MISCELLANY.

OUR BESSIE.

The death of a child is a trite subject; but the following lines will not fail to commend themselves to the hearts of all bereaved ones, as both beautiful and true:

Our Bessie was as sweet a girl
As ever happy mother kissed,
And when our Father called her home,
How sadly was she missed.
For, grave or gay, or well or ill,
She had her thousand winning ways,
And mingled youthful innocence
With all her tasks and plays.

How softly beamed her happy smile,
Which played around the sweetest mouth
That ever fashioned infant words;
The sunshine of the South,
Mellowed and soft, was in her eye,
And brightened through her golden hair;
And all that lived and loved, ween
Did her affection share.

With reverent voice she breathed her prayer
With gentlest tones she sung her hymn;
And when she talked of Heaven, our eyes
With tears of joy were dim
Yet in our selfish grief we wept
When last her lips upon us smiled:
Oh! could we, when our Father called,
Detain the happy child.

Our home is poor, and cold our clime,
And misery mingles with our mirth;
'Twas meet our Bessie should depart
From such a weary earth.—

Oh! she is safe, no cloud can dim
The brightness of her ransomed soul;
No trials vex, nor tempt, nor lure,
Her spirit from its goal.

We wrapt her in her snow-white shroud,
And crossed, with sadly tender care,
Her little hands upon her breast,
And smoothed her sunny hair.
We kissed her cheek, and kissed her brow,
And if aright we read the smile
That lingered on the dear one's lips,
It told of Heaven the while.

CAPITAL PUNISHMENT.—In the July number of the Edinburgh Review, there is an ably-written article on the question, "What is to be done with our criminals?" We copy a paragraph:

"The intense desire which now actuates a portion of the community to get rid of capital punishment, even for murder, may be taken as an indication of the excessive sensibility which weeps over the criminal, and has no tears to spare for the miseries he has caused—which transforms the felon into an object of interest and sympathy, and forgets the innocent sufferers from his cruelty or perfidy. The propriety of that punishment in the given case, would certainly *appear* to be distinctly sanctioned by that Book to which its opponents professedly appeal; by reason; and by the all but universal practice of nations. It is the only *certain* guarantee which society can have for the security of its members. Supposing, indeed, these arguments only plausibly answered, it seems to us of little consequence whether capital punishment for this crime be abolished or not, for if murders were to become more frequent, it would assuredly be instantly re-enacted. It is quite certain that even the most fanatical benevolence would prefer the death of the murderer to that of the unoffending members of society. Life is very precious, even to the most tender-hearted sentimentalist; and though he may think that some increase of less heinous offences might be compensated by the abolition of capital punishment, it is hard to suppose that he would deliberately prefer the death of many innocent to that of a few guilty."

THE WRONG MAN HUNG.—A young printer named Boyington, who served his time in the office of the New Haven Palladium, was hung a few years since in Alabama, upon a charge of having murdered a companion, with whom he was travelling. He protested his innocence to the last; but without avail. Recently the landlord in whose house the murder was committed, confessed the crime on his death-bed! Boyington was a young man of fine talents and prepossessing appearance, whose guilt was deemed conclusive only from the fact that he was the last person seen with the murdered man.—*North Amer.*

Not so. We notice the preceding paragraph going the rounds of Eastern papers. How it originated we do not know, but it is not true. We were a resident of Mobile at the time Boyington was hung, in 1834; more than thirteen years ago. He was one of the compositors in the office of the Mobile Mercantile Advertiser, at the time that paper was under our charge. There never was a clearer case of murder than the one perpetrated by Boyington on young Frost, except where there were eye-witnesses to the fact. The paragraph above contains several mis-statements in addition to the fact of being wrong altogether. Boyington was not travelling with Frost, when he murdered him: they were both residents of the city of Mobile, and had been fellow-boarders for a long time. The murder was not committed at their hotel, but in a pine forest near the public cemetery. The landlord cannot have confessed the crime on his death-bed *lately*, for he has been dead, to our certain knowledge, many years; and if he had confessed anything of the kind whep he did die, it is very singular we never heard of it, having been a resident in that city at the time and afterwards till within eighteen months past. Nor was Boyington's guilt deemed conclusive *only* from the fact that he was the last person seen with Frost. This fact was one of little or no weight at all at the trial.

