Agricultural.

FLORICULTURE.

This month the season will begin to change, when tender plants will have to be prepared for their winter quarters, and removed to tne house in October. Such as have been planted out will have to be raised and carefully potted and kept in a shady situation till they recover from being disturbed, as they are more or less liable to lose part of their foliage. When taken from the open ground be very careful in the operation; some will need cutting down and divesting of their foliage altogether, if they cannot be moved with soil adhering to the roots; give plenty of water after potting, and keep in a cool situation.

Dahlias will now begin to flower; have them tied up neatly, and give occasionally a good watering of liquid Guano; this will make them flower and grow much stronger, besides increasing the tubers for another year.

Phloxes of fine kinds may be increased from cuttings of the young shoots, by placing them in a cool place.

Herbaceous plants of many kinds may safely be removed towards the latter part of this month.

Heliotropes, Petunias and Verbenas, propagated from cuttings now, will make fine plants for spring.

Chrysanthemums struck from cuttings pot off in small pots, and encourage the growth to flower this fall.

Lemon or Orange may still be budded if the sap runs, and any ornamental plant a Double Peach, Cherry, Double Flowering Almonds, which are quite ornamental when put on tall stems, and admirably adapted for a standard on lawns.

Pelergoniums raised from cuttings, pot off in small pots, and as the old plants begin to grow freely give a little more water.

Japan Lilies.—As the leaves begin to show decay be more sparing of water.

Calla, or Lily of the Nile.—Repot in good sized pots.

Paeonias may now be taken up, separated and planted again.

Gladiolus, Amyrillus, and other tender bulbs may be taken up the latter part of the month.

Greenhouse Bulbs, Oxalis, Ixia, Sparaxis, and all such, repot in suitable sized pots; select the strongest bulbs for flowering, and plant in each pot four to six soots, which is enough to flower, and have a fine bloom.

Roses will need repotting—prune before taking in the house, which will give an early bloom.

Chinese Primroses.—Repot and bring forward; seedlings repot in small pots, and keep in a shady situation.

Camelias will now have formed fine buds; top dress the tubs or pots with fresh soil, and give frequent syringings of fresh water; this keeps the plants clean, and hardens the young wood, besides giving them a healthy appearance.

Seeds of many kinds may be now sown, as Pansies, Stocks, Mignonette, Allysummer, and such; for flowering through the winter prepare good, rich, light soil, with a little sand.

Caladiums, Begonias, Gloxinips, Tydea, and all such like a shady place, which suits their foliage best; careful watering is required to have them in perfection, and there is nothing more beautiful when in fine order; no collection should be without them, as they are plants for the greenhouse in the summer, when all the hardy plants are out of doors, and giving a continual bloom during the summer months.

All the Hardy Greenhouse Plants need looking over, and getting in readiness to move in; repot such if needed: prune and tie up neatly before bringing in the house, and be careful to divest them of the different pests that infest them, thereby saving much trouble when in the house, as many collections are injured for want of proper care in housing plants.—*Maryland Farmer.*

STANCHIONS FOR CATTLE.—Every observing farmer who uses stanchions with open mangers for feeding cattle knows that there is something wrong in this arrangement; he sees that no favor can be given a particular animal, and in almost every herd one or more requires extra food or care. It is well known that some cows are twice as long at their food as others, some on account of poor teeth, and others for their natural habits. Then in a common open manger animals that take in food rapidly, will swlalow that before them and steal their less active neighbors', and, to more effectually accomplish this, we have often seen them upon their knees that they might reach a greater distance. Some animals also, that have the mastery, often act very shrewdly, and draw the fodder of others to keep them first, keeping their own allowance to leisurely consume, or work over and gather the best, after the other is gone. Sometimes grain or roots are fed to a few and not to the whole, and in this case with open mangers the neighboring animals are set into a state of agitation, and they reach and struggle to obtain a taste. If the feed is given out of sight of others, no such commotion occurs. Now, this fault may be easily remedied by dividing the manger into sections with boards, allowing each animal space enough to contain just the food allotted to him. The only difficulty in using close mangers is feeding corn stocks, but this is obviated by cutting them once or twice in two, or by feeding them out of doors, which is by far the best way when the condition of the ground and the weather will admit of it.—*Ohio Farmer.*

THE farmer who refuses to learn from the better practice of his neighbors and depends solely upon his own personal experience, may be compared to the little spring bubbling from the earth—always the same—while the farmer of more enlarged mind, who adopts the better practices of his neighborhood and profits by all the improvements around him, may be likened to a noble river, which is fed from many fountains and which bears upon its bosom the accumulated wealth of experience. Weigh well the contrast here presented between the narrow-minded farmer, who is exhausting the riches of the soil which Providence designed for posterity and the progressive farmer whose labors are adding millions to the products of the country.

