There is no new feature in a financial point of view worthy of special notice. Gold, contrary to general expectation, is again on the wane, being quoted in New York at 136½ to-day, against 137¾ yesterday. Governments have undergone no material change, while stocks, generally, are reported dull and weak with a declining tendency.

The offerings and bids together with the sales at the morning board, will be found above. Oil stocks continue dull and heavy, and, as has been the case for some time, sellers greatly outnumbered buyers. Columbia is in better request, and a shade firmer, 45 being offered freely without finding sellers. Cherry Run Central, also, is in demand, and 175 was bid, 178 asked. We heard of a sale of Fayette on the street at 25.

The transactions at the stock board were again light this evening, as was also the attendance, and prices ruled lower. The sales were:

The New York Times of Thursday, referring to the advance in gold, explains in this way: "There is a lot for rise—say to the price of 140, or 3 per cent., mainly in the export demand for 'sixty-days' sterling, and partly on orders to close up short contracts, where the gold had been previously bought to speculate on for the fall. The absence of gold in London is the one market, and the present disposition of importers to realize the proceeds of their cotton favorable sales of foreign goods, both contribute to the export demand for gold; though the expectation is not indulged that any further material advance in price can be made without, in a measure, checking or delaying the demand. It will not be forgotten that the recent fall from 145 per cent. at the figure stood on the first of April, to 126@128 per c ent. took place very suddenly, and was precipitated, in some degree, by certain wealthy speculators, against the stock market, as well as against the gold room. The public, for the time being accepted 130 per cent. as the fair value of gold, and sold their May drafts on the United States 5-20's, and other gold means, accordingly.

—The Ohio State Banks report as follows:

	May 1, '65.	Feb. 1, '65.	May 1, '64.
Specie	$ 526,919	$ 782,879	$1,313,874

The changes in the capital and individual deposits are in a great part, attributable to the transfers to the national system, and are most prominent in the state banks.

New York Market

NEW YORK, May 26.—COTTON—Dull at 44@45c.

FLOUR—Less active; $8@10 for rx to round-hoop Ohio and $7@9 for trade brands; extra State for June at $7.

WHISKY—Decidedly firmer, 21@5 for State and $1.08@1 for Western spirits.

GRAIN—Wheat generally wanted at $1.31; No 1 Spring, $1.27; White Mich, $1.33. Rye firm. Barley and Barley Malt quiet. Oats firmer and higher at 82@85c for New Mixed Western; inferior price for Western, and 92c for Western Yellow. Corn dull and 2@3c lower.

GROCERIES—Coffee quiet and steady. Sugar quiet; Cuba Muscovado 13c. Molasses dull.

WOOL—Dull.

PETROLEUM—Firm; 25½c for Crude, 49@50c for Refined.

PROVISIONS—Pork heavy and lower; $22@22.25 for New, closing at $22 for cash. Lard dull; $13 for Prime Mess; Prime Steam Lard $12. Beef and Jelly at sellers option at $21.25@22. Beef steady at 14@16c for plain Mess. Beef Hams $32@35. Ham Meats steady; Shoulders 13@14c. Bacon dull; 15c bones. Cumberland cut at 18½@19½c. Lard steady at 13@13½c for new. Butter firm at 19@21c for Ohio and 22@25c for State. Cheese, new, steady at 10@11c for Ohio and 12@13c.

New York Wool Market, May 25

The wool dealers of this city seem disposed to buy moderately on the basis of 50 cents per pound, and have so advised their consignees. Some of the consignees, as they did last spring, unless at considerably below that price. Some of the western dealers, we understand, are ready to do business on that basis, but very few of the farmers are disposed to hold for a higher price. The prospect, upon the whole, appears to be that the movement of the crop will be gradual and perhaps somewhat protracted; the consequence of which would be that the immediate demand for it, in any of New York and Boston, in connection with this branch of business, will be much below what it has been during the spring of last year, for, not only will the immediate purchases be much less in quantity, but the price will be little more than half that of last spring.—*Commercial.*

Crops in Central Illinois.