If it were a fact that the wrong man had been hung, we would do our utmost to circulate the truth, and to urge it as a powerful argument against capital punishment, to which we are decidedly opposed. But in this instance, however distressing the recollection to his relatives, no man, probably, ever swung from the gallows with more decided evidence of *guilt* against him.—*Iowa Gazette.*

"COLD WATER TO THE THIRSTY."—A Colporteur, employed by the American Tract Society, recently writing to the Secretary, says: "By permission of the United States officers at ——, I visited the barracks with my books, immediately after morning drill. We were saluted by a company of soldiers under arms. The officer who introduced me to his men, explained the nature of our work, and requested them to give attention. After I had addressed them, I commenced at one end, as they stood in double file, and proceeded to present each with a small volume, together with an appropriate tract, for which each made a low bow in silence. When I had finished, the commanding officer dismissed them. Immediately there was a rush to the part of the room where I stood. So grateful were they, they took hold of me, shook me, and wept. They then presented their books to me that I might write my name in them."

CHINA.—Dr. Levings, in a sermon lately delivered at the session of the Genesee Conference, mentioned that reports of a surprising work of God, in China, had just arrived, but whether they were true he could not say. But he had seen on board the Chinese Junk, one of the Chinese reading about the miracles of Christ, in a translation which he had brought all the way from China.

MEDICAL.

CHILD BIRTH.
DR. BORDELOQUE'S CELEBRATED RECEIPT.

FOR relieving the pains and dangers incident to Pregnancy and Child Birth, which insures the easy and unfractured process of the functions of woman which Nature, when misinfluenced by the luxuries of civilized life, intended should be performed expeditiously, with little pain, and without subsequent indisposition.

Dr Bordeloque during his travels in Asia, observed this remarkable fact. That the women of those countries are peculiarly different from all other lands, in this respect—that they are free from the pains and dangers which make the period of Pregnancy an object of so much anticipated suffering and risk. Curiosity and the zeal for scientific discovery prompted him to investigate the cause of this remarkable exception to the severe trials to which the married females are generally subjected, and the result was the discovery of the fact that the women of those countries were in the habit of using during the last stages of Pregnancy, certain plants which have the faculty of imparting that degree of tone and elasticity to the nerves and blood vessels of the Uterus, or Womb which enables it to perform its functions in all their native simplicity of action and freedom from pain.

It is a singular fact, also, that the Indian women of North America are in a remarkable degree free from those pains and dangers of pregnancy and child birth to which the white women are subjected—Whether they use the same plants as do the women of Asia we cannot tell. Certain it is that the fact is no less remarkable than true.

This Remedy is now extensively used throughout France with the most marked success and many females who were once single through apprehensions of the dangers consequent to the state of marriage are now by the use of this medicine, performing the duties of wives and mothers with comfort and happiness.

It is at this time now first presented to the women of America, by Dr Bordeloque, through his sole agent, Dr A C MORTIMER, and he feels confident that independent of its intrinsic merits it will recommend itself to the moral part of the community, as it is fully calculated to do away with that horrid crime of which some, through fear of pain or of child birth, are guilty, (the production of premature delivery.)

This medicine is also remarkable for remedying that bitterly intolerable disease Barrenness, and its almost constant accompaniment Fluor Albus. In fact that relaxed and fallen state of the Womb which accompanies this disease is never felt after the shortest use of this medicine.

This medicine is prepared in such a way as to be agreeable and pleasant to the taste.

Dr A C MORTIMER No 36 1-2 Lispenard st, New York, has been appointed sole agent for the United States, by Dr Bordeloque, and is the only person in this country who is authorized to vend this invaluable medicine, as the following letter will show:

(Translated from the French.)

PARIS, June 10th, 1847.

