Gold is again advancing—opening at 208—noon rates 209½. Governments advanced from ¼ to one per cent. 5-20's quoted at 107¼@108.

But little doing at Pittsburgh board in National securities for the past few days. Bank shares scarcely so firm. Oil Stocks in better demand.

Cherry Run and Pittsburgh in strong demand at 1,25.

It is a little remarkable that Oil Stocks have withstood the depreciation in the value of gold better than any other stock, either here, in Philadelphia, or New York. It is true, the demand for the stock of some of the non-producing companies has fallen off materially, and prices as a matter of course, rule lower, but the stock of all good-divided paying companies is held firmly and in many instances, prices have appreciated in value considerably. Another noticeable fact is that parties about to invest in this kind of stock, discriminate more closely than formerly, and, instead of 'going it blind,' as was the case at one time, inquiries are made about territory, whether located; whether it is producing oil, and being energetically and intelligently developed, and whether the directors and managers are honest, intelligent, and energetic men.

The attendance at the Peoples' Exchange was again large this evening, and considerable excitement was manifested in certain stocks, and especially was this the case in regard to Cherry Run & Pittsburgh, which sold all the way up from 137½ to 150, which figure was offered at the close without bringing out the stock. There was also considerable inquiry for Ritchie, but the difference between the views of buyers and sellers prevented operations—12 being offered and 115 asked. Tarr, Story & Cherry Run was also in better demand and prices show a slight improvement. Cherry Run Central was wanted and 150 was offered and 195 asked. Elizabeth was offered at 3,25 bid; Excel, at 85 bid; Fleming & Blood, 3,50—3 bid; Boyd Farm, 5,50—5 bid; Whitely Creek, 1,10—1,05 bid. Sales of

The report in regard to the striking of a large well on lot No. 4, Smith Farm, Cherry Run, in which the Cherry Run and Pittsburgh Petroleum Company have an interest, is more than confirmed by a dispatch received this evening by Capt. Wright, which states that the well is now flowing at the rate of one hundred and seventy-five barrels per day, with sucker rods in. The dispatch states that one hundred and forty barrels were barreled from this well on Tuesday.

Since writing the above, another dispatch has been received stating that the well above referred to is now regarded as the best on Cherry Run, not even excepting the celebrated "Reed Well." It is impossible to say what size oil will do when the sucker rods are out, as they are full inch and a quarter. The rods will not be drawn until the twelve hundred barrel tank is put up. The tank is on the ground and is now being put up.

A dispatch was received from Oil City this evening, stating that a new well had been struck on Pitt Hole Creek, which it was thought would prove a bet, as well than the "Holmden Well," which was struck some two weeks since.

The following is from the New York *Tribune* of Tuesday: Merchants holding goods see them fall steadily, and no effort on their part can avert the loss, for the consumer will not buy in a market, and cannot be forced to sale without wiping the merchant's fortune out. Those who have speculations in stocks have a market, but the history of the past shows that stock speculators and merchants must share a common fate, and see their gains disappear as rapidly as they were made. Fancy stocks without trading alone, but weaken all kinds of National stocks. Under falling gold they are losing their value as a temporary investment, and, being largely held on speculation, find their way to market in amounts above its capacity to absorb them.

The transactions at the New York Petroleum Board on Monday were as follows: 100 Excelsior, $13; 400 Germania, 90c; 500 Knickerbocker Petroleum Co., 60; 1,000 Manhattan, 75; 400 Empire City Petroleum Co., 66; 100 Revenue, 60; 200 Gaill Canyon, $3; 400 Buchanan Farm Oil Co., $3,10; 300 Byrd Farm, $5,10; 600 do, $5,85; 100 President, $4,75; 300 United States, $30; 60 do, $36; 200 North American, $3,100 Enterprise, 85.

Iron, 750,000 tons, value	47,500,000

The New York *Commercial* of Tuesday says: The fall in gold naturally tends to depreciate the price of Government securities, but as yet that result has not occurred. As gold declines, the amount of interest, measured in greenbacks, diminishes; so that the 6 per cent. bonds when gold was 250, paid 15 per cent. in currency, now, with gold at 200, pay only 12 per cent. The 12 per cent. in appreciated greenbacks, it is true, is worth as much in purchasing value as the former 15 per cent. but for the interest to retain the former relation to the principal, the price of bonds ought also to decline. At the beginning of September Five-Twenties were worth clear of interest, 104, which was then equivalent to 40 in gold; at the present time, those bonds are also worth 104, clear; which is equivalent to 52 in gold, showing an advance in gold price, since the first day of September of 12. About five months ago the interest upon the gold value of the principal was 15 per cent.; now it is 11½ per cent. The fact of the prices of bonds not having declined to meet these fluctuations in the value of the interest, is of course attributable chiefly to the improvement in the credits of the Government, during the interim, resulting from the brightening aspect of the military situation. Considering that Government six per cents. are worth now only 52, and that the prospects strongly favor a prompt close of the war, it would appear quite probable that gold may fall yet much lower without affecting the price of Government securities; but to expect any advance in bonds, beyond what may be required by the steadily accruing interest, is clearly a hope with but little basis while the present prospects continue.

