BARNUM'S HOTEL,
NEW YORK,
Broadway, corner of Maiden Lane.

THIS extensive HOTEL has been leased by the subscriber, and has been completely refitted in the most elegant manner. Large additions are now being made, which, when completed, will make it the most extensive Hotel in New York. It is the determination of the proprietor to make it equal, in every respect, to any other House in the United States. Its location is the most desirable and central in the city, being in the fashionable part of Broadway, convenient to all the public buildings, places of amusement, and business. Grateful for the liberal patronage received from his western friends, while at Cumberland, Md., and more recently at the Weddell House, Cleveland, Ohio, he respectfully solicits a renewal of their patronage, for his new establishment, at New York, and begs to assure them that every effort on his part shall be given to administer to their comfort and pleasure.

A. S. BARNUM.
New York, March, 1850—1m*

A FORTUNE FOR $10 or $20.

BRITANNIA SPORTING PORTRAIT CLUB, Dolices, George street, Plymouth, England. The managers beg to acquaint the sporting gentlemen that the next Distribution of Portraits of Race Horses will comprise those entered for the forthcoming Grand National Derby Lottery, the number of shares to be limited to 3,000 each class. First class member £10; second class ditto £5. Early application for the unappropriated shares is necessary. A party subscribing for more than one share has the chance of gaining a second number honors. Those members who draw the various Portraits will be presented with the following sums:—

	Portraits of Winner, or First Horse	1st class honours	2d ditto
		£10,000	£10,000
"	Second Horse	10,000	5,000
"	Third Horse	6,000	4,000
Divided amongst Starters		6,000	3,000
"	Non-starters	6,000	3,000

There are 999 honours in each class, that being the number of horses entered for the race. The Drawing will be conducted upon the same legislative principles as those which characterized the late St. Ledger and other proceedings. Full particulars of the result will be sent to absent members immediately after the decision, that each may know his position.

Subscribers registered and remitted forwarded on receipt of remittance. Bills of Exchange, Drafts, Bank Notes, &c., addressed and made payable to the Managing Directors.

Five per cent. commission to be reduced on the presentation of honours. may16:3m

Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the Inventor, and established for upwards of fifty years. This elegant preparation is recommended in all cases of bile, acidities, indigestion, gout, and gravel, as the most safe, easy, and efficacious form in which Magnesia may, and indeed the only one in which it ought to be exhibited, possessing all the properties of the Magnesia known in general state, without being liable like it, to form dangerous concretions in the bowels, it effectually cures heartburn without injuring the coats of the stomach, as soda, potass, and their carbonates are known to do; it prevents the food of infants turning sour (a fact which will be found a special argument, and is specially adapted to females.

Sir Humphrey Davy recommends that this solution forms soluble combinations with aloe and acid salts in cases of gout and gravel, thereby counteracting their injurious tendency, when other alkalies, and even Magnesia itself, had failed.

From Sir Philip Crampton, Bart., Surgeon General to the Army in Ireland:—

"Dear Sir—There can be no doubt that Magnesia may be administered more safely in the form of a concentrated solution than in substance, for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica. PHILIP CRAMPTON."

Sir James Clark, Sir A. Cooper, Dr Bright, and Messrs Guthrie and Herbert Mayo, of London, strongly recommend Murray's Fluid Magnesia, as being infinitely more safe, and convenient in the solid, and free from the danger attending the constant use of soda or potass.

For sale by the inventor's and proprietor's agents,

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engineering Work and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE.

THIS WORK is of large two. size, and will contain TWO THOUSAND PAGES, and upwards of six THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the most important machinery in the United States. Independent of the results of American ingenuity, it will contain complete practical treatise on Mechanics, Machinery, Engine-work, and Engineering; with all that is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence (R. I.) Journal.

"Young men, arm yourselves with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.

"We unhesitatingly commend the work to those engaged in, or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the thanks of inventors, mechanics, and manufacturers, and indeed of the public generally."—N. Y. Independent.

"This Dictionary will be highly useful to practical mechanics, and valuable to those who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.

"Young mechanics ought to keep pace up in the oretical as well as practical knowledge, and this work will show them just how they stand."—Roxbury (Mass.) Advertiser.

"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. So simple are its descriptions, and so full and minute its specifications, that it seems to us that any mechanic might contract, and machine it describes, from the strength of its engravings and instructions."—N. Y. Commercial Advertiser.

"All interested in mechanics should avail themselves of its advantages."—Schoyhill, (Penn.) Journal.

"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as certainly calculated to promote the cause of science and the mechanical arts, and to disseminate valuable information on these subjects."—Farmer and Mechanic.

"Practical men in all the varied walks of mechanical and manufacturing industry experience no difficulty in finding in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.

"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, or, for it contains minute information on every branch of the mechanical arts and sciences, expressed in a style and language perfectly intelligible to any reader of ordinary capacity."—Gloucester, (Mass.) News.

"We are sure we are of the mechanics of Newhaven and other parts of Connecticut, in advance by bringing the work to their attention."—Norwich, (Conn.) Courier.