DR A C MORTIMER—Dear Sir—According to the agreement entered into between us, I wish by this letter to give you that written authority to sell throughout the United States, (my Remedy for relieving the pains and dangers incident to pregnancy and child birth,) which it is necessary for you to have to satisfy the public of its genuineness and purity. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it a specimen of the manner in which it is put up in Paris. In like manner I should wish it to appear in the United States. Sir, with great respect I remain yours, P. E. BORDELOQUE, M D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science, in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE—Sir—The commissioners of the Academy have appointed the undersigned (rapporteur member), as a committee to report regarding the merits of the remedy laid before us by you, (for relieving the pains and dangers incident to pregnancy and child birth). Several eminent Surgeons having submitted to the Academy the results of their experience in the use of your remedy, we have to lay before you, believing it to be the best decision regarding its claim to distinction, and of its great value, that either you or the public could have wished. Whatever influence this body may possess on the members of the profession will exerted to further that adoption of this remedy into general use, which as a scientific discovery and an unfailing remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in promoting a remarkable safe and easy delivery, free from pain and danger. With the exception of three patients where a laboring woman who had met with a severe fall a week previous to delivery, was taken immediately after that event with a profuse hemorrhage, which was with difficulty arrested. The other two malformations of the pelvis, were in no wise relieved of pain. These few exceptions in so great a number of cases as four hundred, show the undoubted efficacy of your remedy, and have determined us to give it that recommendation and approval which is due to it, and the furtherance of scientific medicine (Signed) M BRESCHET, M D.
L MAGENDIE, M D.
Com of the Commissioners of the R. Academy of Science.

The public are cautioned against purchasing this medicine from any persons except of the sole agent Dr A C Mortimer, No 36 1-2 Lispenard st, New York, where this medicine is put up in package suitable for being sent by mail to any part of the country.

Price Two dollars a package containing full directions.

Persons desirous of obtaining this Great Remedy who reside at a distance, can do so by forwarding Two Dollars, post paid, to
DR A C MORTIMER, Sole Agent for the U S
sept27 9w No 36 1-2 Lispenard st, New York.

STANTON'S EXTERNAL REMEDY,
CALLED
HUNT'S LINIMENT,

IS now universally acknowledged to be the INFALLIBLE REMEDY for Rheumatism, Spinal Affections, Contractions of the Muscles, Sore Throat and Quinsy, Issues, Old Ulcers, Pains in the Back and Chest, Ague in the Breast and Face, Tooth Ache, Sprains, Bruises, Salt Rheum, Burns, Croup, Frosted Feet, and all Nervous Diseases.

THE TRIUMPHANT SUCCESS which has attended the application of this well WONDERFUL MEDICINE in curing the most severe cases of the different diseases above named,—and the HIGH ENCOMIUMS that have been bestowed upon it wherever it has been introduced, give reason the right to call on the AFFLICTED to resort at once to the ONLY REMEDY THAT CAN BE RELIED ON.

☞ The faculty unite in recommending the celebrated External Remedy, Hunt's Liniment.

The following letter from the highly eminent Physicians who have been attached to the Mount Pleasant State Prison for many years, is the best evidence of the value of this celebrated Liniment.

SING SING, Feb. 25, 1847.

My Dear Sir—I received your note of yesterday, asking my opinion in relation to Hunt's Liniment, as prepared by Mr George E Stanton. Knowing its composition, and having frequently used it, I can recommend it to you as a safe External Remedy, and, in my opinion, the best Liniment now in use. Very truly and respectfully yours,
A K HOFFMAN.

Col Pierre Van Cortlandt, Croton Manor.

—I fully concur in the above opinion.
W R BELCHER.

YONKERS, Jan. 14, 1845.

Sir—In reply to your letter, I would say that I have used your External Remedy, called Hunt's Liniment, in my practice since you made me acquainted with its composition, and unhesitatingly say that I believe it to be the best External Remedy now in use for the complaints for which you recommend it. Yours respectfully,
BENJ D MILLER, M. D.

Geo E Stanton, Esq.

☞ Among the mass of worthless articles and humbugs that are poured forth at the present day upon the country, it is really refreshing to find something of real practical utility, something simple, speedy and effectual in its operation, and at the same time free from those injurious effects which generally attend powerful remedies. Hunt's Liniment, prepared by Geo. E Stanton of Sing Sing, though it has been but a short time before the public, has already obtained the confidence, not only of our most wealthy and influential citizens, but our most eminent physicians. All acknowledge it to be a sovereign balm for many of the ills that flesh is heir to, soothing the aching limb, by its genuine stimulating influence, banishing disease from the system.

