**Dr. Franklin and the South Carolina Planter.**

A friend relates to us that the summer before the war at the house of a hospitable South Carolina planter, he was up one morning with the sun and was about to venture forth on a morning walk, when he was checked by the planter at the door.

"You cannot pass, Sir. Too early."

"Too early! Why, my dear Colonel, what says Dr. Franklin?"

"Early to bed and early to rise will make a man healthy, and wealthy and wise."

"Very fine sir; but all a fallacy. Early rising and the inhalation upon an empty stomach of the morning malaria of this country, North and South, have been the death of thousands, sir, from the time of Captain John Smith to this day. Wait till after breakfast, fortify your stomach with a cup of hot coffee, and then, the noxious vapors of the night being exhaled by the sun, we will take a morning ride."

"But, my dear colonel, I am always fortified with a wine glass full of Hostetter's Celebrated Stomach Bitters."

"Ah, then, sir, you may stick to Dr. Franklin. Hostetter's agent at Charleston supplies me, and I am expecting a box to-day with my wagon. Those Bitters, I find, are a sure protective against all the fevers resulting from malaria. Dr. Franklin holds good, sir, even in the swamps of South Carolina, if fortified with Hostetter's Bitters."

**A Neat Reply.**

"I dislike your saying that my teeth are going. So don't," Said a young lady to her beau. "Not 'So don't,' but 'So-zo-dont' you should have said," he replied. The damsel pouted, but took the hint. Nor need it be said, that the balsamic preparation arrested the evil, though it could not quite repair the damage already done.

**American Union Commission Meeting.**

New York, Nov. 14.—An enthusiastic meeting was held at Cooper Institute, last evening, under the auspices of the American Union Commission, organized to aid in the restoration of the Union upon the basis of freedom, industry, education and christian morality. Senator Morgan presided, and addresses were delivered by Governor Parsons, of Alabama; Rev. Dr. Thompson, President of the Commission; Rev. Henry Ward Beecher, Major General Meade and others. Letters from Secretary Seward, General Grant and others, expressing their entire sympathy with the object of the Commission, were read.

## TOPICS OF THE DAY.

—The merchants of Philadelphia are complaining that the Southern trade is all going to New York, and they appear to be seriously discussing the feasibility of establishing lines of steamships to the principal ports of the South. A *preliminary* meeting was held last week at the Board of Trade Rooms, in Philadelphia, for the purpose of seriously considering this important subject, and a committee of the most active and energetic men that could be found, was appointed to see what could be done in the matter. Provided money enough is raised, it is certain, according to the newspapers, that a steamship line will be started southward at no distant day. Upon this condition of affairs, the *Press* delivers itself with an unction sincere and refreshing, to the effect that "this action of our merchants will be glad tidings to the business men of the Southern sea-port towns, who will at last feel that the hour is approaching when they will be relieved from an odious monopoly, and be given the facilities for selling their products which they have long desired, but never before had offered with any certainty of continuance." This is good, and must give rise to pleasing contemplations among the quiet and thrifty citizens of our beautiful sister city. The *Press* appears to regard the scheme as already accomplished, and gives us a pleasing glimpse of the good time coming. It says: "The Southern lines once established, others will be inaugurated, and before many years have elapsed we will find almost if not quite as many steamers leaving and arriving at our wharves as at New York." Well, we are sure that we ardently hope they will find as many steamers at their wharves in Philadelphia as there are in "New York." And generally we sincerely hope they may flourish as largely in Philadelphia as they do in "New York."

—The city Inspector's report of deaths in the city of New York, last week, is a very favorable exhibit of the health of that city, and is calculated to quiet any apprehensions concerning the spread of the cholera there. It appears from the report that there were only four hundred and eight deaths in that city last week. This is a decrease of nine over the previous week, and it is about one hundred less than the regular mortality of September, and a decrease of nearly two hundred on the average mortality of July and August. In one week in July last six hundred and sixty persons died. Not only were there no cases of cholera last week, but few deaths occurred from diseases of the bowels.

—The Mormon leaders are threatening rebellion, and proclaim that they will sustain polygamy by force of arms, and defy openly the authority of the Federal Government. The Hon. Schuyler Colfax, in a recent letter said he was at a loss how to deal with the evil of Mormonism. He spoke of United States officials in the territory of the Mormons who had several wives, and said it should not be his fault if those officials were not discharged.

—The London *Times*, speaking of the cattle plague says:

"At length we have got some statistics of the cattle plague, and a ghastly look they wear. Upwards of fourteen thousand animals are known to have been attacked by the plague since its first appearance, and of these nearly twelve thousand have died. To be sure more than five thousand of these victims were killed to save curing, but they swell the total loss of stock. As to the recoveries, there are registered just seven hundred and seven, which would be five per cent. on the whole attacks; but then the proportion can, of course, only be measured by the number of cases in which cure was attempted. The metropolitan district appears to have suffered most, as might naturally be expected, though perhaps the tale is swelled in this case by the greater completeness of the reports."

