The Pennsylvania road is adopting the electric bells. To stop or start the train the conductor has nothing to do but pull a small cord, which runs the entire length of each car. The slightest touch of this cord will ring the bell at the engine. It is a decided improvement on the old method.

One day last week Jesse Fry and family left the house to do some work at a short distance away and soon after discovered the house on fire. Before they reached the burning building everything was so completely wrapped in flames that it was impossible to save anything.

Decoration Day.

The Band, Drum Corps, Sunday Schools, and citizens of Middleburg and vicinity, are making arrangements to celebrate the 29th of this month, next Saturday, as Decoration Day with appropriate exercises. All soldiers and citizens are heartily invited and urged to be present and take part in the exercises.

As near as we can tell the following will be the

PROGRAMME.

5th. Schools sing—"Wrap the flag around me, boys."
6th. Prayer.
7th. Re-form procession and March to the front of the Court House.
8th. L. M. Doxology and dismiss.

O, Wrap the Flag around me Boys.

O, wrap the Flag around me, boys,
To die were far more sweet,
With Freedom's Starry emblem, boys,
To be my, winding sheet;
In life I loved to see it wave,
And follow where it led,
And now my eyes grow dim, my hands
Would clasp its last bright shred.

CHORUS.

Then wrap the flag around me, boys,
To die were far more sweet,
With Freedom's starry emblem, boys,
To be my winding sheet.

O, I had thought to greet you, boys,
On many a well won field,
When to our starry banner, boys,
The traitrous foe must yield;
But now, alas! I am denied
My dearest earthly prayer,
You'll follow and you'll meet the foe,
But I shall not be there.
CHORUS.—Then wrap the Flag, &c.

But, though my body moulder, boys,
My spirit will be free,
And every comrade's honor, boys,
Will still be dear to me,
There, in the thick and bloody fight,
Ne'er let your ardor lag.
For I'll be there still lingering near,
Above the dear old Flag.
CHORUS—So wrap the Flag, &c.

Sad Suicide in West Buffalo Twp.

Sunday morning last our community was startled by the intelligence that Mr. Augustus Gerber, miller and tenant in charge of Mr. Wm. Young's flouring mill in West Buffalo Twp., had committed suicide during the proceeding (Saturday) night. Samuel Geiger, Justice of the Peace, was notified, when he appointed an inquest, composed of the following gentlemen: Sam'l Crommiller, James Moss, M. G. Reed, Andrew Iddings, Wm Hogar and G. W. Schoch, who proceeded to the residence of the deceased to make inquiry relative to the manner or cause of his death. After being duly affirmed, they entered the room on first floor where the body was found lying upon a lounge, with no clothing on excepting his drawers and shirt, his right leg being cut on inner side, just above the knee, an artery severed, and a great pool of blood upon the floor, with an open razor in the midst of it.

Deceased was 64 years old in January last; leaves a wife and a number of children who have the heartfelt sympathy of the public.

Mr. Gerber resided for about twenty four years in Chillisquaque twp., Northd Co., and was much respected as a hard-working and thoroughly honest man. He took possession of Mr. Young's mill in April last.—MIFFLINBURG TELEGRAPH.

Death of an old Union County Citizen.

William Roshong, Esq., died at Nora, Jo Davies County, Illinois, April 30, 1880 aged 79 years, 9 months and 25 days.

Mr. Roshong removed from New Berlin, Union Co., Pa., to Illinois, eleven year, ago. He was well and favorably known to most of the people of Union and Snyder counties, having twice been elected by their votes as Prothonotary of Union county before the county was divided. Soon after the expiration of his second term of office, he engaged in the mercantile business,, and after doing business for several years, his late son-in-law, Charles R. Antes, became associated with him, and were then carrying on the business for a number of years under the firm name of Roshong & Antes. After they had sold their store, *Mr.* Roshong was elected Justice of the Peace for the county of Union, which office he held until he moved west. He was an excellent citizen, faithful and devoted member of the Reformed Church and a ruling Elder for many years, while living at New Berlin. He was a great sufferer of late years, and almost at times being entirely helpless. His religious experience, however, appeared to grow brighter as he advanced in years. We trust that his spirit has gone to that better land above, and that forever he is at rest. S.

New Berlin, Pa., May 10, '80.

NARROW ESCAPE.—On Monday a week, Mrs. Casper Bitner with her children went, in a spring-wagon to which was attached a blind horse, to market with two bags of potatoes and other produce. About a mile above Port Trevorton the horse ran into the canal and swam to the opposite shore where, fortunately, *David* Neitz, rescued them. *Mrs.* B. had her little child in her arms and clung to it as only a mother can. Thoroughly wet and considerably frightened, by the opportune presence and efforts of David Neitz alone were they saved from watery graves. The lock tender afterwards recovered the potatoes.

A large attendance at court, Monday and Tuesday,

Trip to the State Medical Society.

