In the absence of telegrams from the east, we have no advice from New York stock and gold market later than Thursday evening. Gold had then improved in price four per cent from the low set point touched, and it was thought bid fair to advance still further. Stocks improved slightly under the reaction.

Our market is steady with few sales. Gold 130 bid. No dealings in Government Bonds. Five-Twenties are heavier. The subscriptions to the popular 7-30 loan continue at the enormous figure of fifteen million daily. Should gold fall below 120 and remain there, this loan is without doubt the best on the market, and the new notes preferable to the old ones.

The large dividend declared by the Cherry Run & Pittsburgh revives to some extent interest in oil shares. Five per cent dividends will soon make any company popular, and if oil companies can do it legitimately, their shares will be sought and held for investment. But to accomplish such results, there must be better management than the great majority of oil companies have thus far received.

As will be seen by advertisement the directors of the Revenue Oil Company announce a dividend of three per cent. on the capital stock. The Revenue is without doubt one of the most reliable and best managed oil companies on the list, and we should not be surprised to see the stock considerably above par within a very short time.

We learn that Messrs. Riddle, Miller & Co. have made a "strike" on the "Hyner Farm" on Pit-hole Creek, adjoining the property of the celebrated Walted States Company of New York. The well is now being tubed, and until that is accomplished its productions cannot be ascertained.

The news from the oil regions is favorable for an early movement in the shares of some companies. On Cherry Run and Pit-hole Creek the developments are being pushed with the greatest energy, and many fortunate "strikes" are expected during the course of the present and next month. While it is true that oil stocks have received the "cold shoulder" for some time past, there will without be a reaction before very long, and the stock of good reliable dividend paying companies will again be sought for, and that, too, at rates considerable above those prevailing at present.

There was again a good attendance at the Stock Board this evening, but unfortunately, as has been the case for some time past, the audience was made up almost entirely of sellers, and, consequently, we have but few transactions to report. The sales were:

We clip the following from the New York Times of Thursday: The continued rapid fall in gold excites remark on the street, as Exchange on Europe is scarce and firm, and there is some talk, among the bankers, of a renewal of export demand for gold in consequence. But as heretofore intimated the improved confidence on the other side, especially in England, in American financial and commercial affairs, is so marked as to lead to the belief that the foreign balances will be permitted to accumulate in New York as before the war, or else transmitted in United States Stocks rather than exchange or gold at high rates. At the same time there is no inconsiderable demand for exchange on the Continent to cover travelers' credits. The number of Americans since the cessation of the war, going to Europe on pleasure or business, many of them with families, is very large, and most of them go full-handed.

The managers of a number of the State Banks and leading bank-houses of the Northwestern counties of Pennsylvania held a meeting at Meadville on the 24th inst., for the purpose of conferring on the subject of a withdrawal of the issues of State institutions from circulation, and the substitution of national currency at the earliest day practicable. The views of the gentlemen present were unanimous in favor of securing the adoption of a uniform currency, and the withdrawal of the circulation of the State banks whenever the supply of national currency shall be adequate to meet the demands of business. The representatives of the Venango Bank, the Bank of Lawrence County, the Oil City Bank, the Petroleum Bank, and the Bank of Crawford County, whose issues have heretofore contributed so largely to supply the extraordinary demand for currency created by the late developments of business in the northwestern counties, expressed their desire to withdraw their notes from circulation, and to aid in making the national currency the only medium of exchange. These banks have for some time been redeeming their notes in this city, as well as at their own counters, a fact which furnishes substantial evidence of their good faith and stability. All of the State Banks mentioned above have taken the necessary action to become national banks, and it is stated are withdrawing their notes as rapidly as the business demands of their respective localities will warrant, maintaining, meanwhile, the redemption of the notes at their own counters or here, so as to serve, as far as possible, the convenience of the public.

### Philadelphia Market, May 11.

In Seeds the sales are unimportant.

The Flour market is exceedingly dull, and to effect sales to any extent lower quotations would have to be accepted. 800 barrels fancy Ohio sold at $11,25, and small lots are purchased by the home consumers from this figure down to $8,75 for low grade superfine. Nothing doing in Rye Flour or Corn Meal, and prices nominal.

The Wheat market is extremely dull and prices are drooping. Sales of 2000 bushels at $1,53@1,55 a bushel for good red, but the millers now refuse to pay the latter figure. Rye is dull and offered at $1,10. Corn is dull at the decline noted yesterday. Sales of 2000 bushels yellow at $1,20. Oats are plenty, dull, and 10c per bushel lower. Sales of 3,000 bushels Penna. at 55c.

