SEWING MACHINES.

CARD TO THE PUBLIC.

A FALSEHOOD EXPOSED.

For some time past an advertisement has appeared in the papers here, stating that Five Gold Medals had been awarded "the Howe Sewing Machine" at the late World's Fair in London, "one for the best on exhibition for all purposes, and the others for superior specimens of sewing." Though aware at the time that the statement was wholly devoid of truth, and a gross imposition on the public, we forbore noticing it, until such time as we could get an official copy of the Report of the Judges in the matter, so that we could give it a positive and authoritive contradiction. That Report, published by authority of the Commissioners of the Exhibition, is now in our possession, and shows how utterly untrue are the statements in the advertisement alluded to.
At the World's Fair the WHEELER & WILSON COMPANY had but a single Machine on exhibition, in the Class Sewing Machines there were several on hand. In the official copy of the award, which may be seen at our rooms, 52 FIFTH STREET, it is stated that a Gold Medal was awarded the Howe Sewing Machine Company, not, however, because their Machine was better, or as good as others for all purposes, but because, in the language of the award, they exhibited "the best collection."
The other menos" all got to have been awarded "to superior specimens of sewing, were never awarded at all, nor did the a crowd "superior sewing" receive even the barren compliment of an "honorable mention" in the Judge's Report. Compare this with the high commendation accorded the WHEELER & WILSON MACHINE. Though the Company, avoiding all pretentious display, had but a single machine on exhibition, it was awarded
A GOLD MEDAL ON ITS MERITS AS A FAMILY MACHINE, AND ON ITS MERITS ALONE,
These are the facts of the case, as exhibited by the official report of the Commissioners, and in justice to ourselves, as well as to those a palpable and flagrant attempt at imposition, we have felt constrained to lay them before the public. We, therefore, affirm that the WHEELER & WILSON MACHINE is the only machine which received a GOLD MEDAL on merits at the late World's Fair, and pronounce all statements to the contrary, no matter from what source they emanate, as wholly unworthy of belief.

WM. B. BRADBURY'S
PIANO-FORTE ESTABLISHMENT,
NO. 427 BROOME STREET, N. Y.
The subscriber respectfully invites the attention of his friends and the public generally to his Piano-Forte Establishment, at No. 427 Broome street, corner of Crosby street.
Having withdrawn his interest, stock and materials from the late firm of "Lighe & Bradbury," which firm was dissolved on the 31st January ult., and having purchased the entire stock of Piano-Fortes and Piano-Forte material owned by his brother, Edward G. Bradbury, in the said firm, he is now prepared to supply the increased demand for his celebrated Piano Fortes. Employing the most skillful and experienced workmen, with a large stock of the best and most thoroughly seasoned material, and an abundance of capital, he has TAKEN in hand the personal supervision of the whole business of manufacturing his instruments, and is enabled to turn out Piano-Fortes of unrivalled tone and durability.
BRADBURY'S NEW SCALE PIANO-FORTE.
In the arrangement of our new scale, drawn and prepared with the utmost care, expressly for our new instruments, we have added every improvement which can in any way tend to the perfection of the Piano-Forte, and we can confidently assert that, for sweetness of tone, fullness, purity, brilliancy and equality of tone, combined with that strength and solidity of frame necessary to durability, these instruments are unequalled.
"STRENGTH AND BEAUTY" is our motto, and we invite the closest criticism of the best unbiased judges in the land.
Every instrument warranted for six years.
WM. B. BRADBURY,
mh7:3m 427 Broome st., cor. of Crosby, N. Y.

MISCELLANEOUS.