The Bloomington *Pantagraph* says

Corn was planted very rapidly last week, and as near as we can learn the prospect is good for the planting of a large breadth of land. Oats are looking splendid and wheat could not look better. It is several inches high and shows green. A friend assures that the winter wheat in the neighborhood of Allen, and also this side of that place, is very fine, and flourishing. Not one hundredth part is winter kill. Spring wheat between here and St. Louis is very forward and vigorous. Corn is more generally planted here than further south. We learn that the farmers of southern Indiana and Ohio are almost discouraged, the land is still so very wet. From all accounts it seems that our own prospects are not only good, but better than our neighbors.

Western Crop Prospects.

The weather, during the past few days, has been unusually warm, and the reports from nearly all parts of the northwest are favorable for the growing crops. The winter wheat looks well, and the crops will probably be earlier than usual. The crop of Spring wheat will probably be large, and, as it was sown early, its quality will no doubt be good. The corn planting will soon be over, and the farmers will then have time to bring their surplus produce to market, when our receipts will begin to improve. At present, lards are very scarce in the country, but before harvest we expect that a large portion of the Western army will be discharged from service, which will greatly relieve agriculturists.—*Chicago Tribune, Monday.*

Philadelphia Grain Market, May 25.

The receipts of Wheat continue small and it is held with more firmness. Small sales of fair to choice Pennsylvania and Delaware Red at $1.30@1.32 per bushel, and 1,000 bushels choice Kentucky White at $1.35. Rye is selling at 90 cents. There is very little Corn coming in and yellow is in demand at 92 cents for, but holders ask 97 cents. 1,000 bushels Delaware Oats sold at 86 cents, at which figure they are in demand.

Cleveland Market, May 25.

FLOUR—The advance in the New York market has had the effect to stiffen the market here without adding anything to the asking. We hear of no sales to-day. WHEAT—Better for No. 1 Red but not enough of it to quote. Sales of Red at $1.31. Receipts for No. 2 Red: held at $1.30. Corn firmer. No sales. OATS—Irregular but better. Sales of new from store at 65c. 2 cars do at 66c. RYE—Quiet and dull. BARLEY—Without inquiry.—*Herald.*

Philadelphia Market.

PHILADELPHIA, May 26.—BREADSTUFFS—With an advancing tendency, induced by the advance in gold.

FLOUR—Daily Extra, $7@7.50.

GRAIN—Wheat firm; last sales Penna. Red at $1.32; White, $1. Rye, 90@92c. Corn firm; Yellow, $1.10 for Southern at 98c.

PROVISIONS—Pickled Hams, Grade 20@21, and Sealed 22@23.

WHISKY—Declined to $2.

DAILY REVIEW OF PITTSBURGH MARKETS.

FRIDAY, MAY 26, 1865.

The general markets continue quiet and dull, and, as yet, the advance in gold has produced no material effect one way or the other. It is true some of our merchants have got their feet up a little in regard to prices, but the general impression seems to be that the advance in gold will not be sustained, hence, it has not had the effect it would otherwise would have had.

GRAIN—Wheat is quiet unchanged—but little offering, and but little wanted. Oats moderately active at previous rates; sale of 700 bush, on track at 86@88, and 850 bush, in store, at 84. Corn may be quoted at from 93 to 90; sale of 6c bush, in cars, at 90, and 300 bush strictly prime shelled at 85. No movement in Barley or Rye.

FLOUR—There is no marked improvement to note in the demand, nor is there any essential change in prices, the advance in gold to the contrary notwithstanding. We continue to quote at $9 to $9.75 for Family in a small way from store, as to quality. Sale of 200 bbls on private terms.

PROVISIONS—Bacon is moderately active, and with a fair lobbing demand prices are pretty well sustained. Lard is dull with sales of country at 17@18 and city at 19. No demand or sales of Meats or Pork.

HAY—Continues exceedingly dull and depressed, the supply being largely in excess of the demand. We note sales to-day at prices ranging from $19 to $19@19 per ton, for common to strictly prime Timothy, thirty days ago, hay was worth $30 to $40.

BUTTER—There is no improvement in the demand for this commodity, and the market is dull and drooping; we quote at 16, in gal, for fair to strictly prime Roll.

EGGS—Dull and in better supply, but unchanged—25 per dozen.

CHEESE—Sales of W. R. at 20@21—prime old is still quoted at 22.

ORANGES AND LEMONS—Sales of Palermo Oranges at $11@11.50 per box; Messina do, $13.00; Palermo Lemon, $13@13.50 per box, and Messina do, $14.

