WHISKY—not enough doing to establish quotations.

Pittsburgh Petroleum Market.

June 7—There was more activity in the market to-day, both for Crude and Refined, and the transactions, in the aggregate, were larger than for several days past. The receipts of Crude footup about 1200 bbls, the most of which was shipped off, at prices ranging from 30 to 32; bbls returned and 25x37, bb's included, the market closing firm at the last named quotations. There was also a considerable inquiry for Refined in bond and the market is firm but without quotable change in values. We quote at 56 on the spot, 55@57½ for all this month, and 58 for July. Sales of 250 bbls "Montana" 100 do "Keystone" and 100 do "Astral" at 56, on the spot; 300 do, brand not named, same delivery at 56; and 1000 bbls for June delivery, seller's option, at 58½c. New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, June 7—Crude is firm at 45½, on the spot, and large sales for July and August delivery at 48. Refined in bond is firm with a fair demand at 55, on the spot, and 55@56½c for July and August. Free Oil is dull and a shade lower, with sales on the spot at 44½c. Naphta is dull and nominal at 35 for refined.

Chicago Lumber Market.

June 4—Lumber—Received yesterday 945,000 feet. With the arrival of the principal part of the Muskegon fleet, the market has been more active, and for cargoes of prime Lumber there was more competition this morning among city dealers than we have observed previously this season. For best class Lumber prices are decidedly firmer, tending upwards. The demand continues very inactive for common Lumber, and prices have evidently a downward tendency.

Shingles—Received yesterday 65,000. Market more active, and firmer at previous quotations. We quote to-day the heaviest sale of Shaved Shingles made this season, namely, two million Rogue River, at $4 sold to arrive.

Lath—Receipts very small, and in fair demand. Market firm and unchanged.

Boston Dry Goods Market.

June 4—The market for cotton goods has been very much excited and unsettled on account of the rapid advance in the raw material, middling cotton having advanced 6c to $1,06@1,07, and in some instances has been sold as high as $1,08 ¾ lb. Buyers of goods have been quite active, not only purchasing freely here, but considerable supplies have also been picked up in New York, at prices which, at the time, were looked upon as rather wild movements on our part. The buoy, however, is now on the other leg a little. There is evidently a great scarcity, not only of detailing goods, but of the raw material also, and very high prices cannot be the order for some time to come.

The demand for cotton goods has been quite active, and during the week prices have steadily advanced. The sales of standard heavy sheeting and brown drills have been from 50@55c., and the production has been very much reduced even at these figures. Bleached sheetings and shirtings are higher in demand, and fine goods are scarce. Sales of 4-4 Bates bleached at 60c; 4-4 Hartsell at 57½c; 4-4 Newmarket at 55c, and Newmarket Cross Jeans at 30c. Salmon Jeans are selling at 30c, and Ipswich at 32@33c. Denims, stripes, ticks, and cottonades are firm and selling at a considerable advance on previous prices. Print cloths are firm and have been selling at full prices, and in Providence at 31½c for 64-64. Prints continue active at the advance noticed last week. Ginghams are all sold at 32c, and the new "Lawrence Co." are taken as fast as produced at 33c. Pacific prints are in demand and all sold at full prices. Lewns and challies are firm, with small stock.

The Crops.

Since the late rains appearances indicate a golden harvest in this region, both of fruit and grain. Fields are rich with verdure, and the trees gaily arrayed in with many-hued blossoms. If we would see Nature in her loveliness, now, in the spring-time of her beauty and fragrance, is the time to visit hill and valley, and slip the sweets so freely offered. The valleys surrounding our town are seas of agricultural productiveness, and though some others may signal, it would be hard to find any to surpass them in rich yielding or promises of coming bounty.—*Kittanning (Pa.) Gazette.*

The late "growing weather" has greatly banished the croaks in this neighborhood, and the prospects for a fair yield are flattering. In the fruit line we have seldom seen more cheering prospects than at present for an immense crop of apples, pears, cherries, &c, &c. The bad weather seriously interfered with our farmers in planting their corn and oats, but notwithstanding all the disadvantages a fair crop of each will be raised.—*Huntingdon (Pa.) American.*

Chicago Market—Mail Report.

June 5—There was a very steady market for Wheat with a fair demand. No 3 Spring sold at $1,25@$1,26, and No 2 Spring at $1,32@1,33½. At the close buyers offered for fresh receipts $1,25 for No 3, and $1,32@1,33½ for No 2 Spring. The ruling high freights checked the demand for Flour, and the market ruled dull but unchanged.

Corn was firm and ½c better, with a moderate demand. Sales were made at $1,14 for No 1; $1,10@1,10½ for No 2, and at $1,05@1,06 for Rejected. Canal Corn closed sold at $1,12@1,12½ for No 2, and at $1,07 for Rejected.

There was a bitter feeling in Oats, and prices advanced 1c, with sales at 71@71½c for No 1, and at 68@69 for No 2.

The market for Rye was inactive and entirely nominal, with sellers but no buyers. Barley was neglected.

Highwines ruled steady but quiet at $1,21@1,22.

Toledo Market.

June 6—Flour—Sale 250 bbls at $7,15; 1,000 bbls B H Oat $7,15.

Wheat—No 1 and 2 red in good demand, the former at 151c, the latter at 148c. Sales 1,000 bu No 1 red at 151c; 500 bu amber Michigan at 150c; 4,500 bu No 1 red at 151c; 2,000 bu, 3,700 bu, 1,100 bu and 2,187 bu amber Mich all at 150c.

