THE ASSAM TEA COMPANY,

126 *Greenwich street, New York.*

THE proprietors beg to call the attention of consumers to Tea, and the heads of families to the choice and rare selection of Teas imported by them, and hitherto unknown in this country, which, by their fragrance and delicacy, combined with virgin purity and strength, produce an infusion of surpassing richness and flavor.

The Teas offered are the following:—

The *Jeddo* Gloom, a Black Tea	———	$1 00 per lb.
" Niphon,	do	0 75 do
" Dieri	do	0 50 do
" Oaxoca, a Green Tea	———	1 00 do
" Toowlaka,	do	0 75 do
" Tiekl-siaka	do	0 50 do
" Old & Mixture, a compound of the most rare and choice Teas grown on the fertile and genial soil of Assam	———	1 00 do

With a view to encourage the introduction of these matchless Teas, it is the intention of the proprietors to distribute by lot, among the purchasers, a quantity of Teas equal to the First Year's Profits on the sales effected.

Each purchaser will receive enclosed in the package, a numbered certificate, entitling him to one chance in the distribution for every 50 cents laid out, and on the receipts amounting to $20,000, the undermentioned parcels of Tea, to the value of ten per cent, or $2,000 WILL BE GIVEN AWAY as Bonuses, according to the following scale:—

6	prizes of	50 lbs of Tea	each at	$1 $ lb,	$50 lb or $300
10	do	25 lbs	do	do	50 lb or $250
60	do	10 lbs	do	do	50 lb or $300
100	do	5 lbs	do	do	50 lb or $500
250	do	1 lb	do	do	50 lb or $250
425	Prizes in all,				$2,000

Those persons who prefer lower priced Teas can receive their prizes in proportion, or they will be repurchased for cash, at a reduction of 10 per cent.

☞ Country Agents wanted. Applications to be addressed, post paid, to the Company's Depot, as above.

BARNUM'S HOTEL,

NEW YORK,

Broadway, corner of Maiden Lane.

THIS extensive HOTEL has been refitted in the most elegant manner. Large additions are now being made to it, when completed, will make it the most extensive Hotel in New York. It is the determination of the proprietor, to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, contiguous to all the public buildings, places of amusement, and business. Grateful for the liberal patronage received from his western friends, while at Cumberland, Md., and more recently at the Weddell House, Cleveland, Ohio, he respectfully solicits a renewal of their patronage, for his new establishment, at New York, and begs to assure them that every effort on his part shall be given to administer to their comfort and pleasure.

A FORTUNE FOR £10 or £5.

BRITANNIA SPORTING PORTRAIT CLUB, Office, George street, Plymouth, England. The managers beg to acquaint their numerous patrons that the next Distribution of Portraits of Race Horses, will comprise those entered for the forthcoming Grand National Derby Race; the number of shares to be limited to 5,000 each class. First class number £10; second class ditto £5. Early application for the subscription shares is necessary. A party subscribing for more than one share has the chance of gaining an equal number bonuses. Those members who draw the various Portraits will be presented with the following sums:—

Winner, or First Horse	Portrait of 1st class bonuses	2d ditto
" Second Horse	10,000	£10,000
" Third Horse	5,000	5,000
Divided amongst Starters	4,000	4,000
" Non-Starters	4,000	3,000

There are 200 bonuses in each class, that being the number of horses entered for the race. The Drawing will be conducted upon the same legitimate principles as those which characterized the late Mr. Sludger and other proceedings. Full particulars of the result will be sent to shareholders immediately after the decision, that each may know his position.

Subscribers registered and scrip forwarded on receipt of a remittance. Bills of Exchange, Drafts, Bank Notes, &c., addressed and made payable to the Managing Directors. W. JAMES & CO.

Five per cent commission to be reduced on the presentation of bonuses. mr16-2m

Also, near the above, a beautiful farm, well improved, containing 240 acres. For terms, &c., enquire of

WILLIAM H. JOHNSTON,
112 Second st., Pittsburgh.

Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the inventor, and established for upwards of fifty years. This elegant preparation is recommended as all cases of bile, acidities, indigestion, gout, and gravel, as the most safe, easy, and effectual form in which Magnesia can be administered, and the only one in which it ought to be exhibited, possessing all the properties of the Magnesia known in general use, without being liable to be in form dangerous concretions in the bowels, it effectually cures heartburn without inflaming the coats of the stomach, as soda, potash, and their carbonates are known to do; it prevents the food of infants turning sour; in all cases it acts as a pleasing aperient and is peculiarly adapted to females.

Sir Humphrey Davy testified that this solution forms soluble compounds with nitric acid and is a cure in cases of gout and gravel, thereby counteracting their injurious tendency, when other alkalies, and even Magnesia itself, had fail d.

