THE TRIAL OF JEFF. DAVIS.

The Washington correspondent of the Philadelphia *Press* says that the best present received opinion is to the effect that Davis will be brought before a military commission that will sit in one of the forts, probably Fort Monroe. The public sentiment on this subject must be respected. There is no blood-thirsty spirit that the loyal people delight in; that an example should be made of the arrogant traitor who has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary traitors of history. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They pu ge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and obstinate diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of unquestioned position and character, attested by the testimony of untruth. Many eminent clergymen and physicians have lent their names to certify to the efficacy and the reliability of our remedies, while others have sent us the assurance of their convictions that, our preparations contribute immensely to the relief of one of humanity's most afflicted fellow men.

The Agents named below are pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Mouth Mouldiness, Foul Breath, Loss of Appetite, all diseases which require an evacuant medicine. They also, by purifying the blood and invigorating the system cure many complaints which it would not be suspected they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Dizzy's, Gouts, and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations, that they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & CO., Lowell, Mass. and sold by R. S. RHINESTOCK, 59 Fifth st., and by all Druggists. no10:2moodhw w

VARIOUS ITEMS.

HOW TO APPRECIATE WIVES.—A gentleman residing in Syracuse exceedingly surprised on once entering the house of a leading priest, to find him engaged in washing the linen of the household; and on inquiring the reason of such an apparently unclerical occupation, the reverend pape replied: "I do this to save my wife labor, that she may live the longer; for you know, oh Kyrie, that the law of our Church does not permit me to have another, and I wish to keep this as long as I can." Some of our fair countrywomen may think that a similar statute elsewhere, embracing the laity as well as clergy, would do good.

DISAFFECTIONS exist everywhere in Spain. A Madrid letter says the train cams in from Toledo laden with soldiers, bawling out for a Republic. The officers indulged in open ribaldries upon royalty, and the people are buying up whistles, so that none remain in the shops. These purchases are made in view of a general sibilation in honor of the Queen's prudence in choleratic matters; and such is the greeting which is preparing for her gracious Majesty whenever she shall make bold to appear in the Prado.

THE temporary vault designed to receive the remains of President Lincoln, at Oak Ridge Cemetery, Springfield, will be completed shortly. It is located on the summit of the hill immediately in the rear of the receiving-vault of the cemetery, and in a few days the casket containing the remains of Mr. Lincoln will be transferred to it, there to remain until the national monument shall be ready to receive the precious dust.

MASS MEETING OF WORKINGMEN IN NEW YORK.—The mechanics and workingmen of New York city are to hold a grand mass meeting in favor of the eight hour system, at the Cooper Institute, on Wednesday evening next. There is to be an imposing procession, display of fire works and speeches by the Rev. H. Ward Beecher, Judge Daly, Hon. Jos. T. Brady and others. Delegations have been invited to attend from various other cities.

The rebel General Wade, of Mississippi, was killed at Columbus, Mississippi, on the 2d inst, in a street fight with a soldier. The soldier was wounded, and the General received two balls and a cut from a bowie knife. He was taken to the hospital, and while going on a cot, with a guard around him, the assailants again attacked him and bayoneted him to death.

THE Canadians have watched so long in fear and trembling for the Fenian invasion, that, fancying the Fenians have not come, they are plucking up courage and attending more to home affairs. Trade is codsequently reviving. The people are also displaying a fine martial spirit, under the conviction that the Head Centre in New York will not come near them to test it.

ANOTHER British fen ale author is dead. Lady Theresa Lewis, the widow of that scholarly statesman, the late Sir Geo. Cornewall Lewis, has lately died. She edited Mrs Berry's Diary, wrote the little novel, "The Semi-detached House," which has been republished here, and was a leader in fashionable and educated society.

THE military force in Kentucky is dwindling away. The Lexington *Observer and Reporter* of this week says: "At present there are but three regiments of troops in this department, the 52d United States Infantry, (white,) and the 119th and 125th (colored) Infantry.

MONTGOMERY, Ala., November 29.—Governor Patton was to-day elected United States Senator for the long term; without opposition. General George S. Houston was elected for the short term, on the fifth ballot, beating Colonel Forsyth, of Mobile, by one vote.

A RESOLUTION has been introduced in the Missouri Legislature, declaring that Jefferson Davis is guilty of the highest crime known to American law, and is not a fit subject for clemency. A motion to reject the resolution was lost by a vote of 17 to 91.

France, Great Britain, and the United States Called Upon to Bring Spain to Her Senses.

The interests of every kingdom in Europe, as well as of every republic in America, demands that the complaints which Spain has made against Chili should be repudiated, and that her action towards it should be authoritativ ely rebuked. We have, indeed, some material interests in the prosperity of Chili, for we have ever been on terms of amity and mutual intercourse to the advantage of both; but there interests are as nothing compared with the principles of law and justice involved in the contest. Occupying as and ourselves, who have so lately been merciless, and the United States, which looks forward to resuming that attitude of neutrality which was so long their peculiar inheritance, cannot suffer that the rights of neutral nations should be obscured and trampled on. In the face of these dangers it is time to have done with the miserable selfishness of an absolute non-interference. If there be any law, if there be any respect for the weak, if there be any police to keep justice among nations, this is a case for their exercise. A joint remonstrance of the great Powers cannot fail to recall the Spanish government to the consideration of legal principles which it seems to have forgotten, to the reparation of wrongs which it has too hastily authorised.—*London Times, Nov. 18.*

THE BENIANS AND THEIR "HEAD-CENTRE."—The investigation into the charge of treason against James Stephens and the three other prisoners arrested with him, was concluded on the 15th inst., by the committal of the prisoners for trial. On the magistrate giving the usual caution, and asking Stephens whether he had anything to say as to the charge, Stephens said: "I feel bound to say, with a view to my own reputation, that I have employed no attorney or lawyer in this case, and that I intend to employ none, because in making a plea or defence of any kind I should be recognizing British law in Ireland. Now, I deliberately deny the existence of that law in Ireland, its rights or even its existence. I repudiate the right of its existence in Ireland, and defy any punishment that can be inflicted on me. I have spoken."

It was stated that piles of documents, revealing all the secrets of the organization, were found in Stephens' residence, and that Fenianism was an open book, at least to the administrators of the law.

LEE AND THE VIRGINIA GUNS.—General Lee writes to a gentleman in this city in reference to the recent rumor that he had requested permission of the government to retain certain pieces of artillery at Lexington for the use of his students: "I have nothing to do with the "Military Institute here; did not know there "were any guns here; have no use for any "guns, and never made an application for "them."—*N. Y. World.*

Use that delightful preparation, the extract of many flowers and herbs—that great restorer of hair, color and beauty. It makes the hair grow if the roots are not entirely lost. It will restore the color. It will make the hair curl. It will keep the hair in place. It will add luxuriance of hair and beauty to all. It is the greatest dressing ever offered to the public. Its popularity on this continent exceeds any other since the introduction of it here We are daily receiving unsolicited testimonials of its virtues. It only requires a trial to insure its permanent reception in every family. Being entirely free from sulphur or metallic poisons, renders it peculiarly adapted for the nursery.
