The upward movement in Gold and Government still continues. Five-Twenties are firmly held at 110. Gold rose to 240 asked. Afternoon reports from New York, quote Gold at 239½. Five-twenties at 109½; 1881 Bonds, 108. Cleveland & Pittsburgh advanced to 110½; Fort Wayne to 100½.

An exceedingly dull day at Board and on the street. Oil Shares particularly heavy. We learn of but few sales during the day without material change from quotations of last evening. We have no Philadelphia telegrams at date of writing.

The following is a report of the offering of and bids for Oil stocks at Anderson's Exchange this afternoon:

The Philadelphia *Ledger* of Tuesday says: "The transactions in oil shares were large, and especially so in Walnut Island, which closed firm at an advance of ¼ on the opening rules. The dividends of two or three of the Oil Companies, in connection with the report that the Philadelphia and Tidioute Island Oil Company has struck a forty barrel well flowing the shares to ¼, had a bracing effect on almost all of the oil stocks. A feature in this announcement of the flow of oil in the Tidioute well, if true, is one of some importance to the trade. We are informed that the premises in 1861 flowed 200 barrels per day, and a revival of a flow of oil now may lead to some interesting facts in this wonderful discovery of oil. Prince comes fit and is the source and fountain re-supplied, or has the oil forced itself through from other sources to the outlet afforded by this well? These are all interesting inquiries."

The money market at the close was easy at low rates, gold running at 237@239½. Stocks left off steady.

According to a New York paper the twenty million of 5-20 bonds disposed of privately last week at 106, were taken by the banks as follows: The First National took $2,000,000; the Bank of Commerce took $2,000,000; the Phenix Bank took $1,000,000; the Fourth National Bank, $1,000,000; Boston banks, $2,000,000, and the Philadelphia banks, $8,000,000. The Tribune says these and some other New York banks are still in the market for some of this negotiation as being under the market rate, and to that extent to the profit of favorite banks. Those banks that did not participate in the late negotiation are very positive that no more loans should be sold at this price, believing that it will be deemed generally understood that Government will treat no more gold interest-bearing bonds, it is quite likely that the price of 5-20s may be run up to par, which forms a portion of the financial programme to be carried out in order to facilitate and decrease the subscriptions to the loan, from three-cents currency internal loan. Stock operators are buying the twenty bonds under the conviction that they will realize big profits, and that month hence it is possible to realize from dealings in railway shares. The difference will use the price to advance more rapidly than it otherwise would do. The public credit will be benefitted thereby.

Revenues of all sections are being made in different parts of Canada, and the States of New York, Ohio, Michigan, and Kentucky. In the counties of Tioga, Chenango, Broome, Tompkins, Schyler, in New York State, the people have caught the infection, and are gathering with the prospect of a speedy discovery of oil. In some sections of Ohio, particularly in Washington county, and along the Little Hocking, indications of oil have appeared, and boring is now going on. The spirit of petroleum speculation appears to be but just in its infancy, they propagate in a geological point of view, and before the close of the coming year we shall expect to see at least five hundred companies organized, with an aggregate capital of hundreds of millions of dollars.

The New York *Commercial* of Tuesday says: The chief feature of the market was the remarkably active demand for Government gold-bearing bonds, based upon the supposition that no more will be issued. There are indications that certain parties are operating upon information to the recommendations in Secretary Fessenden's report, which from the locality of their purchases is confirmed, as confirming the report that no more gold-bearing bonds will be issued. At the board the sale of Five Twenties amounted to $615,000, and the transaction on the street probably doubled this amount. At the board the price was 109¾, but later sales were made at 110. The sales into gold at 109¾ a rise of ¼. Sixes of 1881 advanced 25@½, and Ten-Forties ⅛. Certificates were dull.

Gold is steady and firm, the capture of general Sherman's proximity to Savannah has failed to do more than check a strong upward tendency, produced by the extraordinary demand for export. The opinion prevails among leading operators that the export will increase, and that the demand for shipment of specie, perhaps takes a larger considerable force. In this view were it not that the imports also are steadily increasing, the price of gold would be much higher than it is.