From Sir Philip Crampton, Bart., Surgeon General to the Army in Ireland:—

"Dublin—There can be no doubt that Magnesia may be administered more safely in the form of a concentrated solution than in substance; for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. PHILIP CRAMPTON."

Sir James Clarke, Sir A. Cooper, Dr. Bright, and Messrs Guthrie and Herbert Mayo, of London, strongly recommend Murray's Fluid Magnesia, as being infinitely more safe and convenient than the solid, and free from the danger attending the constant use of soda or potass.

For sale by the importer's and proprietor's agents,

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large size, neat, and will contain about two thousand 12 mo. and upwards of six thousand ILLUSTRATIONS. It will present working-drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering, with all that is useful in more than one thousand collars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with much clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible, and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence, (R.I.) Journal.

"Young men, early provided with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their attention and study."—Troy, (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers, and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to keep pouring up in theoretical as well as practical knowledge, and this work will show them just how they stand."—Roxbury (Mass.) Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess.—So ample are its descriptions, and so full and minute its specifications, that it seems to us that any mechanic might construct a machine therefrom, with the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as admirably calculated to promote the cause of science and the mechanical arts, and to disseminate valuable information on these subjects."—Farmer and Mechanic.

"Practical men in all the varied walks of mechanic and manufacturing industry; engineers, &c., will find in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, for it contains more information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Worcester, (Mass.) News.

"We are sure we are doing the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Courier.

"Of all the various publications issued for the purpose of the circulation and amusement of the mechanical arts and sciences, none that we have seen, is so full of promise as this."—Buffalo Com. Adv.

"It is the best and cheapest work ever offered to the practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Adverser.

"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the labors of civilized life."—Scientific Journal.

"It is designed after the principle of Ure's Dictionary, only that it is more devoted to the mechanical and engineering professions, and above all, it is valuable as accomplishing for America what Ure has done for England, viz: describing American machinery in works of art."—Scientific American.

"His published in numbers, and at a price so moderate, looking at the matter contained in each number, that no one who has the least interest in such matters, need be deterred from procuring it, and every one who does so will find that he has in a condensed form an amount of instruction which would be obtained, if at all, only by the purchase of very much more."—Farmer's Cornier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, compile to make this one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artist, and manufacturer, especially those who have the least aspiration to excel in their respective businesses. We have carefully examined it, with a view of recommending it to inventors. To them we would say in the words of the language of the Bible: 'It is good.'"—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

M'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician."

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying or certifying that it is a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined as they are, are used as directed by the Proprietor, are not only harmless, but of great value, being a truly scientific preparation. Under these circumstances I cheerfully recommend it as a compound which has done much good, and which is adapted to the cure of most diseases. The proprietor of this Ointment, are recommended or engaged in the sale of secret medicines, regard for the truly honest, conscientious, honorable character of the Proprietor of this Ointment, and the value of his discovery, oblige me to say thus much regarding it. W. BEACH, D. D."

New York, April 23d, 1848.

BURNS.—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses knew its value in cases of Swollen or Sore Breast, they would always apply it. In such cases, it seldom fails to disperse the gland, and give relief in a very few hours.

Around the box are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Tetter, Chilblain, Scald Head, Sore Eyes, Quinsy, Sore Throat, Rheumatism, Neuralgia, Female Affections, Disease of the Spine, Head Ache, Asthma, Deafness, Ear Ache, Burns, Corns, all Diseases of the Skin, Sore Lips, Pimples, &c. Swelling of the Joints, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Ague in the Face, &c.

From the Reading Eagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has purchased it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the boils, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we publish the following certificate, from a respectable citizen of Maidencreek township, in this county:

Maidencreek, Berks co., March 30, 1847.

Messrs. Ritter & Co:—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOFFMASCH.

JAMES McALLISTER,
Sole Proprietor of the above medicine.
Principal Office, No 28 North Third street, Philadelphia.

MISCELLANEOUS.

Valuable and extensive Water Power to let on favorable terms.

THE WABASH NAVIGATION COMPANY are now prepared to lease the Water Power at the Grand Rapids, to an amount sufficient to propel ten hundred pairs of mill stone. The location is based upon a rock foundation, and the power can conveniently be availed on both sides of the river. The grain of the White River, as well as the Wabash, can be readily furnished at this point. While timber, iron ore, and coal, in the greatest abundance, and of superior quality, can be easily procured through the same country.

TERMS—One hundred dollars per annum for a power sufficient to propel a single run of medium sized mill stones, for a period of fifteen years, with the right of renewal on the expiration of the lease, at a fair valuation of the power employed. The site of the mill or manufactory included, without further charge from the Company. By order of the Directors.