"It is just such a work as every mechanic should possess."—Freeman's Journal.

"We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Courier.

"Of all the various publications having for their object the curiousness and advancement of the mechanic arts and sciences, none that we have seen, is so full of promise as this."—Buffalo Com. Adv.

"It is the best and cheapest work ever offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.

"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.

"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.

"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the labors of civilized life."—Rondout Courier.

"It is designed after the principle of Ure's Dictionary; only that it is more devoted to the mechanical and engineering professions, and above all, is a valuable work in itself, and a fitting one for Ure has done for England, viz: describing American machinery and works of art."—Scientific American.

"It is published in numbers, and at a price so moderate, looking at what is contained in each number, that no one who has the least interest in such matters, need be deterred from procuring it, and every one who does so, will find that he has in a condensed form an amount of information which would be pleasing, if at all, only by the purchase of very many volumes."—Y. Courier and Enquirer.

"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, combine to render this one of the most desirable works."—Democratic Review.

"This work should be in the hands of every mechanic, artisan, and manufacturer, provided it be of a man of the least aspirations to excel in their respective business. We have carefully examined it, with a view of recommending it to our readers. To them we would say in the strong language of the Bibler, 'it is good.'"—Baltimore Inventors' Journal.

Notice to the Proprietors of Newspapers throughout the United States and Canada.

If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.
apl5:d&wlt

M'ALLISTER'S OINTMENT,

Containing no Mercury, nor other Mineral.

THE following testimonial was given by the celebrated Dr. Wooster Beach, the author of the great medical work entitled "The American Practice of Medicine and Family Physician:"

"Having been made acquainted with the ingredients which compose McAllister's All-Healing Ointment and having prescribed and tested it in several cases in my private practice, I have no hesitation in saying or certifying that it is a Vegetable Remedy, containing no mineral, substance whatever, and that its ingredients combined, as they are, and used as directed by the proprietor, are not only harmless, but of great value, being a truly scientific Remedy for all sore wounds, and cheerfully recommend it as a compound which has done much good, and which is adapted to the cure of a great variety of cases. Though I have never either recommended or engaged in the sale of secret medicines, regard for the truth, the interest, convenience, humane character of the Proprietor of this Ointment, and the value of his discovery, oblige me to say thus much regarding it. W. BEACH, D. D."

New York, April 22d, 1846.

BURNS—It is one of the best things in the world for Burns.

PILES.—Thousands are yearly cured by this Ointment. It never fails in giving relief.

For Tumors, Ulcers, and all kinds of Sores, it has no equal.

If Mothers and Nurses knew its value in cases of Swollen or Sore Breasts, they would always apply it in such cases. If used according to directions, it gives relief in a very few hours.

Around the box are directions for using McAllister's Ointment for Scrofula, Liver Complaint, Erysipelas, Tetter, Chilblains, Scald Head, Sore Eyes, Quinsy, Sore Throat, Bronchites, Nervous Affections, Pains, Disease of the Spine, Head Ache, Asthma, Deafness, Ear Ache, Burns, Corns, Old Sores of the Skin, Sore lips, Pimples, &c., Swelling of the Limbs, Sores, Rheumatism, Piles, Cold Feet, Croup, Swelled or Broken Breast, Tooth Ache, Agues in the Face, &c.

From the Reading Eagle.

There was never, perhaps, a Medicine brought before the public, that has in so short a time won such a reputation as McAllister's All-Healing or Wonder Salve. Almost every person that has made trial of it speaks warmly in its praise. One has been cured by it of the most painful rheumatism, another of deep, long, and dangerous wounds, another of the piles, a third of a troublesome pain in the side, a fourth of a swelling in the limbs, &c. If it does not give immediate relief, in every case, it can do no injury, when applied outwardly.

As another evidence of the wonderful healing power possessed by this salve, we subjoin the following certificate, from a respectable citizen of Maidencreek township, in this county:

Messrs. Bitter & Co—I desire to inform you that I was entirely cured of a severe pain in the back, by the use of McAllister's All-Healing Salve, which I purchased from you. I suffered with it for about 20 years, and at night was unable to sleep. During that time I tried various remedies, which were prescribed for me by physicians and other persons, without receiving any relief, and at last made trial of this Salve, with a result favorable beyond expectation. I am now entirely free from the pain, and enjoy at night a peaceful and sweet sleep. I have also used the Salve since for tooth ache and other complaints, with similar happy results. Your friend, JOHN HOLLENBACH.

JAMES McALLISTER,
Sole Proprietor of the above medicine.
Principal Office, No 26 North Third street, Philadelphia.

may13 J & H PHILLIPS

MISCELLANEOUS.

Valuable and extensive Water Power to let on favorable terms.

THE WABASH NAVIGATION COMPANY are now prepared to lease the Water Power at the Grand Rapids, or an amount sufficient to propel four hundred pairs of mill stone. The location is placed upon a rock foundation, and the power can conveniently be applied on both sides of the river. The grain of the White River, as well as the Wabash, can be readily furnished at this point. While timber, iron ore, and coal, in the greatest abundance, and of superior quality, can be easily procured through the same country.

