There was not much activity in stocks to-day, except perhaps among private parties. Pit-hole, oil proper y as well as stocks, whose companies are located on that Creek are the favorities. We saw a private letter from Pit hole which stated thre was a new well struck, situated about a mile shore the United States and adjoining the Paton Petroleum Company. We did not learn the name of the fortunate Company or owner. Consequently there has been some movement in the stock to-day, and some sales among private parties. The letter also conveyed the information that the United States well was flowing about eight hundred (800) barrels per day steady.

Government 5-20's were in demand to-day at 103¾ to 103½. Gold, New York this a.m. 112. No dispatch this p. m., for Gold nor Governments.

There was but one transaction at the stock board this evening, 200 shares of Bitche at 50. Central Basin was offered at 75—65 bid; Fleming & Blood, 2,25—1,60 bid; Horsenock, 90—70 bid; Oil Creek & Cherry Run, 2,15—1,60 bid; Ross, 65—40 bid; Tack, 1,10—80 bid. For Banner, 1,25 was offered, and 1,00 for Oil City and Pittsburgh. There are quite a number of offers to sell, at about previous quotations.

OIL INTELL.—Oil was struck in the Pritchard well on Smith's Ferry, on Friday last, at the depth of 136 feet. The oil is of the excellent quality obtained in that locality, and the show is fine for a good well.

One-fourth of the Patton Well, at the same place, was put up at a public sale on Saturday last, and sold to O. H. P. Green at $4,100.—*Beaver Argus.*

On Wednesday of last week—May 31th—a new well was struck on the Bishop Farm, Sharp's Fork of Federal Creek, that gives high promise. The depth is sixty feet. With a borrowed pump, and one that did not suit the well, a sixty barrel tank was filled with oil, as fast as the pump could be worked—all the "leakage" on the ground. A new pump was sent out, a day or two ago, and the most gratifying results are anticipated—a 40 barrel well, probably. It is believed to be the best well in that region. One-third interest in the well belongs to Buell & Rea, of this city. The Bishop Farm belongs to the Federal Oil Company, and consequently the royality.—*Marietta (Ohio) Register.*

Quite recently what is termed a "100-barrel well" was struck, at Burning Springs, West, Va., at a depth of about 900 feet. The well was bored about four hundred feet, four years ago, without oil. A deep well has now done the business.

The Melchi Well struck struck sometime ago, on the Bishop Farm, Federal Creek, was lately sold for $62,000, including the lease of two acres. The well is about 175 feet deep, and is a paying one.

The Philadelphia *Ledger*, in speaking of oil stocks, says:

Oil Company shares are gradually sinking out of notice, as is proved by the daily lessening rates. Aside from the frauds and deceptions in palming shares on the market, there remains this one remarkable feature, that with daily increased production there are steadily declining prices of oil. This, however, may be said of coal and iron and other staples and may perhaps, to some extent, be attributed to the depreciation of the currency.

The Philadelphia *News* is justly indignant at the operations of a fraternity styling themselves "stock brokers," who for some time past have been making foot balls of oil stocks in that market. To illustrate, the *News* gives the following as a sample:

We were informed yesterday of a four hundred dollar swindle, done in this wise: A gentleman, desiring confidence in a certain stock, placed in the hands of a member of the "finger beer board" six hundred dollars; with which to purchase the stock named at a given price. The broker put the money in his pocket, and commenced to bear the stock by offering it for sale at a price below its value, and after the style mentioned in our article of yesterday succeeded in "bearing" it from day to day until he was able to buy back at it for four hundred dollars less in the aggregate than the amount received from his principal. The principal was thus swindled out of four hundred dollars; whilst the stockholders of the company, many of whom doubtless became alarmed and sold out at a loss, were robbed without mercy. Now the fellow who performed this "smart" operation dressed well, and endeavored to move among respectable business men, but he certainly ought to be pitched out of all decent associations.

The Crops.

The wheat harvest had commenced in South Georgia on the 4th inst, and it is thought there will be enough to supply the home demand.

FROM INDIANA.

F. Bosler, Esq, writes from Indianapolis, of the crops in Indiana:

We have been very wet here all this spring. Considerable corn not yet planted—in fact, considerable low land intended for corn will not be planted at all. Grass and oats look first rate. Some complaint of wheat drowning out on wet land and falling on strong ground. An abundant crop of apples and small fruit. Peach trees nearly killed last winter a year, but full wherever there are any. Cherries, a moderate crop. Pear trees generally full. Stock of all kinds doing well; hogs very scarce; sheep, more in the country than ever before—fever, subsiding—disease constitutional with myself, however, as I raised sheep in a small way when scarcely anybody else in this county did, and expect to do so still.—(Ohio Farmer.)

Says the Vincennes Sun:

Crops in this locality look remarkably promising. Wheat, oats and barley are particularly fine, and large yields are confidently anticipated. Corn is somewhat backward, but there is ample time for it to come out, and farmers are generally hopeful.