GENERAL ORDERS No. 105.
WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE.
Washington, April 28, 1863.
The organization of an Invalid Corps is hereby authorized.
The Corps shall consist of Companies, and if it shall hereafter be thought best, of Battalions.
The Companies shall be made up from the following sources, viz:
First. By taking those officers and enlisted men of commands now in the field (whether actually present or temporarily absent,) who, from wounds received in action or disease contracted in the line of duty, are unfit for field service, but are still capable of effective garrison duty, or such other light duty as may be required of an Invalid Corps. Regimental Commanders shall at once make out, from information received from their Medical and Company Officers, and from their own knowledge, rolls (according to the Form furnished,) of the names of all the officers and enlisted men under their commands who fulfill the following conditions, viz:
1. That they are unfit for active field service on account of wounds or disease contracted in the line of duty; this fact being certified by a Medical Officer in the service, after personal examination.
2. That they are fit for garrison duty; this fact being likewise certified by the Medical Officer, as above, after personal examination.
3. That they are, in the opinion of their Commanding Officers, meritorious and deserving.
These rolls shall be certified by the Examining Surgeon and Regimental Commander, and transmitted, through the regular channels of military correspondence, to the Provost Marshal General of the United States.
The Regimental Commander shall enter in the column of remarks, opposite each officer's name on the roll, a statement as to the general character of the officer for intelligence, industry, sobriety and attention to duty; and all intermediate Commanders shall endorse thereon such facts as they may possess in the case, or if they have none, they shall state how far they are willing to endorse the opinion of the officer or officers making the recommendation. Similar rolls shall be forwarded from time to time, whenever the number of men fulfilling the conditions enumerated or the exigencies of the service may render it expedient.
Second. By taking those officers and enlisted men still in service and borne on the rolls, but who are absent from duty, in Hospitals or Convalescent Camps, or are otherwise under the control of Medical Officers. In these cases the Medical Officer in charge shall prepare the rolls according to Form, entering the names of officers and men from the same regiment on a roll by themselves, and send forward them, with the certificate of the Surgeon, duly signed, to the proper Regimental Commander, who will forward them, as heretofore specified, under the same conditions and requirements. If, in any case, the Regimental Commander shall think an officer unfit, in point of character, to continue in the service of the Invalid Corps, though disabled and certified by the Surgeon, he will state his objection in the column of remarks, and note the exception before signing the certificate. If any officer or enlisted man now in the service, but absent and beyond the reach of a Medical Officer in charge of a Hospital or Convalescent Camp, desires to enter this Corps, he will take the course indicated below for those who have been honorably discharged the service.
Third. By accepting those officers and enlisted men who have been honorably discharged with wounds or disease contracted in the line of duty, and who desire to re-enter the service. In the case of an officer, application for Appointment must be made to the Provost Marshal General of the United States through the officer detailed as Acting Assistant Provost Marshal General of the State. No Application of this kind will be considered unless the following conditions are completely fulfilled:
1. That the applicant produce the certificate of the Surgeon of the Board of Enrollment for the district in which he resides, that he is unfit for active field duty on account of wounds or disease, and is not liable to draft, but is fit for garrison duty.
2. That he furnish evidence of honorable discharge on account of wounds or disability contracted in the line of duty.
3. That he produce recommendations from the Regimental, Brigade and Division Commanders under whom he formerly served, that he is worthy of being thus provided for and capable of returning to duty in service to the Government. In case it shall be impracticable to get this last evidence, he may, having established the first two points above, satisfy the Board of Enrollment that he is deserving and present its certificate of the fact. This evidence must all be obtained by the applicant, and must be transmitted with his application for appointment.
If there be no Acting Assistant Provost Marshal General for the State, the application may be forwarded through the Adjutant General of the State, who is desired to endorse thereon such facts in the military history of the applicant as he may know, or as are afforded by his records, and forward the same to the Provost Marshal General of the United States.
Enlisted men, honorably discharged on account of disability, desiring to re-enlist in this Corps, will present themselves to the Board of Enrollment for the district in which they reside, for examination by the Surgeon thereof, who shall examine them and report the result to the Board of Enrollment.
The Board shall then consider each case, and if the applicant is found to fulfill the conditions specified below, the Board shall give him a certificate to that effect, viz:
1. That he is unfit for service in the field.
2. That he is fit for garrison duty.
3. That he is meritorious and deserving.
4. That he was honorably discharged from the service.
The Provost Marshal for the District shall then send the application, with the certificate of the Board, to the Acting Assistant Provost Marshal General of the State, who shall procure such evidence of service and character as the records of the Company to which he belonged, or file at the Headquarters of the State, may show, and if satisfied that it is a meritorious case, and that the man is deserving, he will enlist him in accordance with such special rules as the Provost Marshal General may establish.
Medical Inspectors, Surgeons in charge of Hospitals, Military Commanders, and all others having authority to discharge, under existing laws and regulations, are forbidden to grant discharges to any men under their control who may be fit for service in the Invalid Corps.
The Provost Marshal General is charged with the execution of this order, and the troops organized under it will be under the control of his Bureau.
By order of the Secretary of War.
E. D. TOWNSEND,
ap30:3tmwsw As'sistant Adjutant General.

The News.
The advices from the Southwest are highly encouraging. A rebel dispatch from Mobile, of May 14, gives us the information that our troops have captured Jackson, the capital of Mississippi, and the key of Vicksburg. It is here that the only railroad connecting Vicksburg with the East and South intersects with the Mississippi Central, and if our forces are able to hold it, all avenues of supply and reinforcement, except over common roads, are cut off. "We fought them all day," says the rebel dispatch, "but could not hold the city." We invite attention to a remarkable article from the Richmond Inquirer, of the 15th, on the situation as seen through rebel spectacles. Some of our people are discouraged; but there is nothing on our side so discouraging as the picture drawn by the leading paper of the Confederacy.

