The dealings at morning board as will be seen are quite limited in comparison with revived feeling exhibited at the Evening Exchange. The eastern market is reported steady. Gold opened at 1.05¼, but fell off one per cent towards afternoon. Government Bonds maintained the rates of yesterday, with the exception of a decline of one fourth on Five Twenties. Board telegrams as follows: 1881's, 108¼; Five Twenties, 103; Ten Forties, 94¾; Certificates, 93¼. There is not much doing yet on the third series of Seven thirty notes. The money market remains easy, and the pressure for loans limited.

The oil board showed signs of a revival last evening, and the reports from different sections of the Oil Regions are quite promising. The oil board in New York is firmer with small advance and larger sales. The Philadelphia market is very stagnant, and all stocks, without discrimination, are being ruthlessly slaughtered.

There are unpleasant reports abroad in regard to the cash account of one or more of the old firm, among which we may name the Dalzell. But we are not able at present writing to do more than allude to the rumors, and express the hope that they have no foundation in fact.

We learn by a private telegram from Oil City, and which may be deemed perfectly reliable, that a fine vein of oil has been tapped in a well on Stewart's Run, which lies between Pit-hole and Hickory Creeks. Stewart's Run lies three miles east of Pit-hole, which it is said to resemble very much, and the "strike" has occasioned considerable excitement in that vicinity. Quite a number of wells are being sunk near the new well, and property in that immediate locality has appreciated greatly in value.

The activity and buoyancy at the stock board last night was followed this evening by extreme dullness and stagnation, for, notwithstanding there was a very good attendance, not a single share of stock changed hands. The offerings and bids were as follows:

ALLEGHENY CATTLE MARKET.

Reported Expressly for Pittsburgh Gazette.

ALLEGHENY CITY, MAY 29, 1865.

CATTLE—Owing to a very short supply of stock, the market was decidedly better this week, and, as will be seen by reference to the sales, prices of all grades ruled at least one dollar per cwt higher than last week. It must be borne in mind, however, that there was no improvement in the demand, and had there been an average supply on sale, a still further decline, instead of an advance, would have been the consequence. The best retailing grades, which last week dragged at 7@7½c, sold this week at 8@8½c—and a limited number of extra brought 9 cents. This last named quotation was an exception, however, rather than a general rule.

SALES OF CATTLE.

H. G. Weiss sold heifers 19 head of cows 4th ward cow (Frank) stock to Reis & Co. at 4c.

E. Bentley wholesaled 17 head of commonish Western Reserve stock at 6½c.

Kirkpatrick & Dorsey sold 20 head of prime Iowa and Illinois steers at 8½c.

E. D. Cassidy wholesaled to Crouse & Hass 18 head of good Ohio stock at 8½c.

Gibney Gray wholesaled to Myers & Bro. 23 head of prime Illinois steers averaging 1450, retailed at 8½@9c.

Nicholas Carr wholesaled to Goss 18 head of fair Illinois steers averaging 1060 pounds at 7½c.

J. E. Farrel wholesaled 19 head commonish stock at 7½c.

J. Kelleg (an Oil City butcher) bought 18 head fair stock at 8c.

SHEEP—The market for this class of stock continues very dull, the supply being largely in excess of the demand, and prices are weak and drooping. Sheared sheep are quoted at 5@6c—but very few sales above 5½@5¾c.

HOGS—There is scarcely enough doing in the hog market to establish quotations. One small lot was wholesaled at 7½ and retail rates range from 8 to 10.

Breadstuffs.

(From the New York Express, 24th.)

The latest advices from England are more favorable to the growing crop of grain, but it is a long time until harvest, and something may occur to the meantime to change the prospect of a fair average yield so anticipated at present. Several cargoes of wheat and corn, and three or four thousand barrels of flour have been shipped from this side, and more would have gone, but for the sudden advance in freight from three to six pence. The accounts from the west are very favorable for the growing crop, and there is every prospect that we shall have an abundant harvest. In any event likely to occur, we shall have plenty for our own consumption, and enough to supply any demand from abroad. The receipts at this point continue light, owing to the fact that farmers are holding back for better prices.

Price of Corn.

(From the Genesee Republican, 26th.)

Corn is down to very nearly ante-war prices—at least considerably lower than it was before the war. It is specially hard on farmers in this the area paying the highest wages for farm labor—the same as last year, the time when corn was from twelve to fifty cents per bushel higher than it now is. There is no prospect of a rise. Farmers must look their help for the coming year before the great fall in corn; the prices that justified them in paying thirty-five dollars a month for laborers, but at present prices a laborer cannot raise corn enough to pay his wages. It is a severe state of things for the farmers, and the result of it is, they will not be able to pay those high wages, if they can help it.

