Specie continues high in price. Sales of the legislation filed that the New York market would shine an advance there of from three to five per cent, but telegraph reports soon dissipated the expectation. We have learned of no quotations higher than 201½ Government's are very quiet. The decline of one per cent. on Five Twenties is maintained. Pittsburgh buying rates 199¼, New York 199¾.

Connellsville R. R. shares show some life. Allegheny Valley, Pittsburg & Steubenville, declined. Bank Shares without market change.

We learn of no new developments in Oil Stocks. The market is flat. "Blue Monday" seems likely to last all the week. The loan Market continues active. Banking institutions generally discounted to the extent of their ability.

The attendance at the Peoples' Stock Exchange was unusually large this evening, and, as will be seen below, the transactions were quite numerous, though prices show but little change. Cherry Central was offered at 1,87—1,85 bid; Fleming & Blood 3,25—3,10 bid; Hotchkiss 1,25—70 bid; McAboy 95—85 bid; Oil Creek & Cherry Run 2,75—50 bid; Union Lubric, 85—83 bid; Steel Well 200—100 bid; Bonsold at a slight decline, as did also, Tarr, Story & Cherry Run, while Ritchie was in demand at about previous quotations. The accumulation of freight at the Titusville & Shaffer Point stations is so great that the Oil Creek Railroad Company has been compelled to notify all shippers to withhold further shipments, until a large portion of the freight is cleared away.

The Tax Collector is at the stations now and is levying a tax on the contents of the warehouses and the quantity of oil in them. Such a tax is so great that it has entirely prevented the owners of the property from taking it away. Steps are now taken to relieve the property, if possible, from the exaction of shippers, and so it was said Office Holder, who when he waited round in the wind at the terminus of the road at Shaffer's there was no dept except an immense shed crammed and full of oil barrels that an ordinary sized cat could not get underneath.

The Noble and Delamater Company's well, on Bullion's farm, is yielding fifteen barrels per day, and is producing steadily. The Hyde and Jackson well, on the same farm, is producing about ten barrels per day. The Hyde and Jackson well is now in a good condition, and the production will probably result from "stimulation" are anxiously discussed in Wellsville. The following remarks on the subject are from the circular of Jerome Bigelow and Co., of that place, under date of January 21:

"Stimulation continues to be the topic talked of among oil men, and it is surprising how many there are who still believe in it. It will extend, no doubt, in some instances, and in some cases it will be the means of very considerable increase in the production of oil. But it should not advance as rapidly as the future as it has done. Every year is it entering old districts and foreign countries as well as at home. Its real prosperity is measured by that of the commercial world. It is a fact that the demand is still ahead of the market, while they may be the consumers of most of the crude and refined oil.

"Stimulation has given a very decided impetus to the trade, by tempting to it that stout-heart of our wide domain. There is not a branch of industry, at the present time, which has not been materially benefited by it. It would double the output at every manufacturing establishment in the North. It would give a new and almost unlimited market to the food producing section of the West. All this commerce would flow through our railroads, and well their business, and put them in a condition for present value. Every other conclusion, therefore, our business of this place that the tendency of the world is toward peace and every falling celebrate to the financial status of our railroads. Stimulation would reduce their earnings. While it would not fail to increase their receipts, and to confirm the public confidence in every kind of investment.

PITTSBURGH PETROLEUM MARKET.

MONDAY, Jan. 23, 1865.

There was rather more activity in the Crude market to-day than usual, though there is still a great lack of reliable information. We understand that on Saturday last, about three days ago, all the Crude, 60@65c for Refined in Bond, and 70@75c for Refined Free.

The Whisky Tax.

(From the New York Tribune.)

A confederacy of speculators in legislation and business gorgeds themselves in a winter, by getting control of all the distilled liquors in market in anticipation of a large increase of the excise thereon, and then commencing or enjoying Congress into exempting this liquor from any additional tax while its market value was more than doubled by the last additional excise then laid on all liquor thereafter manufactured. The net profit of this group must have ranged from twenty to fifty millions of dollars, and a few only, unscrupulous men pocketed at least half of it. The same or a similar coalition is now at work on Congress, urging it still farther to advance this impost from 60 to 80 cents per gallon, in furtherance of alike speculation. It has no end but private gain.

A barrel of whisky smuggled over the Canada line this way is worth $100 more than it cost in the Colony. And a distiller or dealer who can export a sloop-load of whisky from Detroit, Buffalo or Oswego to Canada, thus avoiding the excise, and then smuggle it back again by the wagon load or barrel, will make liberty a most little fortune. What is to be gained by increasing the temptation to this roguery?

It is urged that distilling has nearly ceased among us. So it should have done. When corn and rye cost our laboring class one dollar and a half to two dollars per bushel, and pork over $40 per barrel even in greenbacks, the presumption is very strong that we HAVE no grain to spare for making whisky—that the drain of labor has stinted the yield, while the enormous consumption and waste of grain for feeding and distilling alcohol in the years of extravagance has left no surplus for distilling. Stop the smuggling, and there will be no grain to distill, whenever distilling shall be profitable.

DAILY REVIEW OF PITTSBURGH MARKETS.

MONDAY, JAN. 23, 1865.

The general market continue dull and depressed, with but little prospect of any immediate improvement. There is no demand for produce of any kind with the exception of hay, for the supply of consumers, and in prices, there is no change worthy of special notice.