—Another violation of neutrality by the English authorities is reported in Maine. They are attempting the forcible arrest of deserters, on United States soil. Such an act was never thought of by our government, during the late war, when deserters were living unmolested in Canada.

**The Constitutional Amendment.**

The amendment abolishing slavery in the United States has been ratified by the following States, at the time indicated by the annexed dates:

| | |
|---|---|
| Illinois, Feb. 1, 1865. | Virginia, Feb. 9. |
| Rhode Island, Feb. 2. | Indiana, Feb. 13. |
| Maryland, Feb. 2. | Nevada, Feb. 16. |
| Massachusetts, Feb. 3. | Louisiana, Feb. 17. |
| Pennsylvania, Feb. 3. | Missouri, Feb. 24. |
| West Virginia, Feb. 3. | Wisconsin, Feb. 22. |
| Michigan, Feb. 2. | Vermont, March 9. |
| Maine, Feb. 7. | Tennessee, April 5. |
| Ohio, Feb. 8. | Arkansas, April —. |
| Kansas, Feb. 8. | Connecticut, May 4. |
| Minnesota, Feb. 8. | Iowa, June 30. |
| New York, Feb. 3. | N. Hampshire, June 30. |

It has been rejected by the following States:

| | |
|---|---|
| Delaware, Feb. 8. | New Jersey, March 1. |
| Kentucky, Feb. 22. | |

Twenty-seven States are necessary to the ratification of the amendment. Twenty-four States have already done their part of the work, as appears from the above. The late election in New Jersey makes the number twenty-five. The Legislatures of California and Oregon are largely Republican in sentiment. Their Legislatures will meet next January, and their vote may be set down as certain for the amendment, making the constitutional number of twenty-seven. Colorado, which will be admitted early in the winter, will make twenty-eight. We can wait for Kentucky and Delaware.

**Message of the Governor of Indiana.**

Indianapolis, Nov. 14.—The Governor's message delivered to the Legislature to-day, pertains mostly to State affairs. He recommends prompt provision for the public debt, the establishment of a home for disabled Indiana soldiers and seamen; a bureau of Emigration, separate schools for colored children, and repeal of the statute excluding negroes from the State.

He advises that the heresy of State sovereignty, although it has been extirpated, and the questions involved, settled by the arbitrament of arms, be also adjudicated and determined by the highest judicial tribunal, in the trial of Davis for treason and other atrocious crimes. He approves the President's reconstruction policy. He does not consider negro suffrage in their condition a precedent, and advocates the representation according to the number of voters, and recommends the adoption of such an amendment if it passes Congress.

**From Kansas—Indian Affairs—Proposed Railroad.**

Lawrence, Kansas, Nov. 14.—Col. Graves, Special Indian Agent, and Colonel Dodd, Agent of the Navajoes, left here to-day with a train of twenty-five wagons, loaded with agricultural implements, annuity goods and presents for that tribe. About eight thousand of the Navajoes have agreed to settle on Pecos River, and abandon their wild life.

A large railroad meeting took place last night at Leavenworth, at which Senator Lane made a speech. They passed resolutions in favor of building the Leavenworth, Lawrence and Galveston Railroad, and the immediate construction of a railroad bridge across Kansas river at this point.

**From Mexico.**

New York, Nov. 14.—The *Tribune's* correspondent at El Paso, under date of October 13th, says: The Government of President Juarez is strengthening every day by the addition of the population that inhabit the surrounding villages, who seem disposed to assist him in every way they can, and by giving regular organization to the various branches of his administration. The probabilities are that he will remain at El Paso for some time.

Marshal Bazain, desirous to avoid complications with your Government, has given express orders to officers under his command not to let any detachment of French troops approach the Rio Grande, for fear of a collision between the American and French soldiers.

**Editor of the Philadelphia Ledger Dead.**

Philadelphia, Nov. 14.—Washington L. Lane, editor of the *Ledger*, died this morning. He commenced his connection with the *Ledger* as reporter twenty-eight years since, during which period he earned an enviable reputation for his constant attention to the interests of that journal.

**Dr. Tyng's Church Burnt.**

New York, Nov. 14.—Rev. Dr. Tyng's church was destroyed by fire this afternoon; corner of Sixteenth street and Stuyvesant place. The loss is $300,000, on which there is $70,000 insurance. Only the walls and tower are standing. The residences of Mr. Ball and Dr. Drake, on Rutherford place were badly damaged by the fire and water.

**Gold.**

New York, Nov. 14.—Gold closed at 147@147½.

### BRITISH DESERTERS IN MAINE.

Probable Fenian Invasion of Canada.

