s; and third floor was occupied as dwellings by H. R. Livermore and others.

The whole loss by the fire is estimated at about $35,000, which is well covered with insurance.

A large and valuable business block was burned on the site of Granite Block in the spring of 1862. Granite Block was erected by B. F. Sisson and W. P. Pope in 1863 and 1864, at a cost of $33,000.

School Matters.

Mr. Editor:—Everybody is or should be interested in the subject of Common Schools, especially those who pay large taxes, or have children to educate. If you go among the people through the country, and ask them about their schools, nine out of every ten will tell you that they are not only failures, but a positive swindle, that they absolutely get no return for their money. Are they correct or are they all mistaken? Are they correct in saying that the money paid the County Superintendent, is so much thrown away, and that a Normal School and Institutes are a positive injury instead of a benefit to Common Schools. I think they may be either, according to circumstances. Now, I am no grumbler; I pay a large school tax, and would pay it cheerfully, if my children or others could have "value received," *but they do not.*

I desire to call the attention of the County Superintendent to what I consider a crowning error in school instruction, and I think he should correct it. The error I refer to is this: Young ladies, after fitting themselves for teachers at Mansfield or elsewhere, come into a District School, and adopt the same system under which they were instructed. They do not appear to understand the difference between sixteen and six.

They took half a dozen studies, and recited *once* in each study each day. A child of six or eight years, only reads or spells, and they only find time for one recitation in each day. They are too young to study, and the result is they receive from fifteen to thirty minutes instruction in six hours, whereas, "when I was a boy," and before teaching became a profession, children of the age of which I have spoken, would have recited at least four times.

Now, if I am right, this system is all wrong, and the County Superintendent, at some of his Institutes elsewhere should instruct his teachers accordingly. I am confident he will take the same view of this subject that I do, and that he will do what he can to correct the evil.

CAPTAIN JAMES H. GALLAGHER

Steamboat Captain, of Pittsburgh, Pa., writes: "The inventor of MISHLER'S HERB BITTERS is a benefactor to the human race. I was a victim to the worst form of Dyspepsia; my health failed to such an extent that my Physician pronounced me incurable. I had used all sorts of remedies and even took a voyage to California; but nothing relieved me. When MISHLER'S HERB BITTERS was recommended I refused to use it, but my friends insisting, I at last yielded. I am thankful that I did so, for it cured me, and I am now as well, hale and strong as I was fifteen years ago."