ABNER T. ELLIS,
President of the W. N. Co.

VINCENNES, Ia., May 9, 1850 my31d2m

JULES HAUEL'S MEDICATED NYMPH SOAP.—The skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when this is merely a disease of the skin, as it is in nine cases out of every hundred, it can very easily be removed. Jules Hauel's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly upon the vessels which cover its surface, cleansing them from impurities, and by its balsamic properties healing and eradicating all eruptions, and rendering the darkest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at the beautiful effect produced by the Nymph Soap, in imparting a delicate fairness to the neck, face, or hands from chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all alkaline properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those whose faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should make trial of Jules Hauel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hauel's Nymph Soap is the only article which will effectually produce the above effects in so short a time, and the only one which is at the same time all powerful and perfectly harmless. It is prepared only by

"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as admirably calculated to promote the cause of science and the mechanical arts, and to disseminate valuable information on these subjects."—Farmer and Mechanic.

"Practical men in all the varied walks of mechanic and manufacturing industry; engineers, &c., will find in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, for it contains more information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Worcester, (Mass.) News.

"We are sure we are doing the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Courier.

"Of all the various publications issued for the purpose of the circulation and amusement of the mechanical arts and sciences, none that we have seen, is so full of promise as this."—Buffalo Com. Adv.

"It is the best and cheapest work ever offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Adverser.

"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the labors of civilized life."—Scientific Journal.

"It is designed after the principle of Ure's Dictionary, only that it is more devoted to the mechanical and engineering professions, and above all, it is valuable as accomplishing for America what Ure has done for England, viz: describing American machinery in works of art."—Scientific American.

"His published in numbers, and at a price so moderate, looking at the matter contained in each number, that no one who has the least interest in such matters, need be deterred from procuring it, and every one who does so will find that he has in a condensed form an amount of instruction which would be obtained, if at all, only by the purchase of very much more."—Farmer's Cornier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, compile to make this one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artist, and manufacturer, especially those who have the least aspiration to excel in their respective businesses. We have carefully examined it, with a view of recommending it to inventors. To them we would say in the words of the language of the Bible: 'It is good.'"—Baltimore Inventors' Journal.

M'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician."

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying or certifying that it is a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined as they are, are used as directed by the Proprietor, are not only harmless, but of great value, being a truly scientific preparation. Under these circumstances I cheerfully recommend it as a compound which has done much good, and which is adapted to the cure of most diseases. The proprietors of secret medicines are recommended or engaged in the sale of secret medicines, regard for the truly honest, conscientious, honorable character of the Proprietor of this Ointment, and the value of his discovery, oblige me to say thus much regarding it. W. BEACH, D. D."

New York, April 23d, 1848.

BURNS.—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses knew its value in cases of Swollen or Sore Breast, they would always apply it. In such cases, it seldom fails to disperse the gland, and give relief in a very few hours.

Around the box are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Tetter, Chilblain, Scald Head, Sore Eyes, Quinsy, Sore Throat, Rheumatism, Neuralgia, Female Affections, Disease of the Spine, Head Ache, Asthma, Deafness, Ear Ache, Burns, Corns, all Diseases of the Skin, Sore Lips, Pimples, &c. Swelling of the Joints, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Ague in the Face, &c.

From the Reading Eagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has purchased it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the boils, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we publish the following certificate, from a respectable citizen of Maidencreek township, in this county:

Maidencreek, Berks co., March 30, 1847.

Messrs. Ritter & Co:—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOFFMASCH.

JAMES McALLISTER,
Sole Proprietor of the above medicine.
Principal Office, No 28 North Third street, Philadelphia.

PRICE 25 CENTS PER BOX.

BIDWELL'S

SANDY AND BEAVER LINE.

From Pittsburgh to Columbus and Cleveland, through the rich and populous counties of Columbiana, Carroll, Stark, Tuscarawas, Coshocton, Muskingum, Licking, and Franklin.

The completion of the Sandy and Beaver Canal opens up to our city through this great national central route a direct communication to the above named and the adjoining counties of Wayne, Holmes, Knox, and Delaware.

From this section of Ohio, the trade with Pittsburgh has been, to a great extent cut off, in consequence of the high rates of transportation, which are now reduced 10, 20 and 50 per cent.

Boats of this line will leave daily, and run through without transhipment. The Canal company have bestowed upon this line an interest in the unprecedented advantages of their charter, and thus secured to the middle portions of Ohio in ordering their goods by BIDWELL'S SANDY AND BEAVER LINE, an equal interest in this advantage. Agents:

J. C. BIDWELL, Pittsburgh;
BIDWELL & CO., Glasgow.