TERMS—One hundred dollars per annum for a power sufficient to propel a single run of medium sized mill stones, for a period of fifteen years, with the right of renewal on the expiration of the lease, at a fair valuation of the power employed. The site of the mill or manufactory included, without further charge from the Company. By order of the Directors,

ABNER T. ELLIS,
President of the W. N. Co.

VINCENNES, Ia., May 9, 1850 my31:d2m

JULES HAUEL'S MEDICATED NYMPH SOAP.—The skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c., and when this is merely a disease of the skin, as it is in nineteen cases out of every hundred, it is very easily removed. Jules Hauel's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly upon the vessels, pores and glands of the skin, cleansing them from impurities, and by its balsamic properties, healing and eradicating all eruptions, and rendering the driest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at the beautiful effect produced by the Nymph Soap, in imparting a delicate bloom, preventing the neck, face, or hands from chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is entirely devoid of all alkaline properties, rendering it the only article which can be used with safety and comfort in the nursery.

All those whose faces or necks are disfigured with pimples, blotches, tan, morphew, &c, should make trial of Jules Hauel's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hauel's Nymph Soap is the only article which will effectually produce the above effects in so short a time, and the only one which is at the same time all powerful and entirely harmless. Prepared only by

JULES HAUEL, Perfumer and Chemist,
129 Chestnut street, Phila.

A CARD.

THE undersigned begs leave to inform the public that he has opened a Daguerreotype Room, in Mr. C. M. Davis, who will continue the Auction and Commission Business at the stand, corner of Wood and Fifth streets, and for whom he would solicit a continuance of the liberal patronage heretofore bestowed upon the firm. JOHN D. DAVIS,
April 9th, 1850.

P. H. DAVIS,
(SUCCESSOR TO JOHN D. DAVIS,)
AUCTIONEER AND COMMISSION MERCHANT,

CORNER OF WOOD AND FIFTH STREETS,

WILL receive Goods, on Commission, Foreign and Domestic Merchandise, Real Estate, Stocks, &c., and hopes, by experience and close attention to business, to merit a continuance of the support and patronage so liberally extended to the firm of Davis.
April 9th, 1850.

Notice to our Patrons.

RELIANCE PORTABLE BOAT LINE.

THE undersigned, of this city, and Philadelphia, (the late James M Davis,) produce no interruption to the business—arrangements have been made which will give the same satisfactory results as heretofore existed. The business is continued under the same name and firm, viz:

DAVIS, SHAW & Co., Philadelphia;
John M Davis & Co., Pittsburgh.

The continuance of the same patronage our many friends is respectfully considered. If any persons have demands against the concern, they are requested to present them for payment, to

JOHN M'FADEN,

PETROLEUM, OR ROCK OIL.

"There are no things in heaven or on earth
Than are dreamt of in philosophy."

THE VIRTUES of this remarkable remedy, and the constant application for it, from all parts of the country, has induced him to have it put up in bottles with labels and directions for the benefit of the public.

The PETROLEUM is procured from a well in this county, at a depth of four hundred feet, in a pure state, and contains within its wide healing range, more virtues than as flows from Nature's Great Laboratory!! That it contains properties reaching a number of diseases, is no longer a matter of uncertainty, but one of many things in the arcana of nature, which, if known, might be made instrumental in alleviating suffering, and restoring the bloom of health to the cheek of many a sufferer. Long before the proprietor thought of putting it up, he had made a reputation for curing a long list of disease, this medicine will bring relief. It will act as a general TONIC and ALTERATIVE in such cases, imparting tone and energy to the whole frame, removing obstructions, opening the sluggish functions, which cause disease and a broken constitution, and giving increased and renewed energy to all the organs of life! The proprietor knows of several cures of FITS, that resisted every other treatment, get well under the use of the PETROLEUM for a short time. The proof can be given to any person who desires it. None genuine without the signature of the proprietor, sold by the proprietor,

E. N. KIER, Canal Basin, near Seventh st.

1850 BIDWELL'S 1850

SANDY AND BEAVER LINE.

From Pittsburgh to Columbus and Cleveland, through the rich and populous counties of Coleraine, Carroll, Stark, Tuscarawas, Coshocton, Muskingum, Licking, and Franklin.

The completion of the Sandy and Beaver Canal opens up to our city through this great central route a direct communication to the above as well as the adjoining counties of Wayne, Holmes, Knox, and Delaware.

From this section of Ohio, the trade with Pittsburgh has been, to a great extent cut off, in consequence of the high rates of transportation, which are now reduced 10, 20 and 30 per cent.

Boats of this line will leave daily, and run through bottomed upon this line an interest in the unprecedented advantages of their charter, and the secured by BIDWELL'S SANDY AND BEAVER LINE, an equal interest in this accompany.

Agents,
J. C. BIDWELL, Pittsburgh;
BIDWELL & CO., Glasgow.
