BANK OF PITTSBURGH,
October 16, 1845.

AN Election for thirteen Directors of this Bank for the ensuing year will be held at the Banking House, on Monday the Sixteenth day of November next. [oct16-d1m] JOHN SNYDER, Cashier.

By the President of the United States.

IN pursuance of an act of Congress, approved on the eleventh day of July, 1846, entitled "An act to authorise the President of the United States to sell the reserved mineral lands in the States of Illinois and Arkansas, and Territories of Wisconsin and Iowa, supposed to contain lead ore," I, JAMES K. POLK, President of the United States of America, do hereby declare and make known, that a public sale will be held at the Land Office at DUBUQUE, in the Territory of IOWA, commencing on Monday, the 8th day of March next, for the sale of the public lands HEREINFORE WITHHELD FROM SALE ON ACCOUNT OF THE VALUABLE LEAD MINES THEREIN, within the following townships and fractional townships, known as the RICH LEAD MINE DISTRICT, to wit:

North of the base line and east of the fifth principal meridian.

Townships eighty-eight, eighty-nine and ninety, and fractional township ninety-one, of range one.
Township eighty-eight, and fractional townships eighty-nine, ninety and ninety-one, of range two.
Township eighty-seven, and fractional townships eighty-eight and eighty-nine, of range three.
Fractional townships eighty-seven and eighty-eight, of range four.
Fractional township eighty-seven, of range five.

North of the base line and west of the fifth principal meridian.

Township ninety, and fractional township ninety-one, of range one.
Fractional townships ninety-one, ninety-two and ninety-three, of range two.
Township ninety-two, of range three.

Lands appropriated by law for the use of schools, military and other purposes, will be excluded from sale; also all quarter quarter sections covered in whole, or in part, by those mining leases, which shall not be determined by the day fixed for the commencement of these sales.

Pre-emption claims will not be allowed to any of the above lands, until after they have been offered at public sale, and become subject to private entry; and all of such lands as contain a mine or mines of lead ore actually discovered and being worked, will be sold in such legal subdivision or subdivisions as will include such mine or mines, at not less than two dollars and fifty cents per acre.

The sale will be kept open for two weeks, (unless the lands are sooner disposed of) and no longer; and no private entries of land in the townships and fractional townships so offered will be admitted until after the expiration of two weeks from the commencement of said sale.

In further execution of the said act, I have caused the Commissioner of the General Land Office to publish with this proclamation a brief description of the mineral regions in which these lands lie, and of the lands now offered for sale, which he has prepared from official documents and other means of information.

Given under my hand at the City of Washington, this fifth day of September, Anno Domini, one thousand eight hundred and forty-six.

By the President: JAMES K. POLK.
JAMES H. PIPER,
Acting Commissioner of the General Land Office.

The lands in the mineral regions, embraced in the above proclamation of the President of the United States, are believed to contain the richest mines of lead that have yet been discovered; the ore yielding about eighty per cent, of pure metal. Copper, also has been found in this region in considerable quantities.

Great advantages are said to exist for the manufacture of lead in various forms, particularly into shot, the river banks being so elevated as to require little or no expense in the erection of towers; and the ore, from its great purity, may be manufactured into shot by the first smelting.

The location of these mines being near the Mississippi river, affords great facilities of transportation, the average cost of which to St. Louis is about fifteen cents per hundred pounds. The soil is represented as being unusually fertile, producing all the small grain in great abundance, and furnishing excellent range for cattle—thus presenting equal inducements to the agriculturist and the miner.

The DUBUQUE mines in fractional townships eighty-eight, eighty nine, and ninety, of range two east, situated on the banks of the Mississippi, are considered the most important; the DURANGO mines in townships eighty-nine and ninety, of range one east, are the next in value; and the CATTESE mines in fractional township eighty-eight, of range three east, also on the river, are the third. Other mines have been discovered in this region; and it is very probable that future explorations will bring to light others as rich and productive as any now known.

JAMES H. PIPER,
Acting Commissioner of the General Land Office.

DR. JACKSON—Sir I think there are few diseases more common and more troublesome than the Piles, and during the last fifteen years I have suffered from them very much, causing pain, bleeding, and immoderate itching; I used all the various remedies, but only received temporary relief; until I got a bottle of your embrocation, from Dr. Jayne, No. 8 South Third street, which has completely cured me in three weeks!

Yours, truly, S. H. PLIMPTON.