Mr. Stanton—Sir—Seeing your advertisement of Hunt's Liniment, I was induced to try its effects on my son, who had been crippled with a lame back from an infant, and it is with gratitude I bear testimony to its wonderful healing properties. My child, who is now five years of age, is now in a fair way of recovery. Yours, &c.,
DEMMON C BUCKERSON.

POST OFFICE, TOWNERS, Putnam Co.,

I certify that I am personally acquainted with the above named child, and think the father would be safe in saying that his son is almost well.
JAS W DYKMAN,
Deputy Post Master.

Nov 5, 1845.

P. S. I would also state that I have been for a number of years subject to frequent attacks of the Rheumatism, which in many instances prevented my attending to my business. Two or three applications of the Liniment invariably remove all affections of the kind. In cases of bruises, sprains and sores, too numerous to mention, it has in this vicinity proved a certain remedy. Its value can only be estimated by those who have given it a fair trial.

This Liniment is sold at 25 and 50 cents per bottle, by all the Principal Druggists and Merchants throughout the country.

SCROFULA AND SCROFULOUS SWELLINGS.—Scrofula is all its multiplied forms whether in that of King's Evil, enlargements of the glands or bones, Goitre, White Swellings, Chronic Rheumatism, Cancer, diseases of the Skin or Spine, or of Pulmonary Consumption, emanate from one cause, which is a poisonous principle and the same cause, which is a poisonous principle more or less inherent in the human system. Therefore, unless this principle can be destroyed, no radical cure can be effected, but if the principle upon which the disease depends, is removed, a cure must of necessity follow, no matter under what form the disease should manifest itself. This, therefore is the reason why JAYNE'S ALTERATIVE is so universally successful in removing so many malignant diseases. It destroys the virus or principle from which those diseases have their origin, by entering into the circulation, and with the blood is conveyed to the minutest fibre, removing every particle of disease from the system. Prepared and sold at No. 9 South Third Street, Philadelphia.

Sold at the Pekin Tea Store, No. 72 Fourth street, Pittsburgh. pack31

MEDICAL.

DR. TOWNSEND'S
SARSAPARILLA.
Most extraordinary Medicine in the World.

This extract is put up in Quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickness or debilitating the system.

GREAT SPRING AND SUMMER MEDICINE!

The great beauty and superiority of this Sarsaparilla over all other Medicines is, while it Eradicates Disease it invigorates the System. It is one of the very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system and strengthens the person, but it Purifies *Not a Pure and Rich Blood*; a power possessed by no other Medicine. And in this lies the great secret of its wonderful success. It has performed within the past two years, more than 30,000 cures of Severe Cases of Disease; at least 5,000 of these were considered incurable. More than

2,000 cases of Chronic Rheumatism;
2,000 cases of Dyspepsia;
400 cases of General Debility and Want of Energy;
7,000 cases of different Female Complaints;
3,500 cases of Scrofula;
1,600 cases of the Liver Complaint;
2,500 cases of Disease of the Kidney and Dropsy;
3,000 cases of Consumption.

And Thousands of cases of Disease of the Blood, viz: Ulcers, Erysipelas, Salt Rheum, Pimples on the Face, &c., &c. To Sufferers with numerous cases of Sick Headache, Pain in the side and Chest, Spinal Affections, &c., &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Benskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York, which we will refer to with pleasure, and to men of character. It is the best medicine for the Prevention of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON!

As it removed the cause of disease, and prepared them to withstand the heat.

UNITED STATES OFFICES.

CITY OF W. McCARA, OF THE UNITED STATES NAVY, and member of the New Jersey Legislature, has kindly sent us the following certificate. It speaks for itself:

BARNEY, Jan. 25, 1847.

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.
G. W. McCARA, late U. S. N.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has performed what has been considered the cure of the whole. Three persons cured in one house is unprecedented.

TRADE CHILDREN.

Dr. TOWNSEND'S Sarsaparilla—It is with the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They (what is uncommon) never sick with bad sores; have only taken four bottles; it took them away, for which I feel myself under deep obligation. Yours, &c.,
ISAAC W. CRAIG, 105 Wooster st.