The Snyder county *Medical* Society appointed two delegates to the State Medical Society, which met at Altoona *Pa.* I was one of the delegates upon whom this honor was conferred. I left my home and practice on Tuesday the 18th of *May* 1880, took the train at our depot and at 11 o'clock I landed in the Borough of Lewistown, in the evening at 4 o'clock I reached Alto ona City the hub of Pennsylvania. I call it the hub of *Pa.* The Penna. R. R. Co. compose the wheels of that mountain City, and the City is the hub, just as well as Boston is the hub of those United States. Well as I said above, I landed in Altoona in the evening, after washing off the coal dust incident to travelling in the Cars, I registered my name in the hotel register of the Loganhouse, and after supper I stepped out onto the porch of the hotel, and there found seventy-five or more of our M. D's. of different parts of the state, who came to the place as delegates from their respective County Medical society. In a short time, I was introduced to Doctor Clark one of the committee of arrangements, he told me I should come the palor of the Loganhouse and he would have my name entered as delegate from *Snyder* county in a book kept by the state medical societies for that purpose. Bed-time, I went to bed, had a refreshing sleep. In the morning at 6 o'clock *I* got up, and opened the window of my room, took a look at the building and its surroundings. *I* came to the conclusion I was in a very large house, and thought I might have some trouble to find my way down to the sitting-room, but not to make an effort would never bring me down, started and I arrived on the lower floor without trouble. After Breakfast several M. D's agreed to take a walk and take a look at the town and its surroundings. At 11 o'clock we assembled at the Operahouse, where the state Medical society was called to order by the president Doctor Nebinger of Philad. The foreman was employed in things of minor importance. In the afternoon papers were read by Gentlemen on Surgery. Practice D's Thursday 20th, we met at the same place. The meeting was called to order at half past ten o'clock the regular order of business was brought up, and disposed of. Friday 21, the delegates from Snyder county and also the delegates from several adjoining counties boarded the train and left for home, when I arrived in the evening of the same day. I am happy to say, that I spent two days at the meeting of the state medical society with pleasure and unbounded benefit to myself and also to my patients now in my hands. There is no questioning the strength of association, it is one of the most powerful elements. It is the band of society and the hand-maid of knowledge. No two persons can associate together, however ignorant the one or how learned the other, without mutual benefit. By interchange of thought each learns something. This is the age of progress not only in the mechanical arts and sciences, but in the science of minds. The genius of the age is for universal education and improvement. It would be presumptious in me to make any suggestions as to our duty as members of this organization. I feel that the individual interest must be great indeed which will bring delegates together from every city and county of this great commonwealth to lay before the society the result of their labor for the year that they may be criticized for the advancement of the profession to which we have consecrated our lives.

TWO INTERESTING MATTERS.—That all Village families, and many City residents, will find health, comfort, great economy, and profit in keeping their own cow, and how to do it, are clearly shown in the *American Agriculturist* for June; and every family should get this paper and look into it.—Another article brings out a simple, cheap method of using *Iron* Fence *Posts* that will be worth millons to the country. These two chapters, with the hundred other practical, instructive articles, and over 60 original engravings, make this the most important number ever issued of this always valuable Journal. 15 cents a number, $1.50 a year. Orange Judd Company, publishers, 245 Broadway, New York.

Bass fishing is approaching, and it is a long spell, lasting all the way from June 1st to January 1st: There are some things to be remembered with this: If you catch a bass of less than six inches you must return it to the water. Nets of less than three inches mesh are forbidden. And there is a penalty of $10 for disregarding either of these provisions, and an increased one for the repetition.

Eighty panels of fence on the farms of John Burkholder's heirs, and 50 panels with 700 new chestnut rails on the farm of Henry Stetler, in Decatur township, were burned through a fire started to get away the brush which had accumulated on a clearing of some land belonging to the former, last week.

Of all the modern inventions the Patent Incubator takes the lead, but experience teaches all that whether poultry is hatched by the patent process with artificial heat, or by the old original way patented by nature, they are subject to cholera, gapes, &c., and experience, also teaches those that have tried Roberts' Poultry Powder, in such cases, that it is a sure cure every time. Ask your druggist for it.

If persons were as careful of their health as they are of their wealth the death rate would be muchesmaller from that dreadful scourge—consumption. It carries off in the United States in one year ten times more persons than succumbed to the yellow fever in the South. Thousands of valuable lives would have been saved rom consumption had they used Sines' Syrup of Tar, Wild Cherry and Hoarhound in time. In all cases of whooping cough, croup, asthma and lung affections it has proved to be a certain cure when taken in time. Sold in every drug store. Price 25 cents; extra large bottle, 50c. Farmers Stop and Look at This.

SINES' DYSENTERY COMPOUND.—There are no diseases that will so quickly bring incidents of a person's past life and make him think of home and his mother, as Cholera, Cholera *Morbus*, Dysentery, Cramps, Colic and all their kindred diseases. And to be without SINES' DYSENTERY COMPOUND when overtaken with the above disease is to be almost without hope.

Englishmen formrely supposed that American running horses were very inferior to theirs but during the last two years Parole, *Wallenstein* and other fast one that were sent from this country to England, have won hundreds of dollars, for such Americans as the Messers Lorillard, James Gordon Bennett, &c. The Englishmen have investigated the reason for the great success of American horses, and find that they are kept in such fine condition by the constant use of M. B. Roberts' Horse Powders.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.
