A dispatch was received to-day from the manager of the Mackabuy Petroleum Company, at Duck Creek, Ohio, stating that they were getting 40 barrels of oil, and the well was increasing. They sell the oil very readily at thirty ($30) dollars per barrel. This pays the stockholders at the rate of 5 per cent a month on stock. Other reports of new strikes continue to come in, but no want of confirmation we withhold publication of details.

Stocks of all kinds as well as the trade market, generally, is very quiet and dull. Gold still remains very firm at New York, as well as Government, Gold, a. m., 1175; this p. m., 1175; U. S. 1881s, 108½; U. S. 5-20's, 103½; U. S. 10-40's, 98; Certificates, 99¾.

There has been quite a demand for Dalzell in Philadelphia for several days past, the development being made, and confidence felt that the territory is the best in the Oshango region. We might safely predict that the stock will increase in value from 50 to 75 per cent in one month's time, judging from the celerity—with which the leases are being developed, not to speak of the work done by the company.

There was but one operation at the stock Board this evening, 100 shares of Union Lubricating at 35. Central Basin was offered at $1,00—65 bid; Cherry Run & Pit-hole, 75—50 bid; Federal, 85—75 bid; Hermosa, 2—1.40, bid; Monongahela Pioneer, 50—.05 bid; Tarr Story & Cherry Run, 85—40 bid; Ohio Valley was offered at $1,40; Pittsburg & Philadelphia, $1.25 Pittsburg & New York, 75; Columbia, 90@95.

The leading bankers of Detroit have given notice that on and after the 1st of July next all "State currency," so-called, accepting Detroit City Banks, will be charged on deposit three-eighths of one per cent., and immediately sent home for redemption, and thus retired from the circulation of the State. They state that they are convinced that the interest of their customers, as well as that of the public, will be best subserved by retiring at the earliest moment the currency of the State to an exclusively national character.

Some of the victims of misplaced confidence in the rebel cotton loan, in the English market, are venting themselves about getting their money back. A writer in the London New thinks the Federal Government should, in some way, insure the redemption of the bonds, which, considering that the object for which the bonds were issued was the destruction of the Government, is refreshingly cool! Nevertheless, this is perfectly natural, and fairly illustrates British intelligence, and the British idea of equity. Having lent the rebels the degree of aid they believed would suffice to overthrow the Government and establish a slave Confederacy, and the attempt having failed utterly, and entailed a loss of everything, British equity begins to show itself in the absurd idea our Government should interpose so as to enable British capitalists to get their money back. In this is displayed the same ignorance and mendacity that lay at the bottom of the belief that the rebellion would not be put down. John Bull has learned something, if it has been a costly operation.

The Chicago Journal of Friday says: Copious rains throughout yesterday and last night in the West have allayed the fears in regard to the growing crops, and we presume there will, for a short time, be less complaint of the drouth and chinch bug in our exchanges and letters.

Weekly Review of the Cincinnati Provision Market.

CINCINNATI, June 9.—There has been considerable excitement during the week in provisions, chiefly in mess pork and lard, though hams have had a full share of notice. The stock pork in New York proving to be lighter than was expected, the bulls there got the advantage of the bears, and forced prices up, which, however, was not fully responded to here until to-day. For a day or two sales were held firmly at $21 here, but there being no margin for shipments, or a want of confidence in the prices being maintained, it gradually declined to $24 00, at which price there were considerable sales; but to-day the advices being more favorable, it advanced again to $25 00 for choice city, and this price could be held at $24 50. There is no movement in prime mess, and in the absence of sales or demand we have no quotations. Stamps are valued at $15 00@17 00, as to quality. Lard has also had its turn this week. It has for some time been quiet at 16¼@16¾c, many holding firmly at 17c for choice city, and when the advance in New York was made here it sold quite freely at that price. It closes with buyers at 17½c, but select lots in for city, and 16c less for good country. On a 16¼@16½c. Dressed hogs are sympathetic some what with lard, and are held firmly, with light stocks, at 9¼@10½c for brow, 11@11½c for yellow, and 10½@11c for white. Lard oil and tallow unchanged, but firmer.

Bulk meats, except hams, have been quiet all the week. Quotations are for shoulders 11c to 11¼c, sides 12c to 12½c, hams 14c to 14½c, loose, or about 1c more packed. Smoked meats are proportionately higher than bulk, but there is not enough doing to give separate quotations. Hams are much firmer, with fair demand. Sugar cured are generally held at 22c, plain canvassed at 19½c to 20c, packed. Exports for the week were 58 hhds, 180 tcs of hams, 180 bbls pork, 276 tierces lard.

Whisky, dull at 42. Freights, 50c, all rail to New York, 35c to Boston, 35c to Philadelphia, and 60c to Baltimore—or 5c less rail and water.

