How Young Rattlesnakes Born.

—May last, Doctors Cardwell and the lower edge of Giles at Prospect the Alabama line, a rattlesnake four feet three inches in length and nine inches in circumference. The snake was sent to the Exposition, but the managers not deeming it proper to receive it, it was sent to the Drug Store of Messrs. Berry & Demolville, who declined to give it quarters. It was then sent to the Drug Store of M. C. Cotton, in Nashville, where it has been since the 15th of May. When captured it had eight rattles and a button. Since that time it has been confined in a glass case, and has not partaken of one particle of food, though it has been tempted with mice and other small animals on which the reptile is accustomed to feed. The snake manifested no inconvenience from its confinement, nor did it lose any in size or bodily vitality. Its eyes continued to glisten like magnets steel, and its lancinating tongue ready to protrude at the appearance of any one near the case. Dr. Cotton thought all the while it was a male. Though small rats and mice have been confined in the case with the snake until their own hunger urged them to bite at its scaly hide, the serpent refused to give them notice or to partake of food. On two or three occasions it has taken small quantities of water. On Thursday, at 1 o'clock, on going into the back-room of the store, where the case is kept, it was discovered that the snake had given birth to four young ones, and by three o'clock she had given birth to three more, making seven in all. The young snakes make their appearances one at a time, and in a coiled or striking position, their eyes glistening and their convenomed tongues continuously darting out. The young ones are each from nine to fifteen inches in length, and in a state of perfect development. They are quick of motion and possess no ordinary spinal vitality, as they crawl readily to the top of the case and move with celerity across and around it from end to end. What is the most singular and contrary to all the resolved notions concerning the reptile, each of these young snakes has a full button on the end of the tail, which clearly refutes the idea that they have to be six months old before the formation of the button. The old snake was lying in her cage in a lethargic state with some indications, as the Doctor thought, of increasing the coiling family. The young snakes coil around her, and under and over her, and she seems to have for them the natural maternal affection of instinct. This snake has been in captivity nearly six months, yet during all that period of time she has partaken of not a morsel of food, and has brooded her seven young. As to exactly how long from inception the process of gestation or incubation has been going on, there is no means of ascertaining as we can only date from her captivity.

Dr. Cotton informs us that he once before kept in the same case a large-sized rattlesnake for 3 years and nine months, and that he studied closely its various moods and changes. This snake, he says, did not partake of a particle of food for the first nine months, and but little water. He then gave it mice, rats, &c., puting the same into the case alive, and it commenced devouring them voraciously. It never would touch a lame mouse or a dead one, fresh as it might be. When a young rat was put in the case, it would plant its unerring fang in some part of the limbs or body, and then wait until it died from the thorough inoculation of the poison. When quite dead it would turn it over, take it head foremost and swallow it, evidently drawing nutriment from the poison its own fangs had infused. It shed its skin twice a year, each Spring and Autumn, a new rattle appearing at each shedding, which explodes the popular notion that but one rattle comes a year. Yesterday morning he took the case and placed it in the sun. From the effects of the sun three of the young snakes died. Two others became stupefied, but recovered their vitality on being removed into the shade. The circumstances of the birth of the young snakes, and the time of the captivity of the old one, attracted large numbers of visitors to the drug store to see the venomous family.—*Nashville American.*

—Had the Chicago fire occurred before the era of railways and telegraphs it would have been even a much greater calamity, owing to the inability of the people there to make known their sufferings in time to secure prompt relief.

—Louisa Mulbach, the novelist, has sued a Dresden journalist in four thousand dollars damages, for having stated in his journal that she, in announcing that the Khedive had invited her to visit Egypt to write a book, had practiced a deception upon the public.

—After the great fire in London in 1666, Parliament enacted that every house should be built with party walls, and all in front raised of equal height, and those walls should be of stone or brick, and that no man should delay building beyond seven years.

—A good story is told of a bootblack whose energies were taxed by the huge shoes of a private just returned from the war. The little fellow, kneeling down, looked over his shoulder to a comrade, and exclaimed, "Lend me a spit, Jim; "I've got an army contract."

—A letter from Chicago says there is not a shoe store left, and every one is so poor now that none will be wanted. I lost everything I had except what I have on my back, and about $5 in money, that I had in my pocket. I have $400 insurance on my things, but I don't expect they will pay anything.

—"May it please your Honor," said a lawyer, addressing one of the judges, "I brought the prisoner from jail on a habeas corpus." "Well," said a farmer in an under tone, who stood at the back of the court, "these lawyers will say anything. I say the man got out of a cab at the court door."

—Alas, here is a melancholy domestic incident in Wyoming. Mrs. Esther Morris is a justice of the peace, and in the unimpartial exercise of her official duties, Mrs. Morris has been compelled to send her beloved husband to jail as a common drunkard.

—Josh Billings in his directions, "How to pick out a good Hoss," says, "Good hosses are skarse, and good men, that deal in enny kind of hosses, are skarser. An honest man is the noblest work av God. This famous saying was written, in grate anguish of heart, by the late Alexander Pope just after buying a good family hoss."

