Retrenchment and Reform.

The Montrose Democrat seems to object to having Republicans advocate economy, retrenchment and reform. Perhaps the Democratic party of New York State and city have got a patent for those things. But we don't propose to infringe on their patent in the least.—*Montrose Republican.*

We only object to their hypocrisy in advocating one thing for power and doing another for personal interest. When, by force of military power and the deepest laid plots of corruption that their leaders could invent, they find that the people are determined to rescue the nation from Radical tyranny, and place it upon its primitive foundation, and Democratic principles, the convicted hypocrites cry "economy, retrenchment and reform:" not on the part of the guilty, their own leaders, but charge the people with the responsibility of their villainy. The people have heard them crying "reform" for the last decade, while they have been plundering the nation and robbing her of some of her sacred rights. The objection we make is, that the cry of reform among the Radical leaders, and the Radical press, may be justly compared to the cry of "Beware of pickpockets," among thieves, which is for the purpose of drawing the attention of the people while they are pilfering from them their rights. Rats are very docile and modest when on board a sinking ship, and are ready to mount the first plank that may be presented to them, which offers preservation of their lives.

So it is with the Radical editors and rulers, but they, like the villainous rats, when safe upon land again, will attack the granery of their benefactor with renewed vigor.

In proof of our assertion, and as a clear specimen of the hypocrisy of drowning Radical rats, who are trying to get upon any of the Democratic planks for self-preservation, read the following from the Montrose Republican of this week:

"The Income Tax is again receiving condemnation from nearly every first-class journal in the country. Our citizens, after waiting hopefully for a long period, last winter were compelled to give up all hope of the abolition of the tax for the time at least. The prospect of the revival of the question during the present session has caused a partial resuitation of the opinions a year ago so strongly expressed, and the burden seems as heavy and unequal as ever."

Also, we would refer our readers to that part of Gov. Geary's message which refers to the "presence of Federal troops at the Philadelphia election."

Democracy entered its protest against such tyranny at a time when action on the part of the State executives would have been of some importance, but coming from such a source, at this late date, it savors too much of the condition of drowning rats.

The people must not assist in rescuing or aiding them, if they do they will again be committing their villainous depredations upon the national corn-crib.

The people have had enough of advocating "economy, retrenchment and reform." They propose to place a party in power who will act upon their wishes.

☞ The extreme length of the Governor's Message precludes much other matter this week.

☞ The Pennsylvania Legislature convened on Tuesday January 3. The Senate elected Wm. A. Wallace of Philadelphia, Speaker, and Jacob Zeigler chief clerk both Democrats.

The House elected James Webb of Bradford county, Speaker, and James Selfridge, clerk. M. M. Mott of Montrose has been appointed assistant Sergeant-at-Arms.

The Salt Spring.

FRIEND HAWLEY:—I see in the last number of the Democrat that information is desired in relation to the early operations at the Salt Spring.

While I do not pretend to a full knowledge of the subject, I think the article quoted from the Susquehanna Register erroneous in some particulars. I do not think the Spring was first discovered about 1809 (or fifteen years previous to Nov. 1828), or that it was then uncovered and a wooden ladle found.

I have an indistinct recollection of a report that a Salt Spring was found many years ago, near the head of Martin's creek, and the direction and distance from Montrose, (six miles northeast,) given in the article from the Register, leads me to think the editor may have confounded that with the Silver creek Spring.

There was a tradition from the time of the first settlement of the county that there was a Salt Spring there, and had been destroyed by the Indians by turning the creek over it.

It is certain that previous to the operations of DeHaert, Fall Creek as it left the gorge followed the base of the bluff on the South side of the South side of the flat, passing over the Spring, and was changed by DeHaert to its present channel.

I had supposed that DeHaert's operations were at an earlier date than would appear by the article from the Register, and that he left the country before Mr. Biddle commenced operations, but I may have been mistaken.

Esquire DeHaert died at the house of the late Rufus Lines, Esq., of Lawsville, (now Franklin). Rufus and Joseph Lines, of Brooklyn, would probably remember the date of his death.

Mr. Biddle's operations did close in the winter of 1824. I was at the Spring in 1823. There were then five men at work: Theron Barnum, Israel Young, Thomas Peckens and Eli Cole worked the mill, and Alfred Stephens did the blacksmithing.

David Matthews lived in a small log house, (the one built by DeHaert,) and boarded the men.