The Public Debt, and by Whom Held.

Can you people hold about, if not over, nine hundred of the eleven hundred millions of the gold-bearing funded stocks of the United States, and $1,500,000,000 currency debt, and it would not require three-fifths of the gold coin which they are now abundantly able to spare to buy back from Europe the remaining $150,000,000 or $160,000,000, of all descriptions, which Great Britain and the continent are disposed to hold. The operation would be infinitely preferable, in a financial point of view, and certainly more agreeable to the country, than to have the market at home for the entire public debt distributed or regulated by the arbitrary quotations from stamers to steamer, on less than a tenth of the amount held abroad.

The principal stock of the United States distributed in Europe is, as the way, is of the Five Twenties of 1862. Of these, about $120,000,000 are, possibly, owned on the continent and in England.

The connections of the May Coupons of this year, by our principal German and English bankers, (into far, indicate less than $100,000,000, but we make due allowance for mercantile and miscellaneous collections on the same stock, and then add $30,000,000 or $40,000,000 for United States dues per semis of 1874 and six per cents of 1867, 1868 and 1881, he'd on he other side, to reach the possible maxim of $160,000,000 of all descriptions.

It may be that the European holders of United States stocks, as a general rule, are rather disposed to increase than sell out their present holdings. Outside the parcels held on mere speculation in Frankfort, Amsterdam, London, &c., such is probably, the prevailing feeling. But, be this as it may, our belief is that our own market is as well prepared to take care of the whole of our public debt, as the people of the United States have already shown their ability and preference to hold more than nine-tenths of it.—*New York Times.*

Wool-Growing in Michigan.

The Chicago Tribune says: "There is a growing interest in sheep-raising in this state, and almost every leading farmer, whose locality seems fitted for the purpose, is turning his attention to this useful and profitable class of husbandry. In 1860 the number of sheep returned by the country assessors was 554,436—producing the value $880,265, or an average of $1,10 each. In 1863, the number returned was 1,000,000, worth $1,200,000, or $1,20 each. In 1864, the number returned was 1,200,000, worth $1,800,000, or $1,50 each. Later than 1863 we have no figures, but the business has been very active, there were probably, at the close of the year 1864, full three millions of sheep in the state, worth at least five millions of dollars.

"The improved stock which is now coming into the State, will, we think, compensate for the decline in the price of wool, and we should not be surprised that at the end of the year the estimated value of the sheep at the close of last year, would be nearly maintained. Among the largest sheep farms in the State are Hunter, of Winchester, Lady of Dexter, Cheney of Marion, and Bryant of Kingston."

Review of the New York Grocery Market

(From the Commercial List, June 10.)

Coffee—Our market remains very quiet, the brokers being restricted to the immediate wants of consumers. The cargo of 600 bags prime Rio, per Cricket, at Baltimore, has been sold at 31½@31½c gold delivered there, showing some reduction from the rates lately obtained here, and we reduce our gold quotations of Rio half a cent ₩ lb. The sales here are 1500 mats Java at 38@39c; 200 bags Maracaibo, 29½c; 150 Jamaica, 30½; 106 Laguayra at 31 gold; and 450 do. on terms not made public.

Sugar—There has continued a steady good demand for raw sugar our last, Saturday and the trade are still buying pretty freely, and the market is again a little higher than on Tuesday last, fair refining lots being now quoted 10½c; and good do. 10¾@11¼ cash. Refined is in request, but prices are very steady and uniform—hards, 13@14; soft white, 16¼@17¼ and yellow, 14@16, cash. Messrs Stuart have not varied their quotations. The sales of raw are 3792 hhds Cuba, at 9¾@10½c; 427 Porto Rico, 10¾@11¾; 11 Melado, 6; and 5473 bxs Havana, 8¾@11¾, 4 mos.

Molasses—There has continued a steady fair demand for home use since our last, and the market closes firmly, prices being well supported. The sales are 46 hhds and 5 bbls Barbadoes on terms not made public; a cargo of 267 hhds and 44 tcs clayed Cuba at 35c; 182 hhds Porto Rico, 35, 79 hhds, 66 bbls and 571 bf. do Cuba Muscovado, 35@38; including 500 hhds from second hands and small lots good to prime, 35@38, 4 mos.

Spices—We notice more activity in these articles than for some time past, but no particular change is noticeable in prices. The sales are 1500 cases and 18,000 mats Cassia, 300 bags ginger, on private terms; 100 cases No 1 nutmegs, $1.50 currency, and 54c gold; 150 bags pepper, 21¼@22¼; and a small lot cloves, 27, both gold.

