Post,

[illegible] APRIL 29, 1874.

The House of Representatives, Washington, on Tuesday a week, adopted the proposition of Hon. A. Herr Smith, to abolish the mileage system, and in lieu of it to pay to and from Congress. It is thought this the actual expenses of members on their way to and from congress. It is thought this measure, if adopted by the Senate, will save $159,000 each Congress.

GOVERNOR WASHBURN the present Governor of Massachusetts was elected United States Senator from that State on Friday 17th inst. The result was secured by the friends of Mr. Hoar and a portion of the supporters of Mr. Dawes uniting on Washburn on the 33rd ballot. The result was a surprise to most persons as so far Mr. Washburn had not received very strong support.

THE President has vetoed the finance bill. He says: "The fact cannot be concealed, that the bill increases the paper circulation of the country $100,000,000. The theory, in his belief, is a departure from true principles of finance, and its approval would be a departure from every message sent to congress by him on the subject. He recommends earnestly such legislation as will secure as speedily as practicable a return to specie payments, and refers to the pledges of the government to make provision at the earliest practicable moment for the redemption of United States notes in coin.

IN Arkansas two obstinate factions are contending for the Governorship of that State. Elisha Baxter got possession of the Governor's office at the last election. Brooks his opponent claims that he his Governor. Last week in the absence of Baxter, Brooks and his friends took possession of the Court House and fortified themselves. Both claim to be Governor. The friends of both are rallying, and large numbers have assembled. On Tuesday a week a lively time was had by shooting several hundred shots, quite a number being seriously wounded. The U. S. troops suppressed the riot. The latest is that the trouble is about ended.

ONE of the greatest frauds upon the citizens of the State is the frequent change in school books. This is no doubt often done by collusion between teachers or directors and the publishers, who share the profits from the introduction of the new books. The action taken by the Legislature to secure a uniform series of text books, for the use of schools throughout the State, will if successful be a very acceptable arrangement to parents and guardians. It will not only prevent frequent changes, but will enable persons to remove from one portion of the State to another without compelling the purchase of new books; and the persons who most frequently remove are the ones who are the least able to incur such expense.—*Ex.*

CAUSE AND EFFECT.

The Detroit *Post* sums up briefly some of the results of the intemperate efforts to advance the cause of temperance. Its summary is as follows:

Last year there was a temperance and Sunday law excitement in Chicago. The city election was made to turn upon that issue. Result, twelve thousand majority against Sunday laws and in favor of free liquor.

Last year there was a temperance excitement in Wisconsin. Attempts were made to make the liquor laws so severe as to interfere seriously with personal liberty. The State election was made to turn on that issue to a considerable extent. Result, a Democratic victory and a big majority against the temperance laws.

In New Hampshire this year the Prohibitionists attempted to make their notion an issue. The license alliance joined issue with them. Result, a Democratic victory, and the election of a Legislature in favor of free liquor substantially.

In Connecticut the Prohibitionists made extra exertions, and the praying bands appeared this spring. Result, a sweeping Democratic victory, and the election of an anti-prohibition Legislature.

In Cleveland this spring, a strong Republican city, and a city whose people are undoubtedly in favor of temperance consistant with personal liberty, the prayer band appeared, and the city election was made to turn on the temperance issue. Result, a sweeping Democratic and free liquor victory.

In Cincinnati this spring the praying bands appeared, and there has been some trouble over the Sunday ordinances. Result, 4,000 majority against the temperance crusaders and the Sunday law people

In Dayton the praying band raised the same issue. Result, a heavy majority against them.

In Columbus and Toledo the same experience.

Upon these facts we make no argument. No argument is needed Those who cannot see, or will not see the plain logic of events, would not be convinced though one should rise from the dead to instruct them.

Pennsylvania Items.

—Mrs. Mary Bell was found dead in her bed at Franklin a few days ago. Intemperance was the cause.

—The feeders at the Duncannon nail factory struck, on Tuesday a week, because one of their number was discharged.

