There was but comparatively little done at the regular Board to-day, and as will be seen above, the offerings of stocks were limited. Sales of 5's of 1881, (ex-coupons) at 1,04; and Five-Twenties, (ex-coupons,) at 1,00½. There was a sale of 6,000 Connellsville Stock, at 90½; and after Board yesterday—250 shares Blood Farm & Ohio at 1,50, and 100 shares Phillips at 3,60. Gold, under the news of the capture of Wilmington, declined a trifle in New York, being quoted at noon at 1,09½.

We have good authority for saying that the report current to-day of a two hundred barrel well having been struck on the property of the Hemlock Oil Company is not exactly true. The facts in the case are that a vein of oil was struck at a depth of three hundred and sixty-five feet, but at last accounts it was not tubed, and it is impossible, therefore, to say what it will do. The indications however, we understand, are regarded as favorable for a good producing well.

A private dispatch from Oil City to-day states that the new well of the Ross Oil Company, is improving and is now yielding from twenty-five to thirty barrels per day.

The attendance at the Peoples' Stock Exchange was again large this evening, and the excitement in Oil Stocks is again increasing. The transactions were large, and embraced a good many of the leading stocks, and prices, as a general thing, ruled higher. West Virginia & Pittsburgh, and Paxton, advanced considerably, and it is reported that a well has been struck on the property of the first named company. Hemlock ruled steady, although not quotably higher, while Ross sold at from 1,50 to 100, a decline. Culbertson sold at an advance of 5 per share, while Pittsburgh & Philadelphia ruled steady, at previous rates; and Ohio Valley, as compared with recent sales, brought a slight advance. We subjoin a list of the sales:

Messrs. Robinson, McClean & Co., Bankers of this city, have just secured from Messrs. Duncan, Sherman & Co., of San Francisco, Cal., through their French house at New York, the entire sale of a limited number of shares in the Silver Mining Company, about to be incorporated under the mining laws of New York; and based upon the address and well known Vaca, Marlines and San Pedro lodes at Batopilas, Mexico, near the California State line.

Although hoards of wealth have been and are now being taken from these mines, yet they are most offered to the capitalist in the form of a joint stock company, not for speculation, but to allow American enterprise to make greater developments and secure larger returns for investment, than to nine them in the old rude Mexican manner. All of make the stock popular and within the reach of all our friends, the stock will be offered at a small rate per share of subscription. For further particulars call at the office of Robinson, McClean & Co., No. 75 Fourth street, where consultation can be had with Wm. Fleming, Esq., of San Francisco, Cal., Duncan, Sherman & Co.'s agent, and see maps, historical prospectus, samples of bar and native silver taken from these mines, &c., &c. Books of subscription will be opened according to advertisement in Monday's paper, on Wednesday, March 1st, 1865. Title papers, good management, and honest returns of the above company are all guaranteed.

We might add that the mines have been paying over 500 per cent. per annum, and will, beyond a doubt, double this with the aid of American enterprise such as is proposed to introduce.

We take the following from the Crawford (Pa.) Journal: On Wednesday last the Sugar Creek Oil Co., struck a fine vein of oil and commenced pumping on Thursday. The daily yield up to Sunday night was as follows: First day, 25 bbls; second, 30; third, 40; fourth, 50. When the pump stops, the oil will flow for several minutes. It is a heavy lubricating oil, and sells readily at 25 per barrel. The well is fifty 50 feet deep, and the drill had just passed through the first sand rock. But for the circumstance of being a little nearer Sugar than French Creek this well would be called in the French Creek Valley, and for all practical purposes it is being only a mile from the creek. French Creek Territory is rapidly "looking up." A well which is flowing eight barrels per day having been struck last week, we are informed, a mile below Utica.

The Savannah cotton fleet, so far as heard from, will bring about 18,000 bales, the bulk of it being upland cotton. Another fleet is loading at Savannah, and will be in New York in a short time. Estimating the weight of the thirty thousand bales of cotton at fifteen million pounds, and the price at twenty cents per pound, over ten million dollars will be realized by its sale. The lately increased supply of cotton has had a depressing effect on foreign exchange. It is stated that a large amount of the cotton seized at Savannah was the property of the rebel authorities, and was to have been run through the blockading fleet, and therefore justly forfeited to the United States Government. That portion of it which can be proved to have belonged to Unionists will no doubt be paid for to those proprietors at a future time. It is evidently for the benefit of the loyal sections of the country to get possession of this valuable commodity for home consumption and for export. All that may be obtained will help to keep the cotton mills supplied, and by furnishing a basis of exchange reduce the price of gold.