New York, March 1, 1847.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Leucorrhœa or Whites, Suppressed Menstruation, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system, no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, of a naturally robust and full of energy under its influence. It immediately counteracts the nervous weakness of the female frame, which is the great cause of the complaint.

It will not be expected of us, in case of so delicate a nature, to publish certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Several cases where females have been confined to their beds, after making a trial of the various celebrated Physicians, have been blest with healthy offspring.

Dr. Townsend's Sarsaparilla being greatly distressed by weakness and general debility, and suffering continually from pain and a sensation of bearing down, falling of the womb, and other difficulties, and having known cases where your medicine has effected great cures; and also hearing it recommended for such cases as I have described, I obtained the use of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period I recovered from my weakness and pain, and I feel it my duty to give you a statement of my case, that others may be benefited. Yours, &c.,
PETER BROWN, 47 Little st, Brooklyn.

Opinions of Physicians.

Dr Townsend's almost daily receiving orders from phy sicians in different parts of the Union.

We, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

E P PARKER, M D,
J Wilson, M D,
R Beaman, M D,
F E Ainsworth, M D.

Albany, April 1, 1845.

This is to certify that we, the undersigned, practicing Physicians in the City of Albany, have frequently prescribed Dr Townsend's Compound Extract of Sarsaparilla, and from its known qualities, would recommend it to all Physicians generally throughout the United States.

Wm Ford, M D, Albany.

Nous pouvons, calcer put up in the large square bottles, which contain a pint, and sold at 75 cents per bottle, signed with the written signature of E P TOWNSEND, and his name blown on the glass.

From the New York Daily Express of April 9, 1847.

A very great quantity of this Extract is sold in this city yesterday. It was the advertising city, or Sarsaparilla Express of Dr Townsend. The whole thing is got up in a very superior manner. The bottles and boxes are beautiful, which, together with the scroll work, in gold, glittering in the sun, made a show rarely equalled in this city. We take this opportunity to say we believe this extract of the Sarsaparilla deserves the very great popularity it has acquired.

Nervous Debility.

NEW YORK, March 27, 1847

Dr. Townsend:—I have been afflicted more or less for 3 years, with a dreadful sinking in the chest, giddiness in the head, loss of appetite, pain in the limbs, and general debility, brought on no doubt by the continual heat and cold to which I am subject in my business as a painter. I have taken other medicines, too numerous to mention, but with little or no success. I was induced by what I saw in the paper to try a bottle of your Sarsaparilla, from which I found great relief. I have taken several more bottles, and I am substantially my 'it is the best medicine I have ever taken—the pain in my chest is gone, and I feel quite a different man altogether since I have taken your Sarsaparilla. I have never a better appetite than ever I had. My wife has taken it with the same beneficial results. I would recommend it as a family medicine generally, and I feel convinced that if so used there would not be half the sickness there is, and consequently not so many Doctor's bills; for while it restores appetite, it also gives to the stomach and bowels their regular tone, it keeps the blood in a healthy state, so that disease is not so likely to attack the system. And to all those who are not in a healthy state, I say try Dr Townsend's Sarsaparilla.
THOMAS SMITH, 70 Allen st.

Canker in the Mouth.

Below is an account of another child saved. Dr Townsend's Sarsaparilla has saved the lives of thousands of children.—The following certificate is selected from a great number received this week.

NEW YORK, April 9, 1847.

Dr Townsend: Dear sir—One of my children was very sick with the Cancer in the mouth and throat, attended with great debility. It came near dying. I obtained some of your great medicine, and it cured it directly, for which I can assure you I feel very grateful. Yours respectfully,
ELIZABETH TOWNSEND, 97 Desbrosses st.

NO CURE NO PAY.

DR. CULLEN'S INDIAN VEGETABLE REMEDY—Warranted to cure, or the money refunded. This medicine is prepared from an Indian Receipt, obtained from one of them in the Far West, at great expense. Those who have been troubled with the Indian, have only to call upon and do cure Venereal without the knowledge of Mercury, Balsam, or anything of the kind. The afflicted have now an opportunity of being relieved without the use of Balsam. This medicine is pleasant to the taste, and leaves no smell on the breath.

