MISCELLANY.

LOOK AT THE BRIGHT SIDE!

Look at the bright side! The sun's golden rays;
All nature illumines and the heart of man cheereth;
Why wilt thou turn so perversely to gaze
On that dark cloud which now in the distance appeareth?

Look at the bright side! Recount all thy joys;
Speak of the mercies which richly surround thee;
Muse not forever on that which annoys;
Shut not thine eyes to the beauties around thee.

Look at the bright side! Mankind, it is true,
Have their failings, nor should they be spoken of lightly;
But why on their faults concentrate thy view,
Forgetting their virtues which shine forth so brightly?

Look at the bright side! And it shall impart
Sweet peace and contentment, and grateful emotion,
Reflecting its own bright lines on thy heart,
As the sun beams that mirror themselves in the ocean.

Look at the bright side!—nor yield to despair
If some friends forsake, yet others still love thee;
And when the world seems mournful colors to wear,
O look from the dark earth to heaven above thee.

From the National Era.

The Better Land.

"The shapings of our heavens are the modifications of our constitution," said Charles Lamb, in his reply to Southey's attack upon him in the Quarterly Review.

He who is infinite in love as well as wisdom has revealed to us the fact of a future life, and the fearfully important relation in which the present stands to it. The actual nature and conditions of that life He has hidden from us—no chart of the ocean of Eternity is given us—no celestial guide-book or geography defines, localizes, and prepares us for, the wonders of the spiritual world. Hence imagination has a wide field for its speculations, which, so far as they do not positively contradict the revelation of the Scriptures, cannot be disproved.

We naturally enough transfer to our idea of Heaven, whatever we love and reverence on earth. Thither the Catholic carries in his fancy the imposing rites and time-honored solemnities of his worship. There the Methodist sees his love feasts and camp meetings, in the groves and by the still waters and green pastures of the Blessed Abodes. The Quaker, in the stillness of his self-communing, remembers that there was "silence in Heaven." The Churchman, listening to the solemn chant of vocal music, or the deep tones of the organ, thinks of the song of the Elders, and the golden harps of the New Jerusalem.

The heaven of the Northern nations of Europe was a gross and sensual reflection of the earthly life of a barbarous and brutal people.

The Indians of North America had a vague notion of a Sunset Land—a beautiful Paradise far in the West—mountains and forests filled with deer and buffalo—lakes and streams swarming with fishes—the happy hunting-ground of Souls. In a late letter from a devoted missionary among the Western Indians, (Paul Bishop, a converted Jew,) we have noticed a beautiful illustration of this belief. Near the Omahaw mission-house, on a high bluff, was a solitary Indian grave. "One evening," says the Missionary, "leaving come home with some cattle, which I had been seeking, I heard some one wailing, and looking in the direction from whence it proceeded, I found it to be from the grave near our house. In a moment after, the mourner got up from a kneeling or lying posture, and, turning to the setting sun, he stretched forth his arms in prayer and supplication, with an intensity and earnestness as though he would detain the splendid luminary from running his course. With his body leaning forward, and his arms stretched towards the sun, he presented a most striking figure of sorrow and petition. It was solemnly awful. He seemed to me to be one of the ancients, come forth to teach me how to pray."

A venerable and worthy New England clergyman, on his death-bed, just before the close of his life, declared that he was only conscious of an awfully solemn and intense curiosity to know the great secret of Death and Eternity.

The excellent Dr. Nelson, of Missouri, was one who, while on earth, seemed to live another and higher life, in contemplation of Infinite Purity and Happiness. A friend of ours once related an incident concerning him, which made a deep impression upon our mind. They had been travelling through a summer's forenoon in the prairie, and had lay down to rest beneath a solitary tree. The Doctor lay for a long time, silently looking upward, through the openings of the boughs, into the still heavens, when he repeated the following lines, in a low tone, as if communing with himself, in view of the wonders he described:

"Oh, the joys that are there, mortal eye hath not seen!
Oh, the songs they sing there, with hosannas between!
Oh, the thrice-blessed song of the Lamb and of Moses!
Oh, brightness on brightness, the pearl-gate unclosed!
Oh, white wings of angels! Oh, fields white with roses!
Oh, white tents of Peace, where the rapt soul repose!
Oh, the waters so still, and the pastures so green!"