The following is from the Philadelphia *Ledger* of Thursday:—Congress it is said, has it in contemplation to impose a tax on petroleum, whether imported or not. The object is to make foreign consumers contribute to the wants of the Treasury. The rate proposed is six cents per gallon, or about $2,40 cents perbbl. Two things are to be considered in this proposition. First, will the tax base great as to loose us the foreign customer for oil and, second, as such a tax would be equivalent to an export duty, does the Constitution as it stands, allow it. Parties interested in the production of oil are before Congress opposing the tax.

We glean the following oil items from the Venango Citizen, published at Franklin, under date of the 23rd inst:—Our remarks in last weeks issue concerning the increasing failure of lands on French creek and its tributaries, and the fair prospects for many good wells in this locality, have proven to be no wild vagaries of imagination. On the contrary they were correctly true. Since that time a well has been procured on the Human Farm on Sugar Creek, by the Shippen Oil Company, which is variously estimated to yield from fifty to seventy barrels of oil perday. We have heard no one speak of it as less than a fifty barrel well, and we are inclined to the opinion that its yield will far exceed that amount. The news of this splendid strike spread like wild fire, and the greatest excitement prevails among oil men in regard to French creek and Sugar creek lands, the prices of which have more than doubled during the past week. On Friday and Saturday last hundreds of men visited the well, and the lands for many miles around are being bought up at fabulous prices.

Following close in the wake of this success, the Sutley Oil Company struck a well on the Sutley Flats, on French Creek, which is flowing eight barrels of oil per day. Tele increased the excitement, if possible, and some of the fortunate owners of lands in these vicinities were wild with joy. We have seen nothing to equal the scenes during the week, since the early days of petroleum business. Men were offered and refused fortunes for lands, that a week's since might have been bought at very low rates, and many land owners, with just sufficient means to supply their wants, awoke to the realization that their farms of fifty or one hundred acres were worth such fortunes as they had never hoped for in their wildest dreams. We also learn that on Monday the 13th inst., a fine show of oil was struck on the old Rochel Furnace on the Allegheny River, at the depth of two hundred feet.

DAILY REVIEW OF PITTSBURGH MARKETS.

FRIDAY, Feb. 24, 1865.

The general markets continue quiet and neglected, there being but little disposition to operate except in the small way. There is no speculative feeling manifested, and the demand for produce of all kinds is very light, being restricted altogether to supplying the immediate wants of consumers. In prices, there is no material change to note, though there is no disguising the fact that the tendency is downward.

GRAIN—The receipts of Wheat from the country are very light, while our mills are receiving large supplies both by rail and river. We note an occasional sale from wagon at $2,10 for Red and $2,15 for White. Barley continues very dull, our breweries being fully supplied, and the sales are confined altogether to wagonloads at $1,45@1,50. The receipts of Oats have fallen off considerably, but as the demand is exceedingly light, the market is dull and prices are nominally unchanged; small sales from store at 88, 68 and 70 cents. Corn is coming in quite freely, and holders in order to effect sales, are compelled to accept lower rates; sales on track, at $1,25@1,23.

FLOUR—There is a slight improvement in the local demand for Flour, but the market continues dull, while prices are nominally unchanged. Small sales of Extra Family from store at $10,25@10,50 for Spring Wheat brands, and $10,75@11 for Winter Wheat do. Buckwheat Flour is selling in the small way at $4 per cwt.

PROVISIONS—There is a continued fair jobbing demand for Bacon, and we note regular sales at 20 @20½ for Shoulders, 22 for Ribbed Sides, and 24 for Hams. Lard is quoted firm at 24 cts—some holders asking 24½ for prime kettle rendered. In Meats Pork or Bulk Meats there is nothing doing.