Prepared by ROWAND & WALTON, and sold wholesale and retail, by J. T Rowand, 376 Market street, Philad'a.

For sale in Pittsburgh by R E Sellers, 57 wood street, and by Wm. Thorn, 52 Market st. oct6w7

VERETIAN BLINDS.

THIS great novelty in window curtains was introduced in this city before—made on the most approved Eastern plan—and most fashionable Eastern patterns and color. Also a new and beautiful article for Parlors, Halls, &c., and for outside or order of all sizes, and at all prices.

Country Merchants and others are called to call and examine the article for themselves, as all will be sold wholesale or retail, and a liberal deduction made to wholesale purchasers. A WESTERVELT

COACH MAKING.

FROM the very large and extensive patronage with the number has received since he has located himself in Allegheny, has induced him to take a large, for a term of years, on the property he now occupies, in Beaver street, immediately beside the Presbyterian Church. From the long experience in the above business and a desire to please, he hopes to merit a share of public patronage.

Now on hand, a finishing order, Rockaway Buggies, open and top Buggies, and every description of Carriages made to order, from twenty-five dollars to sixty-hundred. JOHN SOUTH.

T. Jones' Italian Chamical Soap.

FOR all kinds of eruptions and diseases of the Skin; such as Pimples, Blotches, Tetter, Ringworm, Itch, Scurvy, Red Spots, Chapped or cracked Skin, and for all other diseases of the Skin, which require external remedies. Its effects are unequalled. It also dispels Freckles, Sunburns, Morphew, Tan, and changes the color of dark, sallow, or disfigured skin, to a fair, healthy, vivid blush clearness. A fresh supply, warranted genuine, and for sale at the reduced price of 37½ per cake, less just before the rise, just received, and for sale by B A FAHNESTOCK & Co, corner 1st and wood and also at the corner of sixth and wood sts. s11

GENTLEMEN'S FURNISHING GOODS, (at wholesale) H & E TODD, manufacturers Agents, No 78 Wood st, up stairs, two doors below 2nd, solicit the attention of Merchants to their extensive assortment of Goods on Hand, new and fashionable goods, manufactured expressly for our own sales, warranted well made and trimmed, and we feel confident we can offer inducements to purchasers and our customers to use case of superfine No 1 Troy Shirts, just received; also a few cases of Linen Bosoms, 1st and 2nd quality, and other very description and quality, with prices to suit purchasers; another case of those Patent Swivel Joint Breed Gum Elastic Suspenders just opened, with various sorts and prices. We would solicit the calls of purchasers who are in the habit of going over the mountains for goods, to call and examine our stock, as we are confident nothing, so far as prices are concerned, can induce them to look farther, but insure us another call. s11

Patent Block Spring Trusses,

NEWLY INVENTED—For the relief and Permanent Cure of HERNIA or RUPTURE. (Selected to all sizes.)

The superior claims of this Truss consist in the compressive ease with which it may be worn. The pad of wood being nearly balanced on springs, yields to pressure on any part of it, and thoroughly adapts itself to any movement made by the wearer. It can be worn without intermission, until a cure is effected. The subscribers have made arrangements for the manufacture of these valuable Trusses, in a superior style, in Philadelphia, and have them now for sale at their office, No. 77, Smithfield st. near Sixth, Pittsburgh.
GEO. WATT,
D. W. KAUFFMAN.

MEDICAL.

SHERMAN'S TOOTH PASTE.

THE best article known for cleaning and whitening the Teeth, strengthening the gums, sweetening the breath, &c. It should be used every night with a stiff brush, and the teeth and mouth willingly require a slight washing in the morning. Wet the brush with warm water, or cold will answer, and rub it a few times on the paste, when enough will adhere for a sufficient use. It leaves a delicious taste in the mouth, and imparts a most delightful fragrance to the breath. It stands unrivalled as a pleasant, efficacious, convenient, and safe dentifrice. It is warranted not to injure the teeth, but to preserve them.

By using it regularly, it will remove the tartar and prevent its accumulation—prevent the toothache and spongy gums, and prevent all disease of the teeth. The celebrity of the Proprietor, and the confidence he has in the efficacy of his preparation, will induce him to make a liberal share of patronage.

Proprietary.
