New Milford Exhibition.—Mr. Editor: The exhibition of the School at New Milford, on Thursday evening, Nov. 19th, was a decided success—creditable alike to teachers and pupils. The building was comfortably filled with an audience of ladies and gentlemen. When we went in, a young gentleman was delivering the salutatory. This was followed by Colloquies interspersed with Declamations; also music on the melodeon, accompanied with singing. The audience was also favored with a darkey song, with appropriate gestures adapted to the piece and the occasion. The Exhibition closed with a Valedictory by Master Stryker, a lad of 13 years, who spoke in a manner that augurs well for his future. 3. 8. 19.

Strayed or Stolen—From the premises of B. A. Johnson, in Springville, Friday night, Nov. 27th, 1863, a BAY MARE, 9 years old, with star in forehead, white hind feet, small white spot on the back, and small scar on foreside of right hind leg, between gambrel and ankle joint, and black mane and tail.

Any one who will return her to me or give information where she may be found, or if stolen arrest the thief, will be suitably rewarded. Joseph T. Tiffany.

The Singer Sewing Machines.—Our LETTER A Family Sewing Machine is fast gaining a world-wide reputation. It is beyond doubt the best and cheapest and most beautiful of family Sewing Machines yet offered to the public. No other Family Sewing Machine has so many useful appliances for Hemming, Binding, Felling, Tucking, Gathering, Gauging, Braiding, Embroidering, Cording, and so forth. No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable, most durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known. Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in chaste and exquisite style.

The Folding Case, of the Family Machine is a piece of cunning workmanship of the most useful kind. It protects the machine when not in use, and when about to be operated may be opened as a spacious and substantial table to sustain the work. While some of the Cases, made out of the choicest and simplest woods, are finished in the simplest and chastest manner possible, others are adorned and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine in operation, so as to judge of its great capacity and beauty.

It is fast becoming as popular for family sewing as our Manufacturing machines are for manufacturing purposes.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality.

U.S. 5-20'S

THE SECRETARY OF THE TREASURY has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days notice is given, the undersigned, as **"General Subscription Agent,"** will continue to supply the public.

The whole amount of the Loan authorized is $500,000,000. Nearly $400,000,000 have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, absorb the balance. Sales have recently ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenue, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, the INTEREST and PRINCIPAL of which are payable in **GOLD.**

Prudence and self interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and will advance to a handsome premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be subscribed for at par.

It is a Six per Cent. Loan, the Interest and Principal payable in Coin, thus yielding over NINE per Cent. per annum at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; the duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years, yet the Government has a right to pay them off in GOLD at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are $50, $100, $500, and $1000; or Registered Bonds of same denominations, and in addition, $5,000, and $10,000. For Banking purposes and for investments of Trust-monies the Registered Bonds are preferable.

These 5-20's cannot be taxed by State, cities, towns or counties, and the Government tax on them is only one-and-a-half per cent. on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per cent. tax on the income.

Banks and Bankers throughout the Country will continue to dispose of the Bonds, and all orders by mail, or otherwise promptly attended to.

The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the demand being so great, but as interest commences from the date of subscription, no loss is occasioned, and every effort is being made to diminish the delay.

FRANKLIN FRASER,

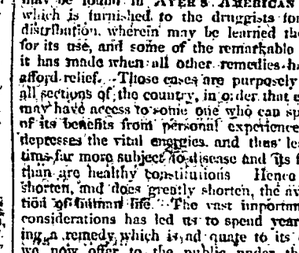
Montrose, Pa., Aug. 20, 1863.



Scrofula links in the constitutions of multitudes of men and women, produces or is produced by an enfeebled, impure state of the blood, wherein that fluid becomes insufficient to sustain the vital functions in their vigorous condition, and leaves the system a prey to, full into, disease and decay. The scrofulous contamination is variously caused by hereditary descent, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the use of tobacco, and, above all, by the venereal infection. Whatever be its origin, this hereditary taint descending from parents to children unto the third and fourth generation, indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally, Consumption; in the glands, swellings which suppurate and become piecrous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting disease, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints is thus plainly proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches, and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayer's Sarsaparilla, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