The brief hints afforded us by the sacred writings concerning the Better Land, are inspiring and beautiful. Eye hath not seen, nor the ear heard, neither hath it entered into the heart of man to conceive of the good in store for the righteous. Heaven is described as a quiet habitation—a rest remaining for the people of God. Tears shall be wiped away from all eyes; there shall be no more death, neither sorrow nor crying, neither shall there be any more pain. To how many death-beds have these words spoken peace! How many failing hearts have gathered strength from them to pass through the dark valley of shadows.

Yet we should not forget that "the kingdom of Heaven is within," that it is the state and affections of the soul; the answer of a good conscience; the sense of harmony with God; a condition of Time as well as of Eternity. What is really momentous and all-important with us is the Present, by which the Future is shaped and colored. A mere change of locality cannot alter the actual and intrinsic qualities of the soul. Guilt and Remorse would make the golden streets of Paradise intolerable as the burning marl of the infernal abodes, while Purity and Innocence would transform hell itself into Heaven. J. G. W.

Good Deeds.—How they brighten the checkered scenes of life! The military conquests of Napoleon will be forgotten, but the tear of woe that has been wiped away—the kind word that has been uttered—will be remembered forever. There is more glory attached to a good deed, than to ruling a nation consisting a world.—*D. C. Colesworthy.*

MEDICAL.

SEVERAL REASONS WHY DR. LEDY'S SARSAPARILLA BLOOD PILLS are becoming so universally popular

First, Because they are prepared by Dr N B Ledy himself, a regular Druggist, Chemist and Physician of Philadelphia, who knows the nature, the quality and character of the Medicines used in his pills and their adaptation to disease.

Second, Because the public can take them with greater confidence than most other pills which are prepared by persons ignorant both of medicine and diseases.

Third, Because of their combined effects, properties not contained in any other pills; namely, purging from the stomach and bowels all unhealthy substances, and at the same time purifying the blood and fluids of the body.

Fourth, Because they are the cheapest and best medicine known—a single box costing but 25 cents, and containing 40 pills, saving to persons as many dollars oft times in Doctor's bills, and numerous medicines bought & tried on the recommendation of others.

WHOLESOME ADVICE.

Whenever you have occasion to take any medicine, do not be trifling with your constitution by trying all kinds of pills or other medicines you see published and recommended by one and another but take at once

Dr. Leddy's Sarsaparilla Blood Pills

and you will not have occasion to take anything else. They will always be found good in stomach all worms of disease, inflammation of the stomach, bowels, liver and intestines; cramps of the stomach; colic, Waterbrash; inward fevers, foul breath, bad taste in the mouth, Sour eructations and acidity of the stomach, costiveness and indigestion, want of appetite, bilious affections, diseases of the spleen and kidneys, diseases of the skin, scaly eruptions dry and watery pimples or blotches of the face and body, letter, rash, prickly heat and salt rheum, headache, giddiness, leintness, pains over the heart, of the breast, sides, along the back and spine, rheumatism and gout, fevers of all kinds, small pox, carbuncles, measles, scrofula, erysipelas, and in short they are good in all diseases having their origin in the stomach, liver, and intestines, and impurity of the blood.

☞ Twenty-five cents a Box.

DR. JAYNE'S FAMILY MEDICINES—It is our principle in the management of this paper to follow anything which we find out, from personal investigation, to be of utility to the public. Some of Dr. Jayne's medicines we have used in our family for many years. For instance the EXPECTORANT, the CARMINATIVE, and VERMIFUGE, which we know to be good for the complaints they profess to cure. We were on Lake Ontario the past summer, when several of our traveling companions, from having, in Western New York, drank for many days, the limestone water of that region, were badly attacked with violent Diarrhea, and Dysentery. Mr. B. had provided himself, previous to leaving home, with "The Carminative of Dr Jayne," and in all cases of its use, among five gentlemen, it was successful in effecting a speedy cure.