DAILY REVIEW OF PITTSBURGH MARKETS.

TUESDAY, MAY 30, 1865.

The general markets are entirely devoid of life or animation, and there is scarcely enough doing to establish quotations.

GRAIN—No movement in Wheat to-day, with the exception of small sales of Red from wagon, at $1.35. Oats dull but unchanged; quotations may be fairly given at 65@66c on track, and 62@65c for small lots from store. Corn—sale of 80 bush, prime, in Exte, at 82c.

FLOUR—There is rather more inquiry, but the transactions are entirely of a local and unimportant character. We note a sale of a 50 bbl at a $8.50, and 100 do do, in lots, at $8@8.25.

LEAD—Sale of 1500 pigs "Galena," on private terms.

PROVISIONS—The demand for Bacon is falling off slightly, and prices are a shade lower. We now quote at 18 for Shoulders; 17 for Sides; 18½@19c for Plain Hams; 20½@21 for Plain Sugar-Cured, and 21½@22c for Canvassed do. Lard is dull and nominal at 18½@19 for prime city.

HAY—Sales day continues very dull, and unless of prime quality is almost unsaleable at any price. Small sales at $18@18. Loose Hay is reported as having sold at the scales to-day at $18 @20.

POTATOES—Demand fair and market steady, and prices are well sustained. Sales from store at 50@60 for Reds, and 75@85 for Peach Blows. Sale of car "Peach Blo ws" at $3.60 per bbl.

EGGS—Dull, the demand being considerably in excess of the supply. Sales at 20@21—mostly at 20 cents.

CHEESE—Moderately active but unchanged; sales of 40 boxes common at 18; 100 do do at 19@20, and 35 do do at 21.

DRIED FRUIT—Demand light, and market dull, but prices remain unchanged. Small sales from store, at 7@8 cts for Apples, and 22@30 cents for Peaches.

BEANS—Very dull, with a large supply, and very limited demand; we note an occasional small sale at $1.75@2 per bush.

PITTSBURGH PETROLEUM MARKET

TUESDAY, MAY 30, 1865.

There was a slight improvement in the demand for Crude to-day, but there was no improvement in prices, nor in the general tone of the market. We note a sale of 1200 bbls (light gravity) at 20; and 400 bbls, good gravity at 21. Advices from the wells rep rt a little more activity and firmness, but no change in prices. Refined remains dull but firm; and our refiners, without exception refuse to make concessions in order to effect sales. They are confident that there will be an export demand before long, and that they will then be able to get their price. Residuum is quoted firm, and in light supply at 26@26.50 per bbl. In Naptha there is no movement, as yet, and in the absence of sales we quote nominally at 20@22, in bond, and 40@42, free.

The receipts of Oil by the Allegheny river since our last report, were as follows: Fisher & Bro., 157; H. Rosenbach, 55; L. Thumm, 194—total 406 barrels.

The Crops in the West.

[From the Burlington (Iowa) Register, 25th.

The crops in these parts look fine. With the exception of a little cold weather, we had a week ago, the season so far has been very prosperous. Grass, oats and wheat never looked more promising at this season of the year, and corn is coming up rapidly. If the chinch bug will attend to his own business and let others' business alone, we shall have an abundant harvest, doubtless. Our farmers hereabouts have tried to head off this troublesome insect by sowing less wheat. There is less wheat sown this year in proportion to the ground cultivated than usual, by two-thirds the number of acres.

[From the Carlyle (Ill.) Banner, 25th.]

This has been an unusually backward spring with the farmers so far as planting corn is concerned. Owing to the wet weather, many have been unable to sow oats; yet the farmers are rapidly putting in their corn crop.

Advices from all parts of the country tell us that the wheat crop never looked better.

[From the Ogle county (Ill.) Reporter, 26th.

CHINCH BUGS.—We learn that these insects have made their appearance again. Some pieces of barley have already been damaged by them so that it has turned yellow. We have not heard of any to the wheat as yet, but it is too early. Some tell us that the wet weather of last week is favorable to crops, as it packs the ground so as to prevent their working.

[From the Genesee (Ill.) Republican, 26th.

We hear of quite a number of farmers who have ploughed in their wheat fields, and have planted them to corn. The chinch bug is already making havoc among the crops, and farmers dare not call to their aid the Egyptian plague, but they should have been no where, sowed in this county this spring; the folly of such a course is being felt. A good deal of the wheat land will be turned under, and other crops planted instead.

