THE GILPIN SULKY PLOW

WORKS AUTOMATICALLY.

THE SINGLE LEVER SULKY, KING OF THE TURF.

DRAWS LIGHTER THAN THE HAND-PLOW.
OVER 10,000 MADE AND SOLD ANNUALLY.
ALL IRON AND STEEL.

The advent of the Gilpin Sulky Plow marked a new era in plowing in the United States. IT HAS ACHIEVED A SUCCESS more marked than any other implement ever introduced to the Western farmer. Success is always the true test of merit, and in machinery the utmost simplicity consistent with the performance of its work is essential. So simple is the Gilpin in its operation that the unskilled can use it as well as the skilled plowman and with equally good results.

ONE LEVER ONLY REQUIRED, and that is only used to regulate depth of plowing and to level the frame, as the plows are raised out of the ground automatically by simply touching a spring. The frame work is all of iron—Iron Beam, Iron Wheels: STRONG AND DURABLE IN CONSTRUCTION, and of as light draft to the team (carrying the driver on an easy seat, where he has full view of work and control of team) as the ordinary hand-plow doing the same work.

ITS SUPERIOR WORK over that done by the ordinary hand-plow will pay its cost in a single crop, by reason of the uniform depth attained, and the freedom from unplowed spots, as the plow is locked firmly in the ground and can not be thrown out by hard spots or rank growth of weeds or vines. TWENTY PER CENT. MORE WORK can be accomplished daily than by any other system.

Woman's Friend!

Why should she hesitate to save her health and money, when she can do so by having

The Celebrated Six-Wheel Casters

attached to her Sewing Machine, at a cost of only $2.00 per set! As a proof of their value, 300,000 sets have been sold in the last twelve months, and they are endorsed by everybody who have purchased them, acknowledging their value to be five times their cost, as they enable the most delicate lady or child to move the machine with perfect ease to the right or left, forward or back, or into favorable position for comfort or light while sewing, or to any part of the house desired.

They save money, They save your carpets, They save time.

The same Pattern fits all Machines perfectly.

The Machine will stand perfectly still and will not move while in use with the Casters on. THIS WE GUARANTEE. They do not raise the Machine one-half an inch.

Every Sewing Machine should have Casters and is unfinished without them.

They can be taken off of the Sewing Machine and attached to a chair in a moment, making a splendid invalid chair. One set will last a life time.

Do not fail to get a set.