I am glad to learn that operations are to be resumed by a Company that will give it a thorough test, and hope they will receive a rich reward.

FINANCIAL.

New 7-30 Gold Loan

OF THE

Northern Pacific RAILROAD COMP'Y.

Secured by First Mortgage on Railroad and Land Grant.

SAFE! PROFITABLE! PERMANENT!

Jay Cooke & Co.

Offer for sale at par and accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States Tax, and are issued of the following denominations: Coupons $100, $500, and $1,000; Registered $100 $1,000, $5,000 and $10,000.

With the same confidence with which we commended Government bonds to Capitalists and People, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAYMENT.—Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest at the rate of seven and three tenths per cent. per annum), half-yearly, first of January and July.

PERFECT SAFETY.—The bonds we are now selling, are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work.

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.

2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This land, agricultural timbered and mineral, amounts in all to more than Fifty Million Acres, consists of alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington Territories to Puget Sound.

While the Government does not directly guarantee the bonds of the Road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the mortgage are Messrs Jay Cooke of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage bond holders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the Company if they can be brought before maturity at not more than 10 per cent. premium, otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages. First further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security, at least 630 acres of average land to every $1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and franchises.

PROFITABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the National present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security, that:

United States 5-20's at their average premium yield the present purchaser less than 5½ per cent. gold interest. Should they be redeemed in five years, and specie payments be resumed, they would really pay only 4½ per cent., or if in three years, only 3½ per cent. as the present premium would meanwhile be sunk.

Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest—absolutely for thirty years, free from United States tax. $1,00 currency invested now in United States 5-20's will yield per year in gold, say $63,00 ... $1,000 currency invested now in Northern Pacific 7-30's will yield per year in gold, $80.50. Here is a difference in annual income of nearly one third, besides a difference of 7 to 10 per cent. in principle, when both classes of bonds are redeemed.

THE ROAD NOW BUILDING.—Work was begun in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—225 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed, both eastward and westward, within such speed as may be consistent with solidity and wise economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable at 110 in payment for the Company's lands, at their lowest cash price.

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupons for registered, and both forms can be exchanged for others, payable, principal and interest, at any of the principle financial centres of Europe, in the coin of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount, and of any lawful denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this loan.

CONGRESS WATER, at TURRELL'S.

Dr. C. F. BROWN'S

YOUNG AMERICAN

LINIMENT.

In offering this Liniment to the public, as we do in full confidence, that it must supercede all others now in use, as an internal remedy, for the cure of all diseases in the reach of that class of medicines, we can safely assert, without the least fear of contradiction, that it stands unrivaled in the list of medical compounds externally applied for the cure of disease. Feeling therefore that it is unnecessary to puff a remedy so eminently wonderful in its effects, so mysteriously infallible in its powers of relief, causing the deaf to hear, the blind to see, the nervous, drawn and crippled rheumatic to walk erect and rejoice again in the power and vigor of manhood, this preparation is offered to the public on its own merits, and claims no volcanic origin or essential oils of the Arabian deserts; but on the contrary is what its imports, and is a rare combination of the powers of North American products.

NEW YORK, Dec. 14, 1870.

This notice is to inform all dealers in proprietary medicines, that we have established a Depot in Susquehanna county at Montrose, Pa., for the sale of Dr. C. F. Brown's Young American Liniment, and that Mr. A. BALDWIN is our agent for that purpose.

Pain is supposed to be the lot of us poor mortals, as inevitable as death itself and liable at any time to come upon us. Therefore it is important that remedial agents should be at hand to be used on an emergency, when the seminal principle lodged in the system shall develope itself, and we feel the excruciating agonies of pain, or the depressing influence of disease. Such a remedial agent exists in the PAIN KILLER, whose fame has made the circuit of the globe. Amid the eternal ices of the polar regions or beneath the intolerable and burning sun of the tropics its virtues are now appreciated. Under all latitudes, from the one extreme to the other, suffering humanity has found relief from many of its ills by its use. The wide, and broad area over which this medicine has spread, attests its potency.

From a small beginning, the Pain Killer has pushed gradually along, making its own highway, solely by its virtues.

Such unexampled success and popularity has brought others into the fields, who have attempted, under similarity of name, to usurp the confidence of the people and turn it to their own selfishness and dishonesty, but their efforts have proved fruitless, while the Pain Killer is still growing in public favor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
