The disposition to change securities manifests itself in a growing business at the Morning and Evening Board, though thus far not to the advantage of Oil Stocks. Sales made last evening and during the day, have generally been at a sacrifice from previous rates. The report mentioned yesterday in regard to the Mackburg Company, was to-day confirmed by a private letter shown us, fully endorsing the good news, heretofore mentioned.

A statement of the present condition and future prospects of the Tarr, Story & Cherry Run Oil Company, has been published in pamphlet form and is now in the hands of the directors for distribution among the stock holders.

The Oil City & Pittsburgh Oil Company announces a monthly dividend of one per cent.

The import entries at New York of the past week, including the dry goods return amount to $7,854,419, as against the total entries of $7,771,923 same week last year. The export clearances of foreign produce amount to $3,268,861, against $3,853,76 same week last year. The export specie amounts to $317,182, against $1,372,800 same week last year. The customs for the week are $1,154,000. The receipts of cotton, coastwise and by railroad, are 1,918 bales.

A telegraphic dispatch has been received in Philadelphia from Franklin, stating that a 30 barrel well of lubricating oil has been struck on the Oreek two miles below that place, on property belonging to the McCormick & McKissock Oil Company.

A well of 300 barrels was struck on the 30th inst., on the John Lamb Farm, on Cherry Run, above the Reed Well. It is called the "McFadden Well," and is worth about $600,000! Mr. Mathew McFadden owns about two-thirds of it, and the Linn Cherry Run Oil Company owns the balance. This is the largest well ever struck on that run, and will greatly enhance the value of all the property in that locality.

Retrenchment in national expenses has commenced in good earnest, and the limit of our debt has been reached. Hereafter, the figure will gradually decrease, and it remains for us to say whether that decrease shall be gradual or rapid. It is estimated (says the Philadelphia *Press*) by persons high in authority that our debt, when the simplified requisitions are included, will reach about $3,000,000,000, with an annual interest of about $150,000,000. The annual expenses of the Government will probably be curtailed to $100,000,000 more. We can safely calculate $100,000,000 of customs duties from the improved condition of trade and commerce and the revival of our shipping interests. The internal revenue, now in thorough operation, will yield $300,000,000 more, leaving at least $100,000,000 to be applied to the reduction of the national indebtedness. At the close of the colonial war for independence our debt was $75,463,476 when the resources of the country were undeveloped, and the slightest taxation was oppressive. The annual interest was $3,201,628, a rate of 4-24 per cent. In 1846, at the close of three years war, the debt was $127,334,833, with an annual interest at 6 4 per cent, of $7,402,282. These debts were both extinguished by the industry of the republic, when the great wealth of our fathomless mines was undiscovered and our boundless prairies unexplored! With our present resources, the present national debt will be removed in a shorter space of time than it took to carry its legacy.

The Chemical Gazette says: Empty whisky barrels, we are informed, bring *five dollars each*, in Chicago. They are bought, of course, to defraud the Revenue. They are filled with whisky which has paid no duty, and thus, under the old stamp, are smuggled. Whisky is now selling in that market at 60c per gallon. The tax is $2. It costs 40c to make the article. All distilleries running, therefore, should have guards placed over them. Frauds on frauds are being committed, and to stop them there must be more vigilance than has been exercised heretofore, and more severe punishment in cases where frauds are detected.

The Merchant's Journal says: Manufacturers who have no stock, only take a car or two at a time in anticipation of a still further fall in the price. The price of wool has fallen considerably, and it is anticipated that it will fall lower before renewed impetus can be given to the trade, wages, and the prices of manufacturing must be reduced. It doubtful the mills will turn out after announcement and stop speculation, the responsibility of depriving themselves of work for the time will rest upon their own shoulders. At present, prepared coal cannot be sold in quantity at 4 a ton, and much of the article sent to market unsold, will not net the producer $2,00 per ton. Much of the coal going to market, not sold to the Government, is being piled up at Port Richmond, and in a short time it is anticipated that the wharves will be completely filled. This will have a tendency, of course, to keep prices lower. To sum up, the trade is prostrated, and nothing but a reduction all round, in prices, can infuse into it again renewed life and vigor.

DAILY REVIEW OF PITTSBURGH MARKETS.

TUESDAY, MAY 2, 1865.

The general markets are entirely devoid of life or animation, though more confidence is manifested, yet the demand for all the leading articles of produce is very light, being restricted to the immediate wants of consumers. In prices, there has been no change worthy of special notice.

GRAIN—Wheat is firm, with considerable inquiry, and we note sales of Red from 2 cars, at $2,35. Barley dull and unchanged. Oats in good supply, but the demand seems to be improving slightly, and the market is a shade firmer; sale of 500 bushels from store at 90, 70m—rale of 1 car, in cars, at 80, and 1 do do, at 81,50.

PROVISIONS—Bacon is more active and firmer, with an upward tendency; we note sales to a fair extent at 16@17½c for Shoulders; 18@18½c for Ribbed Sides; 21@21½c for Plain Sugar Cured Hams, and 22@23½c for Canvassed do. Lard is quiet and rather dull; small sales at 20c.