County Nominations.
In perfect accordance with an increasing public sentiment amongst the truly loyal and patriotic people of this county, and following the example of the State Central Committee, the Republican County Executive Committee, at a meeting held on Saturday last, resolved to drop even the name of that party organization which, not only in this county, but all over these free States, was but the synonym of loyalty.
The call, as issued by the Committee, is published in another column; it calls upon "the loyal voters of Allegheny county, earnest supporters of the Administration in the vigorous prosecution of the war for the Union," to meet in their respective precincts, on the 30th day of May, and select two delegates to represent them in the "Union County Convention" which will assemble on Tuesday, June 2d, to nominate candidates for the several county offices, and delegates to the State Union Convention.
The action of the Executive Committee in thus giving up, for the present, their party name, is another proof—if proof were necessary—of the sincerity of the Republican party of this county. They have now given up everything but principle, and invite the cooperation of all truly loyal men. They recognize the only test which divides the community into parties; the only issue while the war continues—the support of the Administration in the vigorous prosecution of the War for the Union.
The lines are now fairly drawn all over the State. All side issues, not involved in "the vigorous prosecution of the war for the Union," are ignored while the war continues; and all loyal men are called upon to forget parties and past party issues, and come up to the only living issue which divides men, and express, by their suffrages, whether our government shall be maintained in the suppression of this rebellion, or whether the rebels shall succeed in destroying the government.

COL. GRIERSON, (whose arrival at New Orleans is mentioned in our dispatches to-day, after having led one of the most successful cavalry expeditions on record, by which the rebel communications along all the railroads in Eastern Mississippi have been seriously interrupted, and GRANT's operations against Vicksburg immensely facilitated,) is a volunteer from the State of Illinois. At the beginning of the war, he entered the service from principle, acting, for several months, as the aid of Gen. Prentiss. In the fall of 1861, he was commissioned as Major in the 6th Illinois cavalry, and it was chiefly through him that that splendid regiment, now one of the best and most efficient in the service, was saved from utter demoralization. Subsequently, on the resignation of the Colonel, he assumed its command.

THE UNION CAUSE IN FLORIDA.—The Port Royal News, of the 2d instant, announces that several officers of Gen. Hunter's staff have just returned from a tour of inspection of the forces in Florida, adding that they found the troops everywhere in a high state of efficiency. They met, also, many gratifying evidences that the people of Florida who have had opportunities to judge intelligently as to the power and the purpose of the national army, are coming to the conclusion that their only hopes of peace and prosperity lies in the entire success of the Government and the overthrow of the rebellion.

A NEW ARTICLE OF WESTERN COMMERCE.—A cargo of tar, manufactured by a party of Norwegians at Grand Traverse, Michigan, has reached Chicago and found a ready sale. The Norwegians are about to engage extensively in this business. Thus we add another to the many fruits of the slaveholders' rebellion, and Michigan may yet become the rival of North Carolina in the production of tar.

SOUTHERN CROPS IN ILLINOIS.—Letters from Southern Illinois relate that the people there are raising, this year, considerable crops of cotton, tobacco and sugar. Over one hundred tons of cotton seed were delivered at various points in Southern Illinois, by the Illinois Central Railroad Company, during the past spring and winter; and all this was purchased or distributed, to be planted this season.

IT WAS been well suggested that General Houston, on coming out an old rebel of three score and ten, should have ended his declaration of treason with these lines:
"Pray do not mock me!
I am a very foolish, fond old man;
And, to deal plainly,
I fear I am not in my perfect mind."

WORTH OF A LIVE GENERAL.—Upon a certain occasion Frederick the Great said to one of his generals: "I send you against the enemy with forty thousand men." "There are but forty thousand, sire." "Ah, but I counted you as ten thousand," was the grand reply.

SIX MONITORS BUILDING AT ST. LOUIS.—Six of the most complete and powerful, as well as largest iron Monitors ever built, are in course of construction at St. Louis.

COLORED SOLDIERS.—The Boston Commonwealth says that the Massachusetts colored regiment will go to Newbern, N. C., to join General Wild's brigade.

THE secesh story of making Gen. Frank P. Blair, Jr., a prisoner at Fredericksburg, is all nonsense. Gen. Blair commands a division in Gen. Grant's army.

ARMING MASSACHUSETTS.—The state of Massachusetts is about to purchase firearms sufficient to arm some twenty thousand troops.