Corn—the market was quite active yesterday afternoon and 14,000 bu changed hands at 120c. To-day the market was rather quiet at a decline of ½c, and there were no buyers at over 120c. Sales to-day—200 bu M. S. corn at 120c; 250 bu rejected at 115c; 2,000 bu No 1 at 120c.

Oats—market quiet; no transactions. Last sale at 72c.

Cleveland Market.

June 6—Flour—Market dull and quiet. Sales this morning 100 bbls fair "XX" white at $8,00; XX red held at $7,25@7,75.

Wheat—market dull, heavy and irregular. No sales reported.

Corn—market quiet. Sales 1600 bu free on board at $1,27, and 2500 bu do do on private terms.

Oats—steady. Sales 8 cars on track at $[illegible] in store.

Lake Fish—market dull. The prices per half bbl are as follows—White, fish $3,15@; Pickerel $4,00; Trout $7,00, and Herring $4,00.

Inflation of the Currency.

The opinion is gaining ground that our paper currency has become inflated, and consequently depreciated by over issues. Tables showing this inflation of State Bank currency were quoted by Senator Sherman a few days since, and may be thus summed up:

A selection of 12 banks in the State of Maine show an increase in the last six months of $211,410. In the State of New Hampshire there is an increase in twelve banks—the banks with the largest increase of circulation are selected—within the last six months, of $146,325. In the State of Vermont twelve banks have, in the last six months, increased their circulation $450,243, or thirty-two per cent of their aggregate circulation. In the State of Massachusetts 18 banks have increased their aggregate circulation in six months $627,278. In the State of Rhode Island, twelve banks, whose total increase is $160,660 or twenty-five per cent on their old circulation. In the State of Connecticut there is an increase in twelve banks of $314,123, or eighteen per cent, and that at a time when every body admits that there is an inflation of the paper money, and when it is an offence, not against the public morals, but against the public safety, to further increase the volume of circulation.

In the State of New York, the total increase is $1,224,087, of which $350,970 was in the city. In New Jersey a list of twelve banks shows an increase of $499,539, or 30 per cent on their circulation within the last six months. In Pennsylvania, in twelve banks, there is an increase of $1,226,443, or 25 per cent. on their circulation; in Maryland there is an increase of $164,006, or 28 per cent, by nine banks. The increase by four banks in the State of Delaware is $55,725.

The State banks of Ohio, Indiana and Missouri have been calling in their circulation, but as a general thing the State banks have been running rivals to the National Government in the issue of paper money. To use the words of Senator Sherman:

The Government of the United States has undoubtedly tended to inflate paper money by the issue of U S notes, but there is this material difference between the banks and the Government in this respect. The Government has been compelled by the necessities of war to issue its paper money in order to furnish a circulating medium to pay the soldiers and to carry on the operations of war. The banks, however, have no excuse for their increase of circulation. They do it for gain, for profit, to the manifest detriment and injury of the public credit and of the whole country, because every citizen has his property affected by this enormous inflation.

In a time of war the issue of paper money is the same as coining money; gold having disappeared there is nothing but paper money, and when a bank issues paper money it coins money. This is the very highest attribute of sovereignty, carefully reserved to the national Government by the Constitution. These banks then, in issuing money in this time when money is superabundant, coin money in express violation of the Constitution, and exercise that function of sovereignty which Congress alone has the power to authorize.

These words, spoken by Senator Sherman, represent, there is good reason for believing, the views of Secretary Chase. And this gives greater force to a subsequent remark by the Senator from Ohio, that "even the retirement of two hundred million dollars of outstanding circulation would be worth more to a class of producers, by reducing the value of gold and removing the perils and dangers by which we are now surrounded.—*N. Y. Commercial.*

RIVER.

ARRIVALS.

Jonas Towell, Kanawha River.

DEPARTURES.

Emma Graham, Zanesville. [Clara Poe, St. Louis.

The river has undergone but little change at this point since our last report there being scant four feet by the pier marks last evening, and less than three and a half reported on "Glass dome." The weather continues clear and pleasant.

The Jonas Powell, from the Kanawha river, is the only arrival we have to record. The Minerva, from Wheeling, and the Olive, from Nashville, are due this morning.

The Clara Poe cleared for St. Louis yesterday forenoon and the Emma Graham left for Zanesville last evening.

The Powell brought up the 5d and 4th Pennsylvania Reserves, who have been serving with Gen Crooks in the Kanawha Valley. Their terms of service having expired, they left for Philadelphia last evening to be mustered out.

The Wheeling *Intelligencer* of yesterday says:

The river was about a stand yesterday with four feet nine inches in the channel. The Minerva, which cleared some time ago by the U. S. Marshal, on account of the part she is said to have taken in the sinking of the Government barge Louisville, on the Kanawha river, arrived here yesterday. She will doubtless give bond and return to duty.

The neat and newly furnished packet, Cottage No 2, Capt. Faint, will leave for Cincinnati to-day, without fail. She has excellent accommodations for passengers, and can take a limited amount of freight.

The Minerva, Capt. Gordon, is the regular packet for Wheeling to-day, leaving at noon. Mr. A. F. Bunting is the clerk.

The New York, Capt. J H Lightner, will leave for Cincinnati and Louisville this afternoon, positively. Capt. J. B Dale will attend to passengers and shippers.

The Delaware, Capt. Stevens, is filling up rapidly for Cincinnati and Louisville, and will be ready to leave this evening.