The Expectorant we have known and among our intimate friends with equal success; and we feel that we shall do a good act to families (especially those situated so they cannot have access to immediate medical skill,) to advise them to keep on hand both the Expectorant and Carminative. The Expectorant is believed by good physicians to be the best remedy for Pulmonary Consumptive Complaints, that has ever yet been compounded. The reason is, Dr. Jayne is not a quack, but a regular, scientific, and able medical practitioner himself. His medicines are used by the best physicians.

ERAS HOLDEN,
Editor of the Phil. Saturday Courier.

For sale in Pittsburgh at the PEKIN TEA STORE, Fourth st. near Wood. sep29

DR. JAYNE'S CARMINATIVE—A WORD FROM the Rev ASA SHINN, a well known and popular Clergyman of the Protestant Methodist Church.

The undersigned having been afflicted during the past winter with a disease of the stomach, sometimes producing great pain in the stomach for one or two or more hours without intermission, and after having tried various remedies with little effect, was furnished with a bottle of Dr D Jayne's Carminative Balsam. This he used according to the directions, and found invariably that the medicine caused the pain to abate in three or four minutes, and in fifteen or twenty minutes every uneasy sensation was entirely quieted. The medicine was afterwards used whenever indications of the approach of pain were perceived, and the pain was thereby prevented. He continued to use the medicine every evening and sometimes in the morning, and in a few weeks health was so far restored, that the sufferer was relieved from a large amount of oppressive pain. From experience, therefore, he can confidently recommend Dr D Jayne's Carminative Balsam, as a salutary medicine for diseases of the stomach and bowels. ASHIN

For sale in Pittsburgh at the PEKIN TEA STORE 72 Fourth street, near Wood, and also at the Drug Store of F SCHWARTZ, Federal street, Allegheny

SCRUFULA AND SCROFULOUS SWELLINGS.—Scrofula in all its multiplied forms whether in the form of King's Evil, enlargements of the glands or bones, Goitre, Gitre, White Swellings, Chronic Rheumatism, Cancer, diseases of the Skin or Spine, or of Pulmonary Consumption, emanate from one and the same cause, which is a poisonous principle in the or less inherent in the human system. Therefore, unless this principle can be destroyed, no radical cure can be effected, but if the principle upon which the disease depends, is removed, a cure must of necessity follow, no matter under what form the disease should manifest itself. This, therefore is the reason why JAYNE'S ALTERATIVE is so universally successful in removing so many malignant diseases. It destroys the virus or principle from which those diseases have their origin, by entering into the circulation, and with the blood is conveyed to the minutest fibre, removing every particle of disease from the system. Prepared and sold at No. 8 South Third Street, Philadelphia.

Sold at the Pekin Tea Store, No. 72 Fourth st. Pittsburgh [mch31

SCRATCH, SCRATCH—TETTER, ITCH, SALT RHEUM, &c—Who would for a single day scratch, when afflicted with the Tetter, Itch, or other diseases of the skin, if they knew what would relieve and cure them.

This horrible to be obliged to rub and scratch when alone, but more horrible to obtain from a friend the relief sought. Misery in company is not misery, for relief is felt that DR. DEVINE'S TETTER and ITCH OINTMENT is the most efficacious of any other preparation in existence for curing the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and where skin disease is of long standing, and the constitution affected, thereby, if Dr. Leddy's Sarsaparilla Blood Pills be used with the Ointment, they will cure any case whatever, and if they do not, the money will be returned by Dr. Leddy. Most cases, however, will be effectually cured by Dr. Leddy's Tetter and Itch Ointment, unless the whole system is impregnated by the diseased humors, which will be completely purified and freed the system by Dr. Leddy's Blood Pills, and the surface of the skin healed by the Ointment. Price of Ointment 25 cents. For sale by B A FAHNESTOCK & CO

PULMONARY BALSAM—I, Messrs. Reed & Cutler—I feel it a duty I owe to my fellow creatures to state something more respecting your Vegetable Pulmonary Balsam. Since I first used the Balsam, about eleven years ago, the happy effects of which I then gave an account of, I have had several severe complaints and attacks at my lungs—one a few days since—and in every instance I have used the Balsam alone, with complete and perfect success. It has effected relief and cure in a very few days. It is certainly a safe medicine. I don't know that it will cure a fixed consumption, but I believe it will be in many cases a preventative, and prevention is better than cure. I do therefore, for the benefit of my fellow men, cheerfully recommend the use of this Balsam, in all pulmonary complaints. I am confident that it has been the means of preserving my life to this day.