Rice—There is a moderate demand for home use, and an occasional inquiry for export at steady prices. The sales are 100 bags and bbls Java at 9½; 500 bags Rangoon, part 9,25@9.50; 300 do, 9¾ gold, in bond; and 100 tcs Carolina, $11@11.50, cash. By auction, 50 tcs Savannah sold at 8¼@8¾c.

RIVER INTELLIGENCE.

The river under the influence of the recent rains, rose several inches at this point during Saturday night, but yesterday it was stationary with about four feet in the channel by the pier marks, and considerably less on Glass House Ripple. One of the pilots on the Petrolia claims that there is not thirty inches on Glass House. The weather yesterday was clear and pleasant and seemingly settled.

The only arrival we have to report is the Petrolia from Parkersburg. The Pilgrim and Alock Speer, from the same point, and the Emma Graham from Zanesville were due here last night, and will probably be four to five days more.

The Petrolia reports that there were twenty-six transports at Parkersburg when she left on Friday, and about eight thousand soldiers.

The Hand Times, Capt. Perry Brown, is announced for Cincinnati and Louisville, forthwith. Mr. A. J. Hazlett, still retains charge of the office.

The following items are taken from the Cincinnati *Commercial* of Saturday:

The John W. Garrett left for Parkersburg yesterday, with four barges, the bulk of cargo being Government coin.

The shallest water between here and Louisville, is at Rising Sun, where there only are feet. There is seven feet on Grassy Flats.

There is 3½ feet in the bar at the foot of the canal, and twenty-two boats at Portland yesterday. The Jewess, Emerald, and several other boats leave for Louisville, to-day, for Johnson's, Tennessee River, in Government service. They will bring eight or ten thousand troops out of the Tennessee.

Captain J. L. Rhodes, yesterday, purchased the Fort Wayne at auction, and will fit the engine-plates building for her machinery.

There is 7000 troops on the river between here and Parkersburg, and will pass here during to-day.

The Carolina is plying between Buffington and Parkersburg, lighting the large boats in the Government service.

LETTERS REMAINING UNCLAIMED in the Post Office at Allegheny City, Pa.

To obtain any of these letters, the applicant must call for advertised letters, stating the date of this list, and pay one cent for advertising.

If not called for within one month, they will be sent to the Dead Letter Office.

FREE DELIVERY letters by *carriers*, at the residences of owners, may be secured by observing the following RULES:

1. Direct letters plainly to the street and number, as well as the Post Office and State.

2. Head letters with the writer's *Post Office* and *Co*, *street* and number, sign them plainly with full name, and request that answers be directed accordingly.

3. Letters to strangers or transient visitors in a town or city, whose special address may be unknown, should be marked on the lower left hand corner, with the word "Transient."

4. *Place* the postage stamp on the *upper right-hand* corner, and the letter *close* to the stamp, and direction for *post-marking* without interfering with the writing.

N. B.—A REQUEST for the RETURN of a letter to the writer, if unclaimed within THIRTY DAYS or less, written or printed with the writer's *name*, *Post Office* and *State* in the upper left-hand end of the envelope, on the *face* side, will be complied with at the usual printed postage, payable when delivered, if the letter is delivered to the writer. MEDICAL.

PILES PILES! PILES!

PILES.

OF TWENTY YEARS' STANDING,

CURED!

Below will be found a certificate from one of the most respectable citizens of Wilkins township, in regard to

Dr. Keyser's Lindsey's Blood Searcher.

The Doctor's certificates are within reach, and no one need be deceived in regard to his preparation:

DR. GEO. H. KEYSER: I became afflicted with Piles about twenty years ago; and every year they were growing worse, so as to trouble me very much a much so at times as to unfit me for work. Sometimes I was so bad that I could not do anything on account of them; they came on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured; sometimes they would do me some good for a little while, yet afterwards they would return again as bad as ever. I also applied to two Doctors, who visited me at my house and gave me some medicine, but it would do me no good. I was advised to try Dr. Keyser's Lindsey's Blood Searcher, made by yourself. When you said it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me, and made a second trial of your directions. I then called to see you again when you said I could not expect much benefit from one bottle. I bought it, one bottle at a time, until I had used five bottles. After this quantity was used, I was entirely well of the disease, which had tortured me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is no appearance of the return of the disease. I can do any kind of farming now without work or he Piles coming down and hurting me. I can pitch hay, shop wood lift, or do any kind of work which before used to hurt me. When I found out your Blood Searcher I kept on taking it until I got entirely well. I consider it my duty to make my case known to the world for the benefit of others who may be suffering as I was, and do not know the value of your medicine. You may publish this if you like. I live in Wilkins township, and will be pleased to satisfy any one of the truth of this certificate if they wish to call on me.

ELLIOTT DAVIS.

December 24th, 1864.
