MISCELLANY.

CONSUMPTION.—Sir James Clark, physician to the queen, enumerates, as the exciting causes of consumption, "long confinement in close, ill-ventilated rooms—whether nurseries, school-rooms, or manufactories." He also says: "If an infant, born in perfect health, and of the healthiest parents, be kept in close rooms, in which free ventilation and cleanliness are neglected, a few months will often suffice to induce tuberculous cachexia"—the beginning of consumption. Persons engaged in confined close rooms; or workshops, are the chief sufferers from consumption: thus, of the two hundred and thirty-three tailors who died in one district in London, in 1839, one hundred and twenty-three died of diseases of the lungs, of whom ninety-two died of consumption. Of fifty-two milliners, dying in the same year, thirty-three died from diseases of the lungs, of whom twenty-eight died from consumption. Dr. Guy reports, that, in a close printers' room, he found seventeen men at work, of whom three had spitting of blood, two had affections of the lungs, and five had constant and severe colds. After reading these sad facts, who can deny that the chief cause of consumption is the respiration of bad air!—*Ventilation Illustrated.*

WHAT THE WORLD WANTS.—We want self-governing men, for they only can do that work, without which the earth must continue to groan in bondage. Political institutions and literary institutions are of no avail.—Standing armies are straw, when arrayed against the excited passions of a free people. The Republics of South America have been fields of blood, scenes of anarchy and despotism—a burlesque upon the name of Republics; and the reason is, they have no religion there. The brute force of arms cannot now hold men—they must govern themselves till they fear God and keep his commandments. We cannot save civil liberty even—to say nothing of giving the gospel to every creature under heaven—without men—men of strong minds, and a mind prayer, devoted to God and to the salvation of men from their infancy. We need whole generations of missionaries who shall rise up clothed with salvation, and pour the stream of mercy, which flows from the throne of God, over all the earth.

BREAD is selling in England at lower prices than ever has been known; the best bread is 5½d per quarter loaf.

As sinful beings we implore his forgiveness. As needy creatures we ask his help. And as the happy recipients of his favors, we return thanks and adore, and reverence his majesty."

MEDICAL.

ASTHMA, OR DIFFICULTY OF BREATHING.—A This disease is caused by a paroxysmal constriction of the air cells in every debilitating and shortening suffocation. DR. SWEETSER'S PANACEA is the only certain cure.

Hoarseness can be entirely cared by a free use of Dr. Sweetser's Panacea.

Catarrh, or common cold, which, if neglected, will terminate in Consumption, is effectually relieved and cured by Dr. Sweetser's Panacea.

Bronchitis, if unchecked, will effectually lead to Bronchial Consumption; but a timely use of Dr. Sweetser's Panacea will effectually cure it.

Inflammation of the Tonsils or Sore Throat.—This disease often leads to serious consequences from neglect, such as ulceration of the throat. On the first symptoms, Dr. Sweetser's Panacea should be procured and used freely.

Coughs and Colds find a sovereign remedy in Dr. Sweetser's Panacea.

Pneumonia Nervosa.—A very fatal disease, resulting from a violent cough and cold on a debilitated or broken down constitution; aged persons are subject to it.—Dr. Sweetser's Panacea should be used on the first symptoms, which are a cough or cold.

Night Sweats.—This debilitating complaint will meet with a timely check by using Dr. Sweetser's Panacea.

Consumption.—If on the first appearance of consumptive symptoms, which are a pain in the side and breast, cough or spitting of blood, if Dr. Sweetser's Panacea is freely used, no danger need be apprehended.

Bronchial Lungs, Bronchial Tubes, or Bronchial Tubes become clogged up with phlegm or mucus, impede respiration or breathing, Dr. Sweetser's Panacea, which is a sure Expectorant, should be taken according to the directions.

Influenza.—This distressing epidemic, so prevalent in our climate, is speedily cured by Dr. Sweetser's Panacea.

Price $1 per bottle, or six bottles for $5.

Scratch! Scratch!!

TETTER, TETTER, TETTER!!!—Who would for a single day scratch, when afflicted with the Tetter, Itch, or other diseases of the skin, if they knew what would relieve and cure them.

The terrible to be obliged to rub and scratch when alone, but more horrible to abstain from it, for decency sake, when in company! Yet it is to be remembered that Dr. LEDDY'S TETTER AND ITCH OINTMENT is the most efficacious of any other preparation in existence in curing the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and where such diseases be of long standing, and the constitution affected thereby, if Dr. Leddy's Sarsaparilla Blood Pills be used with the ointment, they will cure any case whatever, and if they do not, the money will be returned by Dr. Leddy. Most cases, however, will be effectually cured by Dr. Leddy's Tetter and Itch ointment, unless the whole system is impregnated by the diseased humors which will be completely carried off from the system by Dr. Leddy's blood pills, and the surface of the skin healed by the ointment. Price of ointment 25 cents.

B A. FAHNESTOCK'S Pectoral or Cough Balsam, has a great advantage over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But its value as a medicine consists in the opinions of those who have known some of the most desperate coughs, some of which had been running on for a considerable length of time, and were considered incurable, yet they