CHARLOTTE has a petrified foot, which the *Southern Home* says is too well shaped to be a freak of nature.

GOVERNMENT will buy $4,000,000 of bonds and sell $8,000,000 of gold during September.

Manufactories.

ATHENS, BRADFORD CO., PA.

Aug. 2, 1869.

NEW PLANING MILL.

The undersigned having built a large and commodious Mill in the Borough of Towanda, and filled it with the most modern and improved machinery, for the manufacture of

WINDOW SASH AND BLINDS

Are prepared to fill orders, whether large or small, upon the shortest notice. We have also a large variety of MOULDINGS, of the latest style and pattern, which we can furnish much cheaper than they can be worked by hand.

PLANING,
TONGUEING,
GROOVING,
AND SCHOOL
SAWING,

And all other work pertaining to Joinery, will be done to suit our customers.

Persons building, and not living more than twelve to fourteen miles distant, will find it largely for their interest to buy of us, or bring their lumber and have it worked by our machinery. Bring your grist of Flooring, or other lumber, and while your team is feeding, have it ground out and take it home with you.

We will pay CASH for PINE AND HEMLOCK LUMBER delivered at our lumber yard. Come and see us, if you can't come, write.

CLOCKS, WATCHES AND JEWELRY REPAIRED AND WARRANTED.

Towanda, Dec. 8, 1870.

IMPORTANT TO ALL WHO VALUE THEIR SIGHT!

The sight of the aged assisted, the weak strengthened and the perfect preserved.

PHILADELPHIA OPTICAL INSTITUTE,

For the manufacturing of the

CONCAVE CONVEX, CRYSTAL LENSES, LONDON

SMOKED AND TINTED GLASS FOR WEAK OR INFLAMED EYES.

The Concave Convex Crystal Spectacles, made by the above institute are now a long time before the public, and the rapid and increased demand for them combined with the universal acknowledgment of their clearness in vision and ease to the eye, shows plainly that they are superior to any other glasses in the market.

The majority of Spectacles, (mostly imported) and no matter how fine the frames, contain but a poor and worthless article of glasses, (generally cast or pressed;) they are made to be sold only, without any calculation respecting benefit to the eye, and therefore the great complaint of poor and weak sight. Thousands are using glasses now which tire and fatigue the eye, where the objects get dim after short usage, or require an intensely strong light and therefore destroying the sight, which, were they properly suited, would be preserved a life time.

The advantages claimed for the Concave Convex Crystal Glasses are the following:

The Lenses are ground of the best material, pure and hard, and made only for optical purposes, they are therefore not liable to get scratched or dim.

They confer a brilliancy and distinctness of vision not found in any other glass.

They can be used equally well by day or candle light without tiring or fatiguing the eyes.

They are ground mathematically true in the concave convex mirror, according to the philosophy of nature, and shape of cornea of the eye, therefore assisting nature only instead of forcing it.

That the lenses are centered correct into the frames.

They can be used longer than any other glasses without changing to a higher power.

The frames are made strong and durable by experienced workmen and warranted to give satisfaction.

WM. A. CHAMBERLIN,

Dealer in Watches, Jewelry and Silver Ware, Towanda, Pa., has the sole Agency for these glasses in Bradford county. No Pedlers employed.

July 12, 1870-tf

Millinery.

MISS E. J. KINGSLEY,

Wishes to inform the ladies of Towanda and vicinity that she keeps constantly on hand a large supply of

MILLINERY

Goods, suitable to the season. Thanking her patrons for their liberal patronage heretofore, she assures them that no exertions will be spared to ensure a continuance of the same. She also has a fine selection of

TO THOSE GETTING THEIR CLOTHING MADE TO ORDER.

You should study two things. First, to

GET THEM WHERE FIRST-CLASS CLOTHING IS MADE

Secondly,

WHERE THEY ARE SOLD CHEAP

And in order to be able to sell a good article cheap the merchant must understand his business, and know how, where and what to buy as a practical man does; and a

PRACTICAL TAILOR

In all its branches I profess to be, having had

EIGHTEEN YEARS EXPERIENCE

In the business. Have been a cutter in some of the best houses in

NEW YORK CITY.