[From the Grand Rapids (Mich.) Eagle, May 27th.

We have within a few weeks past traveled over a considerable portion of this county north of Grand River, and have had our eyes open to the condition of the wheat crop. The prospects are very flattering. There are spots in most fields that are winter killed, but they are generally not large or numerous, and the cool spring has operated to thicken up the stools which are left on these spots. We look for a very good crop.

Oats in Store in Chicago.

(From the Chicago Tribune of Monday.)

The amount of oats in store is a vexed question among operators, and different statements have been made concerning it. On Friday morning we stated "it is asserted by those well posted that the amount of oats in store to day, exclusive of to-day's (Thursday) receipts, do not amount to more than 120,000,000 bush—mostly held in two houses." We gave this statement as the views of several parties, neither endorsing or denying it, as no figures were shown us confirming it. The market on the previous day was bouyant and lively—caused, no doubt, in part by the prevalence of this rumor.

The amount of oats in store reported by the warehouse men last Saturday was 368,874 bushels. Assuming this to be the amount, and a bushel the tioner of business on Saturday evening, we figure thus:

		Shipments.
Amounts in store	368,874	
Receipts Monday	80,866	22,566
" Tuesday	19,969	75,355
" Wednesday	42,611	9,111
" Thursday	21,920	77,275
" Friday	9,718	787
Total	542,958	185,717
Less shipments for Friday	185,717	
Amount in store this morning	357,241	
Less taken out for city consumption	324,715	

However, as the amount in store officially reported, will be posted on Tuesday, we may be afforded to wait for the correct figures. We may be pardoned for stating that no one insulted us by offering any money for our opinion of the board of trade to believe that such a proposition has been made to any reporter.

RIVER INTELLIGENCE.

The river continues to recede steadily at this point with about six feet in the channel by the pier marks last evening. The weather yesterday was clear and pleasant and seemingly settled.

There has not been a single arrival since our last report, and the Emma Graham for Zanesville, and the Iron City for Parkersburg, were the only departures.

The Camella and America from Cincinnati, the Emma Graham and the Potario from Wabash River, are among the first boats due. The latter, we have heard but will doubtless arrive to-day.

The Kate Patton left St. Louis for Pittsburgh on Sunday last.

The Fontrose, Captain Ebbert, is announced for Nashville forthwith, and the Magnolia for New Orleans and the Lorena for Cincinnati and Louisville.

Among the late arrivals at Nashville we notice the Amelia Poe, and the Pilgrim left there at 4 o'clock on Tuesday for this place.

The Armenia was advertised to leave St. Louis for Pittsburgh on Monday.

We clip the following items from our Cincinnati exchanges of Tuesday:

A fleet of steamers, including the Emerald, Cincinnati, Belle, Anna, New National, Robert Moore, Fanny Brandies, Frank Boone, Gladiator, Navigator, J. E. Gilmore, Lawrence and Champion, arrived from Parkersburg, with stores and ammunition for General Sherman's command. They were in charge of General Stagg. Several of the boats left last evening, and the balance were preparing to leave this morning—their destination being Saint Louis.

In addition to the premiums already offered by the Peoples' Line of steamers, advertised to be given at the approaching Tobacco Fair, to be held in Louisville on the 7th of June next, of a seven-by-five dollar set of silver plate, for the best three hogsheads of leaf tobacco, of a fifty dollar set of silver plate for the second best three hogsheads, and a twenty dollar set of silver plate for the third best, they now offer a fifty dollar set of silver worth one hundred dollars for the best hogshead of chewing tobacco, and a fifty dollar set of plate will be given for the second best hogshead of the same.

A land slide on the Baltimore & Ohio Railroad has interfered with the arrival of soldiers at Parkersburg. As the weather has become pleasant, no further detentions will likely occur. Some of the boats lying up will be called into service; indeed, it is doubtful if enough boats can be procured to meet the demand. A fleet will arrive from Pittsburgh to-day.

The Alice Dean, with 1,000 bales cotton, made the trip from Memphis in three days and fourteen hours, including stoppages.

The St. Louis Democrat of Monday says: The river here is still falling slowly. The weather is fine, and business holds up well. There is seventeen feet water in Cairo; seven feet to Keokuk, four feet on lower rapids, five and a half feet on the upper, five feet in the Missouri, and six feet in the Illinois.

The Upper Mississippi is rising above Davenport, Illinois steadily declining, and Missouri about on a stand.