POTATOES—Dull but unchanged. Small sales from store, at 60@65 for Reds, and 60 to 65 for Peach Blows as to quality.

PITTSBURGH PETROLEUM MARKET.

FRIDAY, May 26, 1865.

There was, apparently, more inquiry for Crude to-day, but the difference, as a general thing, between the views of buyers and sellers retarded operations. We note a sale of 200 bbls, at 21½ bbls returned; and 600 bbls, to be delivered in New York, at 27, bbls included. There may have been other sales, but the above were all we could hear of, and quotations may be fairly given at 21@21½, bbls returned, and 26@26½, bbls included. We have no late advices from Oil City in regard to the market there. Refined, both in bond and free, continues very quiet, though an improvement is confidently expected within the next thirty days. Naphta is quoted at 20@22 in bond, and 40@42 free, according to gravity, condition and package. Residuum is firm and in light supply, and sells readily at $3.50 per bbl.

There is but one single arrival of Crude by the Allegheny river to report, 369 barrels for Fisher & Bro:

RIVER INTELLIGENCE.

The river continues to recede steadily at this point, with about seven feet in the channel by the Monongahela bridge marks.

The weather yesterday was cool and pleasant, and very favorable for out-door operations.

The arrivals from below include the Aleck Speer from Zanesville; from City from Parkersburg, and the Yorktown from Louisville. The Minerva from Parkersburg is due here this morning, and the America from Cincinnati may be expected in between this and Monday.

There were no departures aside from the Iron City for Parkersburg. She had a very good freight line, and quite a number of passengers.

The Golden Era, Captain Kerr, is the regular packet for Parkersburg to-day, leaving promptly at 11 o'clock. She has excellent accommodations for passengers, and is in charge of careful and experienced officers, Mr. W H Bryan still retains charge of the office.

Business continues very dull at the levee, the offerings of freight being very light, and boats experience great difficulty in getting a full trip. The passenger trade, also, has fallen off materially within the past few days.

The Delaware was advertised to leave Cincinnati for Pittsburgh on Thursday last.

The government authorities at Cincinnati and Louisville have employed a large number of steamers within the past few days, and many of them are already going to Parkersburg, where it is presumed they will load with troops. The following named boats were taken: J. D. Hide, Major Anderson, Gem Little, St Charles, Lawrence, Emma, Citizens, Highlander, Majestic, Columbia, Fanny Bramble, Ellen Fabert, Golden, Dromedary, Robt. Moore, Golden Eagle, Sherman, Venus, Prairie Rose, Navigator, Anna, J. R. Gilmore, Starlight and Champion.

The Louisville Free of Wednesday last has the following important item in reference to the canal:

The canal will have to be called into use to-day, for all heavy boats; but we learn that it is pretty effectually blockaded with mud. The super intendent, Captain Lockhart, was busy at work all day, with a strong force of hands and mud engines, trying to work out the mud and sediment in the canal. The flood-gates were kept open, with a strong current down the canal, and the dredge boats were busy, stirring up the mud.

SEC. 1. Be it remembered, that the Recording Engineer, be, and is hereby authorized and directed to advertise for proposals for the construction of a public sewer with the necessary inlets, from the lower end of Redwood street along Pennsylvania Avenue to Try street, and along Try street to Fourth street, and to contract, under the direction of the Street Commissioner, with the lowest and responsible bidder, and that the same be built under the immediate superintendence and direction of said Regulator.

SEC. 2. That for the payment of the costs and expenses of said sewer so built, it is hereby ordered and directed, that the property benefitted by the construction of said sewer shall be assessed equitably and fairly, and the Assessors be hereby appointed, viz: S. Bailey, 4th Ward, Samuel Nickels, 8th ward, and J. H. Dalton, 3 ward, appraisers to make said levy and assessment, which said assessments shall, when approved by the Committee, be filed in the office of the Clerk of Council, approved January 6th, 1864.

And that any ordinance or part of ordinance conflicting herewith be and the same is hereby repealed.

JAMES McAULEY,
President of Select Council.

Attest: C. S. MORROW,
Clerk of Select Council.

THOMAS STEEL,
President of Common Council.

Attest: HUGH McMASTER,
Clerk of Common Council.