SEEDS—The receipts of Clover Seed continue quite liberal and as the demand is confined entirely to the wants of the home trade, there being no margin for shipping, the market is rather dull and prices are a shade easier, ranging from $14,50 to $15 per bushel; sale of 2 cars at 8?.

GREEN APPLES—Are coming in more freely, but with a good home and shipping demand the market may be quoted firm at $4 to $5 per bbl, as to quality.

FISH—Sale of 10 pkgs Lake Herring at $6 per half bbl.

OIL—No. 1 Lard is selling at from $2,05 to $2,10 per gallon—packages extra.

LIME—Has advanced, and we note sales at $2,50 per bbl.

PITTSBURGH PETROLEUM MARKET.

FRIDAY, Feb. 24, 1865.

The indications for an early resumption of navigation on the Allegheny river seem very encouraging to-day, and, unless the weather should turn suddenly cold, we expect to see communication by water established between here and Oil City within a very few days. We are informed that it is already clear of ice up to Freeport, and propably Kittanning, but until it is open all the way up and crude comes down, there will be no transactions in the article here. For Refined, in bond, there is no demand at present, and in the absence of sales we omit quotations. Free Oil is dull and drooping, with sales at 51@53—60 bbls having been sold to-day at 51. Naphta is quiet, but firm at previous quotations. Residuum is in demand and higher; sales of 60 bbls at $6,15½, and 30 bbls at $6,50. The last named figure is the highest price, we believe, ever obtained for the article in this market.

PHILADELPHIA STOCK MARKET.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, Feb. 24, 1865.

Oil Stocks were feverish, active and excited today, with large sales, and prices generally were better. The most active stocks were Sugar Creek, Sugar Dale, Junction, Keystone and Adamantine, all of which improved, but fell off and closed dull. The closing sales were as follows:

Sugar Creek	15 00	Dennmore	5 50
McClintock	8 25	Junction	2 25
Dalzell	8 62	Keystone	3 37
Sherman	1 25	Adamantine	11 75

NEW YORK PETROLEUM MARKET.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, Feb. 24, 1865.

Petroleum is in fair demand, but prices are easier. Sales of 1000 bbls at 48c on spot. Refined in Bond quiet at 66@67c. Free firm at 67c.

JACOB WRIGHT.—The Deputy Flour Inspector, while inspecting one hundred barrels of flour the other day, discovered that every barrel fell short in weight from 2 to 3 pounds each. This is certainly a very mean way of swindling the public, and the guilty parties, whoever they are, ought to be punished and exposed.

MARKETS BY TELEGRAPH.

Chicago Market.

Special Dispatch to the Pittsburgh Gazette.

MONEY MARKET—Gold, 198. Silver, 185.

New York Produce Market Feb. 22.

BUTTER.

Those who foresaw the course of events and got their butter off some weeks, or even some months ago, now thank their good fortune and the advice of the *Tribune*. Many, however, held on, and will suffer heavy losses. There are lots on sale, and others to arrive which might have been sold at 65c, or even 70c, now they will not bring 45c, besides the long delays and great expense of bringing them forward. Some butter shipped in the early part of January is not yet in. The market is decidedly flat, almost nominal, this week, at 35@ 38c decline. Shippers are taking very little at 38@ 40c gold, and no little confidence have dealers in the future that they are instructing their agents not to pay over 35c per lb, in the country. Roll butter, particularly, sells very low.

CHEESE.

Cheese is doing better. The accounts from abroad are favorable and the stock here light. There is to advance this week

EGGS.

Eggs have been declining all the week and at no time more so than to-day, the morning prices were higher than those here quoted, but we anticipate receipts of the last few days, favored by warm weather. We quote:

New Jersey and Penna. choice Western.....41@42
State, good marks.....40@41
Western, per doz, good order.....40@42

FRUITS—DRIED.

Dried apples have fallen back to their normal value, since the speculative fury caused by large Government orders. A few nice apples have been sold at 16c, and might bring that figure now. One lot of 35 bbls brought 16½c—*Tribune*.

Dry Goods Auction Sales in New York.

Kobbe & Collies had a fine sale of ribbons, embroideries, &c. There was a very large attendance. The prices are slightly on the increase. The sales logue included some 700 packages. While the dull ness continues in the sale of domestics, it is gratifying to notice that the finer qualities of imported fabrics command high prices. The average advance on the laces and ribbons was at least ten per cent. The goods seemed to advance in price as the sale continued.