New York, November 14.—The Hartford *Courant* of yesterday says it has been informed semi-officially that a company of marines from Canada had crossed into Maine, for the purpose of arresting deserters. The men refused to return with the officer, and an application was made to the United States authorities to have them given up, which was refused, and there was danger of an outbreak, and Hancock's Corps was ordered to rendezvous in Maine. A company attached to Hancock's Corps in Bath City left for Augusta, Maine, on Sunday evening.

The Hartford *Post* says a company left the city on Sunday for Augusta; it is rumored, either to prevent the Fenians invading Canada, or to prevent British soldiers capturing deserters from that army who have fled to the United States.

## SUICIDE OF HON. PRESTON KING

He Drowns Himself in New York Harbor.

CAUSE, ABERRATION OF MIND.

*His Body Not Yet Recovered.*

New York, Nov. 14.—The rumor that Mr. King had resigned, is entirely untrue. Mr. King for a week past has been laboring under an attack of nervous debility. Yesterday he left his room at the Astor House. Since that time nothing has been heard or seen of him.

This morning, Moses J. Odell, a naval officer, telegraphed President Johnson to ascertain if Mr. King was at Washington. He received the reply that he was not there. Telegrams have been sent in various directions, but no clue to his whereabouts has been obtained.

Later.—Preston King jumped overboard from the Hoboken ferry boat, while in a state of temporary aberration of mind, and was drowned. The body was not recovered.

SECOND DISPATCH.

New York, Nov. 14.—Thurlow Weed states that Mr. King was seen to jump off the ferry boat, yesterday morning, by a little boy and girl on deck. They picked up his hat, which has been handed to Mr. Weed and recognized by him. There are no traces of the body as yet.

A little boy and girl saw a gentleman answering to the description of Mr. Preston King, jump overboard from one of the Hoboken ferry boats, on Monday morning. They have been sent for, and from them further particulars may be learned. The hat brought over to this city was recognized by Thurlow Weed to be Mr. King's.

Mr. King said to a very intimate friend on Sunday night that he would never see him again. Knowing that Mr. King had been for some time laboring under depression of spirits, he took but little notice of the matter. His health has been poor for some time, and latterly he had shown indications of softening of the brain. He had only returned to the city last Saturday, from a visit to his home in Lawrence county.

On Monday morning he arose, dressed himself, and said to a relative who slept in the same room with him that he wished to take a walk and preferred going alone. At about eight o'clock he went up town, returning from Christopher street. It was reported yesterday a man jumped overboard.

Four of Mr. King's friends visited the boat to-day, and found that a gentleman answering the description of Mr. King, had entered the boat yesterday, about nine o'clock, and said that he remained on the stern of the boat, and when about midway in the stream, he was seen by two children, the only passengers on that end of the boat, to take off his hat and leap overboard. The alarm was given, and the boat stopped, but the body was not seen by any one on board.

As the tide was falling at the time, probably the body was washed out to sea. The men employed on the boat saw a man answering the description of Mr. King get on board of the boat.

Mr. King has been much perplexed ever since his appointment, over the affairs of the Custom House, which weighed heavily on his mind, and undoubtedly culminated in his death.

Those most with him had frequently noticed his failing health. He had been attended by a companion, who occupied a room with him at the Astor House, and watched his movements.

Mr. King was a batchelor.

### SOUTH CAROLINA LEGISLATURE.

President's Message and Department Reports.

RUMORS OF A PEACE PROCLAMATION.

NEW CONSTITUTION OF GEORGIA.

New York, November 14.—The *Herald's* Columbia correspondent of the 7th states that the resolutions reported from the committee of Federal relations to the Legislature to the effect that South Carolina, having fully complied with the requirements of the amnesty proclamation of President Johnson, and having emancipated the slaves, is entitled to the benefits of said amnesty, they acknowledging themselves as a conquered people, and accepting the terms offered them. They ask the withdrawal of the military rule, to which they say the faith of the government stands pledged. They have, with honest purpose and entire loyalty of heart, given solemn pledges to henceforth seek their welfare in the Union.

The resolutions were not acted on that day in consequence of the receipt of a message from Gov. Perry, relative to the question of adopting the Constitutional Amendment abolishing slavery, in closing dispatches from the President and Mr. Seward, the substance of which has been already published. The resolutions would probably be adopted unanimously.

The *Post's* Washington special dispatch says: The President is preparing his message, rising at five o'clock in the morning for that purpose. The heads of the departments are finishing their annual reports.

No official notification of the adoption of the constitutional amendment by the South Carolina Legislature has been received by the President.

The *Commercial's* Washington special says: The Secretary of the Treasury in the forthcoming report will simply show how a portion of the public debt may be funded, and asking general authority to do so at such rate of interest as may seem expedient to him.