I do my own buying, selling and cutting, and divide my profits with no man, so that loss of it will do—and with low rent and other expenses in proportion, thus making the cost of carrying on the business very small.

In reading the above you will see why it is that

I CAN SELL GOODS CHEAPER

Than men following the business, and having no knowledge of it themselves, have to employ others at large salaries to attend to it, and customers must pay accordingly—as they, like myself,

DO BUSINESS TO LIVE BY IT.

If you doubt the above statement, be convinced by trying on. HENRY HARRIS,

Merchant Tailor, Bridge St., Towanda, Pa.

BOOTS AND SHOES MADE AND REPAIRED.

L. C. NELSON,

Has made arrangements to accommodate customers that are constantly calling with boots and Shoes for new soles, etc., and have had to leave them, to their great disadvantage, until another day. The constant call for this kind of work, and the desire to have it done immediately, has induced me to make such arrangements that you need not return home.

Without your sole being renewed and your heels set square,
For prices that are honest and perfectly fair.

Ladies that have gaiters that are broke at the toe,
To this repair-shop is the place for to go
To get them re-vamped, neatly tipped or half-soled,
And your feet well protected from the wet and the cold

New work we can make you with the above double quick,
We can make them for you thin, or we can give them to you thick,
We can make them with high heels, or we can give them to you flat,
So you need not stager with a brick in your hat.

N.B.—Good cider vinegar for sale by barrel or gal. Front of Methodist church, Main street.

TAYLOR'S CELEBRATED OIL!

The Great Rheumatic Remedy should be kept and used by every Farmer that keeps either Cattle or Horses, every Teamster and Livery Stable Keeper, every Physician and Horse Farier for it will many times cure pain and lameness when all other medicines have failed. Miners and Railroad Men should certainly keep it, for it is unsurpassed for bruses and sprains. Blacksmiths should keep it for their own use and for their customers tender footed horses, as nothing equals it for tender feet. Every body suffering from pain and lameness of any kind, burns, cuts, wounds or any eruption of the skin, Corns, Chilblains or any disease requiring an outward application should certainly keep this celebrated medicine. Every bottle warranted to give satisfaction. For sale by Dr. H. C. Porter Son & Co. Porter & Kirby and F. W. Brown Druggists, Towanda, Pa. And by every Druggist and dealer in Bradford and adjoining counties.

RHEUMATISM—NEURALGIA!

$500 WILL BE PAID

to any person producing any Medicine showing half as many living, permanent cures as DR. FITLER'S VEGETABLE RHEUMATIC REMEDY. Used inwardly only. A pleasant Medicine, free from injurious drugs. Warranted, under oath, to have permanently cured 95 in every 100 patients treated in the past ten years. (See testimony). It is the scientific prescription of Prof. Jos. P. Fitler, M. D., a graduate of the University of Pennsylvania, A. D., 1833,—now one of Philadelphia's oldest regular physicians, and Professor of Chemistry and Toxicology,—who has made Neuralgia, Chronic and Inflamatory Rheumatism the specialty of his entire professional life—a fact vouched for by the signatures accompanying each bottle, and other testimonials of many prominent renowned physicians and clergymen. To protect sufferers from poisonous quack nostrums and useless expenditure of money, a legal signed guarantee, stating exact number of bottles warranted to cure, will be forwarded gratis to any sufferer sending by letter a full description of affliction. In case of failure to cure, amount paid positively refunded. Medicine sent anywhere by express, collect on delivery. Afflicted invited to write for advice; all information and medical advice sent by letter gratis. Address Dr. J. P. FITLER, 29 South Fourth street, Philadelphia, Pa. The Remedy is sold or obtained by Druggists.

NATIONL LIFE INSUARANCE

CO. OF U.S. A.

CASH CAPITAL, $1,000,000—PAID IN FULL.

Chartered by Congress, 1868.

CLARENCE H. CLARK, President;
JAY COOKE, Chairman Finance and Ex. Com.;
HENRY D. COOKE, Vice President;
EMERSON W. PEET, Secretary and Actuary

The advantages of the National Life Insurance Co. are:

1. It is a National Company, chartered by Congress;
2. It has a paid up capital of One Million Dollars
3. It offers low rates of premiums;
4. It furnishes larger insurance than other Companies, for the same money;
5. It is definite and certain;
6. There is no possibility of misrepresentation by agents, or misunderstanding by policy-holders;
7. The policies are plain contracts, so much insurance for so much money;
8. All policies are non-forfeiting;
9. The policies are exempt from attachment.
