BARNUM'S HOTEL

NEW YORK,

Broadway, corner of Maiden Lane.

THIS extensive HOTEL has been leased by the subscribers, and has been completely refitted in the most elegant manner. Large additions are now being made, which, when completed, will make it the most extensive Hotel in New York. It is a determination of the proprietor, to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, convenient to all the public buildings, places of amusement, and business. Grateful for the liberal patronage received from his western friends, while at Cumberland, Md., and more recently at the Weddell House, Cleveland, Ohio, he respectfully solicits a renewal of their patronage, for his new establishment, at New York, and begs to assure them that every effort on his part shall be given to administer to their comfort and pleasure.

A. S. BARNUM.

New York, March, 1850.—1m:26-3m

A FORTUNE FOR £10 or £5.

BRITANNIA SPORTING PORTRAIT CLUB, offers, Queen street, Plymouth, England. The managers beg to acquaint their numerous patrons that the next Distribution of Portraits of Race Horses, will comprise those entered for the forthcoming Grand National Derby Race; the number of shares to be limited to 4,000 each share. First class number £10 second class £5. Early application for the appropriated shares is necessary. A party subscribing for more than one share has the chance of gaining an equal number bonuses. Those members who draw the various Portraits will be presented with the following sums:—

	Portrait of	1st class bonuses	2d class
Winner, or First Horse		£10,000	£10,000
"	Second Horse	10,000	5,000
"	Third Horse	5,000	4,000
Divided amongst Starters		6,000	3,000
"	Non-Starters	6,000	3,000

There are two bonuses in each class, that being the number of horses entered for the race. The first class will be conducted upon the same legitimate principles as those which characterized the late St. Ledger and other proceedings. Full particulars of the result will be sent to absent members immediately after the decision, that each may know his position.

Subscribers registered and scrip forwarded on receipt of a remit ance. Bills of Exchange, Drafts, Bank Notes, &c, will be sent and made payable to the Managing Director. W. JAMES & CO.

Five per cent commission to be reduced on the presentation of bonuses. may18-3m

Dr James Murray's Fluid Magnesia.

PREPARED under the immediate care of the Inventor, and established for upwards of thirty years. This elegant preparation is recommended in all cases of Hills, acidities, indigestion, foul, and gravel as the most safe, easy, and effectual form in which Magnesia can be administered, and indeed the only form in which it ought to be exhibited, possessing all the properties of the Magnesia known in general use, without being half lb, it, to form dangerous concretions in the bowels, it effectually cures heartburn without injuring the coats of the stomach, as soda, potass, and their carbonates are known to do; it prevents the food of infants turning sour; in all cases it acts as a pleasing aperient and is peculiarly adapted to females.

Sir Humphrey Davy testified that this solution forms soluble combinations with one acid salts in cases of gravel and gravel, thereby counteracting their injurious tendency, when other alkalies, and even Magnesia itself, had fail d.

From Sir Philip Crampton, Bart, Surgeon General to the Army in Ireland:—

"My dear Sir—There can be no doubt that Magnesia may be administered more safely in the form of a concentrated solution than in substance; for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. PHILIP CRAMPTON.

Sir James Clarke, Sir A. Cooper, Dr Bright, and Messrs Guthrie and Herbert Mayo of London, strongly recommend Murray's Fluid Magnesia, as the safest, family more safe and convenient than the solid, and free from the delay after attending the constant use of solid or powder.

For sale by the inventor and principal agent,

Great American Mechanical Work.

D. Appleton & Co New York, have in course of publication in nine numbers, a new work entitled

Of Machines, Mechanics Engine Work and Engineering, designed for Practical Working Men, and those intended for its Engineering Profession

EDITED BY OliVER STONE.

THIS WORK is of large size, and will contain TWO THOUSAND PAGES, and upwards of six THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machines in the United States independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering; with what is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject of a mechanical nature which is treated with such elegance and precision, that even a man of ordinary mental capacity cannot fail of understanding it, and learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will immediately put in a subscription, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous manufacturers, Mechanics, Engineers, and Artisans, it will be a boon of great value."—Providence, (R. I.) Journal.