Additional rumors are current of a Presidential proclamation of peace and restoration of the Southern States to the Union.

The *Herald's* Milledgeville special says: The new Constitution of Georgia, constructed by the State Convention, was adopted as a whole, on the 6th inst. As adopted, the State debt contracted to aid the rebellion, was not repudiated; but as the result of the recent plain expression of President Johnson on this subject, the repudiation ordinance was adopted on the following day.

The *Herald's* Washington special says: Mr. Seward had a long interview with the President to-day, which gave rise to the report that the British government had made some formal demand on ours in relation to the Fenian movement.

**From Nashville—Dick McCann Case—Stringent Measures for the Protection of Freedmen—Resolution in Senate Against Rebel Leaders.**

Nashville, Nov. 14.—Judge Trigg yesterday decided against granting a writ of habeas corpus in the case of Dick McCann.

Citizens of Tullahoma who were actors in the destruction of the Freedmen's school house some time since, were ordered by Major General Thomas, to rebuild the same. A compliance to the order being refused, General Thomas sent a detachment of soldiers with directions to enforce the order and put every citizen under guard until the requirements of the order were complied with.

The trial of Col. Crane, commenced at the Court Martial Rooms on yesterday.

Mr. Trimble offered a resolution in the Senate against the Confederate leaders, closing his resolution with these words: "That for their bad eminence and great crimes against their fellow men and the United States, Jefferson Davis and his accomplices have justly forfeited their lives, and deserve and ought to suffer the extreme penalty of the law."

But little was done in cotton to-day, and quotations are nominal, the prices ranging from thirty-eight to forty cents. Only twenty-five bales were shipped, and one hundred and eight received.

The Cumberland river is rising slowly with thirty-two inches on the shoals. A heavy rain fell last night and to-day.

**Reception of Colored Troops at Harrisburg.**

Harrisburg, Nov. 14.—A grand reception was given to the colored troops, to-day. They made a parade, and halting before the residence of Gen. Cameron, listened to his address, thanking them for their services in crushing the rebellion. The procession marched to the Capitol grounds, where the Rev. Mr. Day, of New York, delivered an oration, in which he discussed the attitude of the colored men before and during the war, and the prospect laid before them of personal improvement and social elevation and acquirement of political rights and equality among the governed as well as those who govern. A grand ball, this evening, closed the celebration.

**Hospital Grounds at Sandy Hook.**

New York, Nov. 14.—The *Post* says: The surgeons who visited Sandy Hook have reported to the Government that two hundred and fifty acres of ground can be used for a hospital. It is understood, however, that in consequence of the opposition of the New Jersey authorities, no other than a military hospital will be established at the mouth of this harbor. Such a movement must, however, benefit the city, as it would be necessary to detain all cholera patients to protect the health of the troops in the fortifications.

## NEGRO SUFFRAGE IN WASHINGTON.

Gen. Logan Appointed Mexican Minister.

Washington, Nov. 14.—The board of Common Council have passed a resolution, nearly unanimously, that in the event of any bill being introduced in Congress for the admission of the colored men of Washington to the right of suffrage, the Mayor be authorized and directed to call the Councils together for the purpose of taking into consideration measures for holding a special election to ascertain the sentiments of the people on the subject. The Aldermen have not acted on the resolution.

The President to-day appointed Gen. John A. Logan, of Illinois, Minister, and Wm. A. Browning, Esq., of Tennessee, Secretary of Legation, to the Republic of Mexico. Gen. Logan is known as a strong and earnest friend of the Liberal cause in that country. Col. Browning has been the Private Secretary of President Johnson, and is succeeded by Col. Robert Johnson, son of the President, in that office.

The intelligence of the death of Preston King occasioned much regret in official circles.

It has been stated that Preston King recently resigned his position as Collector of New York. The Government, however, has received no letter from him to that effect.

Gov. Hamilton, of Texas, writes to the President that he expects to call a State Convention in December.

**Destructive Fire in Maine.**

Portland, Me., Nov. 14.—A fire this morning destroyed all the business portion of West Buxton. The buildings burned are woolen, grist, and wool carding mills, sash and blind factory, store, postoffice, millinery shop and the bridge over the Saco river. The loss is not ascertained.

**Rumors of Troubles on the Canadian Frontier Not Confirmed.**

Washington, 14.—Inquiry has been made respecting the rumor of trouble of a serious character on the Canadian border, but it does not seem that any verification of the report has yet reached the War Department.

**Naval Vessels to Prepare for Service.**

Boston, Nov. 14.—The Portsmouth *Chronicle* learns that orders have been received to prepare the immense iron clad Passaconomay, now lying on the stocks in the Portsmouth Navy Yard, for sea as soon as possible. Also, the steamers Minnesota, Maratanga and Galena are to be fitted for sea at once.