Hadden & Co. held their usual weekly sale of carpetings. The attendance was very good, but the prices moderate. The Ingrain Cotton-Chain, sold altogether to wagonloats at $1,45@1,50. The receipts of Oats have fallen off considerably, but as the demand is exceedingly light, the market is dull and prices are nominally unchanged; small sales from store at 88, 68 and 70 cents. Corn is coming in quite freely, and holders in order to effect sales, are compelled to accept lower rates; sales on track, at $1,25@1,23.

FLOUR—There is a slight improvement in the local demand for Flour, but the market continues dull, while prices are nominally unchanged. Small sales of Extra Family from store at $10,25@10,50 for Spring Wheat brands, and $10,75@11 for Winter. Wheat do. Buckwheat Flour is selling in the small way at $4 per cwt.

PROVISIONS—There is a continued fair jobbing demand for Bacon, and we note regular sales at 20 @20½c for Shoulders, 22 for Ribbed Sides, and 24 for Hams. Lard is quoted firm at 24 cts—some holders asking 24½c for prime kettle rendered. In Meats Pork or Bulk Meats there is nothing doing.

GREEN APPLES—Are coming in more freely, but with a good home and shipping demand the market may be quoted firm at $4 to $5 per bbl, as to quality.

FISH—Sale of 10 pkgs Lake Herring at $6 per half bbl.

OIL—No. 1 Lard is selling at from $2,05 to $2,10 per gallon—packages extra.

LIME—Has advanced, and we note sales at $2,50 per bbl.

Boston Auction Sale, Feb. 21.

(Cargo of barbue Young Turk, from Malaga)—Raisins— 7,000 boxes layer, J. Clemens' brand 855 to 4 at prices, 25@28; 1020 half do do do, 50 sold at $3,075; 1000 quarter do do do, 50 sold at 1,61; 800 boxes bunch, do do, 50 sold at $6; 1,070 boxes bunch, F. A. Marriage brand; 298 sold at $6,50; 1,000 boxes layer, do, do, 24,10@26,18, 2?per cent off for cash.

RIVER INTELLIGENCE.

The river rose rapidly during Thursday night and yesterday forenoon, but in the afternoon it came to a stand, and last evening it was falling slowly, with about ten and a half feet in the channel by the marks. There was considerable floating ice in the Allegheny river at times yesterday, and we presume that it is breaking up in places. The Monongahela was also full of this ice, but it would not impede navigation even above or below the weather continues mild and pleasant.

The only arrival was the Kanawha Packet, Capt. Wm. Curtis, from Cincinnati, with an excellent trip. The Minerva, from Wheeling, had not arrived when we left the wharf last evening, although she was momentarily expected. She ought to have arrived here on Thursday night.

The Glide No. 3, Capt. Anderson, is announced to leave for Cincinnati and Louisville this evening. She has excellent accommodations for passengers, and plenty of room for freight. Mr. Baker still retains charge of the office.

There was not a single departure yesterday for any point.

The commodious Leonidas, in command of Capt. M. A. Gaus, is filling up for St. Louis, and will soon be ready to take her departure.

The W. P. Curtis, Capt. Hirsh, is announced to leave for Nashville and all intermediate points at an early day next week.

The popular and commodious Minnesota, Capt. Dickerson, is announced to leave for Cincinnati this evening.

The Hard-Times, Capt. Brown, will be ready to leave for Cincinnati and Louisville, at an early day next week.

The Silver Cloud No. 2, left Cincinnati for this city on Wednesday, and the Empire City and Anna, were advertised to follow on Thursday.

The Wheeling *Intelligencer* of yesterday says: The river was swelling a little yesterday, with between eight and nine feet in the channel. The weather was cloudy, with indications of rain. We learn that the Wheeling steamer Saint Johns, Captain Thos. M. Mason, has been sold to parties in St. Louis, for $48,000. She is now on her way up the river, and will be delivered in Pittsburgh, at a point she will load for St. Louis. She is a cheap boat at $48,000. She could not be built to-day for less than $80,000.
