A Bullock, twenty months old, was killed by Thomas Bower, Esq., of Franklin township, a few days ago, which weighed, when dressed, 628 pounds. He was a good one.

THE latest lecturer in the field is John H. Surratt, who is raising a little cash in Maryland villages by telling about President Lincoln's assassination.

WE publish this week the President's Message in full, and call the attention of our readers to the same. The closing paragraph of the Message discloses the policy of the Administration, in a plain and comprehensive manner and may be received as the creed of the Republican party.

J. A. Benton, D. D., Professor in the Pacific Theological Seminary, San Francisco, in speaking of our "Fathers House" says. From his student days to this time Dr. March has always held a foremost rank among his associates. He has acquired a high reputation as an author. He is sound in his theology, lucid in exposition, elevated in style, lofty in sentiment, picturesque in description, brilliant in imagery, copious in illustrations, and rich, warm and spiritual in his instruction." See advertisement in another column.

THE coroner's jury has found a verdict that the four member of the Boyer family burned to death, in Juniata township, Perry county, on the 3d inst., were stupified ed by chloriform or some other substance and the Building set on fire. It is believed that the house was robbed directly after administering the chloriform. Thomas J. Boyer, the son, who escaped from the burning building, has been arrested on the charge of committing the diabolical act, and put in jail for trial at the next term of the court. Charges have also been preferred against him for forging the names of his father and father-in-law. The public mind in the vicinity is much excited on the subject.

THE United States Patent Laws, with instructions how to obtain Patents, is the title of a work of 112 pages, sent to us by MUNN & Co., 37 Park Row, New York. It also contains the the officially rules, forms for patent deeds, hints on selling patents, 150 diagrams of Mechanical movements and a large variety of other useful information. It is a book really worth having, and can be had free by all who will send their names to Messrs. MUNN Co. as above.

THE REASON WHY.—The immediate cause of premature fading or blanching of the hair is an obstruction of the oil vessels which afford the coloring matter. The remote cause may be general ill health, trouble of mind, etc., Hence, in order to restore its natural color, and beauty the oil vessels must be restored to their normal condition. It is on this principle that NATURE'S HAIR RESTORATIVE is compounded, and it has proved a complete success, wherever faithfully applied. It is not a poisonous dye, consequently the effect is gradual, and in severe cases two or three bottles are necessary to produce the desired result. See advertisement in another column.

A friend sends us the following and requests us to publish it. It is a little rough on J. H., but he is not the first man who was taken with "Buck Fever" at sight of a Deer:

BUCK FEVER.—A few days ago a party of gentlemen residing in the upper end of the county went to the mountains to hunt deer. They were fortunate enough to see three, but, unfortunately, did not capture any.—Fred Fetterolf brought a buck to the ground with a shot, and was attempting to cut its throat, when the deer recovered and sprang to its feet. Fred caught him by the horns and the struggle which ensued the horns broke off and Mr. Buck escaped leaving his horns in the hands of the discomfitted Fred. The same day two deer came running at full speed towards Jos. H——, who was stationed at an outpost. Joe immediately became excited, threw his gun on the ground and began to climb a tree to prevent being run over. He had the Buck Fever bad.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

ITS EFFECTS MIRACULOUS.

It is a perfect and wonderful article. Cures baldness. Makes hair grow. A better dressing than any "oil" or "pomatum." Softens, beautifies and gives hair into beautiful silken tresses. But above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye the hair, but strikes at the root and nills it with new life and coloring matter.

The first application will do good; you will see the NATURAL COLOR returning every day, and BEFORE YOU KNOW IT, the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other is at all like it in effect.

See that each bottle has our private Government stamp over the top of the bottle; all others are imitations.

J. B. BURKHART, Selinsgrove, Snyder Co., Penna. Keeps constantly on hand a large and well made assortment of Tin, Sheet-iron ware, Stoves, &c., &c. He is Agent for the following named articles.

"THE MORNING GLORY" Lit Ufield's Patent Improved Base COAL STOVE.

In this pattern of The Morning Glory, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast iron, so fitted as to be air tight, but can be made with sheet iron upper section when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory is quite different, making it more durable and far less difficult to be repaired. The castings are of the highest order, fully equaling the best castings made in this country.

Among the many advantages in the use of the Morning Glory are the following:—1. Continuous Burning. 2. Quality of the Heat. 3. Ventilation through the stove. 4. Anti Dust Stove. 5. No Escape of Gas. 6. Economy of Fuel.

"THE BARLEY SHEAF." Anti-Dust Air Tight Cooking Stove, with Extended Fire-Box for Wood or Coal. Patented May 10th, 1866. We take pleasure in offering our series of stoves to the Stove Trade, a New first-Class Cooking stove, and would call particular attention to its novel arrangement and remarkable improvements. This Stove has been carefully tested for several months, and have thus proved to be highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply the demand. Stove Dealers are cautioned against buying full use of the Barley Sheaf. Stove, unless they see the name cast on the upper part of the front, and a fac simile of our signature on the lower door panel. Any one using the Barley Sheaf Stove for the term of three months, and not satisfied with it, can return it at any time within that period, and have the purchase money refunded. Most Working Machines sold by agents. The Universal Wringer sold by peddlers.