"Young men, are yourselves with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to have copies by in theoretical as well as practical knowledge, and this work will show them just how they stand."—Roxbury (Mass) Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. Its simplicity in its descriptions, and so full and minute its specifications, that it seems to us that any mechanic might construct any machine it describes, from the rough offices gravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regret that it was not originally calculated to promote the cause of science and the mechanical arts and to disseminate valuable information on these subjects."—Farmer and Mechanic.

"Practical men in all the varied walks of mechanical and manufacturing industry, engineering &c., will find in this work a treasure which it will be to their pro fit to possess."—Troy Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published yet it explains minutely information on every branch of the mechanic arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Worcester, (Mass.) News.

"We are sure we are doing the mechanics of Newark and other parts of Connecticut a service by informing them of the work to their attention."—Norwich, (Conn.) Courier.

"It adjusts such a work as every mechanic should possess."—Freeman's Journal.

"We can do it no more useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Gazette.

"Of all the various publications having for their object the elucidation and advancement of the mechanical arts and sciences, none that we have seen, is so full of profitable matter."—Daily Ohio Star.

"It is the best and cheapest work ever offered to the public and deserves a liberal patronage. It is a splendid specimen of beautifully executed."—Washington Globe.

"This great discovery is one of the most useful works ever published for years and the low price which it is sold makes it acceptable to all."—South Carolinian.

"We feel it is one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Light is now thrown by every one desiring to keep pace with the progress of art and science of every one of the labors of eminent life."—Boston Courier.

"It is a disgraceful fact that the people of this Country, only that it is more devoted to the mere arts of money-making professions, and have of all nations, to accomplish long for America what Ure has done for England, viz: ascribing American machinery and the arts of Industry to Scientific Principles.

"Its published in numbers, and at a price so moderate, looking at what is contained in the number, that no one who has the least interest in such matters, need be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of instruction which would be obtained, if at all, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.

"The comprehensiveness with which the subject is treated, the admirable manner in which they are illustrated, combine to make this one of the most desirable works."—Democratic Review

"This work stands in the high books of every mechanic, art man, and manufacturer, especially those who have the least aspirations to excel in their respective business. We have carefully examined it, with a view of recommending it to inventors. To the work we would say in the strong language of the Bible "It is good."—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and a copy of the paper sent to us, a copy of the work will be sent gratis in payment.

M'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician."

"Having been made acquainted with the ingredients which compose McAllister's Ointment, I have used it and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying or verifying that it is a Vegetable Remedy, containing no mineral substance whatever; that its ingredients combined as they are, and used as directed by the Proprietor, are not only harmless, but of great value, being a truly scientific Remedy of great powers and I cheerfully recommend it as a compound which is done much good, and which is adapted to the cure of a great variety of cases. Though I have never either recommended or engaged in the sale of secret medicines, regard for the truly honest, conscientious, human character of the Proprietor of this Ointment, and the value of his discovery, oblige me to say this much regarding it.

W. BEACH, D. D."

Office corner Smithfield and Water sts, Pittsburgh.

—BURNS—It is one of the best things in the world for burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tetters, Ulcers, and all Kinds of Sores, it has no equal.

If Mothers and Nurses know its value in cases of Swollen or Sore Breast, they would always apply it. In such cases if used according to directions, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment or Scrofula, Liver Complaint, Erysipelas, Tetter, Chilblain, Scald Head, Sore Eyes, Quinsy, Sore Throat, Bronchitis, Nervous Affections, Pains, Diseases of the Spine, Head Ache, Asthma, Sore Throat, Ear Ache, Burns, Corns, all Diseases of the Skin, Sore Lips, Pimples, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Agues in the Face, &c.

From the Reading Eagle.

There was none, perhaps, a Medicine brought before the public, that has in so short a time, won such a reputation as McAllister's All-Healing or World Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in this county:

Maidencreek, Berks co., March 20, 1847.

Messrs. Riser & Co—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 10 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result far above beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOLDER, JR.

JAMES McALLISTER,
Sole Proprietor of the above medicine.
Principal Office, No 25 North Third street, Philadelphia.

MISC LLANEOUS

Valuable and extensive Water Power to let on favorable terms.