The only dry goods sale to-day was one of Wilmerding, Hopkins & Co., postponed from Thursday. The catalogue comprised lots of dress goods, hosiery, woolen goods, kid gloves, &c. RIVER INTELLIGENCE.

ARRIVALS.	DEPARTURES.
Alonzo Wheeling.	Ontario, Steubenville.
Arcola, Cincinnati.	Minerva, Wheeling.

Rivers is receding slowly at this point, with seven feet eight inches in the channel by the pier marks last evening. The weather continues unsettled and unfavorable for the transport of freight.

There is comparatively little doing at the levee yesterday owing principally to the inclement condition of the weather. The receipts were only moderate, and the shipments light.

The only transient arrival we have to report is the Arcola, from Cincinnati. She had a excellent freight trip, the great bulk of which she left in the city. The Minerva arrived and departed as usual, on her regular packet day.

The Ontario cleared for Cincinnati and Louisville last evening, with a good trip, and the J. F. Kinney, Capt. Foley, will succeed her in the same points to-day. The Gilmore, it is thought, will be ready to leave for Louisville, the Golden Eagle for Portsmouth, and the Ariel, Champion and Gilde, from Cincinnati, are the lines due.

The U. S. Hos. Porter, in command of Capt. Taylor, has entered the Wheeling trade in connection with the Minerva, and will now leave every Tuesday and Saturday, at 12 o'clock. The Porter is a small craft, but is well suited for the trade we have so doubt, be found careful, experienced and gentlemanly.

We understand that Capt. Sheddon, formerly of the Lotus, has purchased the commanding interest in the Roanoke, and will commence running her for St. Louis immediately after the departure of the Nevada.

The Lotus was making preparations to leave for Oil City, last evening. We look for another swell in the Allegheny river, under the influence of the present rains.

The Lead Lloyd, in command of Capt. A. Shaw, left for this city yesterday for Nashville, with a cargo of coal. We shall look for her in a few days.

We take the following items from the Cincinnati papers of Wednesday:

The fall Tennessee packet, T. L. Dunnell, was sold yesterday, or, in other words, traded off for the Madison packet Lady Pike, and $4,000 to boot. The Dunnell takes the place of the Lady Pike in the Madison trade, leaving on her first trip to-day at noon, with the Lady Pike in crew.

Capt. John Wolff arrived from Pittsburgh yesterday, and left for Louisville last evening to join the Lucy, Louisville Packet.

Yesterday, Mr. Joe H. Brown, of this city, received the following dispatch from Capt. John W. Henry, his friend, on one of the packets on the Prime Donna:

NASHVILLE, December 4.—Wesley and myself are safe in Nashville. The balance of the crew were captured, including pilot, George E. McCullough. Send you particulars by letter.

J. W. HENRY.

The Prima Donna is commanded by the veteran Captain Jesse Scott, of Covington, Kentucky. Captain Scott, in letter to his family, dated Saturday last, says: he had discharged his cargo of Government stores at Nashville, and was preparing to leave with the boat for Cincinnati. From this intelligence, we infer that the Prima Donna was captured below Nashville, while bound for Cincinnati. We have no further particulars. It was also rumored along the levee last evening that the Arizona had also been captured. We could not trace the report to any reliable source, however. Captain Swanna, we understand, sold the Colonsus to the Government, yesterday, for $41,000. The Colossal was towed to the Naval-yard last evening.

PERSONAL—Five brothers, Capt. Frank Maratta, of the Champion; Capt. Jas. H. Maratta, of the Anna; Captain Dan Maratta, of the Madison, and Clerks Caleb Maratta and G. M. Maratta, all good men and true, were on the wharf yesterday.

The Evansville *Journal* of Monday says:—It affords us genuine pleasure to meet our clever and agreeable friend, Captain Hazlitt, on Saturday night, who returns to the city almost as good as new, having a new foot and ankle so much like the one lost, that few would suspect the change. We never saw the Captain looking better.