TO CAPITALISTS AND MILLERS
THE
PEARL STEAM FLOURING MILL
FOR SALE.
The owners of the "PEARL STEAM MILL," being actively engaged in other pursuits, and desiring to make a division of their interests, offer for sale this large and valuable establishment, on terms that must prove advantageous to any party wishing to engage in the milling business.
To persons residing in Lafayette a particular description of the property may be unnecessary, as the Mill is in full and successful operation by the lessees, Messrs. R. T. & KENNEDY & BROTHER, and open to the examination of any who may desire to look through it. For the information of parties at a distance, a brief description is here given:
SITE.
The Mill occupies a small square of ground in the City of Allegheny, at the corner of Lacock and Pearsugh streets, which bound the property on the north and east. The Pennsylvania Canal forms its northern and western boundary, turning at the mill and running southwardly about one hundred yards, where it empties into the Allegheny river. It is three completely isolated and protected from fire risk from the surrounding property, having streets on the south and east fifty feet wide; the canal on the north the same width; while on the west there is a basin about 100 feet square. Just across the Pennsylvania Canal, about 75 feet from the north end of the Mill, runs the track of the consolidated Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways.
A bridge across the canal, recently rebuilt, brings the Mill into easy communication with those roads, and makes the receiving of grain from them convenient and cheap.
THE MILL
Is substantially built of brick, and roofed with slate. It is 107½ feet long, 35 feet wide, five stories and a sixteen feet garret, making six floors actually in use. It was completed in the spring of 1858. There is no patent stone and fire compositions, which are so much thought of, now, used in the building cheats. The machinery for cleaning and scouring the wheat is extensive, and the best that can be procured. The capacity of the Mill may be fairly put down at 250 barrels per day. As many as 1,000 barrels per day have been made, but under ordinary circumstances 250 only could be relied upon as an average product.
THE STOREHOUSE
Was added to the Mill shortly after it got into full operation, when the necessity for increased room for storing Wheat, for Flour and Stuffs became apparent. It is 60 feet long, substantially built, like the Mill, and roofed with slate. It adjoins the Mill, and with it forms the lot or lot, the base resting on the canal or north side.
THE SOURCES OF SUPPLIES
Of Wheat are by the Ohio River, from Southern Ohio, Indiana, Illinois, Missouri and Kentucky, and in time of peace from the Mississippi Valley. By the Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways there is a direct and easy access to the greatest grain market in the world—THE CITY OF CHICAGO—as well as to an immense grain growing region nearer at hand, in northern and central Ohio and Indiana. During the season of water in the Ohio river, in the months of July and August, supplies of Wheat are obtained from Southern Ohio and Southern Indiana. By rail, the Pittsburgh & Steubenville Railway, now nearly completed, will afford an additional source of supply.
A market for the product of the Mill in the eastern cities is reached by the Pennsylvania Railroad, while all around it is a manufacturing and consuming district, affording large quantities of Flour and Offal.
For further particulars and for terms apply to any of the undersigned.
JAS. T. LOGAN,
R. T. KENNEDY,
WILLIAM BAGALEY.
Pittsburgh, April, 1863. ap28:tf

IN THE COURT OF COMMON PLEAS OF ALLEGHENY COUNTY. No. 180, March Term, 1863. Alias summons, covenant. To 1st Monday in June, 1863. John B. Warden, vs. Joseph Hanson and John Hanson.
To recover arrears of ground rent against all that certain lot or piece of ground numbered two hundred and eleven (211) in Warden & Alexander's plan of Temperanceville Village, and bounded and described as follows, viz: Beginning at the corner of lot No. 212, on Wallington street; thence along Wallington street one hundred and nine feet to High street; thence along High street one hundred and eighty-five feet to an alley; thence along said alley in a parallel line with Washington street, eighty-eight feet three inches to line of lot No. 212; thence along the line of said lot No. 212 one hundred and eighty-five feet, to the place of beginning.
Also, all that certain lot or piece of ground numbered two hundred and twelve (212) in Warden & Alexander's plan of Temperanceville Village, and bounded and described as follows, viz: Beginning on Wallington street, at the corner of lot No. 213; thence one hundred feet by said street to corner of lot 211; thence by line of said lot—feet to an alley; thence by said alley one hundred feet to corner of lot No. 213; thence by line of said lot—feet, to Wallington street, the place of beginning.
TO THE DEFENDANTS ABOVE NAMED—You will take no ice of the above stated alias summons in covenant, to recover arrears of ground rent issuing out of the premises above described.
HARRY WOODS, Sheriff.