THE WABASH NAVIGATION COMPANY are now prepared to lease the Water Power at the Grand Rapids, to an amount sufficient to propel four hundred pairs of mill stone. The location is based upon a rock foundation and the power can conveniently be applied on both sides of the river. The grain of the Wabash River, as well as the Wabash, can be readily furnished at this place. White timber, iron ore, and coal in the greatest abundance, and of superior quality, can be easily procured in the adjacent country

Terms—One hundred dollars per annum for a power sufficient to propel a single run of medium sized mill stones for a period of fifteen years, with the right of renewal on the application of the lessee, at a fair valuation of the power employed. The site of the mill or manufactory included, without further charge from the Company. By order of the Directors.

AHNER T ELLIS,
President of the W N Co

VINCENNES, Ia, May 9, 1-50 m:31:6Tm

JUDS HAUEL'S MEDICATED NYMPH SOAP.

—The skin of many persons is disfigured with sallow complexions, pimples, morphew &c, and when this is merely a disease of the skin, as it is in nineteen cases out of every hundred, it is very easily removed. Juliet Hauel's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly upon the minute pores which cover its surface, effectually free them impurities and by its balsamic properties healing and eradicating all eruptions, and rendering the darkest and roughest skin soft, fair, and blooming

Persons who have been in the habit of using ordinary soap will be astonished at the beneficial effect produced by the Nymph Soap, in imparting a soft attribute, preventing the pock face or hands from chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of alkali properties, rendering it the only article which can be used with safety and comfort to the infant.

As those whose faces or necks are disfigured with pimples, blotches and morphew, &c, should make use of Juliet Hauel's Nymph Soap as the proprietor positively assures them, that its use will render the most disfigured skin fair, soft, and healthy, and the most diseased skin healthy, pure, and blooming

Juliet Hauel's Nymph Soap is the only article which will effectually produce the above effects in so short a time, and the only one which is at the same time a powerful and elegant perfume. Prepared only by

JULIET HAUEL, Perfumer and Chemist,
No 1 Gilt Edge Perfumery, Broadway.

For sale wholesale and retail by R A Fahnestock & Co., and H. McKelvey, Pittsburgh; and John Sargent and J. Hoffman, Allegheny. feb

PETROLEUM, OR ROCK OIL.

"There are more things in heaven and earth Than are dreamed of in philosophy."

THE VIRTUES of this remarkable remedy, and the constant application for it, to the proprietor, has induced him to have it on hand in bottles with labels and directions for the benefit of the public.

THE PETROLEUM is procured from a well in this State, and is the same that was used by the Indians, distributed within, without any chemical change, but just as it flows from the Fountain of Nature. This compound properties reaching a number of diseases, is no longer a matter of uncertainty. There are many things in the cases of other medicines, which may be of great usefulness in alleviating suffering, and restoring the bloom of health and vigor to many a sufferer. Long experience has proved its virtues, and putting it up in bottles, it had a reputation for the cure of diseases. The constant and daily increasing calls for it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of the piles, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, being applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in the county:

Maidencreek, Berks co., March 20, 1847.

Messrs. Riser & Co—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 10 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result far above beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOLDER, JR.

JAMES McALLISTER,
Sole Proprietor of the above medicine.
Principal Office, No 25 North Third street, Philadelphia.

PRICE 25 CENTS PER BOX.

1850 BIDWELL'S 1850

SANDY AND BEAVER LINE.

From Pittsburgh to Columbus and Cleveland, through the rich and populous counties of Columbiana, Carroll, Stark, Tuscarawas, Coshocton, Muskingum, Licking, and Franklin.

The completion of the Sandy and Beaver Canal opens up to our city through this great natural central route a direct communication to the above as well as the adjoining counties of Wayne, Holmes, Knox, and Delaware.

From this section of Ohio, the trade with Pittsburgh has been to a great extent cut off, in consequence of the high rates of transportation, which are now reduced 10, 20 and 50 per cent.

Boats of this line will leave daily, and run through without transhipment. The canal company have bestowed upon this line an interest in the unprecedented advantages of their charter, and they secured to the middle portion of Ohio in entering the lake by BIDWELL'S SANDY AND BEAVER LINE, an equal interest in this valuable route.

J. C. BIDWELL, Pittsburgh;
BIDWELL & CO., Glasgow.