MORGAN'S COUGH SYRUP—It proved to be the great Panacea in curing my child's distressing cough.

From the Temperance Banner, Nov. 3, '47.

COUGH SYRUP.—We are not in the habit of puffing much less taking Patent Medicines, but we feel disposed to recommend Morgan's Syrup to those who are afflicted with a cough. After having tried the usual remedies to remove a constant and distressing cough, that had for several days afflicted one of our children, without success, we were induced to try Morgan's Cough Syrup, and by its use was relieved in a few hours. It proved to be the panacea in this case at least.

Prepared wholesale and retail by the proprietor, JOHN D MORGAN, Druggist, wood st. 1 door below diamond sy.

SELLERS' VERMIFUGE, "I consider better than Bullocks."

Meyerville, Allegheny Co., Pa.,
October 20th, 1847.

Mr. R. E. Sellers—My son 8 months old has very rest less at night, and having much fever at times, I concluded he had worms, and having heard a great deal about your Vermifuge, I bought a vial and gave him 3 doses, which expelled 37 very large worms. I consider your Vermifuge better than all others.

MISCELLANEOUS

CHILD BIRTH.
DR. BORDELOQUE'S CELEBRATED REMEDY.

FOR relieving the pains and dangers incident to Pregnancy and Child Birth, which insures the easy and unprovided process of the functions of woman which Nature, when uninfluenced by the luxuries of civilized life, intended should be performed expeditiously, with little pain, and without subsequent indisposition.

Dr Bordeloque during his travels in Asia, observed this remarkable fact. That the women of those countries are peculiarly different from all other kinds, in this respect—that they are free from the pains and dangers which make the period of Pregnancy an object of so much anticipated suffering and risk. Curiosity and the zeal for Scientific discoveries prompted him to investigate the cause of this remarkable exception to the severe trials to which the married females are generally subjected, and the result was the discovery of the fact that the women of those countries were in the habit of using during the last stages of Pregnancy, certain plants which have the faculty of imparting that degree of tone and elasticity to the nerves and blood vessels of the Uterus, or Womb which enables it to perform its functions in all their native simplicity of action and freedom from pain.

It is a singular fact, also, that the Indian women of North America are in a remarkable degree free from those pains and dangers of pregnancy and child birth to which the white women are subjected—Whether they use the same plants as do the women of Asia we cannot tell. Certain it is that the fact is no less remarkable than true.

This Remedy is now extensively used throughout France with the most marked success and many females who were once single through apprehensions of the dangers consequent to the state of marriage are now by the use of this medicine, performing the duties of wives and mothers with comfort and happiness.

It is at this time now first presented to the women of America, by Dr Bordeloque, through his sole agent, Dr A C MORTIMER, and he feels confident that independent of its intrinsic merits it will recommend itself to the moral part of the community, as it is fully calculated to do away with that horrid crime of which some, through fear of pains of child birth, are guilty, (the production of premature delivery.)

This medicine is also remarkable for remedying that hitherto incurable disease, Barrenness, and its almost constant accompaniment Fluor Albus, a fact that relaxed and fallen state of the Womb which accompanies this disease is never left after the shortest use of this medicine.

This medicine is prepared in such a way as to be agreeable and pleasant to the taste.

Dr A C MORTIMER No 56 1-2 Lispenard st., New York, has been appointed the sole agent for the United States, by Dr Bordeloque, and is the only person in this country who is authorized to vend this invaluable medicine, as the following letter will show:

(Translated from the French.)

PARIS, June 10th, 1847.

