Farm, Home &c..

Of Interest to Housekeepers.—The following are things housekeepers will want to know; That boiling water will remove tea stains and many fruit stains; pour the water through the stain, and this prevent it from spreading over the fabric. That ripe tomatoes will remove ink and other stains from white cloth; also from the hands. That a teaspoonful of turpentine boiled with white clothes will aid the whitening process. That boiling starch is much improved by the addition of a little spermaceti or a little salt, or both, or a little gum arabic dissolved. That beeswax and salt will make flat irons as clean and smooth as glass; tie a lump of wax in rag, and keep it for that purpose, when the irons are hot, rub them with the wax rag, then scour with a paper or rag sprinkled with salt. That kerosene will soften boots or shoes which have been hardened by water, and render them as pliable as when new. That kerosene will make tea kettles as bright as new; saturate a woolen rag and rub with it; it will also remove stains from clean varnished furniture.

Curiosities in Pomology.—Some years ago one of our citizens bought and set out thirty young apple trees. On one of them he neglected to remove the wooden label which was attached to one of the limbs by a copper wire. Two years later he found that the copper wire was entirely imbedded out of sight, in the bark of the tree, and that year the limb was so heavily laden with apples that he was obliged to prop it up, while there was not a blossom or apple on any other limb. Last year one of our neighbors, when his young apple trees were in full blossom, carefully girdled some limbs on several trees, and the blossoms produced no fruit on the limbs thus treated, but this year those limbs have blossomed full and no blossoms on the limbs that bore last year. Pomologists may profit by further experiments in that direction.—*Hartford Evening Post.*

Driving After Eating.—The digestion of a horse is governed by the same laws as that of a man, and as we know that it is not best for man to go at hard work the moment a hearty meal is eaten, so we should remember that a horse ought to have a little rest after his meal, while the stomach is most active in the process of digestion. Many a good horse has been ruined by injudicious haste in working him with a full stomach.—*American Agriculturist.*

A Child's bed should slope a little from the head to the foot, so that the head may be a little higher than the feet; but never bend the neck to get the head on the pillow. This makes the child round shouldered, cramps the veins and arteries, and interferes with the free circulation of the blood. Even when the child is several years old the pillow should be thin and made of hair, not feathers.

Paint and Putty cover up a multitude of defects. But they are very useful also in preserving machines, implements, and vehicles. There is no better time than now, when everything is dry, to fill up open cracks with putty, and cover wood and iron work with a coat of paint. A small quantity of varnish in the paint will much improve it, with but little addition to the cost.

Tomatoes.—Destroy the large green worms by hand-picking. Provide a cheap frame of stakes and poles, or place straw under the vines, to keep the fruit up from the ground. Trim off the late branches and flower clusters, and thus throw all the nourishment into the fruit that is sure to ripen.—*American Agriculturist.*

After many experiments, a certain and speedy remedy for burdock has been discovered in kerosene oil. A small quantity poured into the heart of the plant directly after cutting, leaves no trace of their existence save a small hole in the earth where they stood. Refined or crude oil will accomplish the purpose equally well.

Corn for Seed.—Use only grains from the middle of the ear, rejecting butts and tips. Experience shows that ears from the butts are short and thick, while those from the tips have fewer rows and thin stalks. The grains from the middle of the ear have larger germs and more substance to nourish the sprouts.

Kisses or Drop Cakes.—One cup of butter, two cups of sugar, three-quarters of a cup of water, one-half teaspoonful of soda, two eggs, four and a half or five cups of flour; drop them on a tin, and put a lump of sugar in the centre of each.

A little kerosene added to molasses will much improve the luster. Apply while the iron is warm.

Radice.—Set plants for late crop. Tie up the leaves when ready to blanch.

Manhood: How Lost, How Restored!

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self indulgence or sexual extravagance, &c.

Price, in a sealed envelope, only six cents.

The celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer may cure himself cheaply, privately, and RADICALLY.

This Lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, post-paid, on receipt of six cents or two postage stamps.

Address the Publishers.

YOU WILL BE SORRY
If you replace that old Pump with a new one and do not first carefully examine the
Buckeye Force Pump.
The Buckeye is the very latest improvement in Pumps. It is constructed with air-chambers which make it very easy to operate. Hose can be attached to the Buckeye Pump, and water can be thrown upon any building in case of fire. You can water your Garden and Yard, Wash Windows, Wash Buggies, and have a
FIRE ENGINE
ever ready on your own premises at no more cost than an ordinary pump. It
Cannot Freeze
in cold weather. Durable beyond a doubt. The very pump for deep wells. The working parts are of brass, in sections and valves within a porcelain lined chamber. Nothing to decay about it. The
Iron Turbine Wind Engine
is also a great improvement in Wind Engines. Call and see these pumps in operation, or for particulars address