GRAIN—Wheat is in demand and sells readily on arrival at previous quotations—$2,00@2,05 for Red and $2,10@2,15 for White. Barley continues dull, and some of the regular dealers have stopped buying. It is said, however, that brewers are paying $1,70 for prime Spring and $1,80 for Fall. Oats dull and nominal, with some few small sales from store at 90c. Sale of 1 car Rye at $1,05 per bushel. Corn is in fair demand and prime Ear may be quoted at $1,20 on track.

FLOUR—There is no improvement to note in the demand for this article, and no material change in prices. Small sales of Extra Family from store, mostly at $10,00@11,00 ⅌ bbl, for Spring and Winter wheat brands. Rye and Buckwheat dull and unchanged.

PROVISIONS—There is only a moderate local demand for Bacon, and prices are nominal at 20 for Shoulders, 22c for Sides, and 25c for Hams. Lard is steady with regular sales at 24@25, and 28, mostly at 24@25c. Nothing doing in Mess Pork or Bulk Meats.

BUTTER—Continues dull with a supply considerably in excess of the demand. Prime Roll is quoted at 45@50, with sales at the inside quotation.

EGGS—Quiet and nominal at 32@35c.

HAY—The receipts have fallen off somewhat in consequence of the bad weather and roads. Prices are nominally unchanged at $20 to $22 ⅌ ton.

CORNMEAL—Quoted dull at $2,25@2,50 ⅌ bbl, with small sales at the inside quotation. Receipts light and supply limited.

POTATOES—Steady with a fair demand for prime "Peach Blows" at $2,00@2,50 ⅌ bbl.

CHEESE—Quiet but unchanged; small sales at 20@22c for Home Dairy, Reserve and 25c for Hamburg.

RIVER INTELLIGENCE.

The weather yesterday was raw and unsettled, with considerable snow falling at intervals, and extremely unpleasant for the transaction of outdoor business. The river has risen several inches since last report, and last evening it was still rising slowly with 4 feet in the channel by the marks. Both the Allegheny and Monongahela rivers are still locked up in the cold embrace of ice, and the prospects of an early resumption of navigation on these streams are not considered as encouraging as on Sunday.

The only arrival we have to record is the Bayard from Parkersburg. The following is a copy of her freight list: 27 bbls dry apples, 21 do green apples, 9 do tongs, 4 do flaxseed, 2 do butter, Fleming & Steel; 22 bbls green apples, 12 do dry apples, 4 do sundries, H Bodler; 2 bbls paper, J R Welding; 180 oil bbls, Fetter & Armstrong; 25 do do, Anderson; 1 car sawed logs, Jordan, Hollister & Co; 7 do spl s, H Signor; 28 doz pails, J. H. Sneshen.

The Onward from Louisville and the Pike Grove and Minnehaha were tied last night and will probably be found in port this morning. The Minnesota was at Parkersburg on Saturday last.

There was not a single departure yesterday for any point, and business was exceedingly dull at the Wharf. The landing, however, is in such a miserable condition, being almost a perfect sheet of ice, from one end to the other, that it is most impossible to load freight down to the boats.

The staunch and reliable Argonaut, Capt. Geo. W. Reed, is announced to leave for Cincinnati and Louisville to-day without fail. The Yorktown, Captain Elbert, is next on the list for the same points.

The Dixie, Capt. J. M. Andrews, is announced for St. Louis forthwith, having her large almost completed. She will be followed by the Columbia, Capt. R. J. Porter.

The St. Louis *Democrat* of Saturday says:

The weather set in warm on Thursday evening, and warehoused a portion of yesterday, about summer heat. The wind was from the south, and southeast, and altogether matters were favorable for the breaking up of the gorge, at one early date. At last accounts, several days ago, the gorge was still firm, and apparently fast fast. The river here was stationary yesterday. Something of a rise is expected from the warm weather and melting snows. We have no reason to change our opinion, that the upper rivers will break up with a good freshet. There is about four feet nine inches of water in the head of the gorge.

dec7 No. 166 Fourth street.

FOR SALE—LOTS IN ALLEGHENY CITY.—The undersigned offer for sale the property where Mrs. FORD now lives, on Pasture [illegible], Allegheny City, adjoining the Tanyard of John Bryant. It has a front of about 200 feet on Pasture lane and extends back about 400 feet. It is a part of John Collier's plan of Mount Bellefield, recorded in Plan Book Vol. 1, page 76, and contains 6 lots of said plan, being lots numbered 60 to 31. It has a commodious frame house, and the grounds are planted with good fruit trees, &c. It could be divided into several good building lots, or if improved as a whole it would make a delightful residence. It is offered for sale as a whole, or in small lots to suit purchasers, and the terms of payment will be made easy. Possession can be given on the first of April next.

CHEROKEE INJECTION is designed as an only or assistant to the Cherokee Remedy, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus, or Whites. Its effects are healing, soothing, and demulcent, removing all scalding heat, chordee, and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the old quack injections.

DR. WRIGHT'S RACHITIC VERMIFUGE, or Worm Destroyer, Prepared from Pure Vegetable Extracts containing nothing injurious to the most delicate infant. The Experimenting quacks of the Medical profession have failed to discover the secret of its efficacy, and it is the only Vermifuge in the Medical Kingdom, being an entirely new and abstract method of cure, independent of all the old and worn out systems.

This medicine is a simple vegetable extract, and one on which alone rely, as it has been used in my practice for many years, and with thousands treated it has never failed in a single instance. Its curative powers have been so efficient in gain victory over the most stubborn cases. To those who have tried, with their constitution until they think there is no help for them, we would say despair not. The Cherokee Cure will restore you to health and vigor, and all quack nostrums are a failure.