### Cleveland Market—May 11.

Flour—Dull and lower. Sales last evening 100 bbls XX sod at $7,12. Wheat—Dull and lower. Sales 2800 bushels No. 1, Toledo red at $1,52. Market closing heavy. Corn—No sales. Market heavy. Oats—Sale this morning before the New York report, was received, 8 cars from store at 50c. Offered at the Board at 49c without buyers. Rye—Dull. Barley—Dull and nominal.

## DAILY REVIEW OF PITTSBURGH MARKETS.

FRIDAY, May 12, 1865.

The marked and unexpected decline in gold has, we might say, completely paralyzed the trade, and what is worse still, there are no indications at present of any immediate improvement. With the exception of supplying the immediate wants of retailers and consumers, which are very light, there is no demand for any of the leading commodities, and, as a matter of course, we have but few transactions to record.

GRAIN—There is but very little Wheat arriving either by rail or river, but there is but very little wanted, as our mills are all pretty well supplied. We note an occasional sale from wagon at $1,50 for Red, and $1,55 for White. There is no demand whatever for Barley at present, and it could hardly be sold at any price. Oats steady in consequence of light supply; sale of 600 bush. to arrive, at 50; and 200 bush on wharf at same. Corn—Sale of 200 bu prime ears [at 90 cents; and 60 bush Shelled at same.

FLOUR—The receipts of flour continue light, but the supply is fully up to the demand, which is not very heavy. Good Winter Wheat brands of Extra Family are selling in the small way from store at $8,75 to $9, and Spring Wheat brands may be quoted at $8 to $8,50, as to quality.

PROVISIONS—Bacon is steady with a fair city and country trade, and prices are pretty well sustained. We continue to quote at 17 for Shoulders; 18@18½ for Sides; 21½ for Plain Hams, and 22½ for Canvassed do. Lard is quiet and rather dull, but unchanged; small sales at 19@20 cents. Mess Pork is quoted at $30; sale of 5 barrels, to the trade, at $29,75.

MILL-FEED—Very dull and dropping; sale of 1 car Bran and Shorts—mixed—at $1,10 per cwt.

BUTTER—Demand for prime fresh Roll is again improving, and while the market is a shade firmer, prices are not quotably higher; sales at 26,27c, as to quality.

EGGS—Continue to meet with a ready sale on Arrival at 22c, and stock limited.

CHEESE—There is a continued fair demand for prime Western Reserve at 22, and Hamburg at 23. Common grades selling at 20@21.

DRIED FRUIT—Sale of 40 bush Apples at 7c per lb. Peaches quoted at 30@35c for quarters and halves.

SEEDS—Sale of 50 bush Flax Seed at $2, at which figure it is wanted. Not enough doing in Clover or Timothy Seed to establish quotations.

HAY—Is quiet and unchanged; sales at scales to-day at 24@27; also, 35 tons damaged baled, on wharf, at $5.

POTATOES—Are coming in more freely, and with a supply somewhat in excess of the demand, the market is growing easier, and prices droop. We note sales to a limited extent at $2,25@$2,75 per bbl.

## PITTSBURGH PETROLEUM MARKET

FRIDAY, May 12, 1865.

The time and attention of our Crude Oil dealers was almost wholly absorbed to-day, in having their oil put in a place of security, and the result is, we have but comparatively few transactions to record. There has been no new feature in the market worthy of special notice, with the exception that the demand is hardly so active, but there is no change to make in quotations. We note a sale of 400 bbls, in bulk, at 24; it was also reported—and no doubt is correct—that a couple of boats of bulk had been sold at at 24½. Latest advices from Oil City report Crude at 23 per bbl, at that point. Refined continues quiet but firm, and unchanged. Sale of 500 bbls bonded, for July delivery, at 50. Free Oil may be quoted at 23@70. No movement in Naphtha.

The receipts of Oil by the Allegheny river since our last report, were as follows:

| | | | |
|---|---|---|---|
| R. D. Cochran | 116 | Fisher & Bro | 365 |
| Weldon & Kelly | 92 | Wm. M'Cutcheon | 60 |
| Total | | | 677 |

## PHILADELPHIA STOCK MARKET.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, May 12, 1865.

The market for Oil Stocks continues very dull, and as there is no disposition to buy, prices are weak and irregular, and in favor of buyers. The closing quotations were as follows:

| | | | |
|---|---|---|---|
| Dalzell | 4 25 | Jersey Wells | 1 37 |
| Royal | 47 | Allegheny River | 1 31 |
| McClintock | 2 87 | St. Nicholas | 3 37 |