—To poultry dealers—Is there any difference between hen stealing and cock robin?

PAIN KILLER. PERRY DAVIS' VEGETABLE. 1840 1870

The "Pain Killer" may justly be styled the great medicine of the world; for there is no region of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no clime to which it has not proved to be well adapted for the cure of a considerable variety of diseases, it is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for dysentery, diarrhœa, and bowel complaints generally. It is admirably situated for every race of men on the face of the globe.

It is a very significant fact, that notwithstanding the long period of years that the "Pain Killer" has been before the world, it has never lost one whit of its popularity, but on the contrary, the call for it has steadily increased from its first discovery, and to no previous time has the demand for it been so great, or the quantity made been so large, as it is to-day.

Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been at home, where it was first discovered and introduced. That the Pain Killer will continue to be, what we have styled it, THE GREAT MEDICINE OF THE WORLD, there cannot be the shadow of a doubt.—*Providence Advertiser.*

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

For a *Cough* and *Cold*, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For *Influenza*, when it affects the throat or lungs, take the same course.

For *Whooping Cough*, give small doses three or four times a day.

For *Croup*, give large and frequent doses until the disease is overcome.

No family should be without the *Cherry Pectoral* on hand to protect them, in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your houses, for the exigencies that arise. Lives dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities it ever possessed are strictly maintained.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

Sold by Abel Turrell, and Burns & Nichols, Montrose, and all druggists and dealers everywhere. [Dec. 21, 1870—y

DR C. F. BROWN'S

YOUNG AMERICAN

LINIMENT

In offering this Liniment to the public, as we do in full confidence, that it must supercede all others now in use, as an internal remedy, for the cure of all diseases in the reach of that class of medicines, we can safely assert, without the least fear of contradiction, that it stands unrivaled in the list of medical compounds externally applied for the cure of disease. Feeling therefore that it is unnecessary to puff a remedy so eminently wonderful in its effects, so mysteriously infallible in its powers of relief, causing the deaf to hear, the blind to see, the nervous, drawn and crippled rheumatic to walk erect and rejoice again in the power and vigor of manhood, this preparation is offered to the public on its own merits, and claims no volcanic virtue, or essential oils of the Arabian deserts; but on the contrary is what its imports, and is a rare combination of the powers of North American products.

New York, Dec. 18, 1870.

O

H. T. HELMBOLD'S EXTRACT BUCHU

Cures diseases arising from imprudence, habits of dissipation, etc., in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the Urethra, allaying pain and inflammation, so frequent in this class of disease, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the "poison" has, by the use of "powerful astringents," been dried up in the system, to break out in a more aggravated form, and generally after marriage.

USE HELMBOLD'S EXTRACT BUCHU for all affections and diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. Price, One Dollar and Fifty Cents per Bottle.

L

HENRY T. HELMBOLD'S IMPROVED ROSE WASH,

cannot be surpassed as a Face Wash, and will be found the only specific remedy in every species of Cutaneous Affection. It speedily eradicates Pimples, Spots, Scorbutic Dryness, Indurations of the Cutaneous Membrane, etc., Simple Redness, Incipient Inflammation, Hives, Rash, Moth Patches, Dryness of Scalp or Skin, Frost Bites, and all purposes for which Salves or Ointments are used; restores the skin to a state of purity and softness, and induces continued healthy action to its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Hembold's Rose Wash has long sustained its principle claim to unbounded patronage, by possessing qualities which render it a toilet appendage of the most imperative and congenial character, combining in an elegant formula prominent requisites, safety and efficacy—the invariable accompaniments of its use as a Preservative and Refresher of the complexion. It is an excellent Lotion for diseases of a Syphilitic Nature, and as an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla and catawba Grape Pills, in such diseases as recommended, cannot be surpassed. Price, One Dollar Per Bottle.

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia, or Indigestion, Billious, Remittent and Intermittent Fevers Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Billious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

FIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

RHEUMATISM NEURALGIA $5000 WILL BE PAID.

TO any person producing any medicine showing half as many living, permanent cures as Dr. FITLER'S VEGETABLE RHEUMATIC REMEDY. Used inwardly only. A pleasant medicine, free from injurious drugs. Warranted under oath, to have permanently cured 95 in every 100 patients treated in the past ten years. (See testimony). It is the scientific prescription of Professor Jos. P. Fitler, M. D., a graduate of the University of Pennsylvania, (A. D., 1836,—now one of Philadelphia's oldest regular physicians, and Professor of Chemistry and Toxicology,—who has made Neuralgia, Chronic and Inflematory Rheumatism, the specialty of his entire professional life—a fact vouched for by the signatures accompanying each bottle of many prominent, renowned physicians, clergymen and other testimonials. To protect sufferers from poisonous quack nostrums and useless expenditure of money, a legal signed guarantee, stating exact number of bottles warranted to cure, will be forwarded gratis to any sufferer sending by letter a full description of affection. In case of failure to cure, amount paid positively refunded. Medicine sent anywhere by express, collect on delivery.