Dr A C MORTIMER—Dear Sir—According to the agreement entered into between us, I wish by this letter to give you that territory which is all throughout the United States, (my Remedy for relieving the pains and dangers incident to pregnancy and child birth,) which it is necessary for you to have to satisfy the public of the truthfulness and properties of my Remedy. I have also given you the exclusive right to the sale of the Remedy in the United States, (my Remedy for relieving the pains and dangers incident to pregnancy and child birth,) which it is necessary for you to have to satisfy the public of the truthfulness and properties of my Remedy. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it, a specimen of the manner in which it is put up in Paris. In this manner I should wish it to appear in the United States. Sir, with great respect I remain yours, F E BORDELOQUE, M D.

P S—I also shall send you a copy of a letter received by me from the Royal Academy of Science, in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE—The commissioners of the Academy have appointed the undersigned from their number, as a committee to report regarding the merits of the remedy laid before us by you (for relieving the pains and dangers incident to pregnancy and child birth.) We have read the papers having submitted to the Academy the results of their experience in the use of your remedy, we hasten to lay it before you, believing it to be the best decision regarding its claim to distinction, and of no great value, that either you or the public could have wished. Whatever influence this body may possess on the members of the profession will exerted to further that adoption of this remedy so happy and use, which as a scientific discovery and an unfailing remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in producing a remarkable ease and easy delivery, free from pain and danger. With the Exception of three patients of Dr Briquet there was a perfect immunity from any subsequent weakness or disease; one of these three a laboring woman who had lost her child at a severe fall a week previous to delivery, was taken immediately after that event with a profuse hemorrhage, which was with difficulty arrested. The other two malformations of the pelvis, were in no wise injured of pain. These few exceptions in so great a number of cases as four hundred, show the undoubted efficacy of your remedy, and have determined us to give it our recommendation and approval, which is due to it, and the furtherance of scientific medicine. (Signed) M BRESCHET, M D.
L MAGENDIE, M D.

Com of the Commissioners of the R. Academy of Science.

The public are cautioned against purchasing this medicine from any persons except of the sole agent Dr A C MORTIMER, No 56 1-2 Lispenard st., New York, where this medicine is put up in packages suitable for being sent by mail to any part of the country.

Price Two dollars a package containing full directions.

Persons desirous of obtaining this Great remedy are secure at a distance, can do so by forwarding Two Dollars, post paid, to

DR A C MORTIMER, Sole Agent for the U S

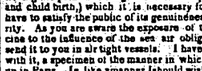
GAZZAM'S PATENT BEDSTEAD.



THIS *No Plus Ultra* improvement has now been in use about two years, and wherever it is known, is preferred to all other Bedsteads. For cheapness, strength and convenience it has not and cannot be equalled, as it is decidedly the best, cheapest and most convenient Bedstead in use, and perfectly proof against Bugs.

The principal Cabinet makers and Turners in Allegheny and Pittsburgh, have carefully thoroughly examined the plans and sell the article. As there are spurious articles and imperfect imitations in the market, purchasers would do well to examine the cast iron plates on which the genuine article the name of the patentee, E. P. GAZZAM, is invariably cast. As a proof of all that is claimed for Gazzam's Bedstead, the following certificate from Cabinet makers well known in Pittsburgh and the West, is submitted to the public:

We, the subscribers, Cabinet makers and Bedstead manufacturers of the cities of Pittsburgh and Allegheny, Pa., do hereby certify that we have bought the right to make and sell Gazzam's Bedsteads with Gazzam's Patent Fastenings, and consider the same *superior* to any fastenings with which we are acquainted.

MEDICAL.

DR. TOWNSEND'S
SARSAPARILLA.
Most extraordinary Medicine in the World.

This extract is put up in Quart bottles: it is six times cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickness or debilitating the patient.

