quiet, but firmer with sales of No 2 at $1,28 in store.

Highwines opened firm and ¾c higher, but the news from New York proving unfavorable, the market closed dull at $1,21.

Provisions continue quiet but firm. Mess Pork is in demand at $22,50a22,60. Lard is quiet and nominal at 11c ⅌ lb.

Sale of new Wool in Michigan.

[From the Grand Rapids Eagle, May 21.]

The first wool—this year's clip—of the season, was brought into our city and sold to W Hindall at 58c ⅌ lb, yesterday. Mr H informs us that the price for wool, this season, will probably range between 50 and 70c ⅌ lb.

Cincinnati Lumber Market.

MAY 22—The amount of lumber floated out of the Allegheny and Monongahela rivers by the late rise was not as large as had been expected, and this, together with what has been landed at various points on the river between here and Pittsburgh, makes the amount brought to this port rather small, a large number of rafts, however, which were floated down by previous rises, have not yet been taken out of the water and the amount of lumber at the wharf, particularly at the foot of Vine street, is quite fair. This delay is unavoiding is caused by the miserable condition of the landings, which are in such a state that it is almost impossible for teams to haul loads to the street above.

During the week past a fair amount of business has been transacted at the various yards throughout the city. It is the general impression that a large number of frame cottages will be built this summer, and should this prove true, a very large business will be transacted during the present season.

The following are the latest quotations at the river and yards:

Wheat Prospects in the West.

From central and southern Missouri, and the southern part of Illinois, we have the most cheering accounts of the growing wheat crop. The copious spring rains and the warm weather have brought out to a degree beyond the expectations of the farmer. It now gives promise of a full crop. The severity of the winter weather and the crouch in March blighted it to some extent, and it stands thinner on the ground, but it is growing with a heavy and substantial stock, and gives promise that the increased strength of the growth will produce an unusual heavy yield. Owing to the backwardness of the spring weather, the harvest will commence fully two weeks later than usually.—St Louis Evening News.