—A boy in Harrisburg had both his legs cut off by falling under the cars. He had been in the habit of jumping on the cars. He died from

—Bradford produces more butter than any county in the State, the yield last year being 3,704,769 pounds.

—In Lancaster county the supervisors sell their roads to the lowest bidder, to keep them in repair for the year, and it is said the plan works very satisfactorily.

—A young man named Wm. McCullough was cut in two on the railroad below Lancaster early last week. His legs were found on the track, and his body below an embankment.

—An interesting insurance case is about to be tried in Philadelphia. Monroe Snydor, a wealty citizen of Bethlehem, Pa., had policies on his life amounting to $600,000. On the 13th of March, 1873, he was found dead between his house and the rail road depot. He had just returned from New York, and was supposed to have a large sum of money on his person, of which he was robbed. His heirs claim that he was murdered, and the insurance companies allege that he committed suicide.

—One night last week the family of Martin Brechbill, residing near Cleversburg, was nearly suffocated to death by gass from a coal stove. The parents were awakened in the night, by the children, and noticing they were sick, Mr. B. called for Dr. C. A. Howland, who, upon his entering the house, discovered the cause, and after opening the windows and doors, and administering proper remedies, restored the children. Had it not been discovered as soon as it was, it is altogether likely the whole family would have been killed, as the children were almost beyond recovery. Where coal stoves are used in sleeping rooms, there should be free ventilation.—*Shippensburg News.*

—Sharon, a short time since, had a citizen named Miller, who invented a novel mode of committing suicide. The efficacy of its operation he has proven to his entire satisfaction. At the head of a flight of stairs a block had been placed A sythe was arranged by means of a pivot, and the point passed through an aperture into an adjoining room, while a bag containing iron weighing thirty-five pounds was fastened to the point of the sythe by a chain. The weight was so suspended that when Miller placed his head on the block he could detach the weight, which would bring the point of the scythe across his throat with great force. After he had tried it, he lifted the scythe from his throat and staggered down stairs into the room where his body was found.

General News.

..Old man Bender and his son, the notorious Kansas murderers, have been arrested once more this time in Utah.

..The Rhode Island House of Representatives passed bills providing for woman suffrage and prohibition, and the Senate rejected both measures.

..The School authorities of Washington city have adopted the German language as one of the branches to be taught in the public schools.

..The 27th of March was the anniversary of the bloodiest tragedy in American history. On that day 38 years ago, Col. James W. Fannin and 445 men were shot to death by the Mexicans under Urea in the fort at Goliad, Texas.

..The election of a Republican mayor in Albany by 1,500 majority does not look much like a decline of Republicanism in the Empire State when we bear in mind that last fall the Democrats carried Albany by 2 500 majority. Such declines are healthy symptoms.

..Private despatches received in Raleigh, N. C., from Western Carolina report severe and heavy rumblings in Bald and Stone Mountains, on Tuesday last, and that the tremblings of the earth were felt for more than 100 miles from the mountains. The shocks are more severe than before, and it is firmly believed by scientists that an eruption is imminent.

WASHINGTON, April 13.—The Chief Justice delivered his first opinion on the bench of the Supreme Court today in a case from Illinois, touching the right of the state to tax nonresident national bank shareholdres at the residence of the bank. The members of the bar who heard it, and his brethren on the bench, speak of it in eulogistic terms.

THE NEW GROVER & BAKER

LOCK STITCH

Sewing Machine.

The Grover and Baker machine far excel any other machine for DRESS Making and general family use.

The stitch is beautiful and durable. It is so simple in its combination of parts and its practical operation that it is very difficult to get it out of order, and is easily managed.

It is invaluable in the family, as by it all kinds of work can be done, the finest fabrics, as well as the coarsest with equal facility.

The GROVER & BAKER with its recent improvements is neat, durable ornamental, simple, and perfect in its operations. It requires less expense for repairs than any of the numerous machines in use, and has been in constant use for

Sixteen Years

without the outlay of one cent for repairs. It is finely finished with Black Walnut table and cover. FOR SALE BY