GREAT SPRING AND SUMMER MEDICINE

The great beauty and superiority of this Sarsaparilla over all other Medicines is, whilst it Eradicates Disease it imparts strength, and by its use the sick become healthy, and a great variation to all kinds of food, and few weeks (if should need it) will enable the most delicate to take food on the stomach. I tried the usual remedies, but they and but little or no effect in removing the complaint. I was in a state of mind approaching to insanity, my nerves were in a tremble, and I could not sleep, I was in a state of despair, and hourly expecting to be deprived of my senses, I was induced to try Dr Townsend's Sarsaparilla, and in a few weeks was restored to perfect health, and I have enjoyed it ever since. Yours, &c., W. W. VAN ZANDT.

Nov 22, 1846. Sutton Island.

ALMOST A MIRACLE.

Read the following, and doubt if you can, that consumption cannot be cured, when all the world knows of the several hundred cases that Townsend's Sarsaparilla has cured:

Dr Townsend—Dear Sir. I was taken, a little over a year ago, with a severe cough and pain in my side. It increased on me very fast, indeed. I was pronounced by physicians to have the quick consumption. I raised large quantities of bad matter, and was given up by my friends and my doctor said he could do nothing for me. I went into the hospital in hopes of being benefited, but was pronounced there incurable. I was so weak that I could not walk a mile, nor could hardly breathe if I took because emaciated, and expected to die; was confined to my bed, and was obliged to be watched constantly. I cannot give you any description that would do justice to my case. I was supposed by my friends to be past recovery; I had taken a great number of remedies, and all seemed to be of no purpose. I read of some such extraordinary cures performed by medicine, and to tell you the truth, I suspected it was some humbug advertisement. But I was induced to try it, I did so, and am very thankful I did. I cannot say that I am entirely well, but am so far recovered as to be able to attend to my business, and hope to be entirely well in a few weeks. My cough and pain in the side, and night sweats have left me, and I raise but very little, and am fast gaining in my strength. I felt it a duty to give you a statement of my case, to publish if you please.

PETER BROWN, 47 Little st, Brooklyn.

Dr Townsend: To all whom this may concern—This is to certify that my wife used one bottle of your Sarsaparilla previous to her confinement, under the most alarming and delicate circumstances, being troubled with the dropsy, swelling of the feet, nervous affections, and very much debilitated; with my permission, and the recommendation of those who had used it, she was induced to try it, with little or no faith, and suffice it to say, the medicine proved to be happy and desired effect, not only in the hours of confinement, but after the expiration of one week of its use, the dropsy and nervous affections left her, and she was able to sit up, and her health is now better than it had been for a long time previous.

Use it this will be of any service to you or any one who doubts the success of the medicine, you are entirely welcome to it.

I subscribe myself your most obedient and obliged servant,
S SAMSON.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in the interest of the delicate invalids. No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventive to any of the numerous and terrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable in the change of life, preventing those dreadful diseases which are so fatal at this period. Nor is it less valuable in the change of life, preventing those dreadful diseases which are so fatal at this period. Nor is it calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all of the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural strength and vigor of the invalid, gives to the body power to resist the influence of disease, and is the best tonic for stimulating the system to produce a subsequent relaxation, which is the case of most medicines taken for female weakness and disease.

GIRLS READ THIS.

You who have pale complexions, dull eyes, blotches on the face, languid movements, and are "sick and good for nothing," a bottle or two of Dr Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and invigorate your whole system. Price 75 cents per bottle.

DYSPEPSIA.

No final or medicine has ever been discovered which so nearly resembles the gastric juice or pepsin in its digestive power as this preparation of Sarsaparilla.

Eleven years assiduous study devoted to the study and treatment of those complaints, (during which time he has had the most extensive practice and has cured more than can ever fall to the lot of any private practitioner) enably qualifies him to offer the sufferers the speedy, permanent and satisfactory relief they so ardently desire and seek, and all diseases arising therefrom.

Dr. Brown would inform those who have been in the habit of using Sarsaparilla, that it has been adulterated by time or aggravated by the use of any of the common nostrums of the day, that their complaints can be effectually and speedily cured, by having given his careful attention to the treatment of such cases, and succeeded in hundreds of instances in curing persons of inflammation of the kidneys, of the bladder, and kindred diseases, which had resulted from those cases where others have consigned them to hopeless despair. He particularly invites such sufferers to call and unsuccessfully treated by others in confidence that when every satisfaction will be given them and their cases treated in a careful, thoroughly and skillful manner, pointed out by long experience, study and investigation, which it is impossible for those engaged in general practice of medicine to give any one class of disease.