FLOUR—There is no improvement to note in the demand for Flour, nor is there any material change to make in quotations. Extra Family is selling in the small way from store, at $8,50@9,00, —fancy brands $9,25.

BUTTER—Continues dull, and in good supply, though there is no further change in prices; sales of stitchy prime at 30@32, and inferior to common at 15@20.

EGGS—In demand and scarce; sales to a fair extent at 22@22.

HAY—The demand has fallen off considerably within the past few days, and with pretty free arrivals, baled may be quoted dull at $20@22 for common to prime timothy.

POTATOES—There is no demand scarcely for common qualities, and it is difficult to sell this particular kind. From "Peach Blows" are selling at $2,75@3,00 per bbl, and do "Buckeye" at $4,00@5,00.

CHEESE—Is in good demand and unchanged.

MILLS FEED—Sales of 8 tons Middlings at $2,00 per cwt, and 4 tons seconds at $1,90.

DRIED FRUIT—Apples dull, and entirely nominal, at 7@8 cents for small lots.

PITTSBURGH PETROLEUM MARKET

TUESDAY, MAY 2, 1865.

There is a continued fair demand, and the transactions to-day would have been more liberal only for the extreme views of holders, some of whom are asking 26, bbls returned, and 30, bbls included. The sales were as follows: 500, in bulk, at 27; 400 and 140 at 23, bbls returned; 500 at 23, bbls included, and 100 at 27½; in addition to these, a sale of 100 bbls Horse Creek Oil (gravity 35@40,) was reported at 25, bbls returned. Dispatches from Oil City to-day, report Crude firm at that point at $7,75@8,00 per bbl—low gravity $8,50. There is still considerable inquiry for Refined, in bond, but the extreme views of holders, has a tendency to retard operations. On the spot, we quote at 46@47; sale of 50 bbls, "Lily" brand, for June delivery, at 49 cents. Naptha is quiet and unchanged. Residuum is in demand and firm, with sales of 200 bbls at $8,50 per bbl.

ALLEGHENY CATTLE MARKET.

Reported Expressly for Pittsburgh Gazette.

ALLEGHENY CITY, MAY 2, 1865.

CATTLE—The market for Cattle continues dull and weak, the demand being restricted almost entirely to supplying the immediate wants of the retail trade, yet there was but little changein prices. Had the supply been up to the usual average, there would most undoubtedly have been a "break down," and as it was, great difficulty was experienced in sustaining the rates current last week, and 10 cents was the outside figure for the very best Cattle in market. Government contractors, who a few weeks since, were paying 9@9½c, now refuse, and contend that they cannot afford under the present contracts, to pay over 9½@9. Butchers are buying sparingly, and the demand for shipment is limited, and all indications at present point to a still further reduction in rates. We subjoin a full report of all the leading sales:

Rothlisb & Eckert, wholesaled to Nicholas Carr, 46 head of good Illinois steers at 9¼.

Emerick & Co. wholesaled 10 head of extra Ohio oxen, averaging 1550 lbs, to Lafferty & Co. at 10 cents.

F. Snyder wholesaled 10 head of extra Ohio oxen, averaging 1550 lbs, to Lafferty & Co. at 10.

Hazlewood & Dolan wholesaled To Reis & Co., 51 head of extra Illinois steers, at 10 cts.

Reis & Co., retailed 56 head of mixed stock, at 8@10.

Grouse & Haas wholesaled 40 head of fair steers, averaging 1100 lbs, at 8¾c, and retailed 35 head of common at 7½@8½.

H. A. Merrick retailed 18 head of nice fat Illinois steers, at 9¼@10—most 10 3@10.

C. Metz & Co. retailed 60 head of small Western steers, at 8@9 cents.

Blake, Greenwald & Co., sold in all about 160 head of Western stock—we were unable to learn the prices.

Myers & Bro. retailed 49 head of mixed stock, at 6@8.

Lafferty & Co. bought 21 head of steers and oxen, at 9¾@10—mostly extra stock at 10.

SHEEP—The demand for this class of stock continues light, and the market rules dull, with a stopping tendency. The following sales were reported: D. R. Taylor sold 26 head to Weyman, averaging 70 lbs, at $6,15 per cwt. D. R. Taylor sold 50 head of wooled, for Hunt, at prices ranging from 7 to 8.

HOGS—The transactions in the Hog market continue exceedingly light, the demand being restricted entirely to supplying the retail trade, and prices have again declined, and we now quote at 10@12 cents, as to quality.

The St. Louis *Democrat* of the 29th says: "We have a letter from Mobile, dated 19th April, from which we learn that the White Cloud No. 2 was the first boat at the landing after the city was taken. The St. Louis boys on board are Captain Hopkins, Joe Carroll, pilot, Elias Owens, mate, Joe McLaughlin, steward, Wm. Stolls, striker, and Jos. Fay, clerk.