Says the Jeffersonian:

The farmers have been very busy in planting corn during the week. The great majority of them are now through with this process. Wheat harvest will soon be here. The wet weather has damaged a great deal of the wheat, and there will hardly be an average crop in Johnson county the green at season.

Says the Delphi Times:

The prospects of the hay crop are said by the farmers to be exceedingly flattering. No really correct idea of the corn crop can yet be arrived at, but the present indications are good. The fly, we are informed, has commenced on the wheat, and has made fearful ravages in some sections. The prospect for a fine crop of fruit was never better, Potatoes and all other kinds of vegetables look splendid.

A correspondent of the Toledo Blade, dating at Elkhart, June 1st, says:

Everything in the way of agricultural products is in a high state of perfection, except corn, and the hot weather of the past two days exhibits in that a marked change for the better. I have seen many pieces of early planted wheat grown to its full height, head out and giving promise of an early harvest. Others less forward, promise a large reward to the husbandman, with scarcely an exception. On the prairie, in the vicinity of La Porte, some few fields have been partially winter killed, but a snow giving a much better promise of a good crop than could have been anticipated a few weeks ago.

FROM WISCONSIN.

The Milwaukee Sentinel of the 5th says:

A yellow worm, one-half to five-eighths of an inch in length, and very destructive to grain, has made its appearance at Richfield, on the line of the La Crosse Road. A wheat field covering some ten acres was completely destroyed by these insects in the course of ten days. Mr. Joseph Phillips, of this city, sent in a specimen of them.

Army Awards at Cincinnati.

Major McFeely, the U. S. Commissary at this post, to-day, awarded the following contracts on proposals handed in on Saturday:

BACON.

[illegible] the clear ribs, $14,40.
[illegible] the clear sides, $12,[illegible].
[illegible] the shoulders, $11,[illegible].
[illegible] the shoulders, $12,50.
[illegible] the plain hams, $16,90.

Wheat in Iowa.

[From the Lyons (Iowa) Mirror.]

During the past few weeks a very large amount of grain and other crops have been coming into this market, much of it from a long distance in this country, and from neighborhoods that have for the past year been marketing their grain at other points on the river.

Wheat at Alton Illinois.

Large quantities of wheat are now coming to this city, and our buyers are storing thousands of bushels. We heard it estimated that 12,000 bushels came in yesterday. The price averages from $1,40 to $1,45 for choice.—*Alton Telegraph.*

PITTSBURGH MARKETS,

FRIDAY, June 9, 1865.

The dullness and stagnation noted from day to day in commercial circles for some time past still continues, and there is no prospect at present of any change for the better. There is no speculative demand for any of the leading articles of produce, and, consequently, we have but very few transactions to report, and those few are of an unimportant character.

GRAIN—There is no movement in Rye, Wheat or Barley, and, in the absence of sales, we omit quotations. Oats moderately active but unchanged—50@55 on track, and 55@60 for small lots from store. Corn is in good supply, particularly inferior, which makes it very dull.

FLOUR—Small sales from store at $7,75@8,50 for Spring and Winter Wheat brands of Extra Family.

PROVISIONS—The demand for Bacon is falling off, and the market, except for Hams, is dull and prices weak and drooping. Sugar Cured Hams are in fair demand at full rates. Lard is dull at 18@18½ for prime kettle rendered.

EGGS—In better supply and a shade easier, selling to-day at 12@13.

BUTTER—Is selling at 8@12 for packed, and 16@18 for fair to prime Roll. Receipts comparatively light, and demand limited.

CHEESE—Moderately active but unchanged; sales of 40 boxes W. R. at 18@20, and 40 boxes Goshen at 21.

POTATOES—In good demand and firm with sales of prime Reds at 70 per bush and Peach Blows at $1,00.

HAY—Sales of 100 bales choice Timothy Hay at $18 per ton—considered somewhat above the market. Loose Hay remains about as last quoted.

SEEDS—Flax Seed is in demand for sniipment and small sales are making almost every day at $1,35@1,50 per bu. No inquiry for Timothy or Clover and but little in market.

SALT—The demand continues very light being restricted almost entirely to supplying the immediate wants of consumers.

DRIED FRUIT—Dull and languid but unchanged; small sales of Apples at 6@6c and Peaches at 27@32, for quarters and halves.

PITTSBURGH PETROLEUM MARKET

FRIDAY, June, 8 1865.

The Petroleum market has been remarkably quiet to-day, though it must not be inferred that there was any "break-down" in the market as such was not the case. Both Crude and Refined, for present as well as for future delivery, are held pretty firmly and there is no disposition to make concessions in order to effect sales. We note a sale of 300 bbls Crude at 21½; 200 do do (riley oil) at 20; and 1000 bbls, to arrive, at about 21. There was no movement in Refined that we could hear of, though several sales are in negotiation, particulars of which we expect to be able to make public in our next report. For bonded, the demand is, as has been the case for some weeks, principally for future delivery, and as a general thing our refiners refuse to contract ahead at current rates Naphta and Residuum remain quiet and nominally unchanged.

