Diaphragm Filter, for Hydrant Water.
THIS is to certify that I have applied Daniel Livingston, Roggen & Co, Sole Agents for the sale of Jennings' Patent Diaphragm Filter, for the cities of Pittsburgh and Allegheny.
JOHN HUSTON,
for Walter M Gibson, 319 Broadway N. Y.
Oct 10, 1849.
We have been using one of the above articles at the office of the Pittsburgh Gazette for three months, on trial, and feel perfectly satisfied that it is a useful invention, and we take pleasure in recommending them as a useful article to all who use impure water. Orders will be thankfully received and promptly attended to.

Reversible Filtering Cask,
FOR PURIFYING WATER.
Which renders turbid water pure by removing all substances not soluble in water. Water is purified at the rate of 1 qt. in 5 minutes, although clear and pure to the eye, yet when it passes an hour through this filtering cask, shows a large deposit of impure substances, worms, &c. This is the easy more or less with all hydrant water.
The Reversible Filterer is neat and durable, and is not attended with the inconvenience incident to other Filterers, as it is cleansed without being detached from the water pipe, by merely turning the key or handle from one side to the other. By this easy process, the course of water is changed, and all accumulations of impure substances are driven off almost instantly, without unscrewing the Filter. It also possesses the advantage of being stop cock, and as such in many cases will be very convenient and economical.
It can be attached where there is any pressure high or low in a cock, tank, tub, &c. with ease. To be had of the sole Agent,
