The desire to gamble is generally strongest among those unhappy people who find no pleasure in work.

The boys who are brought up to despise honest work are in a bad way. They can be expected to blossom out as gamblers, defaulters, confidence men, politicians, forgers, plugs and burglars.

BELLEVUE, Ohio, Nov. 10, 1882.

ED. *Post*:

I observe in my last *Post* that Bolender, Myers and Kreeger are trying to shut the eyes of the Republicans to the end that they may turn you out of office and put in Kreeger. In the opinion of us Snyder countians, located in this vicinity, it would be a bad trade. We have talked the matter over and our conclusions are that Jere is not a sunshine friend but a friend in adversity—a friend all the time, before and after election. Jere will dip his pen as deep in the ink for a poor man as for a rich one. He gets up as cheerfully at midnight as in business hours to transact business and makes no distinction in persons. *I* suppose Bolender and Myers expect nothing more from the Republican party of Snyder or they would not attempt to disrupt the party by defeating a regular nominee. Republicans of Snyder we expect to learn in the next issue of the *Post* that you didn't make the trade. H. K. M.

Death of Charles W. Smith.

On the 4th inst., C. W. Smith, barber, of Selinsgrove, departed this life. He had been suffering from malaria for some time, but did not take his bed until a few days before his death. Charley was much esteemed for his many good qualities of heart and head. He was a genial companion and to know him was to like him. He was a member of the Susquehanna Hose Company and at the time of his death was one of its directors. The funeral was the largest that has taken place in Selinsgrove for some time—quite a number of strangers being present from Sunbury, Lewisburg, Milton, Williamsport, Watsontown and other places. He was aged 31 years, 10 months and 23 days. He leaves an aged mother, a wife and three children to mourn his untimely death.

GEOLOGICAL SKETCHES. By Archibald Geikie. Price 15 cents. J. Fitzgerald & Co., Publishers, 39 Lafayette Place, New York.

This work forms No. 38 of the Humboldt Library of Popular Science Literature, and is one of the most instructive volumes in that valuable series. Its author is Director-General of the Government Survey of Great Britain, and the charming essays here published contain the results of his vacation rambles in both hemispheres, from the Rocky Mountains to the Rhine, where, ever any field of special interest presents itself to the geologist. The work is a practical demonstration of how scientific knowledge, when, mated with literary tact, can invest the dry facts of natural science with the highest degree of interest for the general reader.
