NEW WELL.—Phillips & Boyles well No. 3, on their lease, J. S. McCray farm, was completed and commenced testing Monday evening, pumping oil at the rate of 15 to 26 barrels per day. Yesterday morning the well was torpedoed and at noon was pumping at the rate of 40 barrels. Last night she had increased to 60 barrels, and at noon to-day was yielding a good one hundred barrels per day with prospects of a still further increase. The well has 42 feet of third sand-rock. Like all the big wells on the McCray farm, this well has a strong volume of gas. It will probably be one of the best wells on the hill.

The drought is quite severe in this section, and nothing but dust prevails. Oil Creek is very low. Water wells are beginning to dry up, and difficulty is experienced in some instances in getting sufficient water to run the engines at the oil wells.—Everybody is hoping and praying for rain, and the "clerk of the weather" can't send it a moment too soon.

The game between the Oil Stockings of Franklin and the Rynd Farm Club, was played on the grounds of the former, at Franklin, yesterday, and resulted in the defeat of the Oil Stockings, the score standing 45 to 36.

Messrs. Samuel Woods, Edward Fox and others of our citizens left town last night on a pleasure trip to Lake Superior, and intend to be absent two or three weeks. Undoubtedly they will have a pleasant time, as we hope they may.

The Titusville Herald had the misfortune to "spl" one of their forms this morning.—We sympathise with our neighbor in their misfortune, as we've been there.

A correspondent of the Missouri Republican strongly maintains the existence of an open polar sea. We quote a characteristic paragraph: Midshipman Griffin, commanding the Rescue, in search of Sir John Franklin, saw in Baffin's Bay a huge iceberg, tearing its way through the heavy surface ice with the noise of a thousand cannons, passing, as he graphically describes it, "like a shot." This berg was going to the north. To understand this phenomena of a field of dense surface ice, eight to ten feet thick, going south, and an immense mountain of ice rushing north, can only be explained on the theory of an under and counter current. The "berg hundreds of feet under the surface and plunging down to the lower and swifter current, was necessarily forced along against all obstacles.—This warm current river found in the sounings of the polar regions below twenty-eight degrees, (under the freezing point of salt water) rises to the surface at the pole and produce the "water sky" seen by Parry and Kane. The latter indeed reports an open sea north of 82°. Leaving their ice bound ship the doctor and his party traveled over the ice under incredible hardships and at length reached an open sea. Its waves were dashing on the icy shore with the sound of a mighty ocean. Here was indeed a sight to gladden the heart after so many fatigues and dangers. Ah! if he only had his good ship to spread her sails on this long sought sea! The tide swelled and rolled and seals and water fowl were feeding and sporting on its waters. They measured the temperature of the water and found it only thirty-six degrees. An unbroken solitude seemed to stretch away to the mysterious pole, nor sight nor sound nor sign of human being met eye or ear. It was on that primal day when the voice of God called the "many waters into one place." After feasting their eyes on the long sought sea, and bathing hands and face in its clear blue wafers, the party returned to their ice bound ships, having seen what few have seen or may ever see—an open sea at the north pole.

Challenge Accepted.

Rynd Farm, Sept. 19, 1870.

To G. W. Overholt, Secretary C. B. B. C:

We have noticed in the Oil City Times a challenge from your club to play us a match game for $150 a side on the Seneca's grounds at Oil City, on Saturday, the 24th inst. We will accept your challenge to play you for $150 a side, and open upon day of game of $300 a side, if you wish it; but we cannot play you on Saturday, the 24; for this reason: we play the Oil Stockings, of Franklin, a match game on the 20th and one on the 23d. Therefore the club has authorized me to state that we cannot play you on the 24th, but we will play you on Tuesday, the 27th inst., if you mean business. I hope the change of date will not interfere with the game. There will be a representative of the club at Columbia on the 21st inst., to put up the $50 forfeit money.

A. R. Black,
Secretary P. B. B. C.

The fact is doubtless impressed upon the minds of all the children both large and small in our town and suburbs that to-morrow Yankee Robinson's Circus and Menagerie is to be here. We have known folks to forget the day of the week, the hour o Church and Sabbath School, the Prayer meeting night, the date of their birth, but have yet to meet the person with memory so fickle as to err regarding the arrival of a circus. The entree is free, therefore religious scrupules can be thrown aside and all attend.

A freight train with three car loads of the "heathen Chinese" went through Erie city, bound eastward yesterday morning. The depot loungers piously wished they could furnish material for a first-class railroad accident. The people are not very enthusiastic on the subject of Chinese emigration.—Erie Dispatch.

A rather bashful young man after a long and arduous courtship, found himself one bright evening the betrothed of a pretty girl, the very pink of modesty. He was about to take his departure, and, after lingering about the door for some time, he declared and protested to Miss Sallie that he couldn't and wouldn't leave until she had kissed him! Of course Miss Sallie blushed beautifully red, and vowed in return that she could not and would not do that—she never had done such a thing, and never would until she was married. The altercation became exciting, until the gentleman got huffed, and declared if he couldn't kiss he wouldn't have her, and was marching off. She watched him to the door, and seeing he was in earnest, and that she would lose him unless something was done, she coaxingly said, "Come back then; I'll split the difference with you. You may squeeze my hand."

Enumerating a few of the articles to be found at

L. M. STERNBURG'S

Lumber Yard

Washington-St., Petroleum Centre, Pa.

Friends and patrons, one and all,
Your attention to my "biz" I would call;
Times are dull as money tight,
But in these times I'm looking for light;

To those who are building rigs without number,
I would inform—this is the place to buy Lumber;

My motto is this: "Quick Sales and Small Profit,"
For business is healthy and I think much of it

In quality my Lumber is second to none,
And as for Shingles, I keep No. 1;

Some may not look at it in the light I do,
And for those I have a quality No. 2;

And to those who are particular—as some may be,
I still have another quality called No

I have good seasoned Lumber, Dressed up nice,
Which I will sell at a low cash price;
Such as Flooring, Ceiling and Siding, both Rough and Dressed,
Lath, Battens and Surfaced Lumber, all of the best;

I also have Big Lumber of all kinds,
At prices to compare with oil and hard times;

All kinds of Timber kept constantly on hand,
And a box of Cigars of a very good brand;

My facilities for selling are surely without number
I always keep good teams to deliver good Lumber;

So if you want Lumber, Rough, Dressed, Soft or Hard,
You will find just what you want at L M S's Lumber Yard.