The Chicago *Tribune* of Tuesday says: The present decline in gold causes considerable anxiety in monetary circles concerning Western interests. Comparatively few of the packers here or on the Illinois and Mississippi Rivers have sold much of their season's packing, and to place it on the market now would be ruinous to all concerned. The packers generally bought their hogs at prices averaging about $9,00 @ 100 lbs higher than to-day's market, and nearly all have been extreme in their notions of a "short crop" and consequent high prices. Under this state of affairs, even when Mess Pork was in active demand at $40,00 they refused to sell, and held at $50,00—some even expecting to realize $60,00 @ bbl. This, together with the high rates of freight, has kept the great bulk of the season's packing in the West, and it is being carried now by the banks, much to their inconvenience and deep anxiety. To sell at present prices would be ruinous to the packers and also to those who have advanced on the product, for any considerable amount placed on the market would be sure to break it, and send prices clear below the margins generally put up.

DAILY REVIEW OF PITTSBURGH MARKETS.

WEDNESDAY, JAN. 25, 1865.

The slight advance in the price of gold has produced a little better feeling in commercial circles, but as yet, there is no improvement to note in the general markets, the demand for the leading commodities being very light, and restricted almost entirely to supplying the immediate wants of consumers. There is no speculative feeling manifested anywhere, while from Gold to Oil nothing is lower, nor is it likely that there will be, unless gold should advance materially.

ASHES—Sales of 80 tons common Soda Ash at 3½ cents per pound. Refined do. is quoted at 6½c, and Pearl Ash is held firmly at 13 cents.

GRAIN—There is but little Wheat offering, and with a good demand the market may be quoted steady at $3 for Red from wagon, and $3,10 for White. Barley is unsettled and dull, and accurate quotations cannot be given. Oats, dull and nominal at 85 cents, on track, and 90 for small lots from store. Sale of 1 car Corn, in ears, at $1,20, and 500 bushels Rye—for Coffee—at $1,70.

FLOUR—There is no improvement to note in the demand for this article, and no change to make in quotations. Small sales of Extra Family from store at $10,75@11, for good Spring and Winter Wheat brands.

PROVISIONS—There is a fair local demand for Bacon, and we note small sales at previous quotations. Lard is selling at 24@24½c for steamed and kettle rendered. Mess Pork is held at about $40, but there is no demand. No transactions in Bulk Meats.

LEAD—Sales of 251 pigs soft Galena, at 16 cts.

POTATOES—Quiet but firm with small sales of prime Peach Blows from store at $3,25@3,50 per bbl. Stock light and receipts limited.

DRIED FRUIT—Small sales Dried Peaches at 12c for Apples, as to quality, and Peaches at 20 cents.

PITTSBURGH PETROLEUM MARKET.

TUESDAY, Jan. 25, 1865.

There was not a single operation in Crude to-day that we could hear of, and for the first time, we believe, in the history of the trade, it may be truthfully stated that there are not five hundred barrels in this market except what is in the hands of Refiners. This being the state, quotations of Oil are necessarily be nominal, and we give them at 27@28c, bbls returned and 42@43c bbls included. For Refined, either in bond or free, there is but little inquiry—in fact, there is no demand whatever for the foreign. Free Oils of superior manufacture are held at city hands at 86c. Naptha is quiet but firm at pretty firmly at 43@45c, according to gravity and condition. Residuum is in fair demand and unbequeated firm at $7,75@7,85 per barrel—some holders asking $8,00.

RIVER INTELLIGENCE.

The weather continues extremely cold, and the hopes entertained during the early part of the week of an immediate resumption of navigation, are fast, are not likely to be realized. To-day the river has risen fully foot feet within the past two days, but the ice has again become so formidable that it would be a dangerous experiment for a steamboat to venture out. The Monongahela was running free of ice on Monday, and is reported open some distance up, how far we were unable to learn. The Allegheny is still closed somewhere between here and Kittanning, and, judging from present indications, will remain in this condition for some time to come.

There have been no arrivals or departures for several days, nor is it likely that there will be for several days to come. The Fleets of Steamboats, and Outwards from Cincinnati, are scattered here and there up and down the river.

The Argonaut and Yorktown are advertised for Cincinnati and Louisville and the Olive and Columbia for St. Louis.

The Anna was advertised to leave Cincinnati for Pittsburgh on Tuesday.

The following is the report from the St. Louis *Democrat* of Monday:

The river rose two inches on Friday night, and was at a stand, Saturday and yesterday at this port. The weather was very mild during the closing days of last week, and was cloudy yesterday, although there was a slight freeze on Saturday night. It is believed the gorge about Buffalo Island will soon be carried out and navigation will again claim the resumed. The current through and under the gorge is becoming stronger, and there is a decided prospect of the rapidly increasing ice disappearing. Some of it has already reached Cairo. The Steamer Belle Memphis arrived at Cairo from New Orleans at 4 o'clock Saturday morning, and the officers and crew were paid off. On Saturday evening Captain Harry D. Bright, of the Packet Cairo for Cairo, which immediately upon his arrival here will undoubtedly be placed on the line. We presume that steamer will ply between Cairo and Nashville.