☞ Hernia or Rupture—Dr. Brown also invites persons afflicted with Hernia to call, as he has paticular attention this disease.

Skin Diseases also Piles, Palsy, etc., speedily cured

Dr. Sharpe's Office, Chicago

Patients of either sex living at a distance by stating their disease in writing, giving all the symptoms, can receive the same treatment as if present, by addressing T BROWN, M D. post paid and enclosing fee.

SHERMAN'S TOOTH PASTE.

THE best article known for cleaning and whitening the Teeth, strengthening the gums, sweetening the breath, &c. It should be used everyday by those who wish to keep their teeth in good order. It is a powder, and will last a family for a few weeks. My tooth and pain in the side, and night sweats have left me, and raise but very little, and am fast gaining in my strength. I felt it a duty to give you a statement of my case, to publish if you please.

PETER BROWN, 47 Little st, Brooklyn.

Opinion of Physicians.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

Albany, April 1, 1845.

This is to certify that we, the undersigned, practicing Thomsonian Physicians of the City of Albany have frequently prescribed Dr. Townsend's Compound Extract of Sarsaparilla, and from its known qualities, would recommend it to the public for mercurial, scrofulous, and other cutaneous diseases, in preference to any of the other celebrated remedies now in use.

Albany, April 9, 1845.

Prepared and sold by Dr. Townsend, No. 60 Hudson st., corner of Jay st., Albany, and by Dr. Townsend, No. 102 Fulton st, BETWEEN SPRUCE STREET, Building & Co State st Boston; Dr Dyott & Son, 132 North Second st Philadelphia; S S Hance, druggist, Baltimore; and by principal druggists generally throughout the United States, West Indies and the Canadas.

None genuine, unless put up in the large square bottles, with the name of Dr. Townsend's Sarsaparilla blown in the glass, signed by S P TOWNSEND, and his name blown on the Glass.

From the New York Daily Express of April 9, 1847.

A pretty well prepared article, is Dr. Townsend's, it was the advertising cab, or Sarsaparilla Express of Dr Townsend. The whole thing is got up in good taste; some of the ornamental lettering paintings are beautiful, which, together with the scroll work, is gold, glistening in the sun, made a show rarely equalled in Broadway. We take this opportunity to say we believe the virtues of the Sarsaparilla deserves the very great popularity it has acquired.

Nervous Debility.

Dr. Townsend:—I have been afflicted more or less for years, with a dreadful sinking in the chest, pain in the head, loss of appetite, pain in the limbs, and general debility, brought on no doubt by the continual heat and cold to which I am subject in my business as a driver. I have taken other medicines, too numerous to mention, but with little or no success. I was induced to try your Sarsaparilla, from what I found great relief. I have since taken several more bottles, and I can unhesitatingly say it is the best medicine I have ever taken. My pain is now almost gone, and I feel quite a different man altogether since I have taken your Sarsaparilla. I have now a better appetite than ever I had. My wife has taken it with the same beneficial results. I would recommend it as a family medicine generally, and I feel convinced that if so used there would not be half the sickness there is, and consequently not so many Doctor's bills, for while it restores appetite, it also gives to the stomach and bowels their regular tone; it keeps the blood in a healthy state, so that disease is not likely to attack the system. And to all those who are not in a healthy state, I say try Dr Townsend's Sarsaparilla.

WM. TEAGUE, 70 Allen st.

Cankers in the Mouth.

Below is an account of another child cured. Dr Townsend's Sarsaparilla has saved the lives of thousands of children—The following certificate is selected from a great number received this week:

NEW YORK, April 9, 1847.

Dr Townsend: Dear Sir—One of my children was very sick with the Cancer in the mouth and throat, attended with great debility. It became near dying. I obtained some of your excellent medicine, and it cured it directly, for which I can assure you I feel very grateful. Yours respectfully,

ELIZABETH FOWLER, 27 Dobroesse st.
