PROPOSALS.

OFFICE OF THE MAYOR OF THE CITY OF PHILADELPHIA, MARCH, 30th, 1864.

Sealed Proposals will be received by the Mayor of Philadelphia, until 12 o'clock, noon, of Wednesday, April 13, for the purchase of the whole or of any part of the Six per cent. Loan of the City of Philadelphia for One Million Two Hundred and Fifty Thousand Dollars, authorized by an ordinance of the Select and Common Councils of the said City, approved March 1st, 1864, and likewise of the Six per cent. Loan of the said City for Two Millions of Dollars, authorized by an ordinance approved March 28, 1864.

Such proposals must be addressed under seal to the Mayor, marked "Offer for City Loan," and will be opened by him in presence of the City Treasurer and City Controller at the time above designated, the right being reserved by the Mayor to reject any bid for insufficiency of price.

These Loans are redeemable at the expiration of thirty years from date; their repayment is secured by Sinking Funds provided contemporaneously with their issue, for the maintenance whereof the faith of the City is specially pledged; their interest will be paid half-yearly on the first day of January and July, at the office of the City Treasurer, without deduction of, or liability for, State or City Taxes.

[SEAL.] ALEXANDER HENRY,
8pl-f,m&w 5t Mayor of Philadelphia.

PROPOSALS FOR BITUMINOUS COALS.—Sealed Proposals will be received at the Office of the Philadelphia Gas Works, No. 20, South SEVENTH Street, until noon of FRIDAY, 22d of April, 1864, for supplying the whole or any part of *Eighty Thousand Tons of Bituminous Coals*, suitable for the manufacture of illuminating Gas, to be delivered on the Railroad tracks of the Gas Works at the First Ward and the Ninth Ward Stations, in the following monthly quantities; eight thousand tons in each of the months of September, October, November, December, and six thousand tons in each of the months of June, July, August, 1864, and January, February, March, April and May, 1865.

The coals must be delivered fresh, dry, and of a quality approved by the Engineer of the Gas Works, as equal to the sample on which the contract is based.

The proposals must describe the particular variety of coals intended to be supplied and the location and name of the mine or pit from which they are to be raised. If they are of a kind not now or recently used at these Works, samples for trial of not less than fifty tons, must be delivered at the Works, on or before the 7th of April next.

The gross ton of 2240 pounds will be considered as the weight intended in the proposals, unless the contrary be expressly stated.

The Trustees reserve the right to accept any proposals in whole or in part, or to reject all, as they may deem best for the interests of the Trust, and in the event of failure on the part of any contractor to deliver the coals according to his agreement, both in quantity and quality, the Trustees reserve the right to buy elsewhere, whatever quantity may be required to meet the deficiency, and charge to the contractor any loss or damage arising from each failure.

Payments will be made monthly, in two equal instalments at four and six months after the specified periods of delivery, the 15th of each month being taken as the average of the monthly deliveries, or at the option of the Trustees, will be made at earlier dates with legal interest off.

Should contractors prefer to make deliveries earlier than required, they may be received so far as they can be conveniently stored, but payments will be made to date from the time specified to the contractor.

Security for the fulfilment of contract will be required, and each proposal must name the amount and character of security that will be offered. JOHN C. CRESSON,
fe20tap22t Engineer in Chief.

We have letters almost every day from ladies of the highest respectability, telling us they would not be without the French Periodical Drops for anything. Could we publish the letters we have received, they would convince the most incredulous. We have now in mind an instance of a lady who had been irregular until her constitution was nearly broken down. Her physicians told her she had the Consumption, and must die. She saw our advertisement, and came to see us. We, too, thought she was too far gone to be cured, but commenced at the cause with the Drops. They acted like a charm; and to-day she is well and healthy, a living witness of the efficacy of the French Periodical Drops, and a resident of East Hartford, Connecticut. If you are suffering any of the ills caused by irregularity, we ask you to give them a trial, and recommend them to your afflicted friends. One trial will convince the most sceptical, and never after will you be induced to be without it.

BANNVART'S BRONCHIAL TROCHES, for the cure of Hoarseness, Throat Diseases, &c., are specially recommended to public speakers, as the most efficient remedy extant for the above diseases. We present but one of the many testimonials in our possession:

HARRISBURG, Feb. 8th, 1861.

C. A. BANNVART—*Dear Sir:* I have used Brown's Bronchial Troches, Wistar's Lozenges, and other preparations for hoarseness and throat troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers, in cases of hoarseness, coughs and colds. I have found them serving in time of need, most effectually.

Yours truly, T. H. ROBINSON,

DRUGS.

LAWRENCE'S METALLIC BROWN PAINT—$5 PER CENT METALLIC BASE.

The Metallic base of this Paint is composed of the Protoxide and Peroxide of Iron. Its properties are such as to give it superiority over all others in the market for the purpose for which it is recommended.

It has been proved by thorough exposure, and by comparison with other paints, to be the only reliable Paint to resist the action of salt water and salt atmosphere.

It is therefore especially recommended for ship bottoms, hulls, decks, boiler fronts, smoke stacks and steam pipes. For iron railings, fences, cars, railroad and other bridges, it is not excelled.

It is especially adapted for METAL ROOFS.

It is not affected by acids or gases, and is a perfect protector against rust on metals, and from dampness on brick walls.

It mixes and blends readily with other paints, and by comparison to the amount of surface a given weight will cover, costs about one-half as much as other Metallic Paints.

Wherever this Paint has been used, it has given ENTIRE SATISFACTION, which is, we believe, more than can be said of any other paint in the market.
