Learning to Sew.

To be handy with the needle, is one of the sterling accomplishments of every educated woman. To be able to take the "stitch in time," is worth all the time and trouble that [illegible] to learn the art. Like [illegible] s, and the many other [illegible] s which we come to do without special thought, the learning to sew is a slow process, and should be begun while the child is still quite young. The girl should not only have the use of the thread, needles, and patchwork, but be instructed how to take the stitches, turn the corners, and do the various things connected with needlework. We are not excluding the boys in our remarks, because they need to learn to thread a needle, and do general sewing. Men are many times so situated, that they must depend upon themselves for their necessary sewing. Even if it is an age of sewing machines, it is best that all children should learn to use the simple, common old-fashioned kind, which can never be wholly superseded. The amusement and occupation that sewing furnishes little folks, afford sufficient reason why all mothers should see that their girls, and boys too, learn to sew but the very practical use of the needle in after life, is the principal thing after all. *American Agriculturist.*

Receipts.

Gum camphor is a speedy remedy to clear cockroaches.

Beans harden the muscular fibre and flesh of foals. We doubt the wisdom of feeding them to the barn-terrans.

[illegible] ed eggs won't boil. When they come in contact with hot [illegible] the shell dissolves partnership [illegible] middle.

[illegible] a teakettle of lime, scrape [illegible] me off that you can, and [illegible] oroughly with soft soap; [illegible] an oyster shell in the bot[illegible] it there, and it will [illegible] free from lime.

[illegible] rienced housekeeper says [illegible] thing for cleaning tinware is [illegible] She gives the follow[illegible] Dampen a cloth and [illegible] rub the ware briskly, [illegible] wipe dry. Any blacken[illegible] can be made to look as well [illegible] w.

[illegible] mixture of kerosene and lard will remove lice if it is well supplied. It should be used all over the skin and brushed into the hair thoroughly. It will be more effective if some sulphur is added to it. Take one pound of lard, one pint kerosene oil and four ounces flour sulphur; rub these well together.

Restoring Carpet.

The question of cleaning and restoring carpets is now the one that bothers many housekeepers, as it is the season for spring house-cleaning. The following hints are sent out by an exchange: *A* table spoonful of ammonia in one gallon of warm water will often restore the colors of carpets, even if injured by acid or alkali. If a ceiling has been white-washed with the carpets down and a few drops should fall, this will remove it. Or, after the carpet is well beaten and brushed, scour with ox-gall, which will not only extract grease, but freshen the colors. One pint of gall in three gallons of warm water will do for a large carpet. Table and floor oil-cloths may be thus washed. The suds left from a wash, when ammonia is used, even if almost cool, cleans floor-cloths well.

Poultry Notes.

Tomatoes are a wholesome food for hens, and they like them too.

Chopped onions, with a little ginger mixed in, are said to be a sure cure for chicken cholera.

Poultry houses need not be expensive but should be built snug and warm.

Give hens constant access to lime.

Hens must have the raw material in order to manufacture shells they cannot make them out of nothing.

A few camphor pills about the size of a garden pea are recommended as a sure cure for gapes.

A French writer recommends the use of green bushes or flowering shrubs in the hen house, with the view of imparting a pleasant smell, and giving a more natural and home like appearance to the place.

Paint the inside walls of a corn house with coal tar and it will drive weevils from the corn. It costs but a few dollars a barrel will last several years in hen houses and corn houses.

Barn-yard manures are considered more hurtful than useful for grape-vines. Potash should form a part of the grape manures and nitrate of potash is the most valuable.

SELINSGROVE MARBLE WORKS.

The undersigned having purchased the Selinsgrove Marble Works, he is now fully prepared to manufacture

Monuments And Headstones.

this summer at prices much lower than heretofore, and lower than has ever been done in the county.

Having just received a large lot of Designs, of all the latest styles of Monuments and Headstones, I am able to give satisfaction in styles and prices, to all that wish to decorate the graves of a departed friend with a neat, cheap Monument, Tombstone or Headstone.

I have also made arrangements, so as to be able to furnish on short notice, Marble, Sandstone, or any other kind of door and Window Sills, at prices to suit the purchaser.

Persons in need of any of the above articles will save money by calling at the Selinsgrove Marble Works before purchasing elsewhere.

I also keep Hagh's Patent Galvanized Grave Guards for sale. Five different styles. Come and see.

Mr. J. H. Long, of Adamsburg, is agent for the undersigned where all orders will receive prompt attention.

CATARRH.

LIMA, O., Oct. 18, 1878.

C. B. LITTLEFIELD & Co.:—My son Horace has suffered for years from Catarrh in its most aggravated form, and, after trying numerous remedies, was induced to try CONSTITUTIONAL CATARRH REMEDY. After using three bottles he is effectually cured, although exposed slightly to cold and wet in his capacity of city lamplighter. Yours truly,

ALEX. MASON.

I have sold your CONSTITUTIONAL CATARRH REMEDY for two years, and there has been a general universal expression of satisfaction with it. I am a physician of the old school, and am very cautious of recommending articles of which I do not know the contents, but from my observation of the good effects of the medicine, I feel that I can conscientiously recommend it.

BEST IN THE WORLD!

ABSOLUTELY AND CHEMICALLY PURE.

CHURCH & CO'S ARM AND HAMMER BRAND. BI-CARB. SODA.

AND

SALERATUS

Which is the same thing.

Impure Bi-Carb Soda or Saleratus (which is the same thing) is of a slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "ARM AND HAMMER" BRAND will show the difference.

See that your Saleratus and Baking Soda is white and PURE, as it should be ALL SIMILAR SUBSTANCES used for food.

Housekepers who prefer bread made with yeast, will improve its quality, make it rise better and prevent it from souring, by adding one-half teaspoonful of Church & Co.'s Soda or Saleratus. Be sure and not use too much. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.

See one pound package for valuable information and read carefully.

YOU WILL BE SORRY

if you replace that old Pump with a new one and do not first carefully examine the

Buckeye Force Pump.

The Buckeye is the very lightest in Pumping. It is constructed with a chamber which is very easy to open. Hose can be attached to the Buckeye Pump, so that in case of fire, it will throw water on any building in reach. You can water your Garden and Windows, Wash Buggies, and have a

FIRE ENGINE

ever ready on your own premises at no more cost than an ordinary pump. It