The receipts of oil by the Allegheny River since our last report were as follows:

Fisher & Bro	515	Jas Wilkins	77
W P Logan	200	R O Cochran	441

PETROLEUM STOCKS IN NEW YORK.

Special Dispatch to Western Press.

NEW YORK, June 9, 1865.

Petroleum stocks have been moderately active to-day without any important change in prices. Buchanan Farm, 1,70; Byad Farm, 2,45; Pit-hole Creek, 11,60; Webster, 1,20; Bergen, 85; Cherry Run, 40; Oceanic, 2,00; Tack, 1,00; Continental, 22,00; Excelsior, 4,00; United States, 36,00.

NEW YORK PETROLEUM MARKET.

Special Dispatch to Western Press.

NEW YORK, June 9, 1865.

In Petroleum there is nothing new to notice. Crude is a little easier at 24½; Refined, in bond, is quoted at 60, and Free at 70.

"Change of Base"—Acknowledgment of Favors.

Messrs. James Wilkins, Albert Hancock and F. Fisher & Bros. have changed their base of operations from the Perry Block, to a new, and commodious office just completed for them by Mr. Still, on Duquesne Way. A cotemporary is noticing the removal, informs the public that Capt. Wilkins, has become extravagant, having purchased a new desk. To still further enlighten the public in regard to the Captain's movements, we may add that he has also purchased a new "cook."

Seriously and without speaking disparagingly of others, we take great pleasure in bearing witness to the fact, that upon all occasions we have found quotations and sales obtained from these gentlemen to be uniformly correct, and this being a matter of no importance to an "enquirer aftertruth" we feel it our duty to make our acknowledgments for such favors. As we do not wish to appear invidious in our remarks, we may with propriety take this occasion to extend our thanks to the oil dealers in general for the facilities afforded us by them for obtaining correct quotations and sales, and we hope that every "mother's son" of them may be the recipient of a new coat suitable to the heated term, and a new desk and easy chair in which to recline during the hot days, and dream of slipping into paradise by the aid of Petroleum.

MARKETS BY TELEGRAPH.

New York Market.

NEW YORK, June 9.—Cotton dull and 5c lower; 46c for Middlin.

FLOUR—Quiet and without decided change at $6,20@6,35 for extra State, $6,85@7 for extra round hoop Ohio, and $7,05@8,75 for trade brands; market closely dull.

MEDICAL.

PILES PILES! PILES!

PILES.

OF TWENTY YEARS' STANDING.

CURED!

Below will be found a certificate from one of the most respectable citizens of Wilkins township, in regard to

Dr. Keyser's Lindsey's Blood Searcher.

The Doctor's certificates are within reach, and no one need be deceived in regard to his preparation:

DR. GEO. H. KEYSER: I became afflicted with Piles about twenty years ago, and every year they were growing worse, so as to trouble me very much o much so at times as to unfit me for work. Some es I was so bad that I could not do anything on account of them; they came out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured; sometimes they would do me some good for a little while, ut afterwards they would return again as bad as ever. I also applied to two Doctors, who visited me atmy house and gave me some medicine, but it would not do, I could not get well. Over a year ago I got an advertisement of your Lindsey's Blood Searcher, made by yourself. When you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me, and used it according to your directions. I then called to see you again when you said I could not expect much benefit from one bottle. I bought it, one bottle at a time, until I had used five bottles, after which this quantity we used. I was entirely well of the Piles, which had tortured me or twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is no appearance of the return of the disease. I can do any kind of farming now without work he Piles coming down and hurting me. I can pitch hay, shop wood, lift, or do any kind of work which before used to hurt me. When I found out your Blood Searcher I kept on taking it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was, and do not know the value of your medicine. You may publish this if you like. I live in Wilkins township, and will be pleased to satisfy any one of the truth of this certificate if they wish to call on me.

ELLIOT DAVIS.

December 24th, 1864.

Look out for the name of Dr. GEORGE H KEYSER on the cover of the bottle, and pasted over the cork; also for his stamp on the United States stamp on the top of the bottle, to prevent being imposed upon by a spurious article which is in the market.

Sold by the Proprietor, No. 140 WOOD ST., and by SIMON JOHNSTON, corner of Fourth and Smithfield streets, Pittsburgh.

NORTON'S OINTMENT,

For Salt Rheum and Scrofula.

Permanently cures

TETTER, SCALD HEAD, RINGWORMS, AND

all ITCHING AND BURNING SORES

and ERUPTIONS OF THE SKIN.

This Ointment penetrates to the basis of the disease—goes to the very source—and cures it from the flesh beneath to the skin on the surface—throws the poison of the disease upward, and every particle of it is discharged through the pores—the seeds of the disease are expelled from the flesh, consequently there can be no relapse.

NORTON & CO., Sole Agents,

612 BROADWAY, NEW YORK.

Sold by DR. KEYSER, Agent,
